will remain, our lifestyles are the images that will slowly change and fade away.

Contained in this chronicle is the way we were and the way we will remember and the way we will be remembered. An outline of such a history is what we portray — the memories of our lives.

The memories, however, have faded almost as soon as they have happened. It's no one's fault — such is life. Nevertheless, we have captured some memories in order to preserve a part that you have loved.

On the Campus scene, new traffic lights were added on U.S. 95 in order to save students

lives. Two accidents prior to this event proved too many. Also, the Strain-Thurmond Institute of Government and Public Affairs began to make an impact on this University's life — sponsoring events such as a symposium on El Salvador and a speech on the importance of the Grenada invasion by the Prime Minister of Dominica.

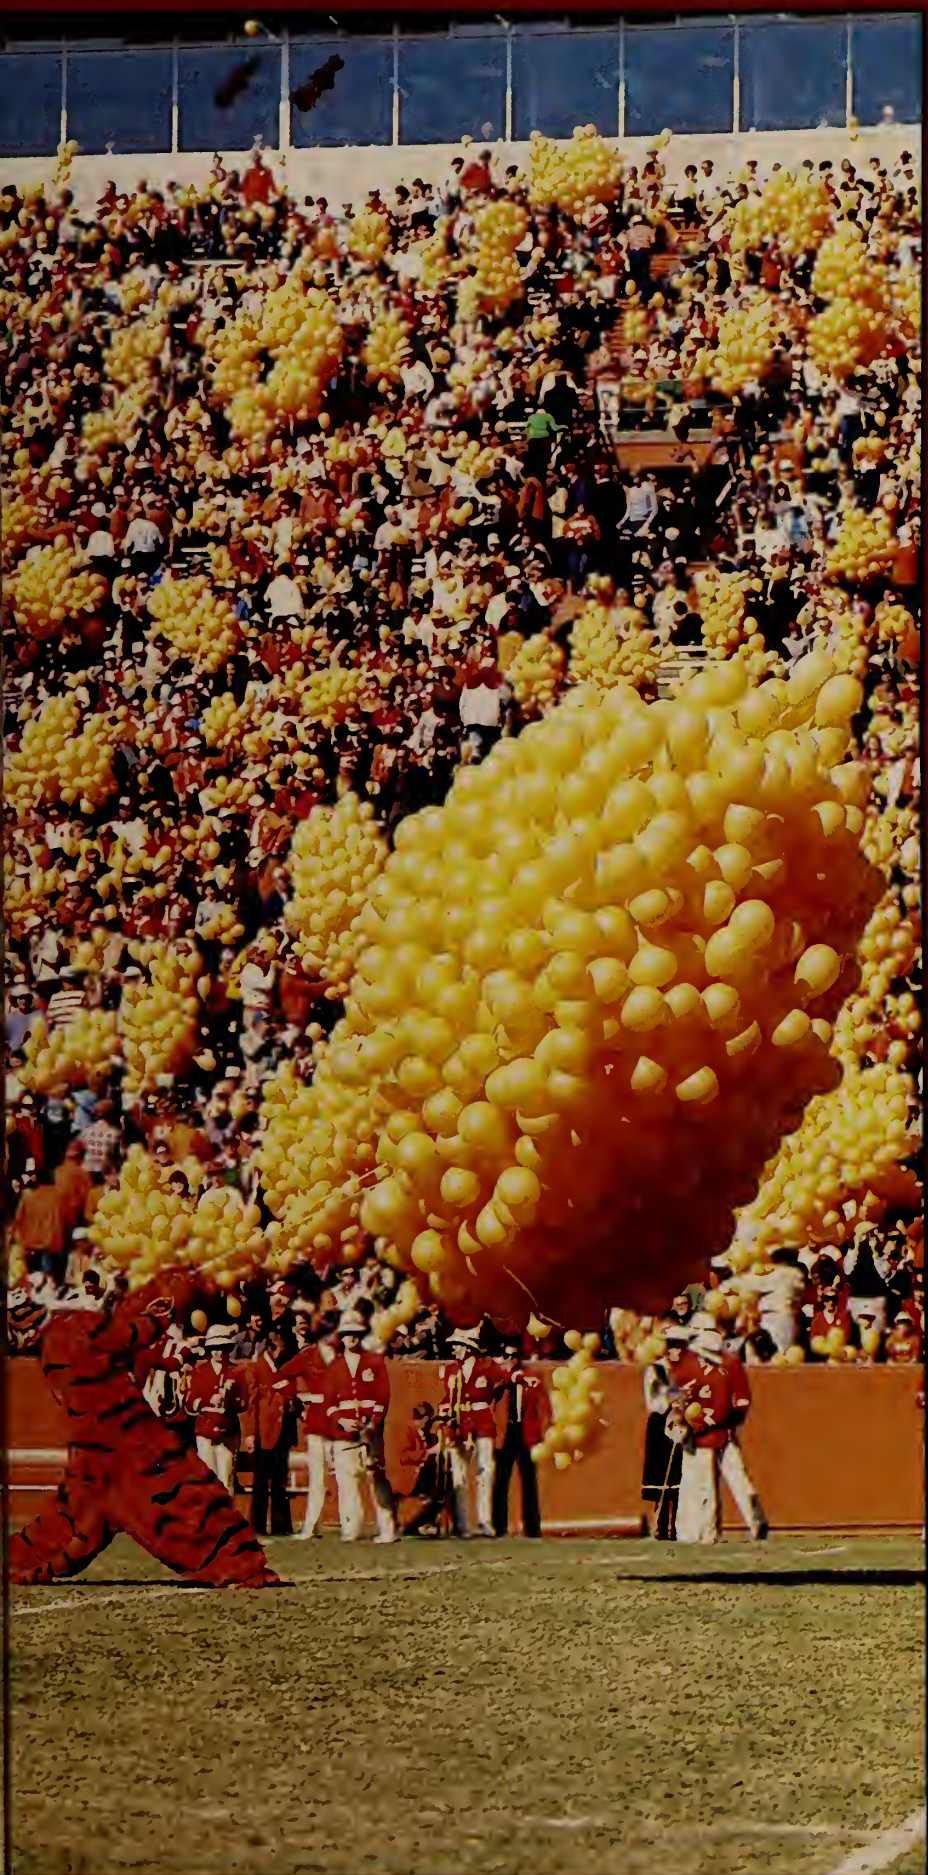

And, of course, there was student government. They launched their balloons — all 163,739 of them, they increased

STUDENT LIFE

Summer is a magical time on Lake Hartwell with sailing, swimming, or just horsing-around as Bob McKinnell and Amy Holm discover.

Bathing beauties could always be found at the beach during summer school.

A Super "Spring Fling"

"Strolling in park watching winter turn to spring," as sung by George Benson, was the way many students found that "spring fling." Whether it was someone you watched from a distance or someone you actually met, spring at Clemson was a great thing.

Spring was a rebirth; the campus came to life. The trees started budding, the grass turned green, and the aroma of suntan oil could be smelled in the air. Each student began to visualize the days of fun in the sun that

were ahead.

Yet, each student was hit with the reality of registering for spring classes. The lines were just as long as they were during fall registration. But as sophomore Jackie Foster said, "It's easier to stand in line to register when you know that summer is on it's way." Many students dreamed of their road trip to Myrtle Beach or that new summer job while waiting in line.

Freshman also found registering easier. For some strange reason they knew where all the buildings were this time. But what did all these stars on the

schedule cards mean?

Somehow all the students registered, and classes began for the spring semester. Everyone let their minds drift during that seventy-five minute lecture and dreamed of the summer that was awakening. Some students even spent those seventy-five minutes dreaming of that special "spring fling."

As the winter warmed, the Greeks prepared for Dixie Day. Dixie Day was the way many sororities and fraternities said goodbye until the fall, yet before the goodbyes, there were many laughs and many beers.

As the spring semester lengthened and exams neared, sights of spring cleaning could be seen around campus. Both students and faculty began to anticipate summer.

Little by little, students sent all but the necessities home as the weather warmed. Somehow all those "valuables" that had cluttered the rooms were no longer necessary. Boxes were disappearing left and right as the students prepared for the end of school.

Yet some students were not packing to go home. Some were only moving to the other side of campus or to the next dorm to

start summer school.

Summer School 1983

Summer school for most was a learning experience. Due to the smaller course loads, students had more time to enjoy the summer. Many afternoons were spent at East Bank and Y-Beach. These afternoons left much time for watching all those dreams of "spring flings" go by.

Summer school was a time to learn and a time to grow. It was usually considered "fun" to get a few hours of credit out of the way before heading back into school, and there was a lot of time left for fun in the sun.

Yet as the time for "spring flings" rolled by, "the flings" were followed by thoughts of fall break and football games. Students moved back into the dorms, and sororities and fraternities said their hello's and began preparing for rush.

So whether strolling in the park, walking across campus, frequenting the beach, or attending classes, students were able to find that "spring fling" anytime of the year.

Cindy King

July 4, 1983 was a family affair at Y-beach. After a day of picnicing, swimming, and skiing, there was a fireworks display.

Some of the fireworks could be seen from as far as the highrise during the night. Summer school students preferred to watch directly on the beach.

Dixie Day — A Muddy Affair

Imagine . . . it is Spring, and you're taking your first tour of the Clemson University campus with your parents. Because it starts to rain, your tour guide decides to take a shortcut through the Fraternity Quad to reach a dry area. As you and your parents are scurrying along behind him, you take a glimpse at the soccer field located behind the

Quad. There, on the field (which doesn't look like a field at all), is a mass of Clemson students covered from head-to-toe in mud, yes, mud!

Students are actually nosediving on to the wet ground, pulling others down with them. What you are observing is a sorority celebration called Dixie Day.

During the semester, various

sporting events — although not quite as wet — were held leading up to Dixie Day. The sororities competed in such sports as softball, football, basketball, backgammon, spades, and tennis. The Kappa Kappa Gammas captured first place, the Chi Omegas second place, and the Kappa Alpha Thetas third place. These points were added together to see who

would be awarded the final trophy.

Along with sports, the sororities were also rewarded on a scholarship basis with the Kappa Kappa Gammas again in first place, the Delta Delta Deltas in second place, and the Kappa Alpha Thetas taking third place.

Another major part of the Dixie Day competition is Sorority

The rain dampened few spirits at Dixie Day. Here several students enjoy a game of mud-wrestling.

Scenes like this muddy duo were common at Dixie Day this year. Two Kappa's obviously having a good time, salute the Beta's who made this day possible.

For those who were a little reluctant to try the mud, these two guys were willing to help. They are shown demonstrating their technique on a Kappa.

Sing. The sororities present their theme song at different intervals during the Miss Magnolia pageant. This year the first place honor went to the Kappa Alpha Thetas with their singing performance of "Godspell." Every sorority nominated two sisters to represent them in the pageant which was held on April 5th. A Delta Gamma, Karen Humphries, was crowned Miss Magnolia. Lisa McTeer, Kappa Kappa Gamma, and Jenny Bussey, Tri Delta, were awarded first and second place respectively. Third place runner-up was Michelle McSwain, also of Chi Omega.

On the evening prior to Dixie Day, a dance was held at the National Armory. The entertainment was provided by the bands

Jeteye and Player. Jim Plourde, Dixie Day chairman, said, "It was one of the biggest turn-outs ever with 800-900 people there."

Official Dixie Day was held on April 9, 1983. It began with an egg-tossing game among the girls, followed by a 3-legged race, and a running relay. The next contest was the tug-of-war, but it was a contest that would never be completed. The drenching rain had begun and it was not long before the organized games of Dixie Day had turned into chaotic mudfights. No further games were held that afternoon, so the winners were based on the points that had been previously accumulated.

The overall Dixie Day Champions of 1983 were the Kappa Kappa Gammas. The second place winners were the Kappa Alpha Thetas who beat the third place winner, Tri Delta, by a half-point.

If you happened to pass by the soccer field on that rainy afternoon and were able to view the hundreds of students sloshing in the mud, you were probably able to figure out that everyone definitely had a blast!

The Beta Theta Pi fraternity, which sponsors Dixie Day every year, is looking forward to another successful, yet dry, Dixie Day for 1984.

Tyri Kittelson

Although mud was everywhere at Dixie Day, beer seemed to be even more abundant. Two students get their share and more as they exchange mugs.

Amy C. Holm

Drink stands were set up all over the soccer field during Greek Day with free beer provided by the individual fraternities.

J. Michael Barrett

Although pets aren't allowed on the soccer field, Sig Ep Scott Bradshaw teaches his old dog a new trick.

A Day With The Greeks

Like the sororities, the fraternities also have a unified gathering in the Spring. It is a finale to the Greek year and appropriately named Greek Day. The Interfraternity Council, which sponsors this fraternity competition, allocates points to the winners of each category. A variety of sports, which are held throughout the year, start off the competition. The athletic abilities of the Sigma Nu fraternity captured them the first place honor.

Each brotherhood is also judged by their Tigerama skit and Homecoming display which they contribute to Clemson's Homecoming. The Sigma Nu's received this trophy as well.

Academically, the Pi Kappa Alpha fraternity was deemed the top scholars. They too acquired a trophy for their achievements in this category.

The week prior to Greek Day is a special time for the guys. Several events are held, including racquetball, poker, and bowling. A Legal Liability speech was presented to the fraternities and sororities, and also a Pan-hellenic Interfraternity Council Leadership Banquet was held on the subject of alcohol awareness. These activities were dedicated to all of Greek life on campus. Greek Week winners were the men of Sigma Phi Epsilon.

Greek Sing on April 12th, was also included in the points toward Greek Day with the Sigma Nu fraternity placing first.

The following Saturday, April 16, was Greek Day. The Budweiser trucks arrived providing the fraternity men and their dates with 111 kegs of beer to drink. Several fun-games were played that afternoon, but the highlight of the day was the announcement of the top fraternity on campus — the Sigma Nu's. Second place was given to the Pi Kappa Alpha fraternity, with the Sigma Phi Epsilons capturing third. Curt Spencer, Greek Day champion, was very pleased with the Greek Day activities. He

said, "It was a special event for the Greeks, because it was a good chance for the fraternities to interact."

Tyri Kittelson

Tug-Of-War was the biggest event this year with each fraternity competing for the coveted title.

With beer flowing freely, sometimes emotions got carried away. Kirsten Gow looks on as Terri Foxworth welcomes Alan, an APO pledge, to Greek Day.

Confusion, Crowds, and Chaos

The summer was over all too soon. My graduation cap was just starting to gather dust on my shelf when I realized that it was already time to say good-bye to high school memories and move on to bigger things, namely college. As I gathered my possessions together for my departure, I dreamed of dorm rooms, new friends, parties, and of course, college men. My best friend, who had already been at college for a year, warned me that college was not all a bed of roses. She tried to dampen my spirits with tales of homework, dirty laundry, red tape, and worst of all . . . moving in.

I didn't listen to her; I should have. I guess some things have to be experienced before you believe them: Moving in is definitely one of them.

I had been advised by other Clemsonites to get to school early to get a good place to park, so I made plans to leave at 6:30 Sunday morning.

Yawn! Bright and early, Mom, Dad, and I crowded into the front seat of our LTD. I could not have crowded one thing into the car if my life depended on it, (Thank heavens it didn't). I mean, we're talking full!

I kept hearing a voice on our journey, but I never did find my mother until we got there and started unloading. Poor Mom! Don't worry though, in less than an hour she was walking around almost as good as new and was breathing quite well. However, my giant panda didn't fare so well; his nose fell off. It's just as well, though, Mom would have looked silly without a nose.

Anyway, the dorm wasn't open yet so we decided to unload the stuff and dump it in front of the

Moving in to Johnstone is no problem if you have a room on the lower floor with a window.

All Photos by Suk B. Field

And here they come . . . carrying all the necessities to make life in Johnstone bearable; rugs, posters, furniture and built-up beds are a must.

dorm as everyone else was doing the same. Back and forth we went, our arms laden with everything from comforters to suitcases to clothes to food, and of course, my panda bear.

Next, there was the long line to get my key. I felt like I was wearing a shirt that said, "Hello! I am a freshman." It seemed like everyone knew everyone else except me. All the girls were squealing with delight as they found their long lost friends. The air rang with phrases of "How are you!," "Did you have a nice summer?," "How's your boyfriend?" Then the replies: "I'm wonderful!," "I had a great summer!," and "Oh, I broke up with John last week." The other one says, "Aw, that's too bad." Sure! Even I, a mere freshman, could see through that one. What she really was thinking was, "Aha! She broke up with him! Now's my chance!"

Well, I finally got my key. Now came the worst part. We now had the job of moving all my stuff from outside the dorm to the tenth floor. Yes, the tenth floor. (I obviously live in a high rise).

Lemonade was provided for students and parents as a refreshing break from moving in all of their belongings.

My dad had already toted my refrigerator and a large box of clothes up and left them in the hall outside my room.

By now the dorm looked like a madhouse with people everywhere! Moms, dads, and little siblings scurried all over the place. I was getting downright irritated at all the small children underfoot. It seemed like there were hundreds of them; all wearing orange and all trying to be helpful by carrying a shoebox. Everywhere I turned I tripped over one. I think I might have even stepped on a few. If you had a blonde, six year old brother, I am very sorry indeed! He is now a grease spot on the lobby floor just to the right of the desk. Whoops!

By playing it smart and waiting until the crowds leave, it is easier to get keys to Johnstone rooms.

Moving In

Meanwhile, the lines for the elevators were getting absolutely treacherous. I never knew that 80 people and boxes could fit on a 6 x 6 foot elevator. You learn something new everyday; however, I could have easily lived without having learned that little tidbit. The elevator was pulling tricks on us, too. It kept opening between floors! Now that is not a pleasant

view. The screams are still ringing in my ears.

We finally made it to the tenth floor, and I found my room and deposited all my stuff on the floor. I was bushed, and I had many trips to go. I was just about to leave when I heard a terrible wail in the hall. I cautiously peered out of my room only to see one of my new neighbors sprawled in the middle of the floor, wringing her hands and crying.

"What's the matter?" I asked. Now she got hysterical.

"My underwear! My underwear!" she cried, "I left all my underwear at home in Texas!"

Now that was sad. I really felt for her. (I think her underwear came by Federal Express a few days later.)

I finally got everything to my room. One trip was awful. I was balancing a roll of Bounty on top of an armload of assorted stuff. Everytime the elevator

doors opened, which was at every floor, my roll of Bounty rolled off my arms and out of the elevator. Someone's Dad picked it up for me about nine times. Needless to say, I was embarrassed but I got over it.

Up on the tenth floor, things were getting interesting. The floor was having a major makeover. My mom was unpacking things all over the place. I was busy spraying Pledge in the drawers (of my dresser,

course), and Mom was ruining my organization (what little I had) by putting things on my shelves. I had peanut butter, toothpaste, a hairdryer, and my roll of Bounty, all on my first bookshelf. I was confused!

Meanwhile, sounds of hammering and banging were reverberating in the hall. Yes, you guessed it, the dreaded "building up the bed disease ..." I heard one poor father cuss for 15 minutes before he gave up and let his wife

do it. (Just kidding, guys ...)

My dad was sitting in the middle of the hall floor trying to put a little table together for me; he was not doing too well. But finally he finished, and it looks great! My plant, Gertrude, just adores it.

All in all, Sunday, August 14th, was a very interesting day. One that I shall not soon forget, but I'm trying ...

Lori Blankenship

Moving Vans, cars, trucks, and anything else on wheels are used to move packages and other belongings. Some students use hand-carts to get their stuff to their rooms.

All Photos by Suk B. Fields

Traffic jams are very common during the first couple days of school.

Those students who live in Johnstone must first find their room. There are students available to help you find your way.

Following tradition, the [redacted] made his spectacular appearance at the [redacted] pep rally.

A Weekend Of Celebration

The First Friday Parade celebrated more than one event in 1983. Certainly, it fulfilled its traditional purpose of opening the home football season with an outpouring of that contagious Tiger spirit. But this year it also commemorated three other very special occasions: the fiftieth anniversary of IPTAY — the number one alumni association in the country, the tenth anniversary of the annual Pi Kappa Alpha fraternity sponsored parade, and the newly completed 15,000 seat addition to Death Valley stadium.

Throughout the week, various clubs, dorms, fraternities, and sororities spent long hours hammering, cutting chicken wire, and pomming tissue paper in preparation for the upcoming parade. Floats were judged on a number of factors such as workmanship, color, creativity, and overall spirit. Additional points were also given for moving parts, music, and any other special effects that were used.

As Friday morning rolled around, the cloudy skies and eventual downpour had many people afraid that this year, to use an old cliché, it just might

Senator Strom Thurmond was one of the many distinguished participants in the First Friday Parade.

“rain on our parade.” Luckily however, those fears subsided later in the afternoon when the rain had ended and the parade was ready to begin.

The procession was led by Senator Strom Thurmond, the Grand Marshal of the parade. Other dignitaries included University President Bill L. Atchley, the legendary Frank Howard, former Clemson president R.C. Edwards, and Dr. Jerry Reel, the national historian of Pi Kappa Alpha and advisor to the Clemson chapter. Several senior football players also occupied a spot at the beginning of the parade.

Judging the floats were head basketball coach Bill Foster, east campus housing coordinator Robin Wicker, civil engineering professor P.B. Nowack, and student body president David Stalnaker.

The 40 entries included approximately fifteen floats, the varsity and the junior varsity cheerleaders, Rally Cats, and of course, the Tiger Band playing “Tiger Rag” and its rendition of “Eye of the Tiger.” Horses presented by the Block and Bridle Club and colorful clowns also graced the streets of Clemson

To attract more attention towards their floats, some groups use movable parts. One group even went as far as to use human power to move the

Weekend

that Friday afternoon.

This year's event had "one of the best turnouts ever," according to Sam Konduros, co-chairman of the parade. Students and Clemson residents alike lined the streets as spectators.

For the second year in a row, the parade followed a route beginning near east campus apartments, continuing past Sikes Hall, and finishing up by the amphitheater for the first pep rally of the year. It was here, between enthusiastic Tiger cheers, that the winners for the floats were announced. Capturing the grand

Charlie Funk and Lori Smith enjoy the parade from their seats on the sidewalk.

Providing the music at the parade was the Tiger Band. Here the clarinets rest before their next part.

Among the winners of First Friday Parade competition were the Pika's, displaying their true tiger spirit.

Before finding their places for the parade and festivities, Scott Harke and Raymond Teaster check out the scenery.

prize with their "Columbia Fried Chicken" float were the Alpha Delta Pi's. The Delta Delta Delta's were awarded first place in the sorority division with the Pi Beta Phi's capturing second. In the fraternity and club division, Alpha Gamma Rho and the American Institute of Civil Engineers took first and second place respectively. Winners in the dorm division were B-8 of Johnstone with the first place award with Geer-Cope winning second.

The rain that threatened Friday afternoon unfortunately arrived the following day, for the game. Yet it definitely did not dampen the spirit and attendance of the forever loyal Clemson fans or the aggressive playing of our talented football team against Western Carolina. The final score was 44-10, not a bad beginning at all to the 1983 football season.

Catherine F. Watt

The Pershing Rifle Corps brought back memories of the predominately military days of Clemson's past.

Scott A. Harke

Showing their spirit with banners, floats, and many cheering sisters, the Kappa Delta's add to the excitement of the First Friday parade.

Many groups used the theme of IPTAY's 50th anniversary for their banners. Displaying their appreciation of IPTAY are the Delta Gammas.

Thousands gather annually after First Friday in the amphitheater for a spirited pep rally.

Organization's Day on Bowman Field

O.D., more commonly known as Organization's Day, took place September 6, 1983, on Bowman field. O.D. gave each campus club the opportunity to recruit members by setting aside one day dedicated to all organizations. Besides increasing their memberships, each club got almost unlimited publicity by participating in the day-long activities. O.D. provided the resources that enabled clubs to communicate to the entire student body their goals, focal points, missions, and projects. Here at Clemson, many people agreed that our campus had a club for almost every type of interest. If there was not one for yours . . . You should have started one!

This year's O.D. saw a great many religious organizations setting up booths on Bowman. Most of these organizations agreed that their membership roles experienced dramatic increases. Many groups went on to say that their membership would probably be half of what it was without O.D.

For many clubs, the 1983 O.D. was a regular event. For instance, the dairy science club brought

their traditional ice cream samples. However, this year you were required to test your expertise at milking a cow before receiving a sample.

Another unique sales strategy was the landing of a plane on route 93. The party responsible was the Aeronautical club. One informed person stated that with so many clubs in one place, you must do something to distinguish your club from another.

The afternoon was pulled to a close with the opening of chutes, parachutes! More specifically, the Dixie Skydivers. Each jumper, a member of this club, had many chances to improve their skill. Those performing this year were precisely accurate with each jump.

According to Raymond Howe, coordinator of Organization's Day, this year was another success for the clubs as well as the students visiting the displays. Anyone who missed O.D. 1983 missed out on informational talks, visual and audio displays, informative pamphlets, as well as interpersonal communication with actual group members. Through this type of interaction

it was possible for the students to become familiar with the organizations on campus and to decide which was right for them.

Stacey Warner

The Lottery System — A Game Of Chance

The first lottery for season Date Tickets was held on August 25, 1983. In previous years, students who wanted date tickets camped out as early as two days before the tickets went on sale. However, there were many complaints about students cutting in line and holding places for friends, etc. The ticket office saw that something had to be

done, so they turned to the Student Government for help. The Student Government devised the following plan: There would be a set number of 1200 season date tickets to be divided among the four classes. The seniors would be allotted 35% (420 tickets), juniors 25% (300 tickets), sophomores 20% (240 tickets) and freshmen 20% (240 tickets). Stu-

dents who wanted date tickets filled out an application and turned it in at Littlejohn Coliseum (on August 25). The number of applications received was 1292 — seniors 535, juniors 345, sophomores 261, and freshmen 151 with the surplus from the freshmen class going to the seniors. After all the applications were turned in, a random drawing was

held. The tickets were distributed as follows: seniors 499, juniors 314, sophomores 240 and freshmen 147. There were a number of no-shows because some students had their friends put in applications for them to help improve their chances. The number of no-shows was 36 seniors, 23 juniors, 9 sophomores, and 4 freshmen. The number of turn-

"Did you call me?" During the lottery, many students had trouble hearing their names because there were no intercoms.

After hearing their names, students went down to the coliseum floor to pick up their season date pass.

Most students waited an average of an hour and a half before receiving their season date pass.

aways was 20 — eight in the junior class and 12 in the sophomore class. But since the number of turn-aways was so small, the ticket office requested 20 more tickets, which they received so everyone who applied for a Season Date Ticket received one.

The price for the Season Date Ticket was \$50.00 which is a 40% discount from the regular, individual price of \$12.00.

Publicity for the Lottery was contained in registration materi-

al, in the first issue of the Tiger, and in distributions on campus.

The lottery systems was successful and a "proven method." Jervey would like to continue with the lottery system in the future, but it will depend on the demand and the decision of Student Government.

Artistic Divers Color The Skies

The Sky's The Limit

One of the oldest collegiate clubs was originally formed 25 years ago for students interested in sport parachuting. Called the Dixie Sky Divers, these students participated in collegiate diving meets all over the United States.

The club trained over 50 prospective divers through classroom instruction and "practical application." Each session lasted two nights. Students who completed their training were certified by a U.S. Parachuting Asso-

ciation instructor. Only after meeting all requirements were any students allowed to take "the plunge."

Each weekend at the Oconee County Airport the club held practice sessions and various group competitions. The divers jumped from a small plane called the Cesna 182. A maximum of four jumpers was allowed to go up in the plane; most groups of four completed 10 jumps daily.

Free fall, and not parachuting, was the actual object of the sport. To form the many exciting feats like flips, rolls, and spins

required training in body maneuvers. The experienced divers executed relative flying formations that were made with other divers.

Except for the equipment funded by Student Government, the Dixie Sky Divers were self-supported. The club was managed and operated like a business with every member paying \$8 per jump. Any cash reserve left over covered the cost of the airplane and any miscellaneous traveling expenses.

Annually, the Dixie Sky Divers recruited their new members

from Organization's Day sign-ups and fall open-house type meetings. Any interested students, male or female, were urged to join this action-packed group.

Monica Theison

Clemson Aeronautical Association

One of the oldest organizations, now the Clemson Aeronau-

tical Association, formerly held the name of the Clemson University Aero Club. A few cadets, interested in aeronautics, started the club back in 1928. The very next year the members took on an extremely difficult project; they built their own airplane. The C-372, when completed, was registered with the Federal Aviation Administration.

The club later acquired three new aircraft: a 1978 Cessna 152 used for training, a 1978 Cessna 172 used primarily for cross-country flying, and a 1974 Grumman AA-5 donated to them by a member of the original 1928 Aero club. With these three planes the thirty members flew approximately 150 hours each month.

The CAA participated in Orga-

nization's Day to try to attract new members. With so many clubs participating, it was necessary to capture people's interest by doing something unique and attention-getting. This club decided to display their plane next to their booth. But, in order to get the plane onto Bowman Field, it was necessary to land the plane on Highway 93 — a feat that turned a few eyes. The club used this strategy to get prospective members to look into the club.

Every semester the club held its traditional weekend ground school for all of the new pilots to prepare them for the written test. The course was free to all members whether they wanted to totally learn the material or just refresh their memories a bit.

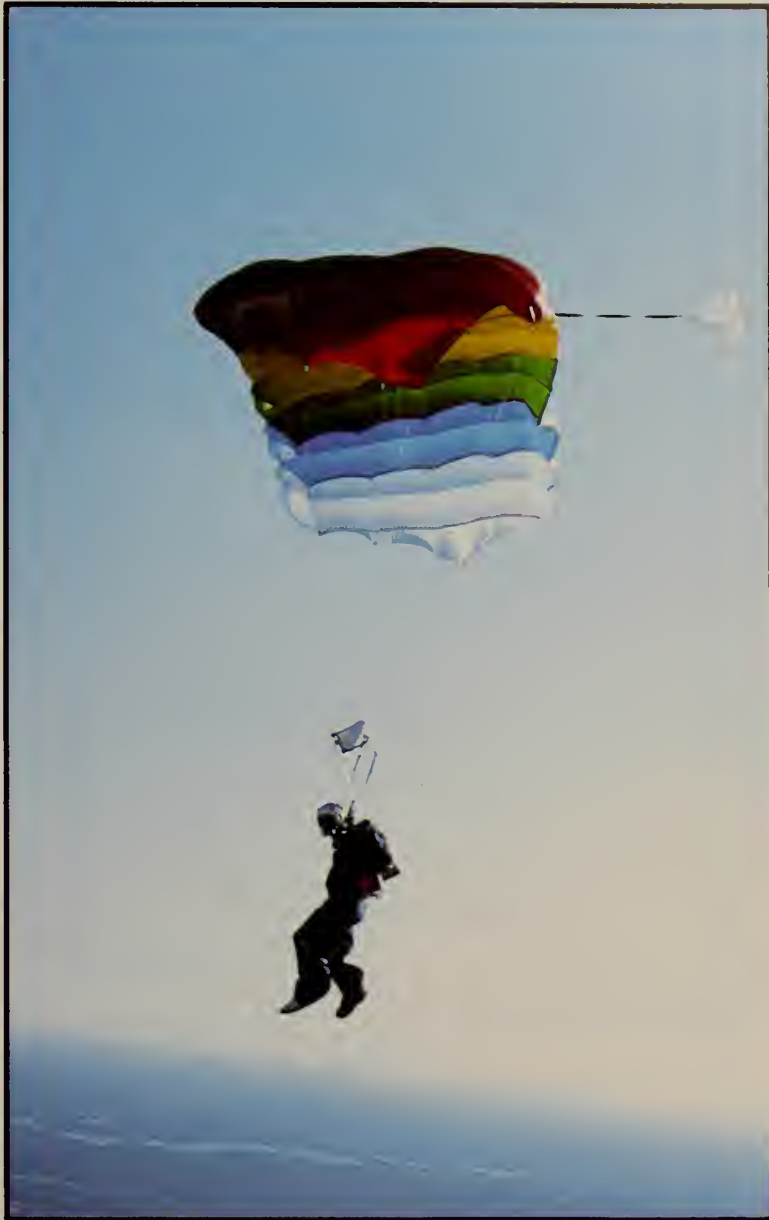

Some of the projects that the members had the opportunity to participate in included the ever fun plane washes, field trips, and flight competition. In 1978 the club placed second at the regional intercollegiate flight competition held in Auburn, Alabama. Eventually the club would like to enter back into this competition.

Members also undertook other major projects such as trying to obtain a place on campus to display the C-372. Recently, the plane was taken from its home from the Wings and Wheels museum where it had been in storage. Also, an effort was made to contact past members to get old photographs and stories about the earlier Aero Club. Many pictures had already acquired, including some dating back to the 1930's.

Safety was constantly stressed at the bi-monthly meetings by having various members give short informative talks on a specific topic.

Any student, back from the time the club was started, was eligible to join whether they had flying experience or not and found it well worthwhile.

Nature's Way Of Doing Things

Pollen For People

When most of us were worn down from the hustle and bustle of everyday life, we usually turned to vitamins, a stiff drink, relaxation, or much-needed sleep to revive our run-down bodies. But how many of us had ever considered honeybee pollen as a source of renewed energy, rather than the traditional remedies? Not many! Yet recently, bee pollen had been promoted as "nature's antibiotic" for a variety of health problems.

Harry Hersey, one of its promoters visited the campus on the nights of September 26 and 27 and spoke on what he believed to be the genuine benefits of bee pollen. Hersey was President of Golden Pride, a company which produced and sold propolis — a highly nutritional and concentrated pollen taken from the Arizona "Hi-Fri" Desert.

Hersey described propolis as a natural food substance which was non-toxic, non-manufactured, and all natural. Much study on its true effects had been performed and the experimentation continued. Various researchers in the cancer field, athletes, and football programs alike were testing just what bee pollen could actually do for the body. Harry Hersey and Golden Pride believed the answer to that question had already been answered.

After taking the recommended dosage of bee pollen, Hersey said a person would experience a surge of energy within ten to twenty-five minutes and would continue to feel energetic throughout the day. He cited a number of uses for propolis, stating that it may often aided in the treatment of allergies, skin problems, stress, digestive disorders, and depression. Two areas in which the product was most emphasized — with the exception

of its primary purpose of increasing stamina — were weight control and arthritis. Taken before a meal, the pollen reduced a person's appetite; therefore less was eaten and weight was lost. Golden Pride sold an exclusive product which it claimed helped in the relief, not cure, of arthritis. Called "Miracle", it was sold with a money-back guarantee.

During his presentation, Hersey related the story of a man recently won over by the advantages of bee pollen. The man had been in a bad accident; his foot was injured, his arm was in a sling, and he had little strength. Then he took propolis. Before long, his endurance increased, he lost eighteen pounds, and his gray hair even started to turn dark again in some places. Hersey said, "This example was not extreme; bee pollen can do something for almost everyone."

Propolis could be taken in the shape of pills such as tablets or capsules. The pollen program commenced with a relatively weak dosage (130 mg) and becomes more potent as the body's tolerance increased. 1500 mg was considered a professional dosage; those who had been on bee pollen for a long period of time often took three or more of these tablets daily.

How did one go about obtaining this bee pollen? Golden Pride was selling its product through local distributors — average people such as men and women in the field of business. Bill Bridges, owner of ABC Jeans in Anderson and regional supplier of propolis, estimated that the company had over one thousand customers in the Anderson area alone. The cost was not low, but Hersey believed that the benefits far outweighed the money invested.

So next time you are up late cramming for an exam or troubled by the pressures of work, you just may want to consider

treating your body to the "miracle healer from the beehive." Several people at Hersey's seminar seem to faithfully believe in the marvel of propolis — you may find that you do too.

Catherine F. Watt

The "Nut Hut": A Tasty Alternative

For those hungry students that longed for a snack, yet had grown tired of the sugar-filled candy and junk food sold on campus, a solution to the dilemma began in the Fall. The University Union's Nut Hut offered a healthy quieting of food cravings.

The Nut Hut, a small natural foods shop located in the Student Union, sold delicious dried fruit mixtures, candies, and assorted nut and fruit combinations. It began as an idea of Bill Mandicott, Student Program Advisor to the Union and grew until its Grand Opening during the week of August 14-20, 1983. The Tropical Nut and Fruit Company in Charlotte, North Carolina supplied the goodies for students' consumption. Profits went directly to the Union.

The Nut Hut, managed by Ruth Smith and her staff of two was responsible not only for the financial matters of the shop, but also for bagging, ordering, and advertising. Ruth took out ads in the Tiger, placed posters around campus, and mailed letters of information to various Clemson organizations. A large part of its business however, came from work-of-mouth.

The Nut Hut sold thirteen different mixes; these ranged from the California Mix T.A. (Turkish Apricots), to the Fiesta Mix, and

Cocktail Mix. Raisins, pumpkin seeds, nacho peanuts, almonds, apricots, and granola were some of the ingredients found in the various mixtures which tempted students and faculty alike. The shop also sold Sunflower Seeds, Banana Chips, Mint Jots, and Clemson Carob Footballs, made of carob, wrapped in orange foil; they looked and tasted like chocolate, but had more nutritional value.

Anything from a small bag to a two-pound container was sold at prices that began at 50¢ and ended at \$10 (for a two-pound container of the Clemson Carob Footballs). Gift certificates as well as gift packages were sold and delivered free of charge anywhere on campus. Free samples were also given out.

After only a month and a half of business, the Nut Hut had proven to be a successful venture. It had acquired a \$130 certified candy scale, was in the process of closing out its debts, and had added new mixes to its line. Furthermore, Ruth instituted a campaign in which faculty members could choose from a "menu" on the Monday of each week and have their orders delivered to them the following day. Plans for expansion had begun almost from the grand opening day. Edgar's asked permission to sell Nut Hut goodies, and the Gutter wanted to do the same.

Certainly you did not have to be a natural foods fanatic to enjoy the snacks provided by the Nut Hut. Almost everyone found a mix they liked from among the various snacks. Full of nutritional value, the goodies provided a tasty alternative!

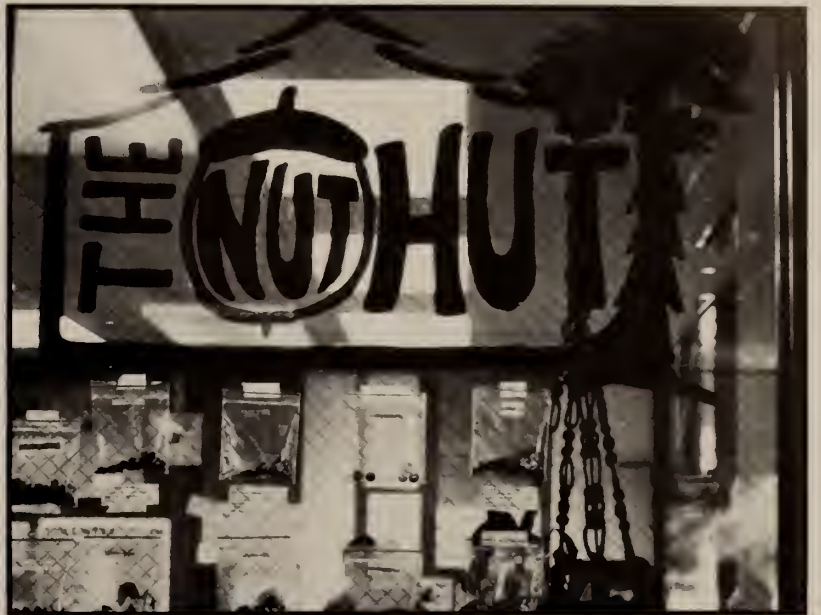

Catherine F. Watt

"Tasty goodies are available from the Nut Hut at the Union information desk daily," explains Wayne Brown.

Homecoming

Terry Windell

Molding the chicken wire around the frame, the JEC float begins to take shape.

Bill Spitzer

Demonstrating a new technique this year, the Kappa Sigma's builds their display section by section.

Crepe Creatures Cover Campus

A time of excitement and unrest described the week prior to Homecoming. University engineers planted telephone poles — stretching from Johnstone to the ends of Bowman field. Soon, each group of poles grew into new dimensions as fraternities, sororities, scholastic clubs, and dormitory groups spent many hours nailing and stuffing the contoured chicken wire, which formed animated figures and structures.

Friday night was the best night to view the various groups in action. Most sites provided kegs of beer and stereo systems for their workers to enjoy while working on their displays. A few groups even allowed bystanders to participate in the collegiate event. Friends, guests, relatives, and alumni alike enjoyed overseeing

the workmanship involved in the final-night, all-night, event.

All displays were completed on Saturday morning in time for hundreds of people to admire on their way to the game. Themes ranged from Tigers mangling Virginia Cavaliers, replicas of downtown Clemson, and miniature Death Valley Stadiums complete with tiny football players.

The winners of the display competition were announced during the halftime of the Clemson-Virginia game. First place in the still displays was awarded to Pi Kappa Alpha fraternity for its float, "Another Grave Day at Death Valley." The Kappa Sigma fraternity grabbed second place with "Jaws." The Chi Psi fraternity placed third with their display of the Tiger attacking such cartoon creatures as "Yosemite

Sam" Cavalier, "Leghorn" Gamecock, and the "Tasmanian" Blue-devil.

Sigma Nu took first place in the moving displays with "Iptay — 50 years and Still Flying High" while second and third places were awarded to Alpha Gamma Rho and Alpha Tau Omega, respectively.

Even though the displays did not have a long life-span, only about 24 hours, many more hours were spent planning, building, and decorating the exhibits. Although the means to this end required a greater amount of time than the result lasted, everyone — participants, students, and visitors — appreciated the displays.

Terry Windell

"Skipper, Skipper, Skipper," cries Dannigan, portrayed by Jeff Melton of Sigma Nu Fraternity. This skit, "Dannigan's Isle," grabbed first place at Tigerama.

Smokey Scenes Fill The Stadium

On the evening of October 10, Tigerama 1983 in the round took place for the 27th consecutive year. "Real Life Reruns," this year's theme, was presented to a record breaking crowd of approximately 35,000, filling both lower decks and the west stands. Emcees Shawn Weatherly, Miss Homecoming of Tigerama 1978, and Russ Cassell, host of "the morning show" of radio station WCKN, greeted the spectators at 7 p.m.

The cheerleaders and the Tiger Band started the crowd moving with the song of the South, "Tiger Rag." As the excitement built up, selected fraternities and sororities performed skits modeled after popular television sitcoms. The winning satire, "Dan-

nigan's Isle," went to the Sigma Nu fraternity. Kappa Sigma received second place with their rendition of "Batman;" Alpha Tau Omega captured third place performing "Death Valley Days." Following the skits, the five Miss Homecoming finalists were introduced to the audience each escorted onto the field by their respective sponsors.

The Pershing Rifles showed their expertise with a drill saluting the five lovely contestants awaiting the final decision. Sherry Thrift, Last year's Homecoming Queen, announced the winner and crowned Elizabeth Cousins this year's Homecoming Queen. Bestowed with a bouquet of roses, hugs, kisses, and many congratulations, Cousins ner-

vously announced the winners of the display contest. Sigma Nu again captured the title for the best moving display.

Then, the fireworks display finally began. Brilliant hues of orange, green, purple and red lit up the sky while their loud, thunderous bangs shook the stands. Smoke and ashes covered the thousands watching the event, but it did not seem to bother the eager onlookers.

After Iptay's grand finale firework exhibition, and the smoke cleared, Tigerama-goers left the stands, going their own way to do their own homecoming celebrating.

Scott Harker

The tin cans of Clemson are even famous to Bob Hope as he makes reference to them in his second monologue.

Suk B. Field

In a gesture of friendship, Bill Atchley declares Bob Hope "professor for the day," forty-minute honor.

The unique talents of Jeff Dunning and his three dummies make the audience clap with admiration at his tic-tac impersonation.

Being introduced on national television by Bob Hope is no ordinary event for any Clemson student, yet Beth Cousins handles the situation with a natural flare.

All Photos by Suk B. Fields

Taped, Taped, And Retaped

"Thanks for the Memories" was the only way to describe Bob Hope's Homecoming USA show on Saturday, October 8, in Littlejohn. Although twenty minutes late getting started, due to the filming of the show for airing on national television, the pace picked up when the emcee, Aldo Bella, from the "Chill-a-Cella" wine commercials, appeared on the stage. Aldo introduced such performers as the "4:30 Thursday Singers" who appeared in the production, "We're Proud to say Clemson," and ventriloquist Jeff Dunning; Jeff had previously appeared on "Real People."

The star of the show came on a

short time later and gave his traditional opening monologue. Even though some of the jokes were old, they were still potent because he gave them in person.

During the second monologue, the jokes were directed at the school and familiar spots such as the dining hall, the President's lawn, and East Bank. These jokes were well received by the students.

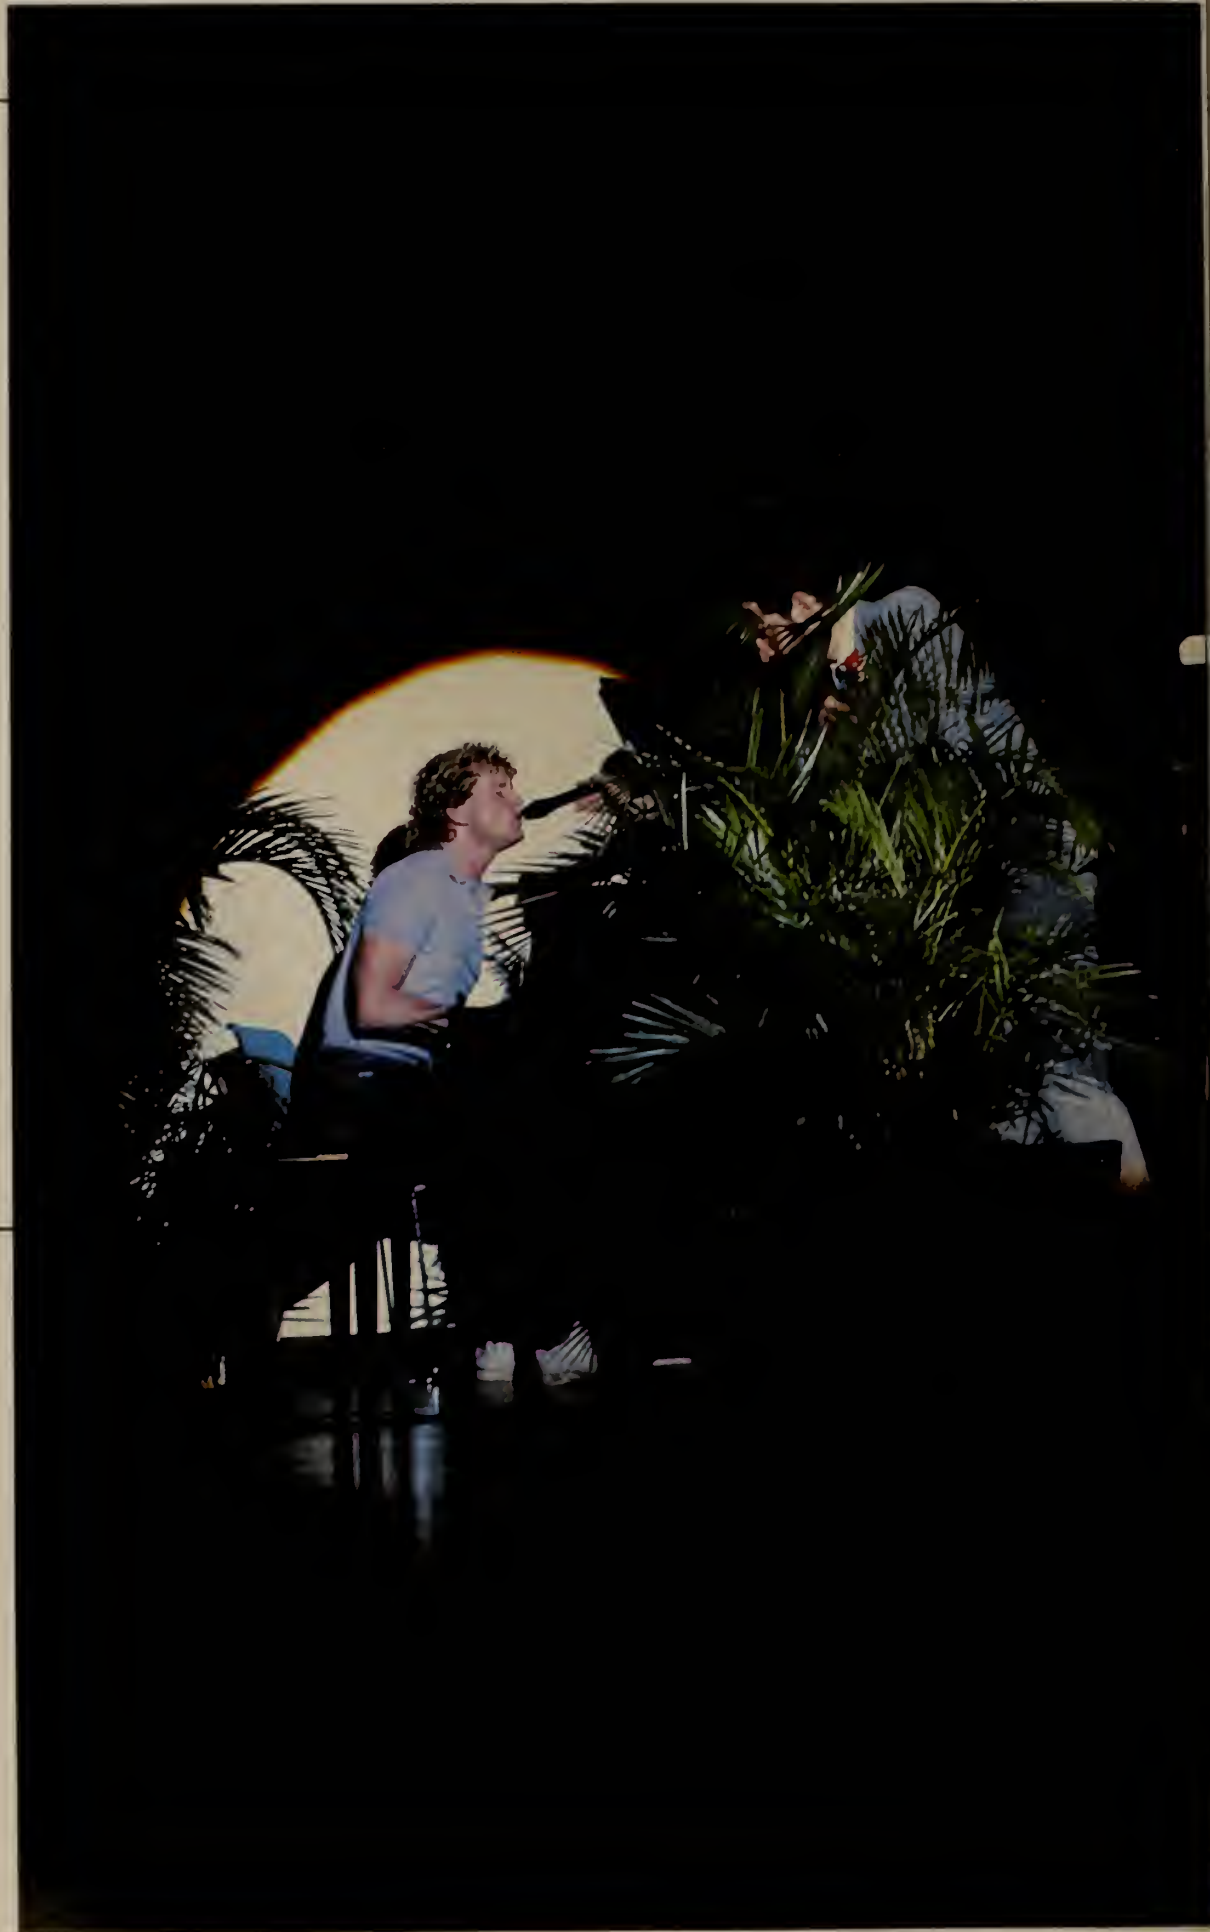

Eddie Rabbitt was also scheduled to appear. After a twenty minute intermission, Rabbitt was on stage and lipsynched his latest hit. It was rather unfortunate that he had to "sing" the song three times before the camera

and the audio crews could work out their technical problems. Rabbitt really had the audience in the palm of his hand when he sang his two big hits, "Driving My Life Away" and "I Love a Rainy Night," a duet with Hope.

The audience left teary eyed and many returned to remaining Homecoming parties, downtown bars, and late night snack bars. Given in the traditional Bob Hope fashion, Homecoming was a tremendous success.

An October Parade Of Beauties

Fifty-one contestants, representing various organizations on campus, competed for the Miss Homecoming crown on October 4, 1983. Sponsored by Student Government, the pageant took place in Tillman Hall. Of the 51 contestants, 10 finalists were chosen.

The finalists included Susan

Shuttlesworth, sponsored by Central Spirit; Beth Cousins, sponsored by Alpha Tau Omega; Pat Hook, sponsored by Kappa Kappa Gamma; Sheila Thrnton, sponsored by Omega Psi Phi; Lauren Whelpley, sponsored by Blue Key; Leslie Foster, sponsored by Delta Delta Delta; Rosseanne Hughes, sponsored by Al-

pha Phi Omega; Shannon Hollowell, sponsored by American Marketing Association; Kim Dooley, sponsored by Alpha Delta Pi; and Lisa McTeer, sponsored by Sigma Alpha Epsilon.

The Masters of Ceremonies for the Miss Homecoming pageant were Lisa Clark, who hosts WAGA "Weekend Magazine" in Atlanta, and Kevin McKee, a WHVL radio announcer in Hendersonville, North Carolina.

Each contestant went through an interview prior to the pageant. The interview accounted for 60 percent of the Miss Homecoming competition while the pageant comprised the remaining 40 percent of the points.

The contestants were evaluated on their poise, personality, and overall appearance during the sportswear and evening gown competitions. The judges for these events included Eloise James, of Clemson; Karen Eckford, Wilson Eidson, and Sherry Poole, all of Greenville, each listed on the South Carolina's approved judges' list.

The Women's Glee Club provided entertainment at different intervals during the pageant. The Rally Cats also performed a preview of their basketball season shows. Rick Clark, a Sigma Alpha Epsilon fraternity member and brother of emcee, Lisa Clark, inspired by the audience, gave an impromptu performance on the piano while the judges were making their decision as to who the 10 finalists would be. Before announcing the finalists, Sherry Thrift made a special appearance.

Homecoming Pageant Chairperson, Tammie Davis, and her committee put in a lot of hard work into this project. The following Thursday, student body elections for the 1983 Homecoming Queen and her court were held; the popularly elected queen would be traditionally announced at Tigerama.

The Union Strikes Back

One dank, dark, dreary day at 4:00 p.m. we found our hero, Luke Bored-Walker, plodding along the footpaths of Clemson. in search of "something to do." Yes, dear readers, our hero had been under the attack of the dark side of the force. Its evil had permeated the campus and manifested itself in unsuspecting Tigers everywhere. Its symptoms were obvious: listlessness, lapses of consciousness while sitting with eyes wide open, and even the dreaded homesickness disease. The dark side could attack anyone, and the only way to combat its evil effects was to learn to make use of the power of the light. Let's return to the wandering Luke and watch as he learned about the power of the light.

After hours of bored walking, Luke happened to stumble into a room that was bustling with activity. "Where am I?" He wondered amazedly. "There are people everywhere doing mysterious

things!"

Luke decided that he must search out someone who was enlightened and ask them just what was going on. He accosted the first light saber-wielding warrior that chanced by. "What is going on here?" asked our wide-eyed innocent. "Why, we are the warriors of the Student Union, and we are planning our attack on the dark-side of the force," came the reply. After explaining the ins and outs of what the force was, the warrior persuaded Luke that he should join the band of "T-wing" fighters, and he was assigned a mission. His quest was to search for new and exciting activities offered by the Union and to participate in those of his choice. Armed with an open mind and willing attitude, Luke began his search.

His first stop was the game room where he found enthusiastic members of the light-side jumping up and down in excitement. These people, he discov-

ered, had been playing ping-pong, billiards, all sorts of video games, and some had even been bowling. Tournaments were being held and the winners would have the chance to go to the ACUI Regionals. Timidly (remember, this was only Luke's first quest), he approached one of the players and asked if he might join in. "Sure! Anybody can play; all you have to do is sign up!" Encouraged by this new information, Luke decided to continue his so-far successful journey and went on to look for other exciting events.

His next stop was at a Cultural Committee meeting. He found that Chairperson Debbie Wasserman and her staff were planning many quality stage-productions such as the Augusta Ballet and Shakespeare's "Hamlet." Overjoyed at this further discovery, Luke looked forward to his next adventure and skipped outside to continue his search.

The next place he found him-

self in was that infamous lobby known as the "Loggia." Here he found an information desk that provided everything he ever wanted to know about Union activities, and then some. There were newspapers, activities, calendars and pamphlets of all shapes and sizes and colors. They were all so appealing that he could not decide which to read first. He picked up the pamphlet nearest to him; it was a list of short courses. "Oh," he thought, "A little self-improvement could broaden my perspective of Union strategy." He investigated and found that courses were offered on scheduled days and lasted anywhere from one to three hours. Luke signed up for CPR, bartending and kayaking. Other pamphlets told him all about joining in on the College bowl, how to use the Union Darkroom, and special events like Sidewalk Chalk-art and the appearance of Tom De Luca — Hypnotist.

Terry Windell

The judges' favorite, "The Adventurer's," take first place in the Chalkart contest.

Aldo strikes back at a runaway bottle of Cella wine.

At night Luke went to Edgars and The Gutter where he saw live bands perform everything from punk rock to bluegrass. At Edgar's he drank wine and beer; at the Gutter he enjoyed his favorite herb tea or coffee, kicked back, and relaxed in a bean bag chair.

Now that Luke was making his way easily from event to event he joined in new activities almost everyday. Sometimes he went horseback riding, tubing or speunking. Every now and then he joined the Union for a trip to New Orleans, Disney World, or a cruise. There seemed to be no end to the list of fun things to do. One time he even saw Bob Hope perform live at Littlejohn Coliseum.

Luke was promoted to commander of the "T-wing" forces and continued to wage battle against the dark-side of the force. Because of all the excitement and adventure that could be found, Luke and other members of the Student Union invited everyone to join them as the "Union Strikes Back!"

Student Government Leading The Pack

Research And Development Committee

The Research and Development Committee, a part of Student Government, was made up of two parts — surveys and the research of projects. On the average about twelve surveys per year took place. The fifteen member committee surveyed people in Student Government, administrators, and students mainly by telephone. About 400-600 people were actually surveyed at one time, and the analysis of these people's opinions often resulted in policy changes. A few surveys this year included the shuttle survey, lottery ticket survey, and a survey on alcohol

awareness.

Two of the biggest projects accomplished by the Research and Development Committee were the establishment of the minority recruitment council and the setting of a new world record by releasing over one-quarter of a million balloons during the Maryland football game. The minority recruitment council was especially significant because its purpose was to find out how other schools recruit minorities students and how Clemson can best adapt to minority needs.

Other projects that were worked on included Student Interest Cards, lack of housing for Freshman, the need for more parking spaces, and fund raising activities for the library. The

four standing positions included Director Mark Wilson to Publicity Director Chantal Wittman; assistant director of research was Ed Leonard, and Mike Hamilton was assistant director of surveys. Other members included: Robert Dill, Diana Stewart, Janet Johnston, Robin Faulkner, Jan Farr, Karen Lea Jones, Sangeetha Reddy, Robbie Pondel, Dean Tradas, Gene Murray, Robbie Jones, and Eleanor Dreher.

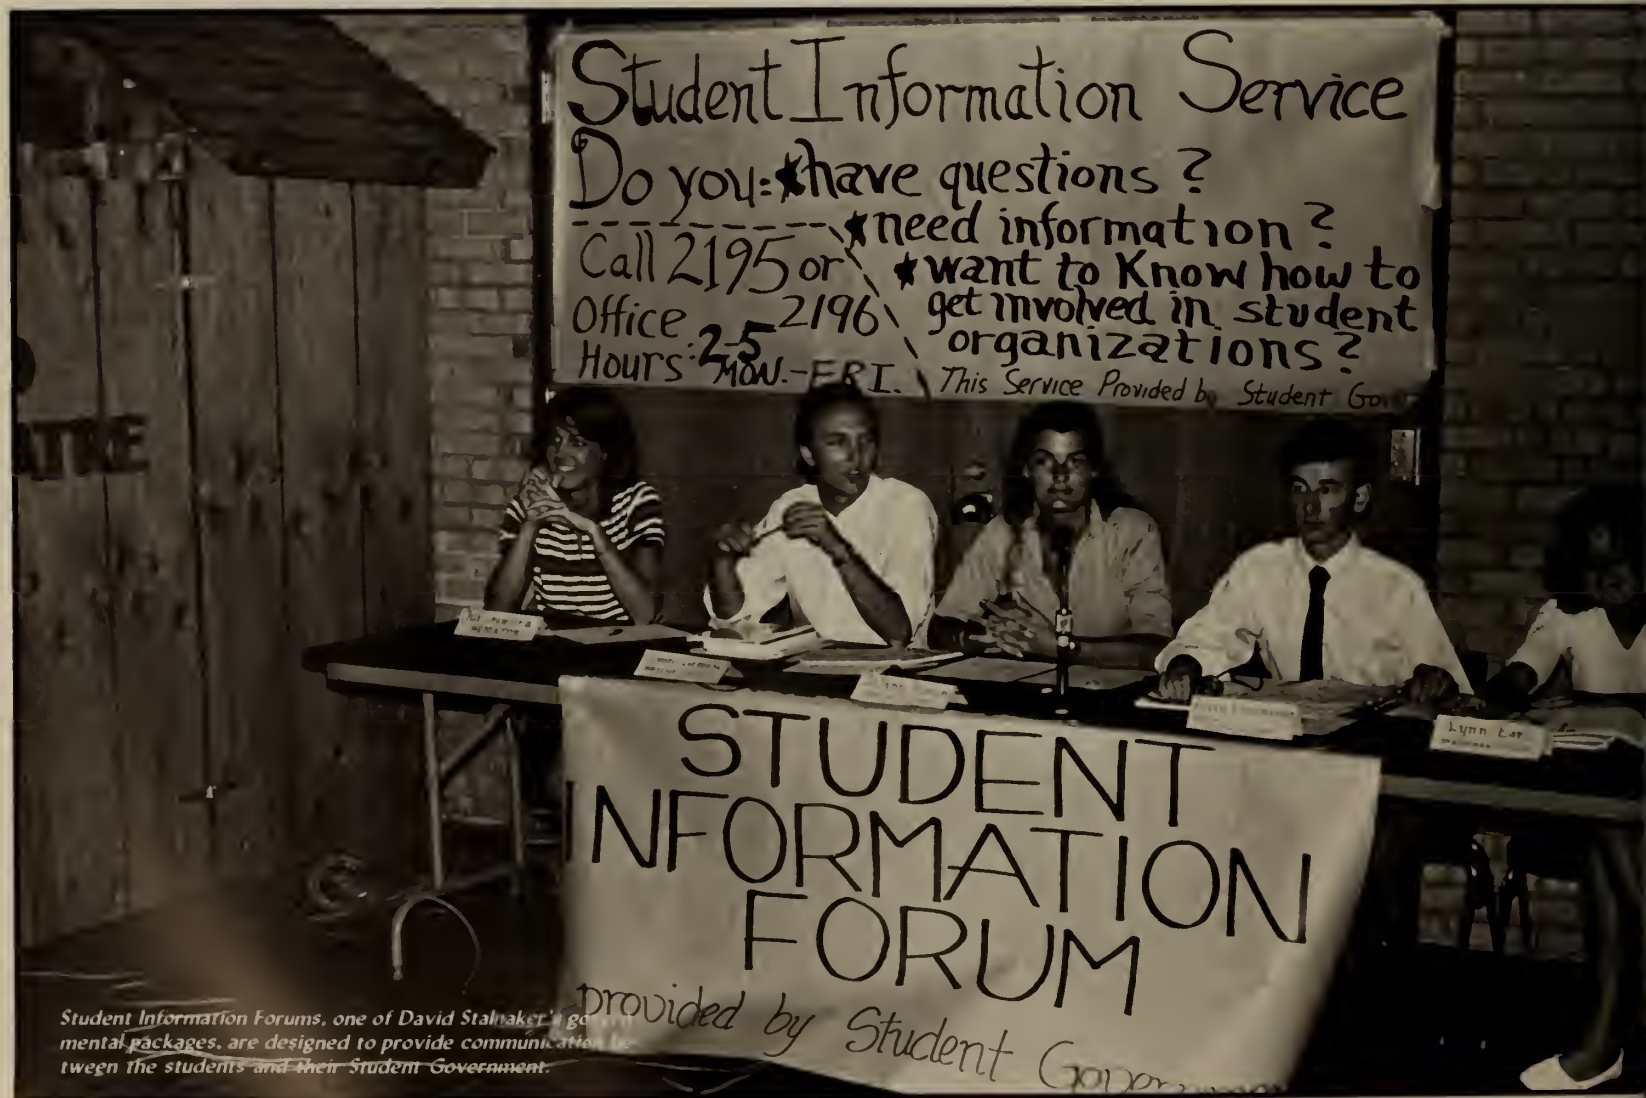

Chantal Wittman

Ombudsman Student Information Service

The Ombudsman Student Information Service displayed more activities on campus to bet-

ter inform the students. This Student Government committee, moreover, investigated complaints between students and faculty members to help achieve equitable settlements. Also, the staff answered any questions, solved any problems on school-related subjects, and helped students with campus organizations and activities.

In the past, this service had not been used to its fullest potential. As a result, Student Body President David Stalnaker decided that it was necessary to take the service directly to the students through information forums. The Ombudsman staff — Robert Clement, Lynn Earle, Jo Ann Wakeim, and Ombudsman Kevin Landmesser — addressed

such issues as parking ticket appeals, student apathy towards student government, and football ticket distribution.

Information concerning legal aid was also discussed. Two 30-minute sessions with any local lawyer were available to the students each year — paid for by Student Services. Students could pick up forms at the Student Government offices.

The Ombudsman/Student Information Service proved to be quite a problem-solver as well as a link between the students and the Student Government. The hope that more students would realize the value of this assistance and use it to an even greater extent was expressed by all involved.

Roy Irwin

In this small photo essay, student policemen display the "art" of directing traffic. This is just a small part played by student police to guarantee campus security. Below, Jeff Jacobs motions cars through the intersection behind Lever Hall; right, Ken Lytch interfaces traffic onto Highway 93.

Dedicated To Providing Police Protection

One of the more risky jobs a student could have held on campus was that on the Student Police force. The Police Department, located beside the P-Plant facilities, hired 25-80 students depending on the department's needs. Applicants were selected for employment on a first-come, first-serve basis. Thea McCrary, a full-time investigator, was the advisor for this group of students. "We looked for clean-cut, well-rounded individuals who have a genuine concern for protecting students, the stadium, and the campus as a whole," explained McCrary. Each Monday night, this student-directed group planned and co-ordinated their own ongoing programs and projects.

The Student Police included two lieutenants, a traffic sergeant, a dispatcher, and an administrator. These individuals headed up the student force, which supplemented the full-time police force. "Many students only see our Student Police personnel writing tickets, and that's all. Yet, our students do so much more; they free our department for larger-scale problems that inevitably arise." McCrary stated.

Services that Student Police provided were free engraving for personal belongings, stake-outs in parking lots, directing traffic in the mornings, afternoons, and evenings, protecting the stadium and other landmarks from vandalism during football weekends, and much, much, more. McCrary

proudly said, "Our students worked hard to keep their campus a safe place to live." The Student Police force worked during school sessions, holidays, and in the summer. During the summer months, however, fewer Student Police were needed as the majority of residents went home for the break. Those employed during the summer were involved in the repainting of the curbs, parking spaces, Tiger Paw prints, etc., which must be done every year.

Our own Student Police force provided a very necessary part of the overall campus police protection. However, for some reason these students experienced excessive harrassment and abuse just for doing their job.

"They did not make the rules, they simply followed them and made sure that everyone else did, too" concluded McCrary. So remember, when you were out partying before a game, walking from a dark parking lot, considering engraving that fantastic stereo, or registering that new bike, the Student Police force provided the protection and the programs that made this University a safe place to go to school.

Clemson Dancers — On The Move

Dancers

Sweat! Practice, repetition, learning, and hard work, all for the satisfaction of others prompted both dancers and those interested in dance to support the art of dancing both on and off campus through the Clemson Dancers.

This recognized University organization met on a monthly basis. The president, Judy Silverman, along with Vice President Anita Westbrook and sponsor Mable Wynn, coordinated classes which were available for the entire student body. The classes consisted of beginner, intermediate, and advanced jazz,

along with jazz warm-up and technique, and several levels of tap, ballet and modern. Clogging and aerobics also joined this list.

Through tryouts, many of the members of the Clemson Dancers became part of the Kinetic Theatre, a performing dance group. The Clemson Dancers helped to promote the performances of the group. They were also responsible for some of the dance companies who visited campus.

Along with this, the club had the opportunity to attend various dance conventions where they learned of ideals shared by other schools. At a convention in Myrtle Beach on the fourth, fifth, and sixth of November, the dancers

united with other schools such as Columbia College, Winthrop, and The University of South Carolina.

Through the dedication and hard work of these dancers, both on and off the stage, the University as well as the community benefited from this group organized to promote both dance and theatrical productions.

Kinetic Theatre

Kinetic Theatre traditionally performed a production on campus each semester. The production included all types of dance (ballet, jazz, tap and modern dance) performed by both stu-

dents and visiting artists. The performances were held in Daniel Auditorium with two shows each semester; the public was invited to attend with free admission.

Kinetic Theatre directed by Mable Wynn, the sponsor for the Clemson Dancers, was assisted by executive director Lynn Rushing and assistant executive director Gladys Richardson. The executive directors were in charge of planning and directing the performances held at the university.

The popularity of Kinetic Theatre grew tremendously in the past years despite the fact that at Clemson, the theatre was a total voluntary organization and no

The Kinetic Theatre members begin their rehearsal of "Country Dance" to be performed at the Myrtle Beach convention.

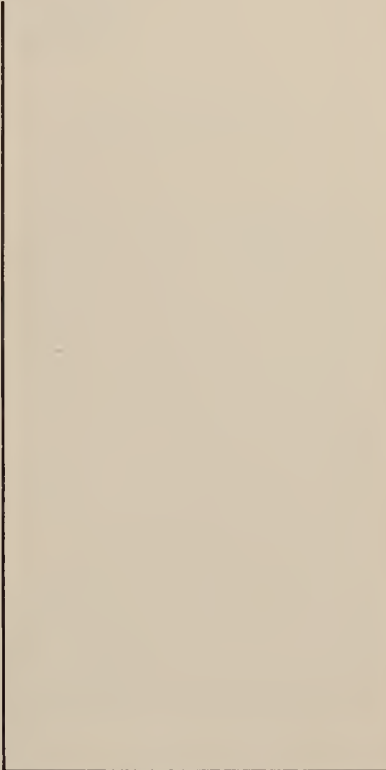

academic credit was given. The Kinetic Theatre was composed of students who danced for their own enjoyment and the pleasure of others. Clemson Dancers in connection with Kinetic Theatre strove to bring the art of dance to others.

New members of the theatre were chosen in September, and all past active members had the choice of performing again. The first performance by the Kinetic Theatre was at Fiddles and Vittles, a fund-raising project for the Helping Hands. The dancers also performed at various middle and high schools along with several performances at local retirement centers.

Graceful as swans — Christi Whitmire, Gladys Richardson, and other members work on their version of "Flashdance."

Athletic Support: A Family Tradition

A Real Tiger

The band begins to play, the crowd starts to roar, and the Football Team storms onto the field. Leading the pack of football players is the mascot, The Tiger. The Tiger, a tradition at the University since the 1950's when he appeared, appropriately, at an Orange Bowl game, for the first time. What would our football games be without his constant enthusiasm and energy?

The University obtained a copy-right on the facial expression and other details of the Tiger's suit. The costume was made by a company in New York called Eves Brooks; with a price tag of \$30,000.

Beside football games, The Tiger also appeared at basketball games, the Special Olympics in Greenwood, and at the show "We're Proud to say Clemson." Various organizations in many parts of the country have requested his appearance at their annual activities.

During the spring the Tiger for the next year was selected from the male Varsity Cheerleaders. This year's Tiger was Randy Fiale, who was also the Tiger last year. Randy, a junior when he replaced Ricky Capps as the mascot, picked up the tradition in the spring of 1982.

Randy, born in Aiken, South Carolina, majored in Administrative Management. He was a Sigma Alpha Epsilon and a Varsity Cheerleader. Some of his interests included football, tennis, soccer, track, camping, hiking, and fishing. He also enjoyed dancing and going out to eat in Clemson.

In his freshman year, Randy was on the Track Team as a pole vaulter. He also actively engaged in religious organizations. Randy pledged Alpha Sigma Epsilon in his sophomore year and was a Junior Varsity Cheerleader. During his junior year he was elected as a Varsity Cheerleader.

Randy said that being the Ti-

ger was time consuming and sometimes tiring, but he just loved it. The personality of the Tiger, during his term, was actually an extension of Randy's; Randy and the Tiger were synonymous.

All the skits that the Tiger did for adoring audiences were spontaneous. Thus, among his many qualifications, he was able to react to the environment of the audience and the game, as well as work with the rest of the cheerleaders. Randy said, "My job as the Tiger was to be funny and entertaining to the audience." Some games he admitted to performing better than others. The game that Randy felt he did his best at was the Georgia Tech game; however, because of the hot weather, he was not very ac-

tive at the Western Carolina game, so he labeled that as one of his worst performances.

"Being the Tiger was one of the most exciting and fun-filled things I've ever done," stated Fiale. It gave him a vast array of opportunities such as meeting people and travel.

Betsey Decker

Pep Rallies

As darkness fell the nightlife began to stir. The evening commenced with all kinds of parties and celebrations, but ended in one central location — the sacri-

ficial altar for such creatures as Gamecocks, Tarheels, Yellow Jackets, Catamounts, and Bull dogs. Called the amphitheater on normal nights, the masses of shadowed figures made their way to show their spirit, Clemson spirit, that was. Like a midnight meeting of the witches in Macbeth, the crowd gathered to chant the infamous incantation, "Give'm Hell Tigers!"

When the crowd had congregated, the ceremony began with the cheerleaders who had the "power invested in them." They transformed a jumble of noise into an all out cheering curse cast on the opposing team. The half-moon stage of white was splattered with several jumping figures of orange and white. As the figures danced and shouted,

The Chi Omegas show their Tiger Spirit at a pep rally.

their shadows eerily mimed their every move. The excitement their every move. The excitement off and on stage built to a thunderous roar. Hearts pounded; spellbound, each individual felt their lungs vibrate with every chorus cheer. The intensity increased to even higher levels with every new chant as the spirit of "Dear Old Clemson" rose to its peak. The spirit intoxicated the crowd; the uniform chanting bust into a spectacular display of Tiger pride.

The deed had been done. The spirit level reached a point where it positively reassured every fan, football player, and innocent bystander that Clemson was to be victorious. The trail of people trickled away from the amphitheater to the outer reaches of campus, with only the spirits themselves knowing when this would happen again.

J. Michael Barrett

Iptay's 50th

For most individuals, turning 50 years old is nothing to celebrate. But, if you are a member of IPTAY (I pay thirty a year), 50 years represents a struggle to the top. IPTAY began as a secret organization in 1934. The primary goal of the organization was to raise money for the athletic department, who at that time desperately needed the funding.

The early years between 1934-1950 indicated the need for unified direction. During this period, directed by executive secretary Gene Wilimon, IPTAY concentrated on increasing membership. They looked for individuals who had a real interest, love, and devotion to the University. To get these needed human resources, IPTAY offered a system of postage-free mail. This way members could mail contributions to

IPTAY without paying postage. This simple idea was responsible in the overwhelming increase in IPTAY memberships.

Today IPTAY is one of the largest athletic organizations in the country, grossing an average of 5 million dollars yearly in contributions. Most of the money is spent for physical athletic program improvements. One of IPTAY's more visual contributions was the additions of a new upper deck to the stadium.

IPTAY members constantly seek to be the best in everything that they do.

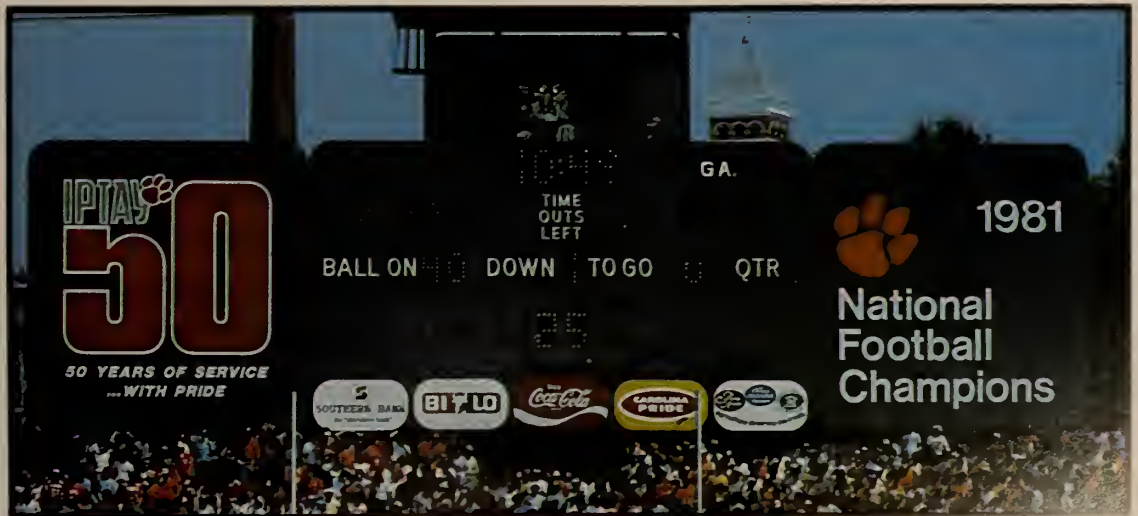

Coach Danny Ford appreciates IPTAY for their funding in such areas as: athletic meals, tutoring, and scholarships.

Happy Birthday, IPTAY!

Just as the hill is a tradition, here sits the scoreboard painted with IPTAY'S 50th insignia reminding all of traditional support in athletics.

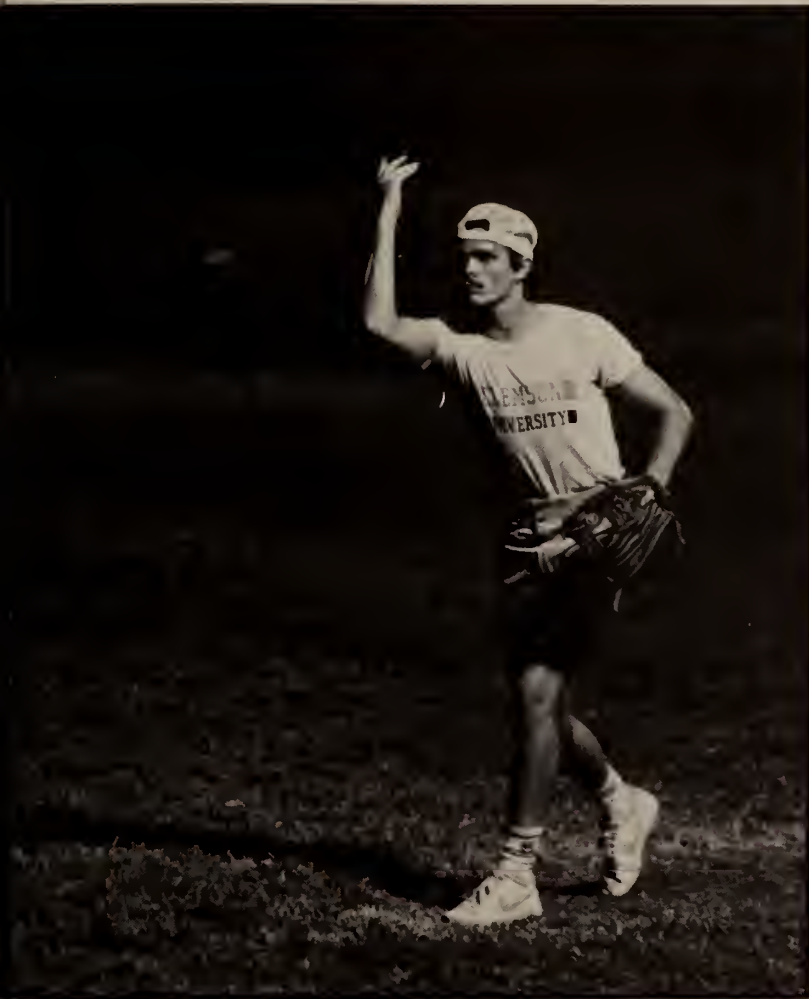

The BC softball team were one of the approximately 1,500 teams participating in Intramurals.

Beneath the "daylight" lighting system, teams can play well into the evening.

All Photos by Bill Spitzer

Slow-pitch softball is the name of the game behind the new upper deck.

Not everyone is having a good time. Students participating in the Emergency Medical Services program are always on hand in case of an emergency.

Intramurals, Not Just A Bunch Of Games

The Intramural Department organized in Fike Recreation center, was one of the largest events on campus that students could participate in as a group. Over 1,700 individuals from approximately 1,500 teams competing in major sports such as softball, soccer, basketball, and volleyball.

To participate in the intramurals held year-round, students had to form their own group. Size depended on the particular sport chosen. A new idea that contributed to the department's increased enrollment was the implementation of "Co-rec"; teams made up of equal numbers of male and female players. Coach James Banks McFadden, co-ordinator of the Intramural Department, felt students enjoyed the sports more when both girls and guys played on the same teams.

After the formation of the

group, a captain for the team must be elected by the players. This person was the communication link between the department and the team. "In this way", stated Coach McFadden, "We were able to avoid any problems that arose because of lack of information." Also, each team was required to leave a \$10 deposit at Fike. Each time a team forfeited a game, \$5 was taken out of the deposit to cover the cost of the referee and paper work done to make the games possible. Only after the necessary forms were filled out and a deposit was left was a team officially recognized by Fike. Then, when six teams signed up, they were joined to form a league.

Usually the sports followed a tentative schedule made up before fall semester began. Softball started the intramural events,

with soccer, and basketball. Volleyball wound up the year. This past year touch football saw the largest increase. This sport jumped from 11 to 40 teams and Coach McFadden felt this was due to the new co-rec program.

Each Friday morning, a round-robin schedule was posted for every league. The winners of the round-robin, which included 16 teams this past year, go on to the finals. Finals were played in the traditional double elimination style. Winners of the finals were crowned the intramural champions and given free T-shirts with a logo that displayed their achievement.

Although softball, soccer, basketball, and volleyball were the major sports played, Fike prided itself on giving students the opportunity to participate in tennis, racquetball, badminton, handball,

football, wrestling, and water polo, just to name a few. However, if there were no sports that Fike offered that interested students, Fike's policy was that any sport not listed in their offices that students wished to start could discuss the starting of the sport with the Intramural Department. In that way, Fike could truly say, "If we don't have it, we will talk about getting it."

Around The World In 365 Days

Regan's third year as President was characterized by troubles abroad and domestic, economic tension, and growing unrest within the Republican party. Although the President had not announced his decision to run reelection, most experts predicted that he would run again. Other potential candidates on his left included Senator Bob Dole of Kansas, Senator Lowell Weicker of Connecticut, and Packwood. To his right were candidates Jack Kemp of New York, Senator Jesse Helms of North Carolina, and of course, Vice President George Bush.

Critics of the Regan administration complained that the 1983 President was far from the elected 1980 Reagan candidate. The majority of the criticisms included faulty administration and faulty economic and foreign policies. This unrest was highlighted by a fracturing of the party's right wing.

One of the more controversial issues faced by the Administration was the "secret war" against Nicaragua's Sandinista regime. Administration officials denied charges that the United States backed rebel forces sought to overthrow the Nicara-

guan Government. Capital Hill lawmakers questioned the legality of the operation in Nicaragua. Citizens who expressed their concern for the growing involvement of the United States feared the United States would be drawn into a much larger scale conflict. However, in April, the United States did not involve U.S. military or intelligence personnel inside Nicaragua. This fact did not include the almost 30 million dollars that was used to train, arm, and equip the rebel forces.

Another problem faced by the Reagan team was the U.S. sponsored negotiations set up to rid Lebanon of all foreign troops. Negotiations were stalled for more than four months as the Middle East peace initiative of Reagan's was faced with a dangerous situation. Jordan's King Hussein and other Arab leaders refused Reagan's plan until Israel withdrew its troops from Lebanon. They also called for a halt in the expansion of Israeli settlements on the West Bank. The Arabs were convinced that Begin was using Major Saad Haddad's forces to stall peace negotiations in Lebanon and the overall negotiations as well.

Haddad was blamed for the nu-

merous shellings in Southern Lebanon — site of the UN peacekeeping force set up in 1978. Many casualties incurred by Lebanon were Haddad's work. Haddad reportedly said that he expected his army to grow to 15,000 men despite open domestic hostility. Thus Haddad posed a definite stumbling to Reagan's plans.

Despite troubles abroad, most Americans expressed confidence in the country's economic recovery. On April 22, the Dow Jones industrial average climbed to an all-time high of 1,196.30. Investors returned to the stock market putting new funds into securities.

Brokers found that their clients called them instead of them having to call their clients. The most commonly asked question by the public was not "when will the recession end," but rather, "how long can we expect the recovery to last?"

Several indicators of the economy emerged in mid-April that led to increased activity at Wall Street: total output of goods and services was on the rise; consumer prices increased only slightly; and personal income rose by 0.6 percent in March which was the

biggest jump since November 1982.

As domestic economic pressures seemed to be lifting, Americans were sent into a state of shock when a terrorist bombed the U.S. Embassy in Lebanon. The explosion wrecked the Embassy, killed 17 Americans and at least 44 Lebanese and others. For the Reagan administration, the attack presented another main obstacle in the peace-making process.

The attack on the Embassy came shortly after King Hussein of Jordan refused to join the negotiations with the United States, Israel, and Egypt. Reagan once again was blamed for not having been able to get the Israeli troops out of Lebanon.

The attack was thought to be carried out by either a band of radicals, known as the Islamic Jihad, or the Moslem Holy War-supporters of the Ayatollah Khomeini. Numerous other radical Palestinian guerrillas, numbering 9,000, were behind the violence in Lebanon.

The attack of the American Embassy in Beirut made it completely obvious that no U.S. diplomatic mission in the world was safe from attacks by obsessed

Pope John Paul II and Lech Wałęsa meet in Vatican City, early in 1981. Wałęsa and Solidarity members were allowed to visit Italy for one week in 1981.

More News

terrorists. After the 1979 hostage crisis, the United States stepped up security measures by fortifying most of the 250 embassies, consulates, and other missions abroad. However, all government attempts were unable to provide complete defense against terrorists who were undeterred by the threat of death. Officials said time and time again that no matter how strongly an embassy was fortified and no matter how efficiently the job was performed by the U.S. marines on inside guard duty, it was up to the police and armed forces of the host nation to protect the outside approaches to any foreign mission.

The Beirut bombing was the ninth attack on a major U.S. mission abroad in the last 10 years.

In the midst of violence, chaos, and strict martial law, Pope John Paul II began his seven-city tour of Poland. The trip was viewed as more than a religious pilgrimage to his homeland; rather, the hope was to rekindle exhausted national spirits and to persuade the military government to end its repressive rule.

However, the government of Poland saw the trip in a different perspective. Led by General Wojciech Jaruzelski, the government counted on the Pope's visit to prove to every one that civil liberties were being restored and would eventually make Reagan remove the damaging economic sanctions he and other allies imposed on Poland.

The Pope's visit was not met with open arms by all; arguments against the trip ranged from unnecessarily risking his life to risking the citizens of Poland's lives. Also, some critics felt that any such visit would worsen relations with governments because of his sharper speeches. Undeterred by warnings, the Pope went on with his scheduled journey.

Once again, just as Americans were hopeful of peace and friendly foreign relations, the Soviets destroyed Korean Airlines Flight 007 headed for Seoul. Passengers aboard included U.S. Re-

presentative Larry McDonald and 47 other Americans. The jetliner left New York shortly after midnight on a course described as normal. 3:23 a.m. was the last clear contact between the Japanese and the airliner. Three minutes later the Soviet pilots reported that they fired a missile and the plane was destroyed. No warning was ever given. Meanwhile, from the airliner, only an incomprehensible radio noise was heard, and then deadly silence.

The incident outraged Americans and all civil human beings around the world. Effects of the crisis soon became apparent;

negotiations for new arms agreements were stalled indefinitely between the United States and the Soviet Union, and prospects for a Reagan-Andropov summit, scheduled for the spring, dwindled.

Reagan soon found himself faced with growing domestic strife and emotions. Lawmakers demanded many punishments for the Soviets. All commercial flights to the Soviet Union were banned and some felt that the U.S. Embassy in Moscow should be closed.

Futile attempts were made at the United Nations to get the Soviets to provide a full explanation

of their barbaric attack. All in vain; the Soviets were caught between denial of the incident and flimsy excuses.

USS New Jersey, off the coast of Beirut, Lebanon is seen cruising off the coast pointing its 16 inch guns skyward.

Small Investment Yields Big Returns

"Alumni Awareness" was the focal point of the campaign. "We tried to show students what the alumni could do for them; in this way we hoped that they in turn would be good alumni," stated Jeff McNeill, director of alumni relations.

The campaign included the traditional Senior Challenge. Established in 1882, the pledge program assisted in providing increased financial aid and oppor-

tunities for future students. Each senior was asked to pledge \$100 over a five year period. "We wanted students to do what we called 'invest' a small part of their future in something that helped give them a future," explained executive officer George Moore.

The gifts received were pooled together with other unrestricted gifts to form the Loyalty Fund.

Gifts (money), used in any alumni program, rather than being specifically assigned were defined as unrestricted gifts. Goals were reached and records broken as the Alumni Center received numerous gifts.

Donated funds (gifts) were designated for scholarships and Fellowships, Faculty support and enrichment programs, academic reinforcement, student programs and projects, endowments and

investments, and other Alumni Association services. Restricted gifts totaled over \$737,000 while unrestricted gifts well exceeded \$737,000; previous all-time records.

Programs provided especially for students included: good stuff boxes for new students, wall cards containing important telephone numbers, grants given to Student Government, the Student Union, college bowl, and

"Orange Carpet Day." "If students were aware of what the Alumni Association did, hopefully, they would see a need to keep up the tradition," added Prescott Himton, the former Alumni Association Treasurer. The Student Alumni Council, SAC, met every other Sunday and planned each of these programs.

SAC members provided communication between students and Alumni. This group, which resembled the Alumni Center Board, worked closely with their parent model. "Each district on the Alumni Board had a specific number of representatives; in

SAC each student worked with their district's respective board member." As pseudo-Alumni, the students learned Alumni practices first hand. All Clemson students were eligible to apply as vacancies opened up. Each appli-

cant went through a short interview or screening process. Final selections were made by board members.

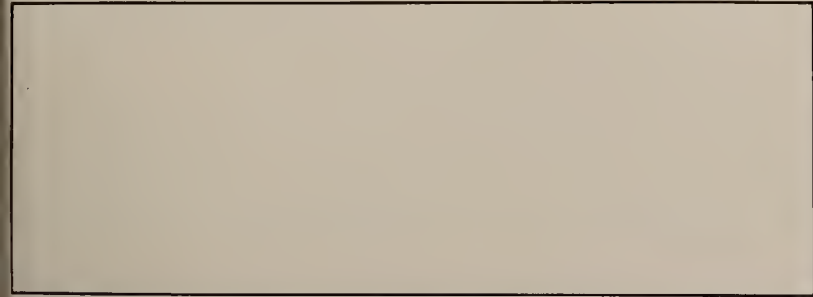

All activities under the Alumni Board and SAC became centralized in the Alumni building in November of 1972. The building was constructed with the Loyalty funds and donations received

from a three year campaign. Almost every night the lights were on in the building. Students, clubs, organizations, and others used the building in many ways. The lounge became a popular reception hall and meeting place for students and visiting Alumni. "Clemson World's" offices were headquartered there as well as

the University mailing center.

George Moore, alumni executive officer, concluded, "Taking pride in a school like ours is one of the main reasons our Alumni program is so successful. Clemson students become forever loyal Tiger fans; we believe as proud Tigers that we can reach any goal set." *Stacey Warner*

Frisbee's and those that can handle them with a great amount of skill and ease were prominent at Bengal Ball

Better Late Than Never

Bengal Ball, a Clemson tradition, finally arrived in April and was held at the YMCA beach. After last year without the "beach scene", students readily participated in the full day of activities. Not only was Bengal Ball a year late for some beach fanatics, but the actual event was delayed due to technical problems. Once underway, however, Bengal Ball entertained everyone until after dark.

The weather was beautiful, cold beverages were supplied in mass quantities, and the entertainers were better than ever. Tom Parks, comedian, stirred up the crowd with seemingly unending jokes. While many participants mingled with their friends, they were tough to get a laugh from; however, Parks' had his own style that caught everyone's attention.

The Butterfly Man was also present and in rare form. As a famous juggler, he handles the pins as well as the crowd with professional ease. Some of his jokes seemed a bit overly sarcastic, but they were all taken in the spirit of fun. His favorite target were the extremely non-tanned people trying to soak up some rays. Band members ended his act by throwing his jug-

gling pins into Lake Hartwell.

As the day-long festivities continued, Marshal Chapman astounded all with her fantastic voice. Her music was not the hard sounds of heavy-metal and not the lullabies of Lawrence Welk, but a happy medium which the crowd approved of overwhelmingly. One of her best selections was from Bob Seger; some felt that her renditions were better than Seger himself.

Pure Prairie League also made a special appearance. Providing the rock-n-roll, the band captivated the audience. After adjusting for the bad mix, the tunes were great and everyone was quite surprised at the sound of the band.

By the time Pure Prairie League performed, the weather began turning a bit chilly. Many participants left earlier than in the past because of the change in temperature. All-in-all, students, faculty, and other participants seemed to enjoy the University-sponsored event and eagerly await the next Bengal Ball.

Stacey Warner

Even with the chilly evening weather, Pure Prairie League warms up the April air.

Town Bars Add Life To Doldrums

"Where are you going to-night?"

"I thought I'd go down to the Corp. How about you? Where are you heading?"

"I'm going there too!"

These phrases became quite common after the Bookstore closed down in 1981 and the Corporation took its place after extensive remodeling. Painted bright green the bar attracted the "preppy" crowd. Its popularity could be attributed to many things. Its convenient location made it easy for students living on campus to walk there. Special prices and Happy Hour also persuaded campus bar-goers to go and indulge themselves. The upbeat atmosphere and dance floor were also responsible for it being picked most of the time.

What really made "The Corp" the nightspot of Clemson was the people who frequented this spot. Whether they went to dance the night away, to be with friends, or to simply enjoy a drink in a hopping atmosphere, the loyalty of the Corporation's customers could easily be observed on the weekend. Students could be seen standing in lines outside the doors waiting to get in to join the crowd, despite its being the only bar with a cover charge. A disc-jockey played popular music keeping their spirits up and going while the people mingled, danced, and had fun.

Even though there was "standing room only" most of the time, these people did not seem to mind. The atmosphere, music, and the company kept everyone coming back weekend after weekend, after weekend.

When approaching Ramada Inn off of 123 bypass, you might have noticed a small tavern across the street, and then again you might not have; however, a very well established bar was nestled in this location. Called Tiger Den, it had been at this site since the early 1960's.

Although this pub looked as if it had been in existence since then, it actually provided a very warm atmosphere — even to the

extent that many local people from Clemson had become regular customers. Aside from the local crew, a lot of college students "hung-out" there — mostly fraternity and sorority members.

Tiger Den also attracted customers from "days gone by." Many of Clemson's Alumni returned to their favorite ale-house to reminisce about their college days. Generally, the Den was the most crowded bar on weekends.

Unknown to many, the basement of this tavern had a fireplace, a bar, and tables. The majority of the people who went to this pub remained on the ground level which had various video/arcade machines, booths, televisions, and the main bar — all contained in a relatively small area. An outdoor deck also lead off of the back of the bar. On swamped nights, the porch provided a relief of fresh air and maybe a private conversation or two. Also, horseshoe-pits could be found behind Tiger Den.

Previously known for playing beach music, this bar changed its format. Songs from Top 40 played on the jukebox or a tape provided the music. The fact that the bar lacked a dance floor did not seem to be a problem because, for one, there would not be room for it and secondly, it was just a casual environment, not demanding a dance area.

The Den's Happy Hour seemed to be a favorite among many. One of its high-lights was during the hours of 3-4 p.m. on weekdays when free draft beer was available for ladies. There was always the opportunity to munch on various snacks while engaging in conversation. Most especially, people were simply content to go to the Tiger Den to drink a few beers or pitchers — whichever fitted the mood.

Papa Theo's, a restaurant and bar located at the Seneca Marina on Lake Hartwell, had a maritime setting and appealed to a mixed crowd. Its name came from the owner, Theo Capana. The restaurant, resembling a screened in

porch looked out over the water.

Of the college students who frequented Papa Theo's, most were juniors and seniors who could not handle the crowds and the rowdy atmosphere of the downtown bars. The Sailing Club also frequented this bar as they could sail over to the marina and stop at Papa Theo's for lunch or a few brews.

Papa Theo's played the music customers wanted to hear, usually keeping away from hard rock, funk, and beach tunes. People could bring in their favorite tapes to be played. Although there was no dance floor, the atmosphere was such that people could feel free to dance wherever they desired if they did so desire.

Happy Hour was everynight from 4-8 p.m. On Monday night the restaurant had a hamburger special; Tuesday night was health and food night. Wine cooler's were Wednesday's special when island drinks were also served. Import night and hors d'oeuvres night were on Thursday and Friday, respectively.

Perhaps the most interesting side-light to Papa Theo's arose when it came time to visit the restrooms. Instead of the typical labels of "men" and "women," the terms "outboard" and "inboard" appeared on the doors of the restrooms with no further explanations. Many a confused customer, with the brain a little "fuzzy" from drinking, stared perplexedly at the doors trying to decide which category they fell into.

Those who preferred a quiet, laid-back atmosphere of the older-crowd found that Papa Theo's was just that — a place to get away from the noise, the crowds, and the run-of-the-mill setting of the downtown bars.

Each year during the week of fall registration, students and all other University personnel were invited to participate in "Spitooon," a celebration of the "Redneck Performing Arts," sponsored by the Esso Club.

The Esso Club, managed by

John Bodiford, was the home of the Clemson Honky Tonk Sympathy Orchestra. During Spitooon the sympathy orchestra, a blue grass band, and a rock-n-roll band played music all day and night for the locals and students that attended the event. "Spitooon is a major event in Clemson, and every year it gets bigger and bigger. We offer a variety of activities during the three-day celebration. For instance, we have a tobacco spitting contest, clogging, and a beer chug-a-lug contest," commented Bodiford.

Surprisingly, most of the customers at the Esso Club were not students but University personnel such as professors, graduate students, and teacher's assistants. John Bodiford further commented that "the Esso Club provided its customers ACC and NFL games in color plus pool tables, electronic poker machines, and video games."

The Sloan Street Tap Room opened four years ago under the ownership of Jimmy Howard, Frank Howard's son. The atmosphere of this bar was a mixture of people — serving the "aging rock and rollers, the rugby team, and a few preps." Sloan Street was known for specials on imports. Monday night was Heinen night; Tuesday was Molsen night; and Wednesday, Moosehead was the specialty. Friday found all three imports as a special in the afternoon. If the urge to eat struck a visitor to this bar, sandwiches such as hoagies, hot-dogs, and cheese steaks were available. Also available were boiled peanuts, a common delicacy to many, but also an unknown taste to others. A juke box filled with rock and roll, beach music, and "off the wall, third world stuff" provided the entertainment. Thursday and Friday nights filled the Tap Room with the most business and Happy Hour was every evening until 6:00 p.m. Because of its location as the last bar on Sloan Street, the Sloan Street Tap Room was usually the last bar to become crowded. But this feature of less

There's always a friendly atmosphere at Nick's.

Still More Bars

crowds, and also imports, were two reasons to visit the Tap Room.

Located on Sloan Street, Nick's had been at its current location for eight years. Previously named the Golden Nugget, Nick's earned its name from Nick Vatakis, one of the owners. Milton Antonakas, the other owner, felt that Nick's as a name for a bar was better than M and N's (Milton and Nick's) or just plain Milton's, saying, "It's a typical name for this kind of place." Their place was one of a casual, laid-back atmosphere similar to the bars up north.

Nick's mainly appealed to the older crowd and had many regulars. The music provided by cassette tapes displayed a wide variety of tastes including the Stones, The Who, and Jimmy Buffet — the older, not often played kind of music. Beer, wine, and soft drinks were served as well as sandwiches, fried mushrooms, cornballs, onion rings, and kielbasa — something that no other place in town had.

Nick's had its peak of business on the weekends. Happy Hours were everyday from 11:00 a.m. to 6:00 p.m. except on home football weekends. Wednesday found imported Molsen for 75¢ and Michelob and Budweiser for 50¢. Both booths and stools were available for seating. As extra entertainment, a television set, pinball, and video games were provided.

Since Penny Annies began to compete with the other bars in walking distance of the campus three years ago, it had developed a distinct atmosphere. Penny Annies provided a laid-back, care-free atmosphere that many found pleasant to bring a date to. The crowd that frequented Penny Annies tended to be one of a different beat. They enjoyed dressing up, held an interest in new wave, and were out to socialize. At Penny Annies, music provided by a tape player played mainly new wave music and selected oldies. Groups such as "The Doors," "The Grateful Dead," and "Lou Reed" were also featured.

Previously a convenience store called the Store, Penny Annies became a bar three years ago. Beer and wine were served as well as snacks such as potato chips and pretzels. Specials started at 7 p.m. On Monday night, all imports were one dollar. On Tuesday, Hamms, the special, was 50¢ a can; Wednesday, Molsen cost 75¢. Thursday, Friday, and Saturday had Happy Hour until 7 p.m. The business in Penny Annies usually picked up around 9:30 p.m. every night, but Wednesday through Saturdays were the busiest days.

As an extra, two pool tables were available as well as video games and hockey games. Basically, Penny Annies was a popular bar "looking for the party crowd."

Four Paws existed to offer an atmosphere for relaxing, socializing, and recreating made it possible to survive the week.

Four Paws, known as the "pool capital of Clemson," was located in the University Mall. George Alexander had been the manager

for a year and a half. Doug Coleman, one of the bartenders, stated "Four Paws is a social bar with versatile music ranging from Michael Jackson to Hank Williams. This bar is very unique because we have the most pool tables of all the bars in Clemson so we consider Four Paws the "pool capital of Clemson."

This past spring, Four Paws held its Annual Pool Tournament which promoted and upheld the bar's reputation. Since the majority of its customers were college students, this annual event became more and more successful because of the student support. Ray Wrenn, another bartender in Four Paws, summed up the bar's atmosphere as being a "mellow bar on the upswing."

Earning the reputation of one of the most popular bars on campus, Tiger Town Tavern appealed to 50% or more of students. Six years ago Tiger Town was a bar called The Red Carpet — serving mostly the redneck crowd.

The size of The Red Carpet was about half the size of the current Tiger Town, and "a college student wouldn't even step foot in the door." But Lester Moore and Jay Jones, the owners, made the transition from rednecks to college students as smoothly as possible. They charged three dollars for a pitcher of beer, but if a college I.D. was presented the price was lowered to one dollar. Gradually, by this process and other outward changes — namely enlarging the place and changing the name — Tiger Town Tavern became the college bar with a strong "love of the young people."

The over-all atmosphere was loud and rowdy with albums cranking out the music. Popcorn, pretzels, and cheese crackers could be washed down with wine or tap, bottled, or canned beer. The hours from 12 to 7 p.m., Monday through Saturday, brought happy hour prices. Monday had an all night Happy Hour. On Tuesday, Shaeffer and Natural were 60¢. Coors and Michelob ran for 75¢ on Wednesday. Thursday night was Ladies Lock-up from

7:30 to 9:30 p.m. with a three keg limit. Tiger Town's busiest time was Friday night from 9 to 12 a.m.

Tiger Town was able to boast of being the largest seller of draft beer in the state of South Carolina. Tiger Town earned that title in 1979, 1980, 1981, and 1982 also gave the Tavern that title. The results for 1983 were not yet in, but Tiger Town was sure to win again.

College students were always looking for an inexpensive place to buy beer and other alcoholic beverages, and bars such as Quarters offered such an economical setting.

In July, 1983, Quarters, which was a branch bar of one located in Knoxville, Tennessee, moved into the University Mall. The bar, managed by John Farry, had a very comfortable atmosphere. Upon entering the bar, about a dozen video games lining the walls greeted the visitors. While socializing, customers could view two miniature train sets that constantly ran along a track which hung from the ceiling of the bar. These trains really attracted the attention of the students and professors that went to Quarters.

Throughout the school year, Quarters made several promotions for the sororities and fraternities. During Sigma Chi's Derby Day's, Quarters did a promotion which allowed the students to get beer for a quarter on Tuesday and Thursday of that week. Also, everyday except Sunday, students could buy beer for 25¢ if they had a quarter with the same year as the one displayed behind the bar.

Quarters definitely became the center of conversation with its videos, trains, and low prices. John Farry, the manager, stated, "We try to give the students good quality for their money with the best imported wines and beers. We sell our beverages at low prices so that we can be of service to the Clemson community."

Terry Windell

Two Undergrounds: Above And Below

Underground Clemson

Most students had heard the rumors of a place called Underground Clemson, but few had visited the place or knew much about it.

Underground Clemson consisted of a series of utility tunnels running under East campus from Lowry Hall to the Highrises. These tunnels provided the P-plant with access to water pipes, electrical circuits, phone lines, etc., without having to dig up the campus to get to them. In most places the tunnels were high

enough to stand upright in, wide enough to comfortably walk, and the floors were paved sidewalks.

Students were not supposed to have access to these tunnels, however, a few "adventurers" found that some of the frequent ventilation manholes were easily removed despite locks and other precautions taken by the P-plant to prevent this. Student visitors to Underground Clemson usually found a blank wall on which to scrawl their names. Over the years, the names of these adventurers built-up on the walls creating interesting murals.

Students who had not gone

"down under" thought that it would be a great experience. In actuality, Underground Clemson was very hot due to the steam pipes, very dark since they were unable to turn on the hall lights for fear of being caught, claustrophobic, and roach infested.

It was also very dangerous for students to play around in since the electrical utilities contained in the tunnels carried hundreds of thousands of volts of electricity to the whole East side of campus. The potential for an electrical hazard was great since these wires were all exposed for easier accessibility.

Even though students were not allowed "down under", there was always someone who figured that they were immune to the dangers. So coming back from a late night of studying, if you ever heard a loud clanging noise and saw about eight guys climbing out of a manhole in the middle of nowhere, you were not seeing things from too much studying; you were just witnessing a group of hardheaded "explorers" who had to find out for themselves that "Underground Clemson" was a big waste of time and not worth the effort or risk to explore.

Andy D. Penguin

Ace reporter, Andy D. Penguin, investigates these illegal marijuana plants found growing at a clandestine location.

The Penguin

from their private stash that they could easily part with.

Once the seeds were gathered, they had to be germinated. This was done by placing the seeds between moist paper towels. Care had to be taken to recreate the natural environment of the hot, mother earth; therefore, the seeds had to be placed in a warm area.

Upon sprouting, the seeds were placed in potting soil inside half-cut, two-liter bottles. The entire set-up was moved into a closet or an enclosed area, and then the room was encircled with aluminum foil. This intensified the light from either a strong florescent lighting system or halogen lights. But because of this direct lighting, the plants had to be watered daily to com-

pensate for the moisture loss due to the heat generated by the lights.

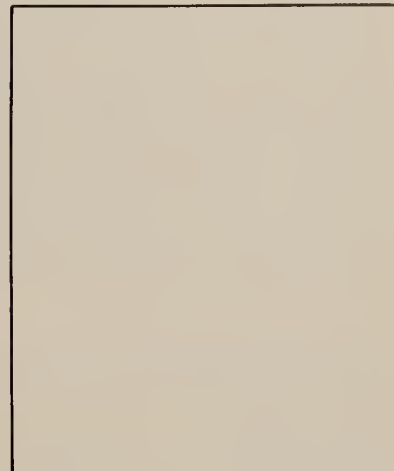

After a two week period the plants began to sprout. When they were approximately one foot tall, they were transferred into larger pots. The tops were pruned every two weeks to insure that they grew out instead of up, creating a bushier plant rather than a tall, spindly one.

The tops could be dried out and used for such favorite past-times as smoking, cooking, etcetera . . . One trick picked up during the investigation was that growers often decreased the drying time by placing the leaves into toaster ovens.

Now, by no means was this the only way to prepare this little "weed," but it was a good sample

method used by various growers around campus.

The Gutter, a coffee house located under the YMCA building, with a change of atmosphere and scenery; bean bag chairs replaced barstools and herb teas displaced alcoholic beverages. Music was provided mainly by local talent ranging from rhythm and blues to jazz and bluegrass.

Opened every Thursday night from 8 p.m. until 12 a.m., the Gutter provided a very relaxed atmosphere. Centrally located in the basement of the Holtzendorf YMCA, students had easy access to this great getaway.

The Gutter was organized and managed by the Coffee House Committee. Funded by the Union, manager Paul Brase and his 12 volunteers also sponsored events held at other locations such as Edgars, the Palmetto Ballroom, and Calhoun Courts.

Musical entertainment included soloists, duets and bands performing a variety of bluegrass, folkrock, jazz, and blues. Students provided about half of the entertainment while local talent supplied the remainder. Two of the most successful musical entertainers included the Maggie Reed Jazz duo and the Mason Dixon band performing bluegrass

music. Due to the rising cost of the entertainment, the Gutter charged a small admission fee, but it never exceeded \$1.

Other Gutter events enjoyed by students included a haunted house, Local Talent Night, poetry readings, and a Christmas sing-along. For those with children the Gutter offered a babysitting service for parents going Christmas shopping. Among the more publicized events was the Aldo Cella Wine and Cheese Tasting party. Admissions was \$4 which covered the "all you could eat" event plus entertainment by Aldo himself.

Special non-alcoholic beverages sold by the Gutter included exotic herbal teas, international coffees, and soft drinks. Although alcohol was not served and smoking was prohibited, the Gutter never had trouble getting students to attend their events. Students enjoyed the atmosphere; most kicked back in a bean bag, sipped tea, and listened to live performances of some of the best local talent in the Upsate.

Monica Theisen

The Gutter shows off its Halloween eeriness with a shape of things to come.

J. Michael Barrett

These ghoulish figures above and left are just a small sample of how the Union decorated the Gutter in the fashion of a haunted house.

A Break Where Some Remain

As the sun set on the horizon at a university where all the students have "disappeared," and the time period was in October, one must assume it was Fall Break. Only a few diehard students stuck around for the game, but the rest who remained usually had no choice in the matter. Either they lived too far to go home for three days, or somehow had gotten themselves in such a jam, or the school work had piled so high that to go anywhere would be pure suicide.

"I was all psyched out for my annual fall roadtrip to my home north of Chicago, Illinois," said Political Science major, Christine Holevas, "but three days before the break, the guy who was going to drive got himself sick with strep throat. I was sure stuck! My apartment was real clean the next week."

Even though Chris did not live

in the dorms, she would have been in luck if she did. The Housing Office allowed students who were remaining on campus during Fall Break to remain in their dorms without any additional costs. This was contrary to students who remained during Christmas Break who were required to pay an extra room fee.

Other students who were still on campus simply decided to delay their departure until after the football game or until that last blowout on Saturday night. Perhaps some students had a better time downtown rather than in their own personal homesteads.

Senior Computer Science major David Shiple was also planning a stupendous roadtrip, but "you must allow for changes," Shiple said. "Any minute things can happen and you can end up anywhere. Now I'm going to a football game in Athens — at

least it's different."

Emily Wood, a junior English major, from New Jersey did not go anywhere. "I just couldn't go home; it was too far. At least without anyone here, the vacation was relaxing."

On Tuesday evening, the cars, the students, and the noise returned to campus. Unlike the first of the year when everyone was moving in, the students arrived and started their routines as if it was Sunday night — after all, Fall Break was nothing more than a four or five day weekend.

Michael L. Puldy

The cars line up in formation prior to departure from Johnstone E and F Sections. Unfortunately, however, some students were forced to remain on campus. The dorms remained open for students who needed them, and a social life of some sort could still be found in Clemson.

Broadway South

Devoted to the production of live theater, the Clemson Players became well-known in theater circles. The past season's production of "American Buffalo" was the second in succession to be advanced to regional competition in the American College Theater Festival. "Bleacher Bums" advanced last year along with its scene designer, George Suhayda, who placed second nationally in competition. This year Karl Nolte won regional advance-

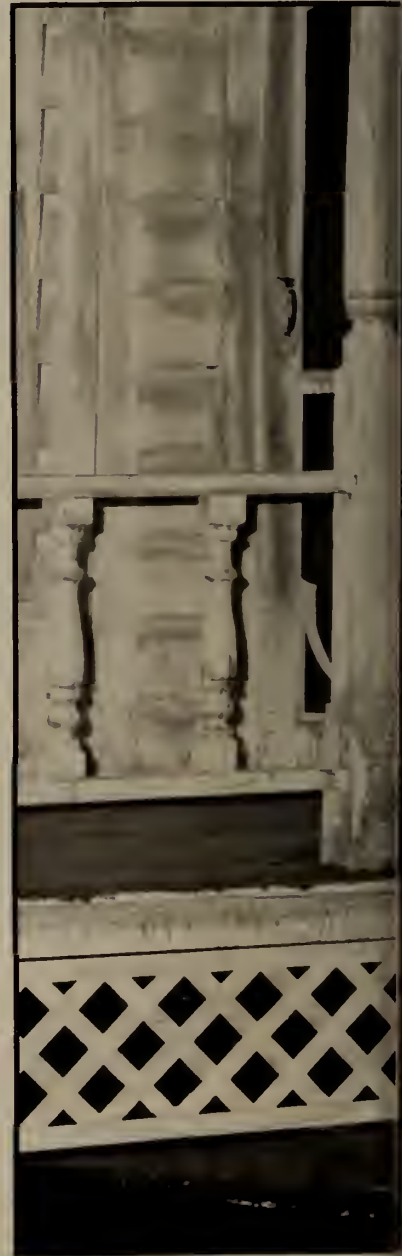

ment with his scene design for "American Buffalo." Although Clemson had neither a Drama Department nor a drama major, more and more of the Players' graduates were being accepted to graduate schools in drama, professional summer stock companies, internships, and professional acting schools.

How could this be? It boiled down to the training and skills taught at Clemson by a handful of dedicated, talented profes-

sors who spent endless hours and energy for and with their students. It was the result of the efforts of the students, faculty, and staff members who showed devotion to the love of theater and the experience of live-theater on campus. And, ultimately, it was due to the audiences who attended the performances and lent their support and appreciation to the Clemson Players. The course work, the technical skills developed, and the "experience"

of theater enriched the lives of all of them. The satisfaction of superlative effort, quality performance, applause, and the strong sense of "family" one felt as a member of a production company were regards not measured in grades, academic credit, or degrees.

During the spring 1983 semester the Clemson Players were privileged to welcome Ernie Zulia, a professional director from Ohio, to direct "Working." This

Alam (Morgan Molthrop) tells Madge (Teresa Davis) goodbye.

unique musical written by Stephen Schwartz, with whom Zulia had worked, was based on the Studs Terkel novel of the same name. The play touched the lives of actors and audiences alike with its sensitive tribute to the working person. "Working" was an attempt to seek out the inner feelings, desires, and aspirations of the waitresses, secretaries, steel workers, and corporate executives of America, increasing our awareness of the worker as a

human being — worthy of understanding, acceptance, and appreciation.

The second spring production brought another unique presentation, directed by Jere Lee Hodgkin, "The Rimers of Eldritch" by Lanford Wilson. The play was produced "in-the-round" in the Daniel Annex. "The Rimers of Eldritch" was a study in human conflict, passion, and frustration surrounding a murder in a small mid-western town. Unusual ef-

fects such as overlaid live and recorded conversations, character tableaux, lighting shifts from area to area as the action progressed, and the presence of most of the cast on stage throughout the play lent emphasis to the tone and essence of the play and left audiences with a sense of having been "right there in the middle of it all."

The Clemson Players inaugurated a full summer production season with the musical, "You're

All Photos by Steve McGarity

Chatting about last night's picnic Millie (Karrie Britton) and Howard (Robin Roberts) and Alam (Morgan Molthrop) gather on the porch.

Broadway South

a Good Man, Charlie Brown," which was particularly well-received by the community. This was the second musical produced within the year using the talents of Willard Cottrell as musical director. Clifton (Chip) Egan, the director, then presented "Dial 'M' for Murder," a thriller about murder for hire. This expansion to a full summer season extended the opportunities for involvement in live theater on campus.

With the beginning of the 1983-84 season, a patron subscription "club" was begun to allow supporters of the Clemson Players to express their patronage, receive season tickets, and enjoy opening night receptions with the director, cast, and crew of each production. Response was encouraging, and the "First Nighters" would continue the next season.

In the fall of 1983 a well-known Broadway play and movie, "Picnic," was produced on the Daniel Auditorium stage. Director Clifton Egan emphasized the energy of college actors with fully dimensional characters, ripe with nuance and human emotion. Set in a small town, the plot revolved around the arrival of a handsome but uncultured drifter. His presence threw off the fragile sexual balance of the two families and drove the characters to make disturbing discoveries about their lives. Sometimes termed a summer romance, "Picnic" evoked the familiar sounds of the waning days of summer and the transitional pains of sexual maturity.

The second play of the season was "American Buffalo" by Davie Mamet, a gutsy, hard-hitting play which was awarded the 1976 Obie and the prestigious New York Drama Critics Circle Award as "Best American Play of 1977." The action took place in a junk shop in a seedy section of Chicago where three men were planning to steal a valuable coin collection. The play was about loyalty and responsibility and the

Howard (Robin Roberts) tries to persuade Rosemary (Charlotte Holt) to take a "swig."

Group tells Howard and Rosemary goodbye as they leave for their wedding wishing many congratulations.

Broadway South

consequences of betrayal, with a dialogue that "had the glow of reality." Director Raymond Sawyer said, "I enjoyed working with the script very much. It has a little bit of everything. 'American Buffalo' presented me with my greatest challenge, but it also afforded me the most pleasure."

Students Robin Roberts and Teresa Davis presented two one-acts, "Laundry and Bourbon" and "Chocolate Cake," as their final projects in advanced directing. Performed in the Daniel Annex, these plays further developed the skills of some veteran actors

and gave some newcomers to the stage an opportunity for learning, growth, and experience.

The next production for the spring was William Shakespeare's "Measure for Measure," directed by Jere Lee Hodgkin, which promised to be a colorful, entertaining evening of theater with rich costumes, regal setting, and a large cast. It included the usual Shakespearean assortment of characters ranging from nobles to tavern-keepers, and bawds, all of whom were hilariously pitted against one another, the system, and themselves.

Ernie Zulia would return for the final production of the year as guest director for the blackbox presentation of John Guare's "The House of Blue Leaves," a dark comedy that was awarded the New York Drama Critics Circle Award as "Best American Play of 1970-71." One critic referred to this play as "far-out" and stated that the characters kept telling the audience more about themselves than they could tell each other. "The House of Blue Leaves" was presented in April.

Because of the hard work and

dedication of so many people, the Clemson Players achieved many things. First, they received national and regional attention by winning awards for scene designs. The theater also enriched the lives of those involved through the experience of putting on a production, and furthermore, with the addition of the "First Nighters," the community was allowed to do more than just enjoy the results of the Players' energies.

The Gas Band (clockwise from top left) performed at the *Black & Blue* event in New York City. The band's music is a mix of funk, soul, and jazz.

THE GAP BAND

Fans of The Gap Band and their opening group The SOS Band arrived early in anticipation for getting on the party train. But to many fans, disappointment as the long-awaited party train was far behind schedule.

By the time the bands did arrive, the crowd had lost its spark of excitement. To many, the most interesting event of the evening was a guy from the audience. Somehow his dancing resembled Michael Jackson—or at least he thought it did. The encouragement from the crowd increased

when a female in leather pants joined him in their rendition of "The Walk" by The Time. The fillers between sets seemed to please the crowd more than the actual music of the bands.

Nevertheless, The SOS Band did arouse the crowd. Their music was clear and enjoyable, the singing was great, but everyone sat in anticipation waiting for The Gap Band to enter the stage.

The Gap Band did enter the stage after another long wait, and the crowd seemed to fizzle out from the excitement. The SOS Band had set loose

When The Gap Band did enter the stage, the music was great, yet they were unable to reconstruct

the excitement of The SOS Band. Many of the fans were more pleased with The SOS Band's actions. Yet The Gap Band did captivate its audience, and the concert was overall enjoyed by most of the onlookers.

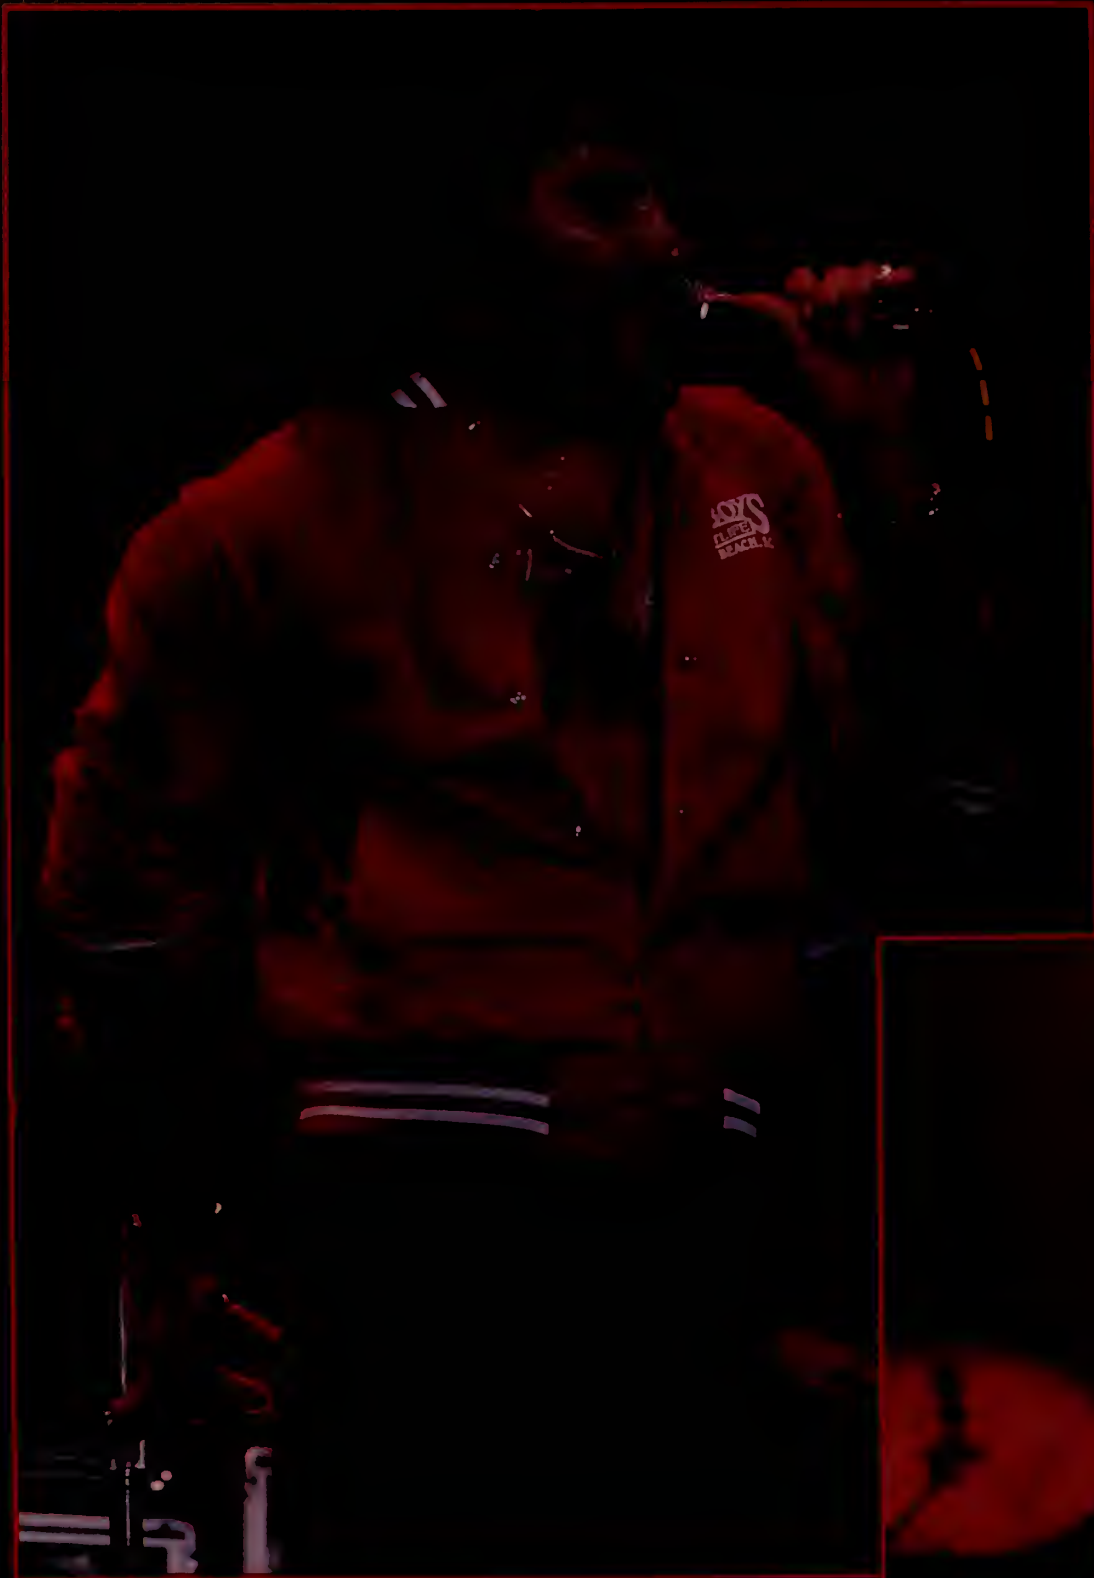

The concert was enjoyed by most; however, somehow the long wait caused more disappointment than anticipation. Waiting was a trait that all Clemson students learned, yet they should not have to wait for their entertainment as well.

Performing on the night of Jimmy's homecoming, the bands were not the main attraction. The crowd was more interested in the DJ.

HANK WILLIAMS, JR.

Although Country Music does not appeal to everyone, those who attended the Hank Williams, Jr. concert thoroughly enjoyed themselves. The concert opened up with Lynn Tivette who entertained the audience with his hit

songs "My Lady Love Me" and "Midnight Rodeo." After a short intermission Hank Williams, Jr. stepped onto the stage. From the opening song "Dixie On My Mind" to the grand finale "Family Traditions" it was an action

packed session that had everyone in Littlejohn twaying on their feet.

About halfway through the concert Hank's band left the stage and he sang some of his slower songs. Just as the audience was catching their breath the Bama band came back on stage to play some more. By this time Hank had pulled off his shirt and was beating a small drum to the rhythm of his hit song "Kaw-Liga." Toward the end of "Kaw-Liga" Hank put down his drum and played the rest of the song on his fiddle.

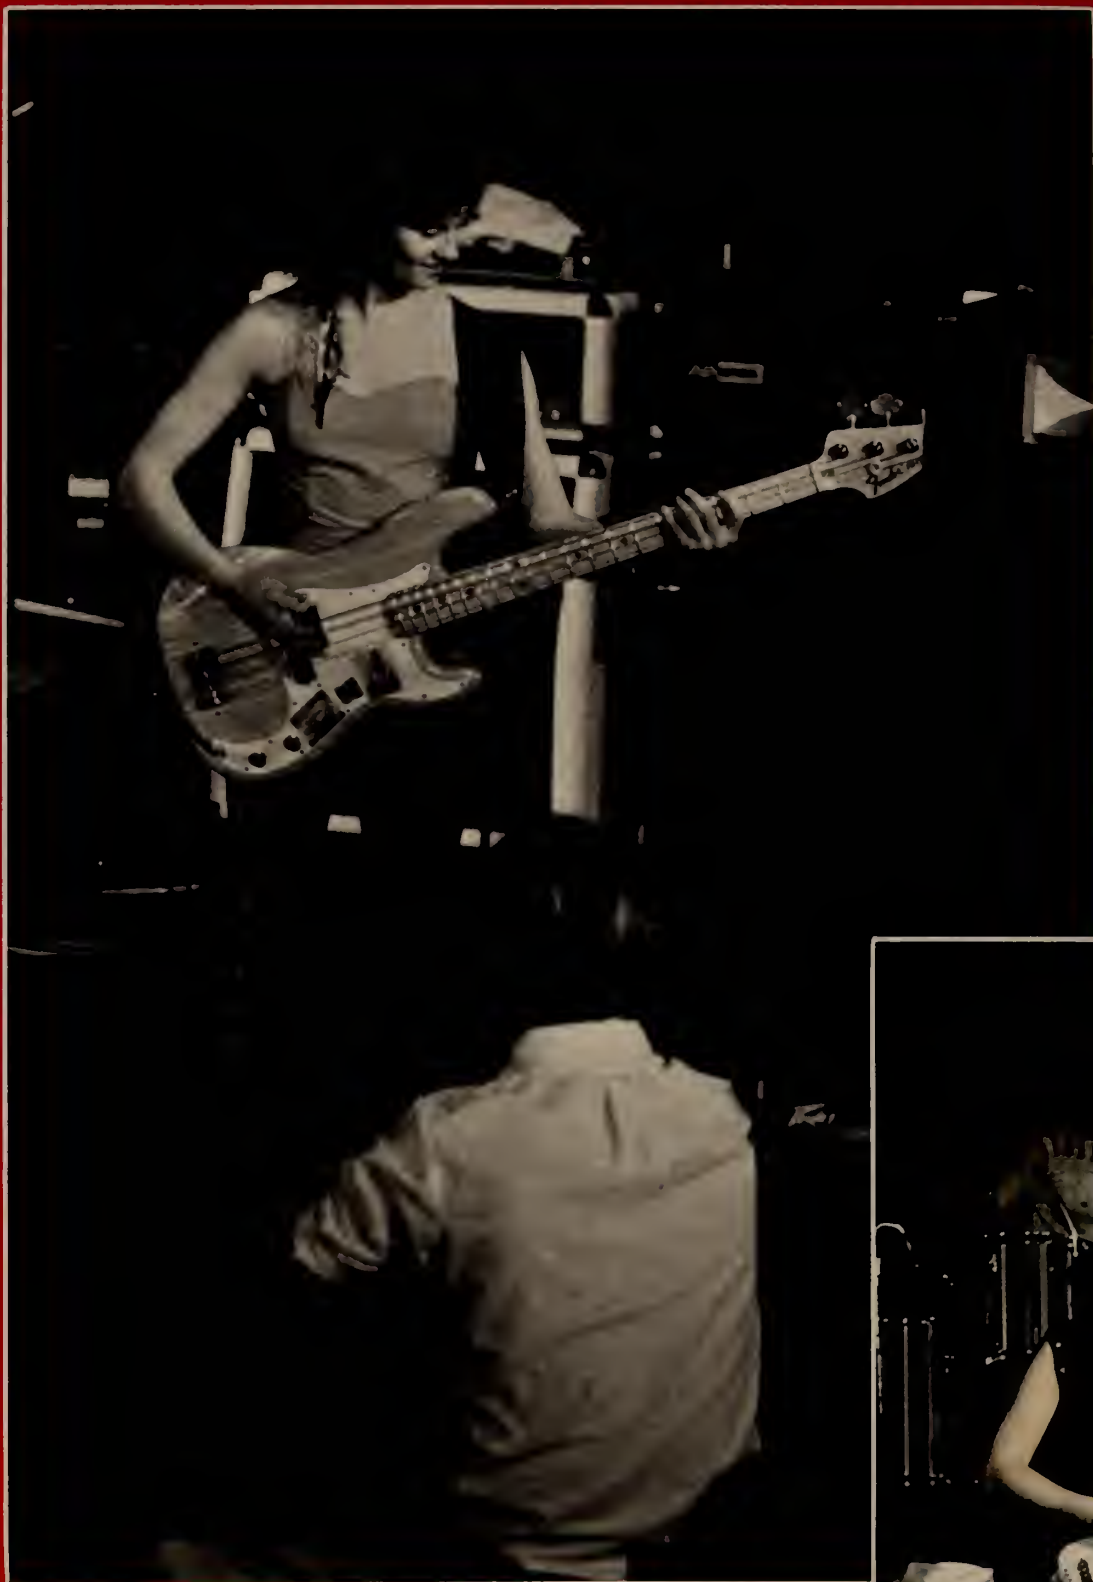

All in all it was a great concert and everyone seemed to have a good time. After it was over the biggest question in most people's mind was "I wonder when he will be back?"

—Katie Cook

The Bama Band played some of Hank's slower songs after most of the concert.

Throughout the concert Hank Williams, Jr. and his band kept the crowd entertained.

Viven makes it a practice to perform original music, but occasionally they are known to play some music by the Rolling Stones.

VIXEN

Billed as "hard dance," the group Vixen arrived at Tillman Auditorium in November to "rock" Clemson. The group had taken time out for a few concerts between filming for the movie "Hard Bodies" and producing their album entitled "Vixen."

The crowd for this relatively unknown band was small with

Janet Gardner, Vixen's lead singer, gives her all to the band's "hard dance" style.

only 50 to 75 people attending. But this did not hinder the band's performance any. Especially impressive were lead guitarist Jan Kuehnemund and bass player Pia Maiocco. The other members — lead singer Janet Gardner, drummer Laurie Hedlund, and rhythm guitarist Tamara Ivanov complemented these two, giving the all-female band a style all their own.

Vixen opened their show with their songs, "Pictures" and "Computer Madness," which were both well presented. They continued their concert by singing "Put Your Hands Where You Want" and the Stones' "Under My Thumb." All the music other than the Stones' selections was their original material.

Even though the size of the audience was disappointing, those who attended were captivated by this group which will always fit easily into the scene of rock 'n roll.

Cindy King and Heidi Andersen

Performing an outstanding concert are Vixen members Jan Kuehnemund, Pia Maiocco, Janet Gardner, Laurie Hedlund and Tamara Ivanov.

An Admiral And A President's Daughter

H.G. Rickover

Known as the father of the nuclear navy, Admiral H.G. Rickover was also known as an education advocate. Rickover was a guest of the Strom Thurmond Institute on October 6 and spoke to some 500 listeners at Tillman Auditorium.

In his oratory Rickover stated that he felt that the United States educational system must be strengthened. However, to achieve this, five needs first had to be met: 1. strengthening state and local high school requirements; 2. adopting rigorous and measurable standards at schools, colleges, and universities; 3. devote more time to learning the basics; 4. improve preparation of teachers and pay them more; and 5. parents, elected officials, and educators must accept responsibility for the future of our nation in giving "our youth the best education possible."

Rickover continued with the problems of the educational system along with possible solutions. For example, parents should make sure teachers assign homework that has purpose to it and make sure that it gets done instead of their children watching television.

Admiral Rickover, who received the highest civilian honor in the nation, the Presidential Medal of Freedom, left his attentive audience with the following quote, "No generation can confer wisdom upon its children. Each generation must first work to earn its own wisdom."

Ann Turner

Maureen Reagan

President Reagan's daughter, Maureen Reagan, spoke out for women's rights in Tillman Auditorium on September 27. She was sponsored by the Speaker's Bureau.

Acting as a go-between for her father's administration and women voters, Ms. Reagan claimed that women have been speaking out in mass and said that it may be making a difference.

When the women's rights movement was first started in the nineteenth century by Elizabeth Cady Stanton, many people were against it, including her own father. She payed them no heed and went on to help draft the nineteenth amendment to the Constitution granting women the right to vote. But somewhere along the line the fight for freedom was forgotten until the mid sixties when women started putting their energies toward ERA. At that time Maureen Reagan started fighting vigorously for women's rights and many other women not satisfied with menial jobs have been joining her and taking a stand for their rights. But she stressed that they must stick together and hold fast on their position. "We've done too much we cannot allow our-selves to be divided now."

Terry Windell

Maureen Reagan expresses her feelings on the political ERA issue.

Jon Pace

Sighting various examples in dealing with today's education system's problems, Admiral Rickover stresses proper amounts of "purposeful" homework are essential.

Scott Harke

THE BEAUTIES

"It is the biggest honor I've ever received; the whole experience has been the ultimate." Such were the spirited feelings of Liz Raubolt on being crowned Miss Clemson 1984.

Liz is a Sophomore from Greenville, South Carolina, majoring in computer engineering. She is a member of both Chi

Omega sorority and Central Spirit. During her spare time — which seems to be limited these days — she enjoys dancing and going to the movies. Liz is yet undecided as to what she will do with her computer engineering degree, but she does know that attaining a technical degree is extremely important to her future plans in the computer field.

Liz was sponsored by Central Spirit in the pageant which was held on the evening of February 7. She says she was "shocked" when her name was announced as the new Miss Clemson — Congratulations Liz — our newest Miss Clemson.

Dixie Day competition 1983 included the Miss Magnolia Pageant, held in April of the previous year. Each sorority sponsored girls for the pageant and in turn received points according to how their entrants placed. Last spring the Delta Gammas were victorious when one

of their members, Karen Humphries, was crowned Miss Magnolia 1983.

Karen, an Administrative Management major from Myrtle Beach, South Carolina, was a sophomore when she won the pageant. Besides being a Delta Gamma, she was also a Tiger Belle and a member of Young Dorm Council. Karen was "very excited and honored" when her name was announced as Miss Magnolia, and she was crowned by last year's winner, Dawn Tucker.

Beth Cousins, a senior political science major from Newberry, South Carolina, was crowned Miss Homecoming for 1983. Beth was sponsored by the Alpha Tau Omega fraternity of which she was a little sister.

She was president of the Alpha Tau Omega Little Sisters, and an active member of the Delta Gamma sorority. Beth could be seen at all of Clemson's football and basketball games of the past two years as an effervescent Varsity Cheerleader.

Beth felt that one of her best attributes was that of being an achiever.

This characteristic was personified in her talents; she had played the piano since she was eight years old and had taken tap dancing lessons for seven years.

Beth was crowned Miss Homecoming at Tigerama, October 7. At the Homecoming game against Virginia, during which she cheered the next day, she rode on the float at halftime with her court. Later that day Beth rehearsed a dialogue with Bob Hope and that evening had the opportunity to trade a few jokes with him in his performance at Littlejohn Coliseum.

This year's staff selected Sharon Babcock as Miss TAPS 1984 and sponsored her in the Miss Clemson Pageant where she took second runner-up.

Sharon, a senior from Fairfax, Virginia, was majoring in recreation and park administration. She transferred to Clemson in

1982 after attending Radford — a smaller college in Virginia.

Since arriving on the Clemson campus Sharon had pursued her love of sports by playing racquetball and tennis, practicing gymnastics, and attending Nautilus regularly. She had also taken an active interest in the activities of the Clemson Dancers.

Her plans for the more immediate future were centered around becoming a cruise director or an airline stewardess.

In 1983, the TAPS staff came up with the idea of selecting a Mr. TAPS. (In the past, only a Miss TAPS had been designated). This year, the tradition continued: Sal Argento was Mr. TAPS 1984.

Sal, a junior from Lincoln Park, New Jersey, was quite involved with the

Greeks on campus. He was a member of Beta Theta Pi fraternity, and served as the Beta's rush chairman in 1983 and as their president in 1984.

How did it feel to be chosen Mr. TAPS? Sal said his strongest emotion was "surprise

Luther Anderson, Dean of the College of Agricultural Sciences, was born and raised in a farming family in the lower part of the state, so it was natural for him to come to Clemson College which was an agricultural Land-Grant college in those days. Anderson received both his bachelor and master's degrees at Clemson but went to the University of Georgia for his Ph.D. Even though he traveled to Georgia for his Ph.D., Mrs. Anderson knew that her son was a Clemson man and would return.

Anderson held many varied hobbies which included sailing, painting, and

Bill Spitzer

"I never expected to stay here this long," said Harlan McClure, Dean of the College of Architecture, now in his 25th year as a dean at the University. But he did, and on October 15, 1983, Clemson celebrated his anniversary with a "Twenty-fifth Year Symposium."

McClure was brought to the University from the University of Minnesota when the professional architects in South Carolina decided the architecture department of what was then Clemson College needed to be upgraded and reorganized. Since then, the College of Architecture devel-

Suk B. Fields

Ironically, the farmer among the University's deans was not the head of the College of Agricultural Sciences. Ryan Amacher was Dean of the College of Commerce and Industry. According to Amacher, his farm could not be considered a large one with only 12 cows, three horses, two labrador retrievers, and a constantly varying number of cats.

Dean Amacher obtained his B.A. and Ph.D. in economics from Ripon College

cooking. The family sailboat, a 25 foot O'Day cruiser was kept on Lake Keowee. They enjoyed sailing for its peacefulness. According to Mrs. Anderson, "He is also quite artistic. He enjoys painting in oils but doesn't have enough time to dedicate to his painting."

Dean Anderson also excelled in cooking. He and his daughter, Pam, who graduated from Clemson with a degree in Food Science, spent much time cooking together. Barbecuing was only one of his specialties which he liked to fix for his family when he had the time.

Luther P. Anderson

Agricultural Sciences

oped into what Dean McClure called one of the most "unique" in the country.

"We have a very close relationship between the University and the professional architects in the state, which is unusual, but is one of the prime reasons for our success," he said. "There is also a warm relationship between the faculty and students, and that's important too."

Dean McClure said that he had made the decision to become an architect when he was 12 years old, and he has never regretted it. "I'd do the same thing again," he said.

Harlan E. McClure

Dean of the College of Liberal Arts, Robert A. Waller, who said the tiger paws "intrigued him" the first time he visited Clemson, went to Lake Forest College in Illinois with the idea of becoming a physics professor. But because of grades, which he claimed were best forgotten, he soon changed majors to history. Apparently the change was a good one because Dean Waller went on to get a master's and doctorate in history as well.

"I went to college on a debate scholar-

Terry Windell

Mary Lohr came to Clemson from the University of Michigan where she was the Dean of Nursing. She received her B.S.N. from the University of Pittsburg and then went to Teachers College, Columbia University in New York City for graduate study.

As the Dean of Nursing, Lohr has been very available to students. Her open-door policy is well known by nursing students and has done a lot to help students who need special assistance. She is well known as a student advocate and a person who can be counted upon to be helpful no matter how small the problem. This attitude of helpfulness and readiness to be available has helped to make nursing one of the most popular majors on campus.

Since coming to the University with her black poodle, Todd, "Dean Lohr has made a dramatic impact on the College of Nursing and the community," said Dee Evers, coordinator of Continuing Education and Development in the College of

Jeff Sweat

Henry Vogel, Dean of the College of Sciences, decided he wanted to become a physicist when he was a high school student in Greenville. He kept to his decision, despite a college career that was interrupted by a stint in the infantry during World War II.

"I liked physics in high school, and I still liked it when I took it in college my freshman year," Dean Vogel said, "I enjoyed it, so I continued in it, but it was never a carefully thought-out decision. I

ship. Unfortunately most of our debates were scheduled on Saturdays, and I missed a lot of Saturday classes," he said. "That, combined with the fact that I started out in sophomore-level physics classes led me to change my major my sophomore year."

"I never regretted making that change," Dean Waller added. "Now I'm a political historian, which means I can criticize politics without taking the responsibility for it."

Robert A. Waller

Liberal Arts

Nursing. Evers also described Dean Lohr as "an extraordinary leader."

When asked about her reasons for coming to Clemson, Dean Lohr replied, "It is seldom that a comprehensive and distinguished University is located in a beautiful rural area covered with lakes and forests. The opportunity to combine work in academe with the relaxed life style possible in a country setting was something I found very attractive." Lohr went on to say that "approximately ten years ago I visited Clemson for three days as a member of a review team under the auspices of the Southern Association of Colleges and Universities. Even then this special combination of academic, cultural and social opportunities in a country-rural setting existed. At that time I decided that if an opportunity for me became available at Clemson I would come. The opportunity came and here I am!"

Mary M. Lohr

Nursing

never thought 'I'm going to be a physicist and have an outstanding career in physics.' "

Dean Vogel received his bachelor's degree in physics from nearby Furman University and his master's and doctorate from the University of North Carolina — Chapel Hill. While he was at Furman, he was drafted, and served as a private-first class in the infantry until he was discharged because of wounds received in Germany.

Managing Pests Effectively

Known for its close connection with the agricultural community, the University's extension service and various experiment stations enabled farmers across the state and around the world to take advantage of numerous beneficial advancements. These advancements were direct results of research done on campus and at experimental stations across the state. One of the latest programs to come out of this research system was integrated Pest Management.

IPM, a system that relied heavily on scouts going into the farmer's fields to examine crops and check on and predict the approximate number of plant pests, began to take shape in the late sixties and early seventies in various land grant institutions such

as Clemson. It was about this time that the environmental movement began to develop and focus on pesticide use and the resulting detrimental effects on the environment. Probably as a result of pressure from environmentalists, legislation was passed granting Federal money to support IPM research. This money went for such things as specialized teaching programs and extension programs. The major objectives of this IPM research was to reduce the use of pesticides and find the necessary balance between increased productivity and decreased pesticide use.

Clemson really began moving on IPM research in January 1983. It was at this time that Professor Jere A. Brittain was appointed

head of research to act as a catalyst and coordinator of the research through the program itself, through other teachers, and through the extension service. His goal, to develop a degree program, was tentatively labeled Plant Health and would include a degree at the master's level. This new curriculum would be inaugurated in the fall semester of 1984. On the board selected to review the suggested curriculum were several environmental representatives. Professor Brittain hoped to achieve an environment conscious program so that the balance between pest control and environmental protection could be reached.

To understand the workings of IPM a series of steps must be understood. In the past

The Integrated Pest Management program is headed by Professor Jere Brittain.

IPM is involved in preventing, monitoring and controlling pests which plague the agricultural community.

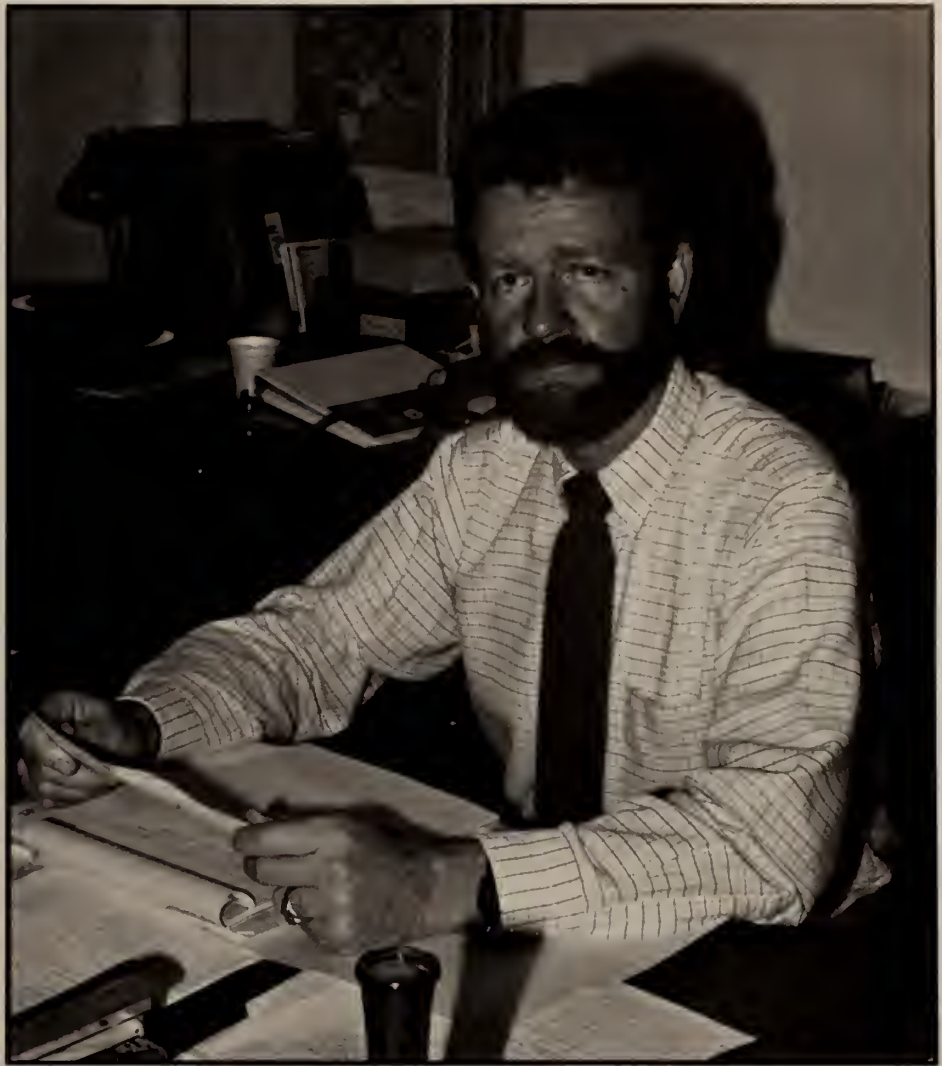

All Photos by David Shiple

farmers had used a spray schedule. After certain time intervals the crops were sprayed even though there was no knowledge of the presence of an undesirable pest. Spraying was done with an attitude of "it couldn't hurt," and prevention was seen to be the best cure. Often this spraying was unnecessary, and this was when the environmentalists stepped in. This was also when IPM began to develop. The steps included prevention, monitoring, and control. Prevention included rotating crops, destroying plant residues that could harbor pests, conserving natural enemies of pests by the selective use of pesticides, planting resistant crop varieties, and other cultural practices. The basic factor in monitoring was the use of scouts in the field to check plants, animals, and soils for pests. The use of knowledgeable scouts that had been trained to recognize pests was a substitute for spraying; once the pest level had been determined to reach a certain threshold, spraying was implemented. Scouting fields could be supplemented by improving pest forecasting and using knowledge of the weather, crop history, growth, and pest behavior and development. Recently, infrared aerial photography had also been used. All of this information could be entered into computers resulting in prediction models. With all of this information the use of pesticides for control could be limited to times deemed necessary to prevent economically important damage to the crop. Control also included planning to prevent or reduce pest populations later in the year, on the next crop, or in an adjoining field.

IPM had to be tailored for each farmer. Consultants advised the farmers on how to use the least possible amount of pesticides required to control the pests in their crop. According to Professor Brittain, in the past, "Pesticides have definitely been over used and used without discretion." Even so, pesticides, being necessary to aid in increased food production, maintained crucial importance in agriculture as the world's population showed future expansion. IPM was an attempt to reach this balance of necessary pesticide use, and once again Clemson demonstrated its concern and continued commitment to world improvement.

Edwin Allen

Professor Brittain believes that pesticides have been overused, but with this program they could effectively be controlled.

Superlative Teachers

Dr. Joel Brawley

The mathematics department held yet another Alumni Professor of great distinction, Dr. Joel Brawley. He continued serving the University after nineteen years as an excellent teacher of mathematics. He came to the University after receiving his bachelor's degree in engineering and his master's and doctorate in mathematics and statistics from North Carolina State University. His reasons for coming to the University were varied, but he said, "They wanted to build up their mathematical program which was relatively unknown, and they convinced me that they were moving in the direction that I wanted

to go."

Dr. Brawley's research involved algebra, and he had written over 30 research articles, stacked and separately shelved in his office. He was involved in a project of co-authoring a textbook with Dr. Leonard Carlitz, professor emeritus at Duke University on "Finite Fields," an area of algebra with applications in cryptology and coding theory. Dr. Brawley also put his expertise in mathematical cryptology to good use by working during the last few summers with the Department of Defense's National Security Agency working on problems, which for the most part, were of a classified nature.

Dr. Brawley liked to use gambling theories and music as effective teaching aids in the

classroom. He used dice and sometimes performed card tricks in the classroom to illustrate the study of probability to his students. He adapted Kenny Rogers' song "The Gambler" on his guitar as a fun attention-getter when he lectured about the theories behind gambling. He said that you should enjoy your subject and keep up with what is happening in your field. "I like mathematics. I like to teach it, and as simplistic as it may sound, I believe that working with students is the most important thing I do at the University."

During the past year, Dr. Brawley traveled with the Alumni Association's production of "We're Proud to Say Clemson." He sang and played the guitar to his own take-offs of popular songs such as "Tiger Town, You Always Be Home to Me." During the presentation he talked about the University and his pride in what the University stands for. "Clemson is a special place, I've been to lots of schools and given talks, but the spirit around here is really special."

The enthusiasm which Dr. Brawley projected about his music, his research, and his teaching showed what his being an Alumni Professor meant to the University.

Terry Windell

Using gambling theories as a teaching aid, Dr. Brawley, shows how he sometimes uses card tricks in the classroom to illustrate the study of probability.

Dr. Elizabeth B. Galloway

As a teacher of teachers, Dr. Elizabeth B. Galloway made great strides in her profession. In 1983 Dr. Galloway became the first female to receive an Alumni Professorship. The honor of an Alumni Professorship was bestowed upon faculty members who dedicated themselves to teaching and proved themselves in their various fields. When asked about the professorship, Dr. Galloway stated, "Teaching is important to me, and Clemson is important to me, and when the University recognized me for my teaching it was an honor."

Dr. Galloway began teaching at the University in 1968 in the College of Education. Her special research interests included the methods of teaching reading. She had been teaching the eclectic method of reading, a composite approach toward the instruction of reading. Dr. Galloway showed great interest in helping teach prospective teachers the "know how" of helping children to become "readers in the truest sense of the word — lovers of reading." She was able to take part in a special research project that involved modular and service reading for teachers. This research proved to be effective for continuing teachers.

Another way in which Dr. Galloway has been effective in her reading research and

teaching methods was in her production of over 15 publications which included two major instructional materials. Dr. Galloway had written a book which was placed in the Basal Reading series for Scott Foresman and Company. This book became a part of the continuing "Dick and Jane" series published by the same company. Dr. Galloway was also involved in numerous service programs. She was a member of Governor Riley's task force for Citizen Improvement in Public Schools from 1978 to 1982. She was also a member of the subcommittee for writing part of the Multiple E (Education Entrance Exam) which was given to all school teachers in the state before they were certified.

Dr. Galloway came to the University after receiving her B.A. at Erskine College, her M.A. at Furman University, and her Ed.D. at the University of Georgia. At the beginning of her career, Dr. Galloway taught primary school in the South Carolina public system for ten years. In fact, Dr. Galloway had several of her first grade students, whom she had taught to read in her undergraduate reading methods class, at the University.

When Dr. Galloway was nominated for the Alumni Professorship, many of her colleagues, students, and former students sent her letters of recommendation to the board who had the difficult task of choosing the new Alumni Professors. One of these former students, Peggy Gray, a 1981 graduate, summed up Dr. Galloway's dedication toward teaching by saying, "lastly, but cer-

tainly of major import, Dr. Galloway has a "happy heart" — an attitude toward the discipline of teaching reading and life that is infectious in the finest sense. What more could a student ask for than what this fine teacher does — teach from theory and by example."

Students Break Into Journalism

Journalism can be a very exciting career. A journalist has the opportunity to travel, meet many people, and to uncover an interesting story. A new program was initiated which enabled prospective journalists an opportunity to break into the field. The English department, working with "The Anderson Independent-Daily Mail," set up a Clemson News Bureau staffed entirely by students.

The program was initiated last year when Hank Nuwer left the faculty. He had often submitted stories from his journalism students to local newspapers. Gene Rogalski, News Editor for "The Anderson Independent" realized this was a loss not only for his newspaper, but for the students. He contacted the University and helped to set up the program. Dr. Robert Lamb, who was a new member of the faculty, worked with Rogalski in instructing the class.

For entry to the program the students were required to have passed English 231, an

introduction to journalism. From here the students were free to choose, or come up with the stories that they wanted to work on. The stories ranged from coverage of athletic events to local entertainment. This was an exceptional chance for students to acquire invaluable experience. They developed their writing skills and were able to see their own bylines published. This "break" into the world of journalism gave the eager reporters a chance to understand the entire process of publishing by meeting and work-

ing with the staff from "The Anderson Independent."

A makeshift newsroom was set up on campus for the young journalists. The instructors had telephones installed, rounded up a couple of typewriters and old desks. The most important piece of equipment, though, was a new Texas Instrument computer for relaying the stories from Clemson to Anderson. It was essentially a portable computer terminal that was used by the media.

The opportunity for students to learn by experience with a newspaper is invaluable.

A makeshift newsroom is set up in Daniel for the budding journalists.

All Photos by John N. Cox

Lamb is hoping the course will help instill "capable journalism skills." Lamb of Aiken, South Carolina, accidentally fell into journalism. After graduating from the University of Georgia with a degree in English, he taught high school. To make money during the summer vacation, Lamb got a job on a local newspaper. He eventually became a writer for "The Atlantic Constitution Recorder." For a change of pace, he decided to move with his wife and two children for a return to teaching at Clemson.

Rogalski was new at teaching. Aside from this course, he had taken on an introduction to journalism class. He had hopes of "turning on a few good students," like a professor once turned him on to journalism. Rogalski graduated from California State, where he acquired a B.A. in journalism. He worked at the "Savannah News Press" before coming to "The Anderson Independent." He loves teaching and has found the extra work very satisfying. Perhaps the only drawback was the added time that he was away from his two year old son and expectant wife.

Chuck Lawrence

Robert Lamb and Gene Rogalski began the special journalism class with the cooperation of "The Anderson Independent."

The students in the program choose their own story topics ranging from entertainment to athletics.

Printing Wiz

As a misplaced Californian, Dr. J. Page Crouch accomplished many things as a professor in the industrial education department. He boosted the University's prominence in the area of graphic arts into one of international recognition. This should be recognized as a great achievement when one considers that the graphic communication program began with a budget of \$3000 and one room without running water.

Dr. Crouch had never heard of Clemson

before he started teaching here. He received his A.B. and M.A. from San Diego State, and then went to the University of Missouri to get his Ed.D. Dr. Crouch feels that the Alumni Professorship "is a professional trophy. There is more chance to be recognized in professional agencies, so to be recognized by the University is special." Dr. Crouch worked many long, hard hours to get to the top of his field.

In order to achieve his success with the

graphic communication program, Dr. Crouch used the money he received to rent a printing press, buy a sink and a camera, had water piped into the room, and with students' help, put up temporary partitions to form darkrooms. Their special room was later condemned by the fire marshal because of overcrowding so some of the equipment was removed. At the same time technical advances were being made at a tremendous rate which also increased the de-

The use of computers in the printing process has become very prominent.

The graphic communication program has grown steadily with Dr. Crouch's help.

mand for graduates in the field.

Dr. Crouch discovered, quite by accident, that the numerous processes of graphic arts could be effectively presented by sound-slide shows to individual students and could be viewed at their own pace. Soon after he began this project the State Department of Education recognized their own needs for an individualized vocational study program.

By 1973, over 30 self study programs had been created with the help of federal support and also support from the Printing Industry of the Carolinas (PICA). As of the fall of 1983 over 30 more of the sound-slide shows had been added to the list. These

slide-shows were used at other colleges, vocational schools, and in industry throughout the United States and overseas. Dr. Crouch also has over fifteen other publications to his credit.

During the past few years Dr. Crouch has worked steadily toward broadening the selection of graphic arts classes. He achieved this goal in one respect with a new package and specialty printing course. This involved a lab where the art of flexigraphic printing was taught. Clemson is one of five schools in North America which has the capabilities of teaching this lab. The lab was taught in Freeman Hall with equipment that was made pos-

sible by contributions from industry.

During the past few years the graphic arts program, with Dr. Crouch's backing, was able to add more classes and more professors to the department in order to keep up with its growing needs. The growth of the new degree in graphic communications was a deserved reward as was the Alumni Professorship for Dr. Crouch's labors.

Dr. Crouch began with only one rented printing press and has built a superior program which holds international recognition.

Tollison Fills Abney Chair

Three years ago, the Abney Foundation of Greenwood, S.C. gave the University an endowment to be used in the area of economics. Sponsored by the Abney family of Abney Mills, Inc., this endowment totalled one million dollars. This is the only fully funded endowment in the University's history and the first specifically for economics.

The endowment funds are managed and invested by the University so that the investment profits can be used to provide funding to hire an acknowledged professor in the area of study specified by the foundation. Because of the way the endowment was managed, the capital was never depleted, but the money from the investments was budgeted each year for the use of the endowed chair recipient.

A chair recipient for the Abney Foundation endowment was chosen from applications taken after the University announced the availability of the chair. Dr. Bob Tollison, professor of economics, was selected by the University; but because of Dr. Tollison's work with the federal government, it took almost a year before he arrived at the University in March of 1983.

Dr. Tollison received his B.A. from Wofford College and his M.A. from the University of Alabama. Tollison, a native of Spartanburg S.C., then received his Ph.D. in economics from the University of Virginia. Tollison, who's research included such varied subjects as economic history, said that he was attracted to this chair because of freedom it allowed him to work on his area of research. Recently, he was involved in an indepth study of the economics of England and France in the sixteenth and seventeenth centuries. For the past year, he had focused his attention on what he called "the economic theory of law enforcement as applied to college basketball." This theory posed the question: "with the addition of the third official [on the court], did the amount of court crime, namely, fouls, go up or down and why?" After working for the Federal Trade Commission, Dr. Tollison did a great deal of research in "basically trying to explain what a regulatory bureaucracy does and why it does these things as opposed to

what it does when preached to or told what to do." He was also involved in the study of legislatures in which he was attempting to "model what legislatures produce — which is the law." He added, "No man or his property is safe while the legislature is in session." Dr. Tollison was writing a textbook for undergraduate students entitled *Principles of Economics*. He also wrote paper-length compositions pertaining to economics for journals.

Dr. Tollison described the endowment as "a fine arrangement" that was good for him

and the University. The University benefitted by being able to attract a quality instructor that would draw attention to the economics department and by having that professor's expenses completely taken care of year after year. Tollison, who was very grateful to the Abney Foundation and the University, said that he benefitted by having his teaching load and financial burdens freed so that his work and research could be furthered at his own pace.

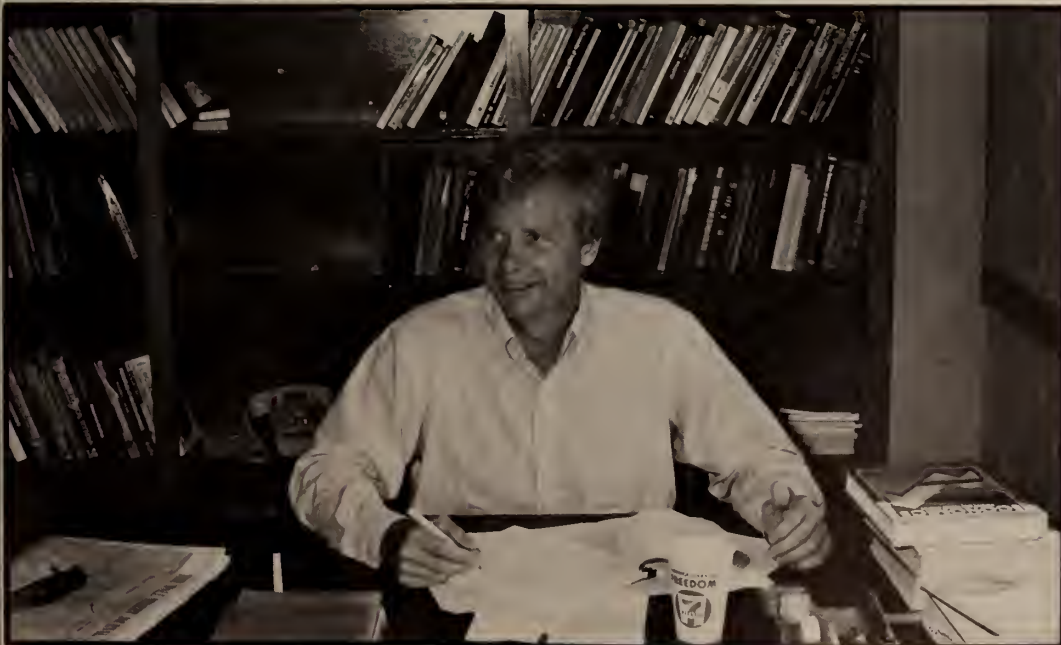

Richard Cauthen

The Abney foundation donated \$1,000,000 to be used as an endowment for research in the area of economics.

All Photos by Terry Windell

Jogging and wine making are two hobbies that Dr. Tollison enjoys during his time off.

Dr. Tollison feels that the endowment is helping the University's academic role in the country.

After Class . . .

"What does a professor do when he's not in class?" How often did you ask that about your professors? More often than not, they have many varied outside interests. Take for example, Professor Rich Reese of the Marketing Department of the College of Commerce and Industry.

Professor Rich Reese has spent the past fifteen years teaching marketing. Most of this time was spent teaching upper level marketing courses. A graduate of the University of Texas, Reese's teaching experiences had been quite varied. From Texas he went to Michigan where he taught at Oakland University for seven years. His next

teaching assignment was at Auburn where he spent three years. He then moved to Clemson. One of the things that struck Professor Reese was that Clemson had one of the highest student-teacher interaction's he had ever seen.

Professor Reese has done quite a bit of consulting work for major corporations in the marketing research field. This type of research could save a company many thousands of dollars by letting them know if a product would sell or not. Some of the corporations that Professor Reese has worked for include R.J. Reynolds, Texize, Kristal Hamburger chain, and Kodak. Often such re-

search for companies lead to academic papers. Professor Reese co-authored a paper with Will Stanton, also a marketing professor, on CONJOINT analysis which was published by the Journal of Business Research. CONJOINT analysis uses a computer to determine the effectiveness of advertising. Professor Reese also worked as a consultant for cities and states. One project involved establishing a sampling plan, using third wave census data that would fit the Birmingham area for the department of mental health. Professor Reese used a sample of 150 people to accurately determine the needs and attributes of an area with a population

Coming from Texas, Reese had a lifelong dream come true when his horse had a filly during the fall.

of 750,000. He also did consulting work for banks and hospitals. Recently Professor Reese and a marketing colleague, Professor Dave Sparks, were interviewed by a local television station concerning the proposed interactions of three local banks.

Professor Reese felt that his outside consulting work added great depth to his teaching by allowing him to introduce practical angles and examples into the classroom. One of his favorite examples of marketing research gone awry concerns a company that was planning to introduce barbecue sauce in an aerosol can. The company's marketing department said it would sell so they distributed some cans to employees to use and let the company know what they thought. The employees weren't impressed with the product as many of the cans exploded, creating quite a mess. The market-

Rich Reese poses with his wife Kathie and their two children, Meghan and Adam.

ing department failed to take into account the fact that most people put the barbecue sauce very close to the fire if not on the grill causing them to explode due to the heat.

Aside from his experience in marketing research and teaching, Professor Reese held quite a range of interests and activities. When at home, most of his time was spent with his wife, Kathie and their two children Adam, 9 and Meghan, 4. Born and raised in Austin Texas, he held a natural interest in horses. In early November, 1983 his mare had a filly. An interesting note is that even though he was born and raised in Texas, he didn't have a horse of his own until he moved to Michigan.

Another major activity concerned sports cars. He rebuilt a 1968 Jaguar. This included obtaining replacement leather for the seats and wool interior carpet from England. His interests in sports cars extended beyond restoring and into racing. His wife, Kathie, races an MGB GT and Reese races the Jaguar. The Jaguar was too long for the light slaloms so he bought a 1967 Datsun 1600 Roadster, a spartan car with seat, rollbar, and a radio. Both won trophies for their racing abilities.

Other interests include scuba diving, which he had not done much since leaving Texas and spending time on his 21 foot pontoon boat which he rebuilt and nicknamed The African Queen. The Reese household has also entered the computer age as Professor Reese used his Comodore to facilitate his marketing research.

Professor Reese shows that professors are "real people" in that they have interests other than school-related ones. Those students who took the time to become acquainted with their professors were not disappointed, and they even found that their college years were a little richer in experience.

Scott Harke

All Photos by Scott Harke

"The Best Of All Possible Jobs . . ."

Although the technical and industrial colleges tended to get most of the academic publicity around Clemson, exciting things were also happening in the College of Nursing. Robbie Hughes, assistant professor of Nursing, has certainly done her share in making those exciting things happen.

Specializing in pediatric nursing, Hughes said infant nutrition was "a subject near and dear to my heart." Accordingly, she recently completed a research project in which she studied factors related to breast feeding. Recently, Hughes' interest had shifted to methods of formula preparation and she was currently doing a study on this topic. The reason Hughes was so interested in infant nutrition is because she believed early eating habits clearly influenced later health in childhood and adulthood.

Besides her continual research, Hughes enjoys the academic environment as well. She taught two nursing courses on the junior level and was also continuing her own education. Hughes, who had been teaching at Clemson for three years, was currently pursuing her doctorate in Education.

Despite her busy career, Hughes still found time for her personal interests: spending time with her husband and two children, jogging, and making bread.

Professor Hughes' excellence had not gone unrecognized by her peers as she was a member of many honor societies, such as the Nursing Honor Society. She was elected Editor for the South Carolina National Association of Pediatric Nurses Associates and Practitioners (NAPNAP) and was responsible for editing their newsletter. She also served on the Council on Practice, a branch of the Nurses Association, whose function was to promote excellence in practice.

More evidence of Mrs. Hughes' dedication to her profession was her use of the media to stress the importance of good nutrition and child safety. She had written a number of articles for the column, "Living Well" which was produced by the nursing faculty members and published by many newspapers. She has been the guest speaker many times on the local radio program "Clemson Newswatch." Once she spoke on the necessity of Congress passing the child safety seat law and last spring she discussed the meningitis outbreak which was then alarming parents in the upstate.

Use of the media has enabled Mrs. Hughes to stress the importance of using child safety seats.

"Coping skills" should be stressed to children in order to alleviate problems during adulthood.

When questioned about her approach toward health care, Hughes replied that she was a "definite believer in positive health practices." She emphasized the need to teach children "coping skills" such as exercise and stress management, to deal with life's inevitable conflicts and disappointments. Hughes strongly opposed the rise of fear, threat, and deception when dealing with children.

This outlook seemed to sum up Professor Hughes' attitude toward her own life, of her career as a clinical nurse/professor/researcher, Hughes claimed: "when you combine the opportunity to see patients with the intellectual stimulation that comes from students and the possibility for research, I have the best of all possible jobs!"

Susan Kennedy

Hughes enjoys the stimulation of teaching, research and interaction with patients.

Hughes has been involved in special research on the methods of formula preparation and infant nutrition during the past year.

Magazine Expands Literary Horizons

With the publication of the fall issue, the *South Carolina Review* celebrated its tenth anniversary. Also celebrating the same anniversary were the two co-editors, Dr. Robert Hill, associate professor of English, and Dr. Richard Calhoun, Alumni Professor of English. The magazine, published twice-yearly, was considered a little magazine. It featured critical articles, scholarly articles, and creative writing such as poetry and short stories. The *South Carolina Review* was started in 1968 at Furman University by Alfred Reid. It was intended to be a joint effort between Furman, Clemson, and the University of South Carolina. However, it ended up being an effort between Furman and Clemson. The *South Carolina Review* subsists on Grants from the National Endowment for the Arts, the Coordinating Council of Little Magazines, and from funds from the Department of English and Liberal Arts College.

In 1973, Reid decided to retire from the magazine. At that time, Calhoun, who had been assistant editor, suggested that the magazine be moved to Clemson. When all the details had been worked out, Clemson

became the new home of the *Review*, and Calhoun and Hill were the new co-editors. Since that time there had been three managing editors: Dr. Frank Day, Dr. William Koon, and Dr. Carol Johnston.

Dr. Calhoun said he had strong feelings for the little magazine. He was aware of the tradition of such little magazines as the *Suwanee Review* and the *Virginia Quarterly Review* and wanted to uphold a strong tradition. Calhoun said that the *South Carolina Review* was a little magazine in that it should help to discover new writers. At the same time they tried to stay in the tradition of other South Carolina little magazines such as the *Southern Quarterly Review*. However, Hill and Calhoun found something out when they took over the *Review*. "What we found was that three people could not do a magazine four times a year." This was one of the main reasons that the magazine was only biannual, but a lot of work still went into those two issues.

Since its beginning the magazine went from a 76 page paper to one of over 120 pages. But the percentage of works submitted to works printed was still about 5%. Approximately 10,000 pages of manuscript were received from all over the nation, according to Hill. Of these, only about 200

would be printed. Calhoun said that the *Review* had become almost a faculty project as English faculty members helped them read and proof manuscripts, making their job a little bit easier.

Some of the authors featured in past reviews were Steve Dixon, Eudora Welty, William Stafford, and Roseanne Coggeshall. The *Review* had published Joyce Carol Oates, Elder Olson, and even an unpublished work by the late Flannery O'Connor.

"When the first issue came out, we thought it would have all sorts of impact," Hill said. And although it really did not, he was pleased with what happened. The *Review* has been cited by other magazines in conjunction with the works it has published. It gained a reputation as a solid magazine, and was becoming more recognized nationally, perhaps even internationally.

Recognition coming to the *Review* likewise came to the University concerning extensive research that had been done on James Dickey. The *South Carolina Review* was bringing notice to a school whose "literary background was not that great," according to Calhoun.

In fact, Hill said that very little work had been published by the *Review* from graduates. Both pointed out that the competition

Singing is only one of Dr. Hill's many hobbies.

All Photos by David Shiple

Dr. Calhoun wants to uphold the positive image of little magazines in the state.

was stiff and that a graduate of Clemson was given no special considerations. However, both were proud of the people that they had published. "It's pleasing to watch the growth of the reputation and the community of writers that you connect up with," said Hill.

Calhoun and Hill helped to bring more discussions of the little magazine to meetings of the South Atlantic Modern Language Association attended by other little magazines such as the *Georgia Review* and the *Suwannee Review*.

Kevin Taylor

"It's pleasing to watch the growth of the reputation and the community of writers that you connect up with," said Hill.

According to Dr. Calhoun recognition has been brought to the University by research concerning James Dickey which was published in the Review

Robots Take Over Cook Lab

Clemson has long been known for its top-notch engineering programs, having produced literally thousands of proficient engineers through the years. Now, thanks to a generous donation from a loyal Clemson alumnus, the University might be gaining a national reputation as a leader in the field of robotics engineering.

Dr. Frank W. Paul and Dr. John Luh were recently named to hold the University's prestigious McQueen Quattlebaum Professorship in Engineering. Paul, a mechanical engineer, and Luh, an electrical engineer, are both nationally recognized as leaders in robotics engineering. A major part of robotics engineering involve the application of robots to manufacturing tasks.

"It is apparent that the country and state need more efficient methods of manufacturing," said Dr. Charles Jennett, Dean of the College of Engineering. "Robots could lead to many advances, including the creation of a safer, cleaner, manufacturing environment."

The McQueen Quattlebaum Professorship was established in 1973 through an endowment by Alex Quattlebaum and his wife Louise. The original agreement was for the endowment to be used to support a professorship to honor his father, the late McQueen Quattlebaum. Alex Quattlebaum, a native of Conway, South Carolina, and a 1934 graduate of Clemson, has served as a Clemson trustee and member of the South Carolina Commission on Higher Education. His father received his B.S. degree in civil engineering from Clemson in 1909. During the depression years he was the chief engineer for the companies building the Saluda Dam.

The initial search for a suitable professor to hold the post proved unsuccessful, and the position remained unfilled until recently. In 1982 it was determined that the endowment could support two professorships. A university committee conducted another nationwide search before deciding on Paul and Luh.

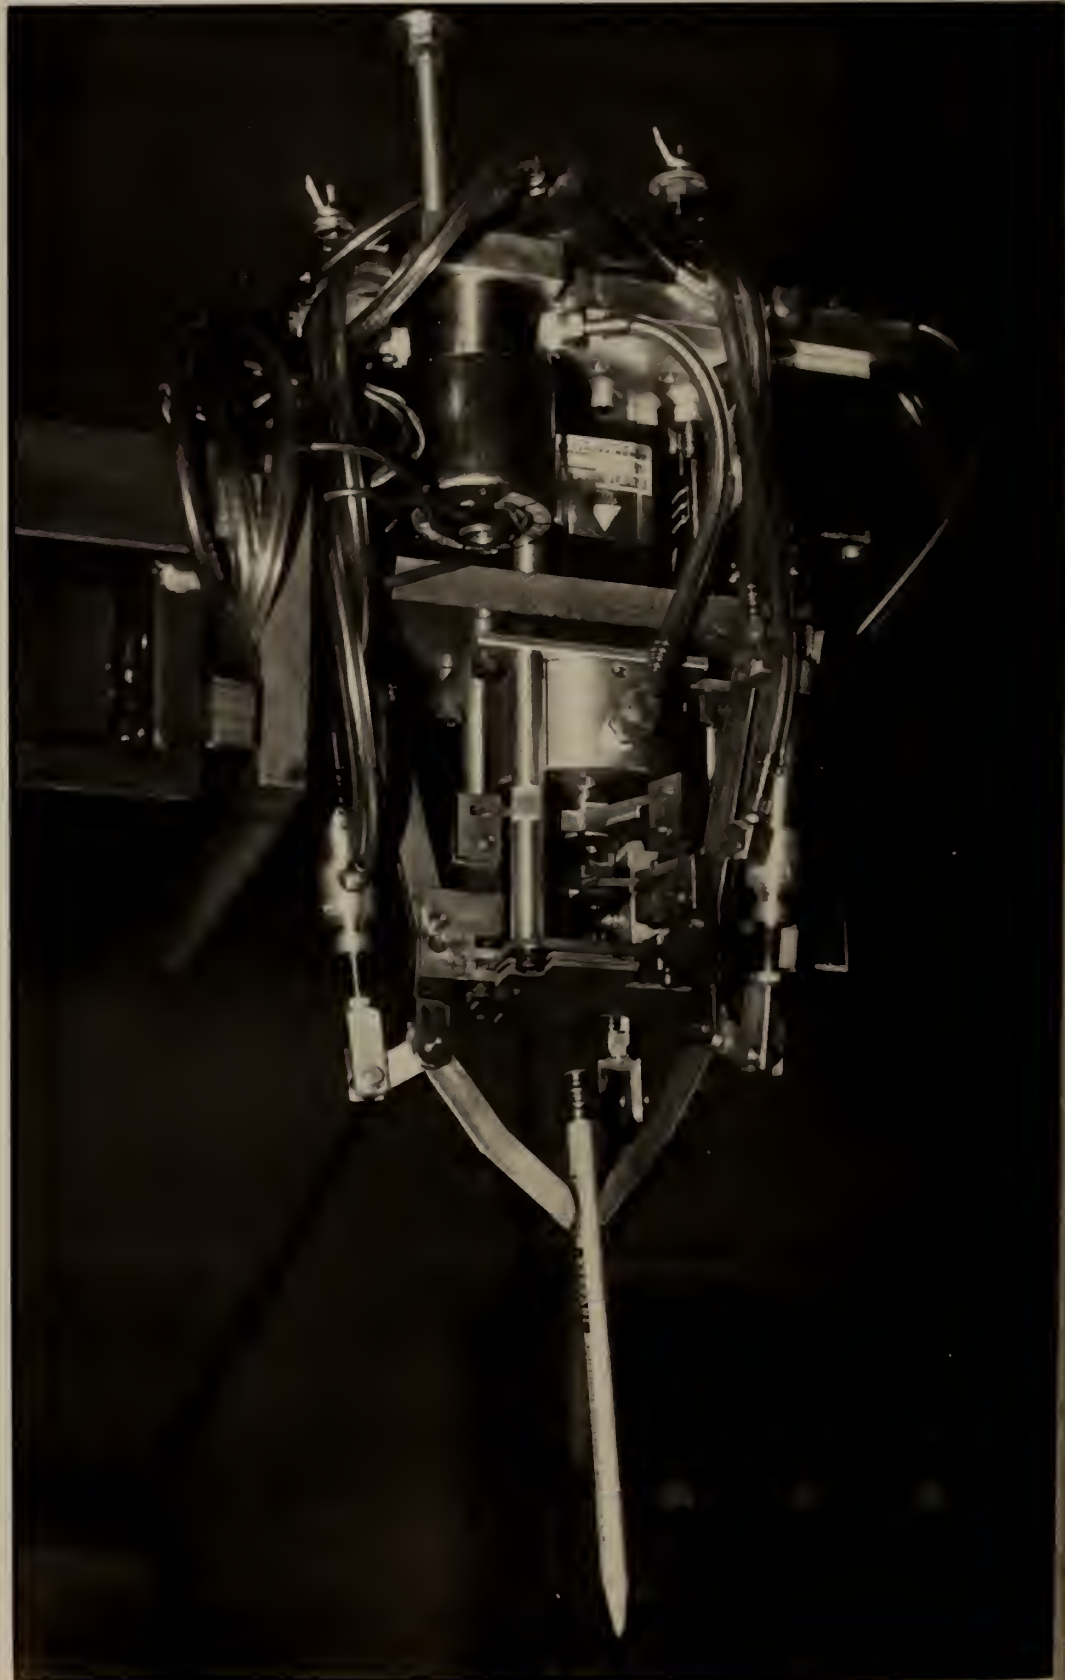

In securing Paul and Luh to hold the professorships, Clemson obtained the services of two outstanding engineers. "Due to their publications and reputations," Jennett said, "they have given Clemson the beginning of a national reputation in the area of computer aided manufacturing."

Dr. Paul received his B.S. and M.S. degrees in mechanical engineering from Pennsylvania State University and a Ph. D. in the same field from Lehigh University. He has taught at Carnegie Mellon University and Lehigh University and worked extensively

with private industry. He has been a professor of mechanical engineering at Clemson since 1977.

Paul sees robotics as playing an integral role in the future of manufacturing, with

many of the advances coming in the form of more sophisticated sensors for robots. "In the future, we would like to add vision sensors, tactile and touch sensors, and proximity sensors. Work is currently underway in a

The University owns two robots which are housed in the second floor Cook Laboratory.

number of these areas," according to Paul.

Dr. Luh received a B.S. degree in China, a M.S. degree from Harvard University and a Ph. D. from the University of Minnesota. He is the author of more than 100 publications on computerized mechanics and robotics, and has taught at Harvard, Purdue University, and the University of Minnesota. He has held visiting professorships in Germany and at the Massachusetts Institute of Technology.

"We are working with the second generation of industrial robots, enhancing their capabilities. Ultimately, I would like to see robots work as a team in the manufacturing environment," Luh said. "In the future, robots could be performing the tedious but labor intensive tasks."

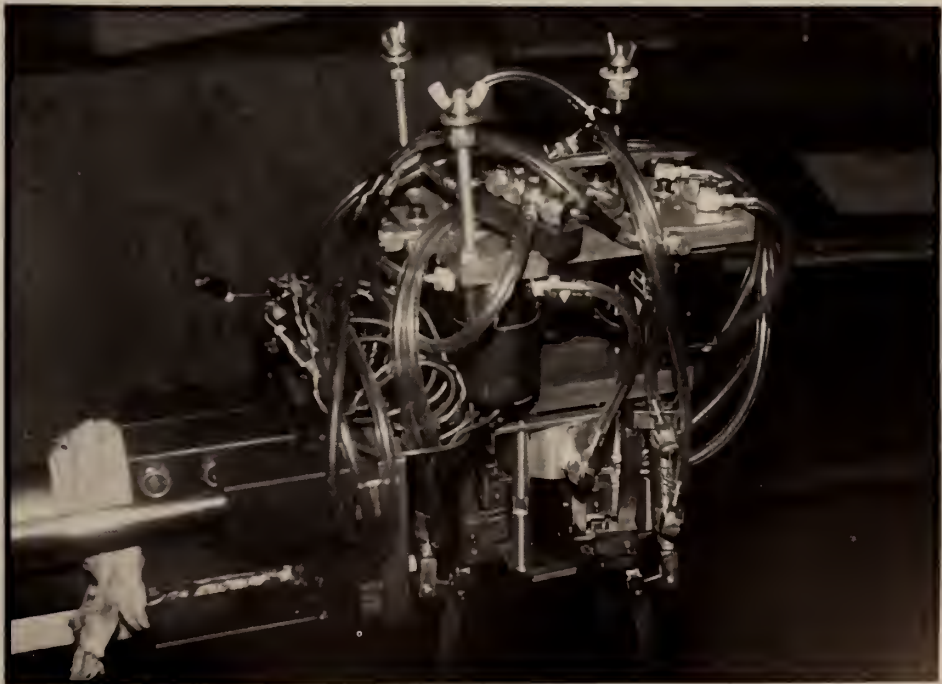

Clemson presently owns two robots, including an IBM 7535 industrial robot acquired in the past year. Long range goals for the University included renovating the second floor of Cook Laboratory and dividing it into a Robotics and Machine Automation lab and a computer manufacturing network lab. The facility would be jointly run by the Mechanical Engineering and Electrical and Computer Engineering departments. Other goals included expanding course offerings in robotics and computer aided design at both the undergraduate and graduate level.

In addition to heading a cooperative research effort by Clemson's Engineering Center for Automated Manufacturing Technology, both Paul and Luh would continue to teach. "They are both excellent teachers," Jennett said, "and will be generating new knowledge to serve not only the students, but the state and country as well."

Terry W. Fairey

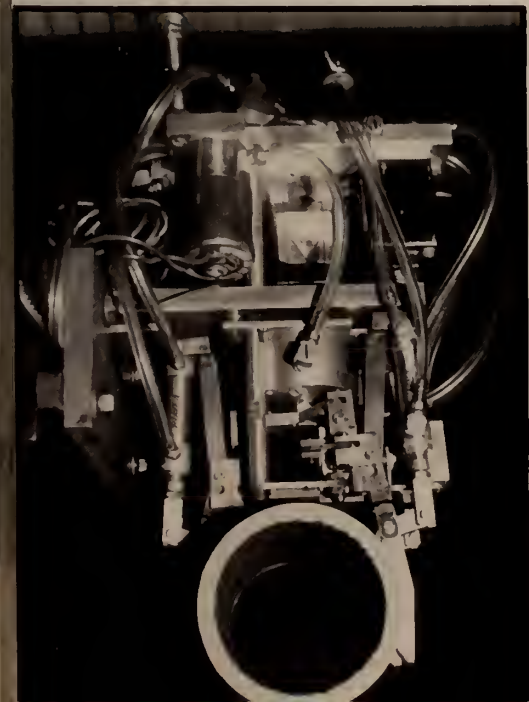

Dr. Luh and Dr. Paul are both nationally recognized as leaders in robotics engineering.

Teacher Of The Year

"It was really a total surprise for me when I was announced Teacher of the Year," stated Dr. Rex Cottle. Carol Cottle, his wife, said that the award meant everything to her husband because the student body had bestowed him with the honor.

As the head of the Department of Economics, Dr. Cottle did not have the opportunity to interact with as many students as other teachers, but he made an extra effort to help his students. As administrator, Dr. Cottle handled a number of student affairs ranging from advisor to assisting in the recruitment of various types of athletes. "Students play a big part in Rex's life," Carol explained, "even though he was involved in extensive research projects, gave over twenty speeches last year, and oversaw the soliciting of funds for the department, he

never lost touch with his students." Dr. Cottle received numerous letters from students who had him as a teacher that thank him for giving them the background for real-world experiences which they encountered in their new careers.

Dr. Cottle also helped to advise students who were thinking of changing their major or who were deciding on a particular career. If you could catch him in his office Dr. Cottle would find the time to help any and every student that came to him.

When not acting as administrator, Dr. Cottle kept up to date on the changing economic philosophies by engaging in several research projects. This year he was working along with Dr. Wallace in the field of price controls set by the government and their effect on the economy. He had also gath-

ered data for empirical evidence on the concentration ratios that were used to measure the amount of collaboration between various companies within an industry. "The evidence that has been gathered supports the theory that these ratios do not adjust international transactions," explained Cottle. As far as publications go, he was in the process of putting together a book which he felt would "have an impact in the field with regard to the economic impact of unionization." This came about partly because of the legislation in Texas and Arizona which cites examples of a fall in real wages as a cause of an increase in unionization.

Dr. Cottle believes that with all those activities, he had to make the most of the time that he had for his family. Carol and Dr. Cottle have two boys; Rex Jr., age 8 and

All Photos by Jim Porth

He tries to "focus on the quality of time he devotes to the boys and the quantity." Here he and Carol share with Rex Jr. and Kile.

There is nothing showy about their living in a two-story house, they have cars, a 1974 stationwagon, and a lovely yard. They represent the ideal all-American family. "Rex has many responsibilities with his job, speeches, consultations, seminars, etc.," Mrs. Cottle said, "so that it is important to focus on the quality he devotes to the boys and not the quantity."

Dr. Cottle truly showed that he is a man of many talents as many already knew; with his dedication on improving the quality in his career and family life, Dr. Cottle deserves the award, "Teacher of the Year."

Stacey Warner

Dr. Rex Cottle with his wife Carol and two sons Rex Jr. and Kile strive for a warm family atmosphere.

Twenty-five Years Of Excellence

South Carolina has but one accredited School of Architecture and that school has but one dean. The school is Clemson University's College of Architecture, and the dean is Harlan E. McClure. Both celebrated their 25th anniversary at Clemson on October 13 through October 15 with a Quarter-Century Symposium.

The celebration, held in conjunction with the fall meeting of the South Carolina Chapter of the American Institute of Architects, featured many of the most prominent speakers on architecture today.

Dean McClure led the series of speeches with a talk addressing "The Future of Architectural Education," in Lee Hall's William G. Lyles auditorium. "Architecture," McClure said, "like any other profession, is in the service of the citizen. As society changes and evolves, the architectural needs will also change and evolve. We must understand the society and the technology and political institutions that serve that society."

McClure's speech was followed by keynote speaker, Harold Fleming and then an overview of the College of Architecture with a discussion of its future directions given by the departmental heads of the college. In the afternoon there was an air of festivity and the occasion was maintained by various activities. Included on the agenda were a luncheon at Farmer's Hall in Pendleton, a tour of architects' homes, a reception at Boxwood House, the home of Dean and Mrs. McClure, and a capping off with the annual Beaux Arts Ball. The theme of the costume ball was Black and White. With such a broad theme given to such an inventive bunch of design students, anything was possible. People were dressed as anything from dalmations, snowmen and Oreos to a gang of convicts; stripped costumes, chains, balls, and all.

The activities resumed on October 15 with a luncheon buffet in the Rudolph E. Lee Gallery. This was followed by Ricardo Legorreta, an international architect from Mexico City, who spoke on "The Future of International Practice and its Cultural Dilemmas." Dean McClure spoke very highly of Legorreta and, not long ago, had the pleasure of presenting him with a distinguished award: McClure, as Grand Chapter Master of Tau Sigma Delta, awarded him that honorary fraternity's Gold Medal for Design Excellence. "He is an extremely sensitive designer," McClure said, "and is very well known both here and abroad."

George Notter, national president of the AIA, followed Legorreta with a speech concerning "The Future Role of the AIA in Architectural Practice." Notter emphasized

the importance of the American Institute of Architects in helping the designer to solve his own problems. "I believe," Notter said, "that the role of the Institute is to help people solve their problems, not really to solve the problems for them. If the architect is the problem solver, the Institute is the implementer." Notter proposed to do all that he could to strengthen the role of the architect through public awareness. He intended to achieve this awareness through an outreach program that would include a series of speeches and events for the public showing the relationship between the architect and the public. He also stated his intention of meeting with the media and talking about architecture on a one to one basis as well as making the presence of the AIA felt in legislative areas.

A cocktail and dinner party was held that night honoring the twenty-five dedicated years of service Dean Harlan McClure had given to the College of Architecture. The featured speaker was one of McClure's former design professors, Lawrence Anderson, dean emeritus, MIT, "I have a great deal of respect for the man," McClure said of his teacher. "He is a person that was a very good aide and guide for me. He didn't want to create a mirror image of himself, he helped you to develop your own abilities."

Almost 300 of McClure's friends, colleagues, and students attended the formal, seated dinner in the Clemson Room of the Clemson House. This affair, the crowning event of the Quarter-Century Symposium, was made quite auspicious by live chamber music and with many of those in attendance wearing formal attire complete with medals commemorating excellence in various aspects. "This is a wonderful occasion," Anderson said, "for the AIA, the University, the College of Architecture, and Dean McClure." Anderson's speech was followed by an excellent slide presentation of the growth of the College of Architecture. The show was prepared by the Communications Center and depicted the College in all its stages of growth from the beginning up to the present.

The slide show was followed by the presentation of several awards to Dean McClure. Among these were the Tau Sigma Delta Silver Medal, presented by Professor Joseph L. Young, Grand Scribe of the fraternity. Governor Dick Riley could not attend in person, because he was out of the country, but he did send a letter along with the Medal of The Order of the Palmetto that was presented to Dean McClure for him. The letter read, in part, "This Order of the Palmetto is the highest award that I, as governor, can

bestow upon a civilian." After the presentations McClure said, "I'm extraordinarily touched by these honors. It's the concern of many of you here that has helped being such a fine faculty and student body to the College of Architecture. The dedication above oneself has made things possible."

Dean McClure said, "It's been a very challenging and rewarding career," when he surveys his 25 years as Dean of the College of Architecture. "Challenging," indeed proved to be an appropriate choice of words. When McClure accepted the job offer as head of the Department of Architecture in 1955, the department was poorly budgeted, poorly organized, and poorly equipped. The challenge was to take that fledgling department in the School of Engineering and turn it into a College of Architecture. By the end of his first year, McClure had gotten an accredited architectural program off the ground and established the Clemson Architectural Foundation. "The CAF enabled the College to offer important and stimulating programs," McClure said, "which previously had not been funded." The sponsored activities included schedules of distinguished visiting lecturers, critics, exhibitions, field trips, and external aids to the library."

In 1973, the CAF actively sponsored the acquisition of a suitably located, large villa in the ancient port city of Genoa, Italy to augment the College's graduate program. This villa, the Charles E. Daniel Center for Building Research and Urban study, had enriched the studies and work of over 300 graduate students since then.

By 1958, McClure had achieved his goal of turning the Department of Architecture into the College of Architecture, but it was not easy. "After three years of evolution and improvement, with the help of CAF funding," McClure said, "It became clear that to move towards our goals at a less painful and frustrating pace and for our goals to be consistent with the desires of our professional constituents, it was necessary to constitute the architectural programs as an independent academic unit. A logical case was made, but this academic freedom was not to be granted by the School of Engineering and the Institution without a struggle." Thanks to strong written and verbal support from the state's architects, the majority of the Board of Trustees finally gave their endorsement.

With the College now in more control of its destiny, the College, CAF, and SCAIA began plans for the initiation of a program in building construction and management. Due in large part to the active interest and support of the Carolina's Chapter of the USC

and a number of South Carolina construction organizations, the curriculum was approved by the Board of Trustees. The first students were admitted into the program in the fall semester of 1962. "The program has enjoyed progressive evolution," McClure said, "and many of the state's successful young entrepreneur constructors are its alumni."

In 1963, McClure faced a challenge of a different nature. Harvey Gantt, Clemson's first black student, enrolled at the University in the College of Architecture. McClure, along with University President Robert C. Edwards, had a rough time of convincing state legislators of the rightness of Gantt's admittance into the University. Gantt, now an architect in Charlotte, North Carolina, had spoken highly of McClure, saying, "From my very first day he was friend, counselor, and above all, a true professional educator. In a time of great social change in the South, McClure stood tall and guided the University through a successful desegregation. That is no small measure of the kind of man he is."

Between 1967 and 1971, the University became one of the first schools to set up a new six year, two-degree sequence. The Master of Architecture degree was then offered as

degrees in Planning (MCRP), Visual Arts (MFA), and the Master of Architecture program with a concentration in Building Management as well as post-baccalaureate program.

From a small department located on the top floor of Riggs Hall with a staff of seven and student enrollment of 120, Harlan McClure created a notable College of Architecture in its own Lee Hall, which he designed, with a faculty of 52 and 530 students. The College of Architecture could boast outstanding departments of Building Science and Management, Visual Arts, Art and Architectural History, City and Regional Planning, one of the nation's three leading Health Care Studios, and the basis for a program in Landscape Architecture.

Joseph L. Young, professor of Architecture and member of the faculty since McClure came to the University, said, "Dean McClure has often said that he is first an architect, second an educator, and third an administrator." This year, Clemson University celebrated the outstanding excellence of Dean Harlan McClure in each of these fields.

Changes are made by a student on his latest set of plans for the College of Architecture.

A Blue Ribbon Family

What's in a family? Sure, there are some basic elements, mom, dad, kid(s), and the family dog, but what a family really is cannot be defined. To each of us, a family is something different, but, small or large, we are all members of a family.

The South Carolina Family of the Year award was given to a Clemson family. Dr. Thomas Drake and his wife, Carolann are the proud parents of the "mob." The Drakes consist of two biological sons, Stephen Russell and Thomas Kent, born in 1965 and 1967 respectively. Stephen, the oldest, is currently a student at the University in electrical engineering. Thomas, a junior at D.W. Daniel High School, had plans to enroll at the University in an engineering discipline.

Dr. Drake is a professor of electrical and computer engineering. His "thing" is computers. He has been working under University contract for I.E. Dupont deNemours at the Camden and Charleston sites. He worked on computer applications in process design in the manufacturing of Dacron and Nylon. Mrs. Drake has a B.A. in fine arts from

Michigan State University and is a homemaker. She is very involved in the many activities that her children are active in. These include girl scouts, sports, music, and dance lessons, language lessons, and gymnastics.

This is only one facet of the Drake family. There are six adopted children as well, ranging in age from three to twelve years. Betsy Leona, adopted in 1980 is the youngest at three and is still at home. A kindergarten student, Denise Lynn, is five. She was adopted in 1982. Seven year old Patricia Rosemary is in the second grade. She was adopted in 1977. Brian Kim, a nine year old, is in the fourth grade and was adopted in 1979. The two oldest children are Karen Ruth, adopted in 1972 and Kristen Amy, adopted in 1982, age eleven and twelve respectively. Of the six, three are Korean and three are bi-racial children, all of whom are quite beautiful.

Just how did one become attached to six adopted children is still a mystery to the Drakes. With so many children needing good, loving homes, Dr. and Mrs. Drake felt

that it was important to help provide some of that love and security. It was this concern which came to the attention of whomever nominated the Drakes for family of the year. The Drakes decided to pursue the award as a means of getting publicity for their feelings on children's rights. "We, my wife, I guess, more than I, are child advocates. We strongly feel that every child is entitled to living in a home with loving parents," Dr. Drake stated while talking about this family's award. Money was budgeted by the South Carolina State Legislature for this award in an effort to focus on the families of South Carolina.

There are literally hundreds of children in the United States who need good homes, this is only one small recognition of the problem. When the Drakes adopted their first child, Karen Ruth, many prospective parents went to Columbia, interviewed with a Social Worker, and returned home hoping for a child to become available for adoption. Since then, many changes have been made which make it much easier to adopt and

All Photos by Patricia Summers

Karen, the second eldest girl, who was adopted in 1972 relaxes while watching television in her home.

probably make adoption much better for the children as far as finding a good home is concerned.

"South Carolina Seedlings" is a photo listing of the children currently in need of a home. It presents a photo and description of the child so prospective parents can look at the child, read the description, and get a better understanding of the commitment they are about to make. The Drakes used their publicity to promote this listing and the whole concept of adoption.

Interestingly enough, the Drakes have only served as a foster family for two children. During the summer of 1983 they had a child named Roseanna stay with them for the three months before she was placed in her new adoptive family. She had been badly abused by her biological parents. She was so badly treated that she ended up in the Medical University before the state Department of Social Services removed her from this environment. Once removed from her biological parents, she was institutionalized until a social worker noticed what advancements she had made and recommended her for placement in an adopted family. She was placed with the Drakes for three months until her new family could take her. Dr. Drake did not recognize her as the child who came into his home after two months with her new family.

They also had another child, Jeff, stay with them for a few weekends before he was adopted by a family in Columbia.

The Drakes have attended several conferences on the adoption of children and children's rights. Dr. Drake stated, "So far, no one has produced an environment better than the family for raising children. It affords the correct type of atmosphere for healthy growth."

Byte Outreach

With the idea that the future of education lies in memory banks and learning modules of a microcomputer, the University updated preparation for the future by implementing two new programs into the College of Education. These new computer programs were made possible by gifts from industry, the athletic department, and the Alumni Association. With the introduction of these programs, the College of Education became the leader in the state with the use of the computer as a teaching tool.

The first program was for the use of all students on campus. The Learning Re-

sources Center was a computer based laboratory located in Tillman Hall. The laboratory was part of the Developmental Studies Program, which had been in operation since May of 1983. The lab housed 25 software packages to help sharpen skills in areas such as math, reading, vocabulary building, and English. In fact, students could use the equipment for anything from playing video games, developing computer skills, to helping with homework and other assignments.

Along with the program for students, a second program was dedicated for public school teachers and administrators from all

areas of South Carolina. The program entitled "ComputerVantage," was a van equipped with a microcomputer. The van traveled from Clemson to schools throughout the state at a low cost and gave a practical hands-on introduction to computers.

Loaded with almost \$60,000 worth of personal computers and software, the mobile unit went into operation in August of 1983. After several weeks it had already logged several thousand miles. The van generated an interest across the state and covered approximately 15,000 miles at the end of its first year. The instructions available in-

involved mathematics, agricultural education, vocational education, and school management.

Chris Peters was in charge of running both of the new programs. He hoped that they would remove the mystery surrounding computers, and allow more people to acquire the skills and confidence necessary to operate computers.

Cindy King

The sight of the computer van became a normal occurrence at Clemson.

Reaching For The Sky

Looking back it was hard for me to believe that it had been over three years since I had arrived at Clemson as an eager freshman. One of the main activities that I was involved with was Air Force ROTC, Detachment 770 which was a great learning experience.

Upon entering the Corps in the fall of 1980, I was one of 58 cadets in the corps that were on an Air Force scholarship of some type. These scholarships were available in lengths varying from two to four years. The recipients of these scholarships were chosen on academics, extra-curricular activities, availability in their major, and a personal interview. Many cadets that did not receive scholarships enrolled in the program hoping to qualify for one of the other types of scholarships.

As a freshman, I was a member of the GMC (General Military Corps) which was the category that freshmen and sophomores fell under. The GMC had a one hour class and a leadership laboratory on Thursdays. During this lab, I learned about military protocol and courtesies, how to wear the uniform, marching and drilling skills, and other military information.

Between my sophomore and junior years, I was required to go to a four week summer camp (this was six weeks for two year candidates) at Elgin Air Force Base, Florida. Cadets were sent to various Air Force Bases across the United States depending on what category they were in. Because Elgin was a large engineering base, and I was an engineering major, this was where I was sent. During my four weeks of training, I was exposed to many facets of Air Force life that I was unaware of, and I learned a great deal. We were shown more about the structure of the Air Force, learned more about discipline and officership, observed first-hand what we would be doing as Air force officers, placed in stress situations, and learned much about being leaders.

Upon successful completion of summer camp, I entered the POC (Professional Officer's Corps) which was made up of juniors and seniors. Two year cadets entered at this level after completion of their six weeks of summer camp. The POC had a three hour per week class and a leadership laboratory on Thursdays. During this lab, the POC made plans for the corps and instructed the GMC in military areas through leadership positions. Since these positions usually took a great deal more time to accomplish than the designated hour per week, POC cadets spent time on their own doing corps preparation.

For those cadets who wished to fly, whether it be as a pilot or navigator, these options were available to cadets who quali-

fied. The competition for these openings was intense, and those who made it through the selection process were to be commended. Pilot candidates participated in FIP (Flight Instruction Program) during either their junior or senior year and received 13 hours of pilot training at no cost to the cadet. Upon commissioning, the pilot candidate reported to a UPT (Undergraduate Pilot Training) base to receive his final pilot training and wings.

In addition to the mandatory activities of ROTC, there were several extra-curricular activities open to Air Force Cadets: Arnold Air Society, a social/service military organization that had a pledge season each semester for induction of new members; Angel Flight, which was associated with Arnold Air and was open to non-military persons as well; Pershing Rifles, a precision drill unit that represented the University in parades and competitions; Society of American Military Engineers, which was open to all military cadets and engineers who were interested in military engineering; and, Scabbard and Blade, which was an honorary organization that permitted membership by invitation only.

Also available to cadets were frequent visits to bases to see first hand what the Air Force had to offer. Visits in the past had been to Bowling AFB (Washington, DC), Of-

fut AFB (Omaha, NE), Warner-Robbins AFB (Robbins, GA), and many others. These visits were usually taken in military aircraft so expense to the cadet was minimal. We as a corps also had several outings each semester designed to draw us closer together. This was exemplified in corps parties, pig roasts, field days, Dining Outs (a formal military dinner), and participation in intra-mural team competitions.

Much growth had occurred in Det 770 since my enrollment in the fall of 1980 when the enrollment was a mere 194 cadets, giving the corps a group status. In the fall of 1981, which was also Air Force ROTC's 35th Anniversary, the enrollment surpassed 250 to qualify the corps for wing status. In the fall of 1983, the enrollment had leapt to an outstanding 332 cadets with 93 of these being on academic scholarships.

Air Force ROTC was a great opportunity for any person to learn to deal with the responsibility and commitment that was demanded from each individual.

Charles Hucks

Travis Crane, a sophomore in ROTC, is counseled by Captain Gary Miller. The cadre plays an important part in helping the cadets with any problems that arise.

Deer, Boar, And Water Tables

When we visit a natural habitat, little do we think of the actual work which goes into providing that setting. Naturally we consider their value when threatened by cutbacks like those that were proposed by former Secretary of the Interior, James Watt. Yet we complain whenever our sport is limited by the rules and regulations of such areas. There are many natural habitats owned by the federal government and maintained by United States Forestry officials, but there are few private, research-oriented areas quite like Hobcaw Barony in Georgetown County, South Carolina.

The Barony is owned by the state of South Carolina and held in trust for "(the promotion of) teaching and research programs in South Carolina related to the forests, wildlife, and waters at Hobcaw." Entrusted to the state by Miss Belle W. Baruche on her death in 1964, it was her mission to provide an area "for the purpose of teaching and/or research in forestry, marine biology, and the care and propagation of wildlife and flora and fauna in South Carolina, in connection with the college and/or Universities of the state of South Carolina." The Belle W. Baruche foundation was founded to insure that just such activities were continued in perpetuity.

In July 1968, Clemson's Department of Forestry entered the picture as the states only Forestry School. In 1969, Institutes in Miss Baruche's name were founded both at Clemson and the University of South Carolina. As the Belle W. Baruche Forest Science Institute, Clemson became responsible for the bulk of the research and education in forestry, wildlife science, and beach stabilization; provision of professional advice in the operation of the Hobcaw as a research facility; development of management concept pertaining to the forests and associated aquatic environments; and the promotion and evaluation of research and educational activities on the property by other agencies and institutions.

These areas of work have since been expanded. In 1983 there were several ongoing projects and additional plans for the future.

Effects of prescribed burning and mowing of the forestation was one such project. Areas were burned in a controlled manner to clear undergrowth. The areas were then reseeded with control plants whose growth was then monitored. The effects of deforestation on the animal populations were also studied. This included such things as changes in diet caused by availability of food herd maintenance, number and health, and the number of species remaining. The effect on the water table and surrounding reservoirs was also studied.

Feeding habits and the relative health of such animals as the feral hog, deer, fox squirrel, red-cockaded woodpecker, alligator, turkey, and various reptiles were also studied. Of particular interest was the effect on rare or endangered species such as the fox squirrel and the red-cockaded woodpecker. The health of the deer population was monitored as they exhibited the presence of a disease called Epizootic Hemorrhagic Disease which effects herd growth. This particular study was in its eighth year and continued to be of interest.

A co-operative project was being conducted with the Belle W. Baruche Institute for Marine Biology and Coastal Research. Dr. Thomas M. Williams, a hydrologist, was studying the effects of different types of water tables on marine water quality. Twelve watersheds on the Barony were to be instrumented and monitored from 1983 to 2003. Included in the data collected would be rainfall, evaporation, surface flow, and ground water. Part of the interest would be in the quality of the water based on the amount of sediment. The water level at various times of the year would be monitored to record any relationships on the water table level and its effects on the growth mechanisms of trees and other flora. The effect of the run-off on marine life would also be made.

In addition to this study, research into the effects that various concentrations of nitrates and sulfates had on the aquatic ecosystems would be made. Effects on marine growth and populations at varying concentrations would be recorded and analyzed. Changes in pH would be recorded as one variable in this study. This research would be applicable to other areas of the country effected by "acid rain." Acid rain is a product of the degradation of nitrates and sulfates in the atmosphere forming nitric, nitrous and sulfuric acids. Sources of such ions are both industrial and domestic and are of much concern to environmentalists at the present time.

One problem with these ions is a lack of buffering afforded by the water. When the acid ions enter the water in some areas, there is no way to neutralize them and the pH drops, killing fish and other aquatic organisms. This particular problem was of special concern in the Northwest where several fish kills have already occurred. Forest soils served as a natural trap for sulfates which did not leach out of the soil. Of course, this could cause problems in the future as the pH in the soil decreased. Unfortunately, the solutions were unknown and the source of the sulfates and nitrates could not be located, Dr. Michael Taras warned

"serious problems could occur, we don't know where the problem is coming from, it could be ocean spraying or run-off from the forests. It's a serious problem and we need help to resolve it."

Other research involved natural clonal variation among slash pine and loblolly pine seed which had been established in orchard areas and its effects on susceptibility to cone worms and seed bugs. Determination of any relationship between clones and chemical treatment in reduction of susceptibility to such pests was studied. Of particular interest was any relationship between reduced susceptibility to cone worms and seed bugs and any variations in morphological or physiological characteristics of the clones.

Through this research at Hobcaw Barony, knowledge of the environment and how it can be managed was attained. The application of this knowledge will result in the continuation of precious natural habitats not only for our pleasure, but for the preservation of nature as well.

Ruth Anne Albright

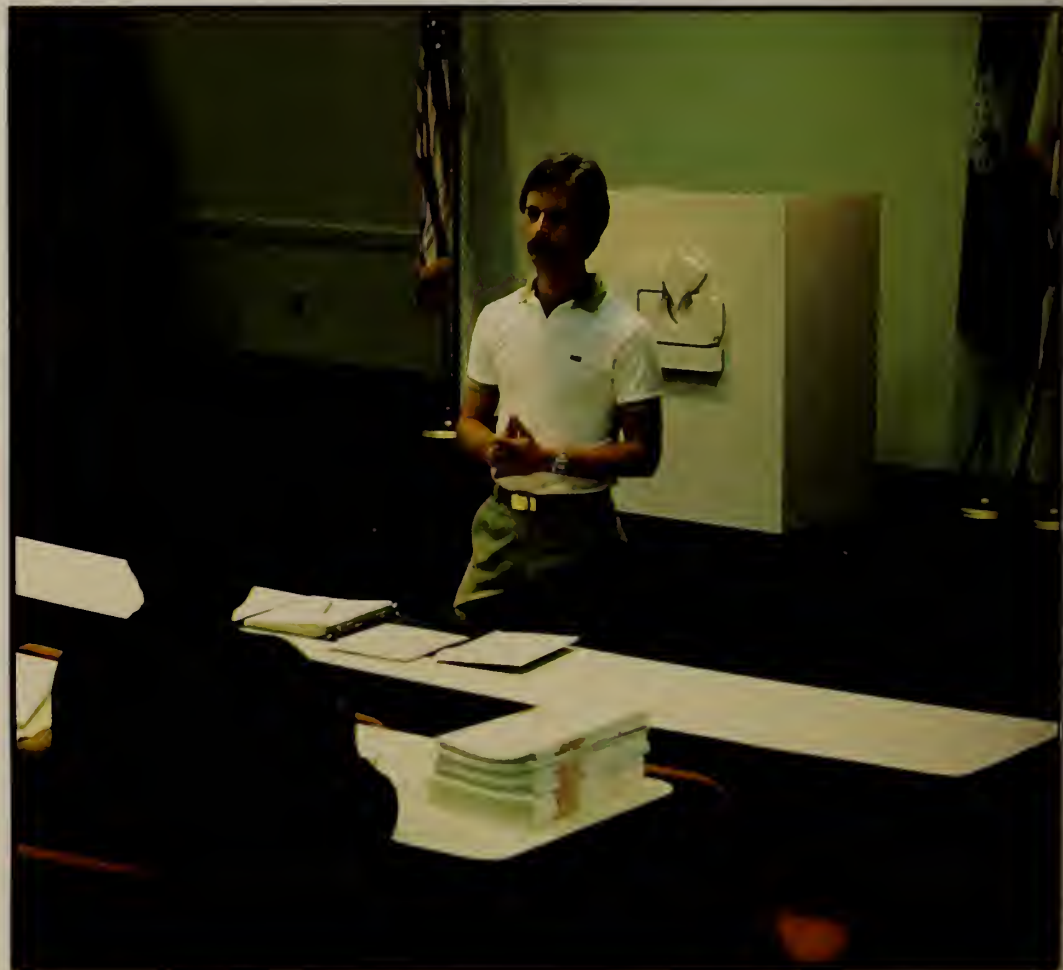

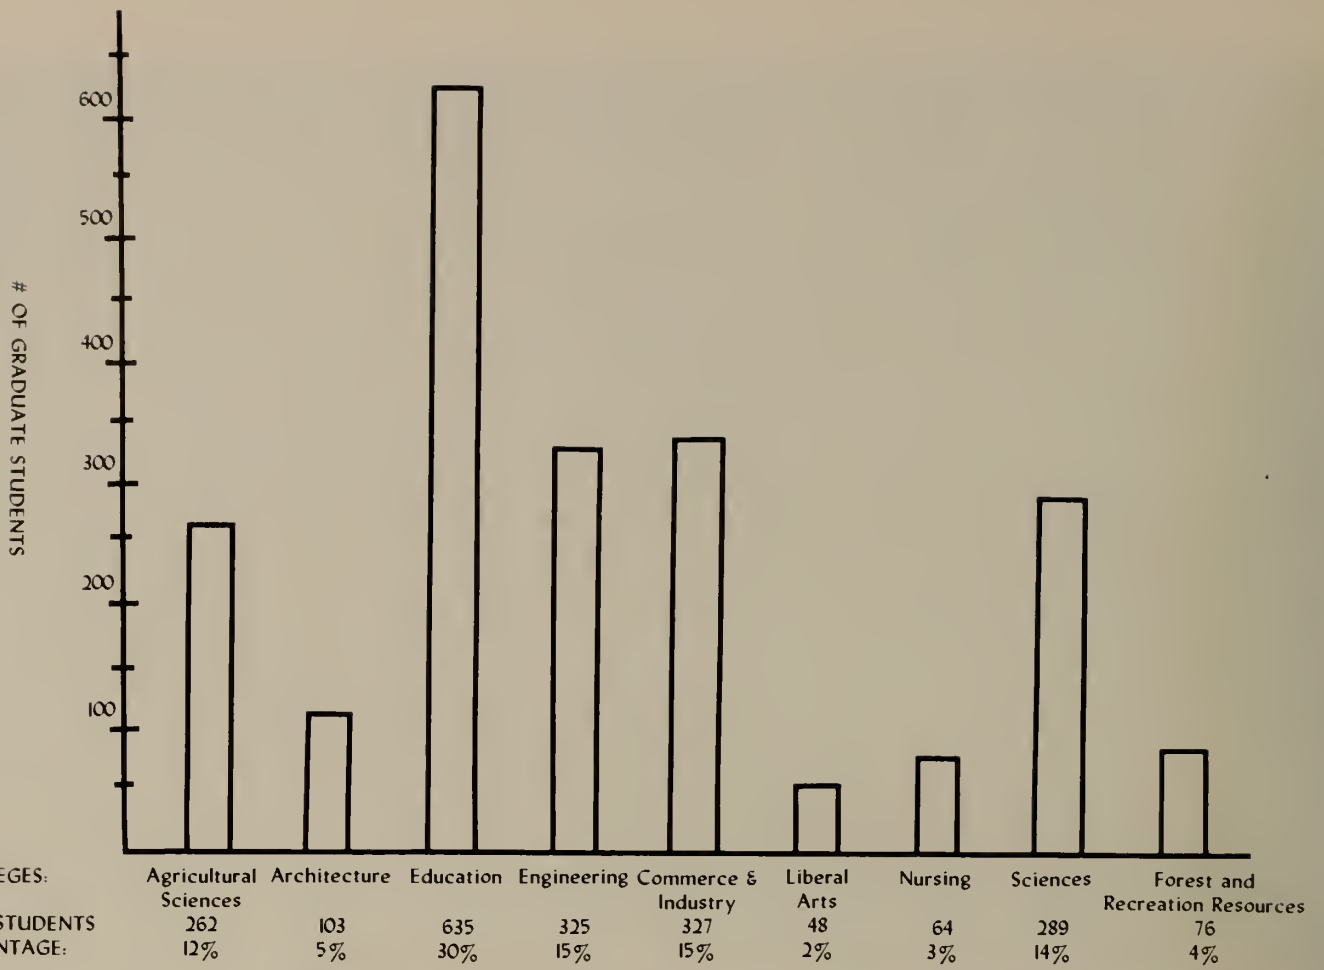

Daily measurements of tree growth is a part of the research at Hobcaw Barony as shown by Dr. Charles Gresham.

The swamp on the Baruche plantation is very extensive and well equipped with feral hogs and alligators.

College Of Forest And Recreation Resources

All Photos by Terry Windel
 Meetings of the GSA were held at least once a month in order to plan their activities

In Search Of . . .

Clemson University has long held the reputation of being an exceptional learning institution. Not only does it have an outstanding undergraduate educational program to boast of, but it also offers a superior graduate school for further education.

Approximately 2,128 students were enrolled in the graduate program and the number kept increasing. A large portion of graduate students (30%) were enrolled in the College of Education, but the College of Engineering, Agriculture, Commerce and Industry, Architecture, Liberal Arts, Nursing, and Forest and Recreation Resources were also populated with graduate students.

Traditional degrees, such as Doctor of Philosophy, Master of Arts, and Master of Sciences were offered in forty-one academic areas as well as advanced professional degrees such as Doctor of Education, Educational Specialist, and Master of Agricultural Education, Agriculture, Architecture, Business Administration, Engineering, Fine Arts, Forestry, Industrial Education, Nutritional Sciences, Public Accountancy, and Recreation and Parks Administration.

Graduate students offered an invaluable

service to the University by accepting teaching positions within their field of study. This not only helped the graduate students by providing them with actual teaching experience, but it also provided the University with a valuable pool of teaching personnel.

Several University-recognized organizations were composed of graduate students. The most prevalent of these was the GSA, or Graduate Student Association. The GSA had been quite active during the past three and one-half to four years. According to the president, John Murden, the two main activities of the GSA were the publication of the Graduate Student Handbook, which coordinated a wealth of valuable information into one source for new graduate students, and the representation of graduate students on all commissions and committees in the University.

The association was composed of one representative for every twenty graduate students in each department and concerned itself with eliminating the problems or "blind spots" that existed between graduate students and the administration.

The GSA did indeed have a serious side in which it represented the graduate students' viewpoints on problems, but it also had a social side. Projects of the Graduate Student Association included not only a service project which included the Helping Hands Carnival, but also a fall party designed to allow all to get acquainted. All graduate students were invited to learn about the association.

Officers of the Graduate Student Association included John Murden, president; Jerry Knab, vice-president; Bianca Hearn, secretary; and Daniel Sharp, treasurer. These officers worked throughout the year in order to involve more graduate students in their own education as well as the association.

Through the excellent graduate program, Clemson not only presented promising, well-educated individual to the working-world, but was also able to increase the excellence of the undergraduate program through the talents of these students.

Janet McGee

Graduate Student Association President, John Murden, worked hard to get more graduate students involved in the University.

Computerized Biology

In 1976, the College of Sciences made efforts to upgrade the biology related courses and the way these courses were presented to the students. That same year the biology program replaced and unified the old introductory studies of botany and zoology. The program was originally set up to improve the instruction of the introductory biology courses with a design that would evolve as did the needs of the students and instructors. Dr. Doris Helms was named the program director. Dr. Helms utilized the input of each member of the program's faculty and staff to further the goals of the program.

The biology program tackled many of the old system's problems. Early in the program's beginning, Helms and former Dean of Liberal Arts, Dr. Morris Cox, wrestled with the problem of mixing students from non-science-related disciplines with those students in science-related majors. Cox decided not to separate these students because he felt the mixture would benefit the non-science majors by allowing them to deal with a science course as did the science students. Helms agreed and developed two basic types of biology courses: a majors course for pre-med, biology, etc. students and a basic course for other science and non-science students.

Not happy with the typical relationship that existed between old botany and zoology lectures and labs, Dr. Helms and her colleagues worked toward unifying the lecture topics with the applications being stressed in each of the respective labs. In 1977, she co-wrote lab manuals with other faculty members to help unify the biology courses. These manuals have been rewritten and revised each year since then to keep up with changing course topics.

By 1978, the University began feeling the crunch as more and more students crowded onto the campus. Nowhere was the pressure of overcrowding more noticeable than in the biology program. With 1400 students entering the program each semester and the number of instructors remaining virtually the same, Dr. Helms and her constituents had to cope with the problems that arose from the shear numbers. In these introduction courses, a wide variety of students were present in each classroom and their ability to handle the course matter was equally diverse. Dr. Helms recognized that the differences among her students involved their background in sciences, their preparation, their motivations for taking the course, and their interests in biology itself. Helms and the program faculty had the enormous task of developing each course to better meet the needs of individual stu-

dents. But because of the class sizes, it was an impossibility to teach the lecture according to each individual's ability.

In 1979, Dr. Rick Garcia became a faculty member in the biology department and with him came an extensive knowledge of how computer technology could better the situation at the University. Soon after, the biology department purchased a packaged software grading system called TIPS (teacher information processing system). With this system of grading, attention could be devoted to an individual student's weakness.

The new system worked like this: test questions were prepared on material found in certain parts of the biology text, TIPS analyzed the questions missed by a student and referred that student to the pages in the text from which the questions were gathered. Theoretically, if the student reviewed those pages, his major exam score would have been boosted by about 10 points. Weekly surveys were given to prepare the students for the major exams and were developed to help pin-point a student's weaknesses so that more attention could be devoted to these weaknesses.

A second major step toward aiding the individual student was initiated that same year when a grant was drafted to supply funds for developing a sciences resource center. The University Athletic Department answered the call and supplied major funding for the center. In addition to all other biology students, student athletes that were required to miss classes frequently used the facilities to catch up, and the academic supervisor from the athletic department was given detailed accounts of how each athlete was doing in the program. The center provided audio-visual material that was coordinated with class lecture topics. The material was classified in three categories:

1. Remedial: material that followed basic lecture topics
2. Amplification: material that relates between topics with a student's academic major
3. Extracurricular: material for students that had no problems with the lecture topic but wanted material related to current events that pertain to these topics.

By using the materials in the learning center, individuals were able to divert their attention to their own needs based on the weakness that TIPS had revealed to them.

As the program continued to evolve, Dr. Helms planned for future ventures in the same direction. Dr. Garcia periodically updated the TIPS software to accommodate the growing needs of the program. Speculatively, plans were underway for a computer sys-

tem that would run interactive with the learning center tapes so that students could question parts of the tapes being viewed. Being a visual subject, computer graphics could be incorporated into the system to present visual depth that mere slides could never reproduce. Dr. Helms was able to predict that these plans would be in operation in at least two years, hopefully sooner if enough support by the University was given to the teaching potentials of such systems.

As it stood, the biology program rated high among the "up and coming" biology programs at major universities in the nation. The facilities were such that those students whose predicted GPR and course grades were computed prior to the end of the course were able to surpass these predictions by at least a letter grade on the average.

Richard Cauthen

Dr. Helms tried to take the questions of her students and help them with as much individual attention as possible.

Part of Dr. Helms job involves explaining to her students how to use the equipment.

Two lab partners go over the results of their experiment while Dr. Helms looks on. The work done in the lab helps the students comprehend material discussed in the lectures.

Ada Compiler Is Nation's First

Historically, when the United States Department of Defense (DoD) made a request to the engineering community, engineers hustled together to compete for the approval of this powerful government agency. Such was the case when the DoD deemed it vital to its computing resources to develop a single computer language that would serve its present computing needs. The DoD contracted the Institute for Defense Analysis (IDA) to determine the extent of the software development for a wide variety of computer systems. Once the DoD had drawn up the necessary requirements for

the project, a call was made for design competition to begin based on those requirements. A joint services effort with the DoD resulted in a language design: that language became Ada.

In order for a language such as Ada to be implemented on a given computer system, a software compiler must first be developed to translate the language into a viable machine language code that the system could execute. On the outset, the compiler design was an arduous task that was eventually subject to DoD's approval or rejection based on the original project requirements for Ada.

The validation of the microprocessor based Ada compiler was the first of its kind in the nation.

Within the Department of Electrical and Computer Engineering (ECE), a faculty member initiated the University's role in the Ada compiler design project. Dr. James F. Leathrum, an engineer of many distinguished accomplishments, took that initiative. Leathrum received his B.S. in chemical engineering at the University of Delaware and his M.S. and Ph.D. from Princeton University in the area of engineering. Leathrum's insights at both the educational and industrial levels of engineering have produced over 25 publications to his credit, including three textbooks.

Leathrum became involved in the Ada project through his friend and colleague Dr. David A. Fisher, who supplied the DoD with a refined version of the project requirements in his report, "Steelman Requirements." While most attempts at implementing Ada were centered around large "main frame" computers, Leathrum and Fisher were discussing implementing Ada on a microprocessor based system. Western Digital Corporation, the company that employed Fisher, was most interested in the concept and agreed to back the project to its completion.

The time frame developed for Clemson's involvement took shape as follows:

In April, 1981, Leathrum was invited by Western Digital Corporation to participate with four other members of a design team in the design of the compiler itself. The design was completed in August 1981.

In January, 1982, Western Digital Corporation consigned one of its own microprocessors to the University for use by Leathrum to assist in testing the compiler design.

In the summer of 1982, Leathrum, assisted by graduate student, Richard Weatherly, tested and experimented in the component redesign of the compiler. This work led to planned modifications of the design.

During the academic year of 1982-83, the University was designated as one of three "Beta" test sites of which the other two were located in Colorado and Sweden. As a "Beta" test site, Leathrum, with the assistance of undergraduates and graduate students, such as David Baxley, developed stress tests of the compiler. Upon detection of a problem, the problem was made known to Western Digital Corporation, and corrections were made.

Western Digital Corporation's Dr. Fisher, along with Dr. Leathrum were the main forces behind the completion of the project.

All Photos by Terry Windell

In the summer of 1983, work began on a project funded by the United States Air Force that coincided with the completion of the Ada compiler.

That same summer, Leathrum and graduate student Mike Freeman participated in the final validation testing of the compiler by the DoD. The results were staggering: The team had produced the world's first microprocessor-based Ada compiler for use in software development. Also, as a point of interest, the compiler was the first Ada compiler of any type to receive final validation with just one attempt.

Good things had sprung from Leathrum's and the University's efforts. Since leaving Western Digital Corporation, Fisher had formed his own company which included Leathrum as one of the directors. Fisher's Gensoft Corporation and the University agreed to actively seek projects of mutual interest in areas of software engineering and other areas of technical interest. Ada and its evolution prompted Congress to create a National Software Institute to further the ground covered by the Ada project in software engineering. As the the University's role in this new institute, Leathrum felt safe to speculate that the institute would be of some significance.

To put a cap on the Ada compiler project, Leathrum, in conjunction with Dr. T.L. Drake, also of the ECE department, were writing a new text on Ada called, "Ada: A Software Designer's Primer." Completion of the text also involved student participation; some aided by writing examples for the text contents.

In summary, the University's involvement in the development of Ada included direct participation by faculty in the design and testing of Ada programming systems and faculty and student participation in the publication of textbook materials.

Richard Cauthen

The compiler design came as a result of a request from the Department of Defense for a single language to serve its present computing needs.

About to make contact with the ball, Mitch Wilson went on to score one of Clemson's five runs against Alabama. He ended the season with an outstanding .310 batting average.

Coach Bill Wilhelm talks with catcher Jim McCollom during a game against Alabama. Coach Wilhelm completed his 26th season this year with a career record of 689-353-8.

One of Clemson's bat girls, Jennifer Bussey, talks with an umpire before the game.

A Successful Disappointment

Some people tend to get ill on roller coaster rides; the Clemson Baseball team, however, became quite accustomed to them as 1983 was a season of ups and downs for the team. It was a season that saw the Tigers lose five of their first six games and later rebound with a mid-season 10-game winning streak. A season that watched Coach Bill Wilhelm's team struggle through the Atlantic Coast Conference regular season with a 6-5 record and then come within one game of cap-

turing the ACC Tournament, it was simply a season of ups and downs.

Coach Wilhelm's twenty-sixth edition of Clemson baseball opened the season in Charleston with a two-game series against The Citadel. The Citadel relied heavily on the saying that good pitching will beat good hitting on any given day in winning both games from the Tigers. Clemson could only manage one extra base hit and three runs in the two games.

Clemson returned to face Winthrop in

their home opener and promptly dispatched the Eagles 11-2. Sophomore Brooks Shumake led the way for the Tigers hitting a home run and driving in four runs.

Following the Winthrop game, Clemson hit the road for its annual swing south through Florida. Scheduled were two games each at Valdosta State (Georgia), Florida, and Florida State. Due to the warmer weather in this part of the country, these teams had the advantage of several more weeks of practice time than the Tigers. Clemson, however, never got to test itself against Valdosta State, as both games were cancelled due to rain. The Tigers dropped a pair of games at Florida before moving on to Tallahassee to face the always tough Florida State.

In the opener of the series, Clemson and Florida State battled through 13 innings to a tie before the game had to be suspended due to darkness. Senior reliever Lynn Martin gave up only one hit in his seven innings of work. The game was completed the following day with Clemson losing 5-4 in the fourteenth inning. That same day the Tigers and the Seminoles again played an extra inning game, this one ending in a 3-3 tie due to darkness. Shortstop Scott Powers had a home run for the Tigers.

After the disappointing road trip, the Tigers, now 1-5-1, returned home to face arch-rival and nationally eighth ranked South Carolina in the opener of a seven game homestand. A crowd of 1500 watched Clemson rip the Gamecocks 8-0, handing them their first defeat of the season. Jim McCollom had three hits for the Tigers while Tim Rice and John Pawlowski combined for the shutout.

After dropping a game to Old Dominion, Clemson opened its defense of the regular season ACC baseball championship by taking a pair of games from Duke. Scott Parrish and Lee Wiles picked up wins for the Tigers, and first baseman Bob Paulling knocked in four runs as Clemson began to show signs of breaking out of its early season slump.

Alabama scored two unearned runs in the top of the ninth inning to defeat the Tigers in the first of a two-game series. The Tigers dropped to a 4-8-1 record after

Clemson's catcher Jim McCollom prepares to attempt a steal while Alabama's David Magadan waits for the throw. Clemson dropped the game by a score of 5-6.

*ACC Game

**ACC Tournament Game

"NO PEPPER BETWEEN DUGOUTS" means no spitting tobacco juice on the field.

Successful Disappointment . . .

losing the second game 7-4.

It was at this point that Clemson put together its best stretch of the season winning 17 out of the next 20 games. Only the away losses to North Carolina-Wilmington, Maryland, and North Carolina State kept the Tigers from a perfect mark during this stretch. Individually, there were several bright spots for Clemson.

Clemson recorded its highest offensive output of the season in a 20-8 win over Francis Marion. Third baseman Craig Roberson batted in five runs in the slugfest which featured a total of 32 hits by the two teams. In a victory over Wingate,

sophomore catcher Jim McCollom socked two home runs on his way to driving in six runs.

The Clemson pitching staff hurled its second shutout of the season as the Tigers beat UNC-Wilmington 3-0 in the opener of a three game series. John Pawlowski and Lynn Martin teamed to blank the Seahawks on only six hits. The Tigers won two out of three during the series, raising their record above .500 for the first time in the season.

The Tigers were unbeatable during the last week of March, winning 10 straight games against six different teams. Maryland, Furman, Ohio State, Georgia Southern, Wake Forest, and East Tennessee State all fell victim during Clemson's long-

est winning streak of the year.

A 6-4 loss at North Carolina State finally ended the streak though. Despite home runs by David Lemaster and Craig Roberson, Clemson saw its record drop to 4-2 in the ACC.

After wins over Western Carolina and Georgia, Clemson squared off with ACC foe Georgia Tech in Atlanta. Bob Paulling's home run and David Lemaster's triple went for nought as the Tigers lost a heartbreaker in ten innings, 7-6.

Rain cancelled a scheduled doubleheader at home with North Carolina before Clemson again matched up with North Carolina State. NC State completed their two game sweep of the regular season series between the teams by winning

Alabama right-fielder Dee Smithey attempts to steal second while Clemson second-baseman Frank Russ and shortstop Scott Powers prepare for the throw. The putout attempt was unsuccessful as the Tigers were defeated 6-5.

Billy Davis returns a ground ball to the infield during Clemson's 8-2 victory over Furman. Davis is one of the University's dual-support athletes; he lettered in both baseball and football last year.

Successful Disappointment . . .

8-4. Paulling and Lemaster each had home runs for Clemson who had the bases loaded in the ninth inning with nobody out. However, Clemson could only score one run as their ACC record evened at 4-4.

A loss at Georgia was sandwiched around wins at Erskine and Virginia as

the Tigers neared the ACC Tournament. In the Erskine game, Lee Wiles hurled six innings of three hit baseball in picking up the win. Bob Paulling drove in five runs as the Tigers shelled Erskine for 18 hits in the 16-0 win.

Against Virginia, Jeff Gilbert went the distance, pitching a four-hit complete game for the Tigers. His battery mate, Jim McCollom, had three extra base hits

as Clemson downed Virginia at Charlottesville 8-1.

The Tigers closed out their ACC regular season with an away loss to Wake Forest before returning home to club Georgia Tech. At Winston-Salem, Clemson could manage only two hits in a 7-2 loss to Wake Forest despite a double by leftfielder Ricky Hester and a single by Brooks Shumake.

Against Georgia Tech, the Tigers collected 25 hits in a 19-6 win. Bob Paulling tied a school record with six hits in one game! The first baseman-pitcher, who doubles as a kicker on the Clemson football team, raised his batting average to .404 in the game that saw Clemson end its ACC regular season record at 6-5.

The next stop was the ACC Tournament in Chapel Hill, North Carolina. With

Successful Disappointment . . .

only a modest 24-15-1 record going into Chapel Hill, the team knew it would probably have to win the ACC Tournament in order to receive a bid to play in the NCAA Tournament.

The Tigers opened up with wins over Virginia and North Carolina State before losing a 6-5 nail biter to North Carolina. This loss dropped Clemson into the losers bracket of the double elimination tournament. In the game against North Carolina, Clemson sported a 5-1 lead going into the bottom of the eighth inning only to see the Tar Heels tally five runs in the final

All Photos by Michael L. Pully and Terry Windell

Taking a strike against East Tennessee State was David Tennant. He tied with Jim McColom for the 1980 batting champion year.

two frames to escape with the win.

Clemson rebounded with a win over Duke to set up a rematch with North Carolina for the championship. As Clemson was already in the losers bracket, they would have to defeat North Carolina twice, on the Tar Heel's home field, to win the tournament.

Right-hander Donnie Hoover took over in the second inning against North Carolina and allowed only two hits over the remainder of the game as the Tigers triumphed 5-2 to stay alive in the tournament. Brooks Shumake hit a home run and a double and designated hitter Jim McCollom had a pair of doubles for Clemson.

In the final game of the tournament, things did not go Clemson's way as North Carolina prevailed 10-1. Following this disappointing loss, Clemson concluded its season with three games against South Carolina and games with Georgia and Western Carolina. Clemson beat Georgia and lost a high scoring game to Western Carolina, 13-7. Against South Carolina, the Tigers could manage only one win in the three games.

Clemson finished the season with a 30-20-1 record, including a sparkling 16-5 slate at home. In addition, Coach Wilhelm kept intact his 26 year string of winning records. He has never had a losing season since coming to Clemson in 1958. However, despite their good record, Clemson was not given a bid to the NCAA Tournament.

Individually for the Tigers, Bob Paulling's 81 base hits set a new Clemson sea-

son record. Brooks Shumake tied a season record by stealing 30 bases while Frank Russ collected 13 doubles, giving him 51 for his career and tying a Clemson record.

Offensively, Bob Paulling led the team with a .407 batting average and 10 home runs. Ricky Hester and Jim McCollom batted .356 and .347 respectively to help pace the Tiger attack.

On the mound, Jeff Gilbert led the way with a 2.25 earned run average and a 4-0 record. Scott Parrish and Tim Rice each turned in strong seasons for the Tigers. Parrish went 6-1 with a 3.02 earned run average, and Rice was 6-4 with a 2.88 earned run average.

1983 will be remembered as a season when the Tigers could just not seem to put together the right combination of hitting and pitching necessary to produce a consistent winner. However, the team showed its strong will and character in coming back from a forgettable start and playing very good baseball for most of the season. Their determined performance in the ACC Tournament should give Clemson baseball fans a taste of what to expect when the Clemson Tigers return to the diamond in 1984.

Terry Wayne Fairey

Before each game, team captains and coaches meet with the umpires to discuss the ground rules.

Netters Claim ACC Championships

Coming off an 11-1 Fall record, the Lady Tigers were ready to play in the Spring. Clemson netters played aggressively and achieved a 19-4 record, 6-0 in the ACC. Overall, for Fall and Spring, their record was 30-5.

The Tigers opened their Spring season with wins over Appalachian State and Northeast Louisiana. Jane Neville and Lori Miller gave strong performances when both moved into the starting rotation due to the absence of Jane Forman and Gigi Fernandez.

While Forman and Fernandez competed in a tournament in New Jersey, Melissa Seigler stepped into the vacant number one position and won her singles matches both days.

In Princeton, New Jersey, meanwhile, Forman and Fernandez didn't fare as well as their teammates. Forman, the tournament's top seed, fell to second-seeded Lisa Spain of Georgia in the singles finals, 6-4, 6-2. Fernandez was defeated by Spain in the singles semi-final competition 6-0, 6-3.

Spain and Nancy Cohen defeated the top seeded team of Forman and Fernandez in the semi-finals 6-3, 6-3.

Excluding the Princeton Tournament, the Tiger netters added three more teams to their growing list of victims. Florida State, College of Charleston, and Auburn each fell 9-0 to Clemson in the Auburn Tournament.

Florida State was the first to fall when number-one seed Jane Forman, number-two Gigi Fernandez, and number-three Melissa Seigler all claimed victories. Forman stopped Suzanne Dumar 6-7, 6-3, 6-2; Fernandez outlasted Jamie Kaplan 6-3, 3-6, 6-3; and Seigler got past Lee McGyre, the Seminole's top player the previous season.

A sibling rivalry occurred when Clemson's Lisa Bobby went against her sister, F.S.U.'s Andrea Bobby in doubles. The victory went to Clemson with the pairing of Lisa Bobby and Jodi Trucks.

The next ten days after the Auburn Invitational pitted the Clemson netters against the nation's best teams.

While in Ann Arbor, Michigan, the Tigers lost to three out of four teams. The

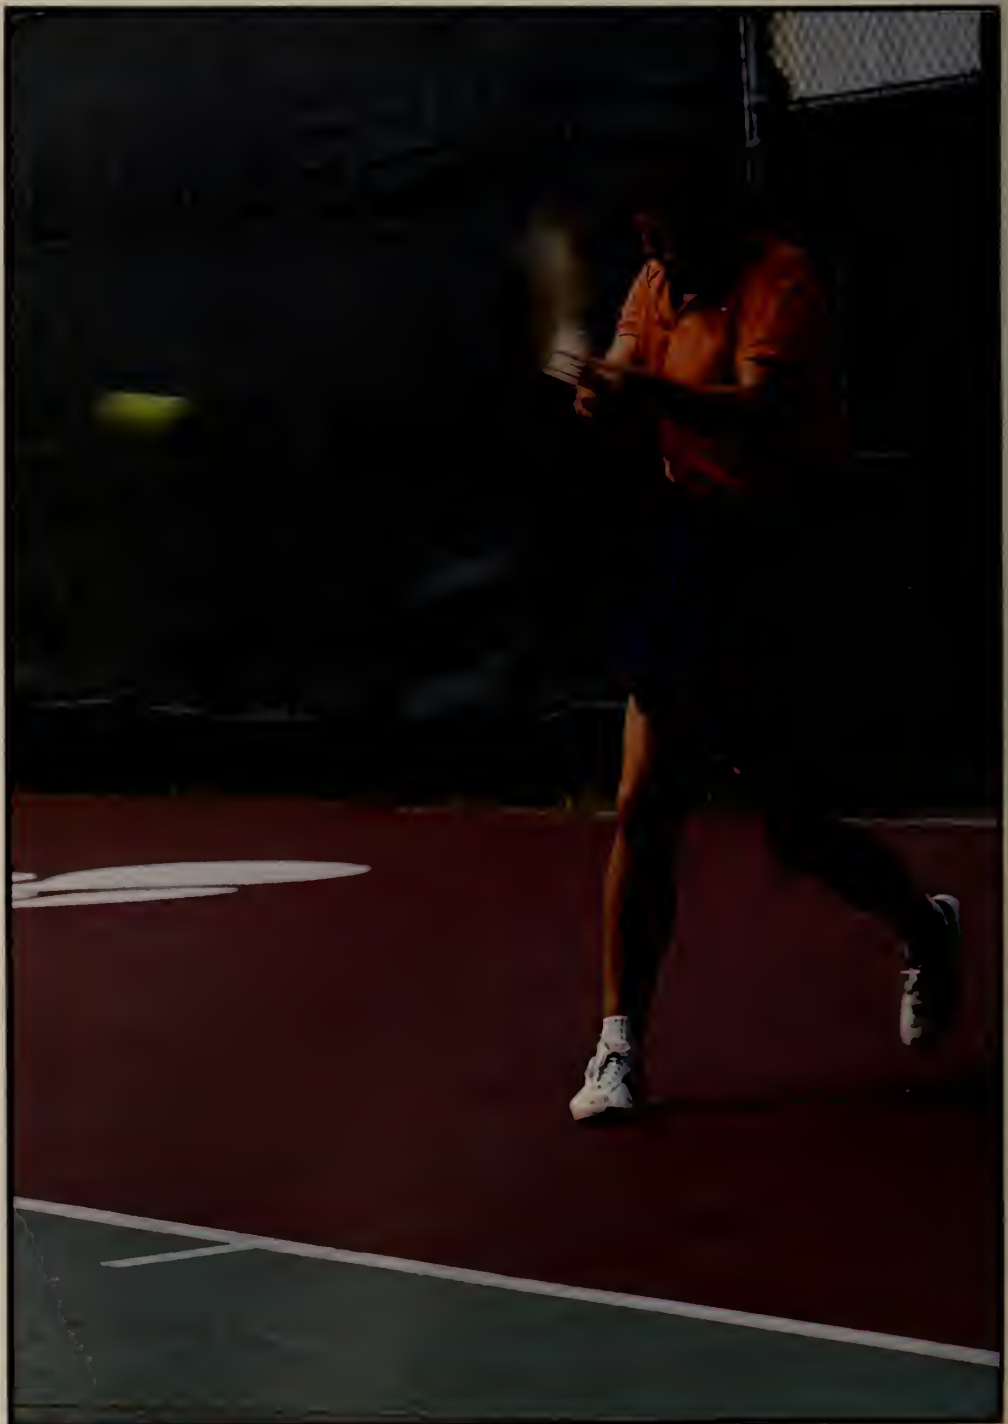

netters lost to Trinity 0-9, lost to UCLA 1-7, beat number ten ranked Indiana, and then lost to South Carolina 2-5. This catastrophic tournament snapped a sixteen-match winning streak for the then seventh-ranked Tigers.

Afterwards, on the west coast, Santa Barbara and Pepperdine fell victim to

Clemson by an identical score of 7-2.

Returning from their west coast trip, the Lady Tigers beat Furman and Ole Miss, each by a score of 9-0. Oklahoma and Duke were not spared either as each was trounced 1-8.

"If you just look at the scores," top seed Foreman said, "it seems like we

Fernandez turning away Christina Roswadowski 6-0, 6-0.

Melissa Seigler turned away Lady Brahmin, Marcie Cunniff 6-1, 6-3.

The doubles pairing of Forman and Fernandez, Trucks and Bobby, and Jane Neville and Seigler, came away with victories.

Against Old Dominion, the Tigers swept the doubles matches from the Lady Monarchs; the same doubles pairing as against South Florida won handily over

O.D.U.

Jane Forman was undefeated in the Lady Tiger Invitational. "It's rare to have all the girls in top form," said Assistant Coach Echarte, "but they're all at their best now, and they're looking good."

With the spring season winding down, Clemson concluded their regular season with wins over North Carolina State University, UNC-Chapel Hill, Wake Forest, and Maryland.

In their regular ACC season, the Lady Tigers took first place for the second time. The Wolfpack, the Tigers toughest

opponent, fell to Clemson in the ACC Tournament.

In the ACC championships, Clemson took first place. An outstanding performance for Tiger netters was turned in by Gigi Fernandez. Fighting her way through the draw to the individual finals, Fernandez lost to third-seeded Beth Herr, of Southern California 6-3, 2-6, 6-7.

Consistency of the day to day play of the women proved to be a lift to the Tigers. The netters played well and came away with a 19-4 spring record, 6-0 in the ACC and 30-5 overall.

Jane Neville returns an easy volley during one of her early matches.

Suzanne Burns

Richard Akel waits to return a serve during a match against Georgia at C.U.

All-American Jean Desdunes serves an ace which led him to one of his 41 victories this season.

Suki F. Cole

Jane Forman, Clemson's number-one seed the past two years, was selected as an All-American.

Spring twenty game winners were Jane Forman at 25-8, Gigi Fernandez at 28-7, Melissa Seigler at 20-4, and Jody Trucks at 20-5. Lisa Bobby at 18-7 and Jennifer Hirsh at 19-7 also contributed to the tennis team's spring 1983 success.

*****Men's*****

As is their tradition, the men's tennis

team had a top-notch season. Winning the Atlantic Coast Conference championship in Atlanta was just the icing on the cake. After last year's disappointing loss, the Netters came out with the fierce determination that tell-tales a winning team. As senior Jean Desdunes said, "Last year we felt that even though we lost to Duke, we were hungry to prove to everyone that we are still the best team in the ACC."

The Tigers did just that by winning out over last year's victors, Duke. The championship was not their only accomplish-

Miquel Nido, with a singles record of 41-20, puts forth one-hundred percent concentration to execute a powerful forehand shot.

Suk F

ACC Champions . . .

ment though. They ended the regular season with an impressive record of 27-9 overall and 7-0 in conference play.

At the start of the season, Coach Chuck Kriese was very optimistic. "This could be our best team ever because the guys are starting to show that they again have 'the eye of the tiger'."

The Tigers started their season with a very strong 9-0 victory over UNC-Asheville. They also won their next decision

against fifteenth-ranked Texas Christian University by a narrow 5-4.

They were given their first defeat by the number one ranked Southern Methodist team with a score of 7-2. They also dropped their next match against Stanford 1-8 due to what Kriese termed, "a lack of intensity." However, they bounced back six days later in their home opener against Emory by soundly defeating them 9-0.

The Netters suffered their third defeat in Miami, Florida against the Hurricanes

A full season after her accident, Jody Trucks is back in top form. Trucks had a season record of 27-10 while she was 8-0 in the ACC.

Terry Windell

Returning an easy backhand, Jean Desdunes shows the form that lead him to a 41-29 record.

Suzanne Burns

ACC Champions . . .

7-2. They defeated LSU the next day though, 7-2, to start off a long winning streak. Their next five victories were earned at home against Kentucky 9-0, Lander 8-1, Presbyterian 8-1, UNC-Charlotte 9-0, and Evansville 9-0.

The next two matches the Tigers played continued their string of victo-

ries, scoring 5-1 over Texas A & M and 6-3 over Texas, both at Corpus Christi. They were defeated the next day by Trinity 5-2 but recovered to defeat Arkansas 6-3 in the last of the series in Texas.

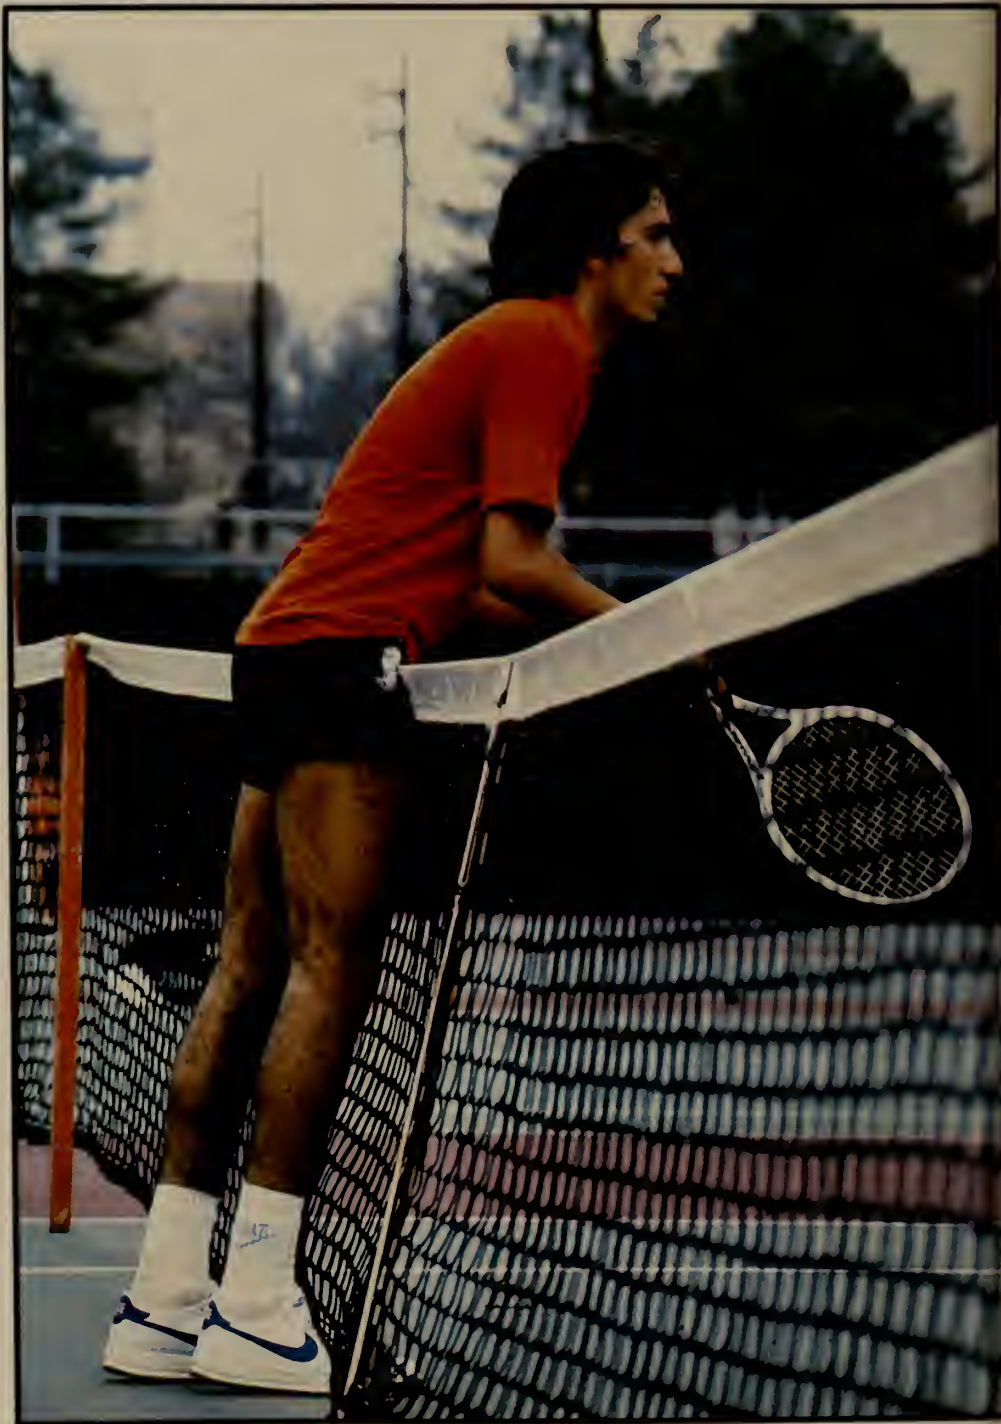

Kriese's players returned home three days later to defeat both Penn State and Old Dominion 9-0. Their next home match was a disappointing 6-3 loss to SIU-Edwardsville. They once again showed

Number two seed Richard Akel returns a volley to an opponent from Georgia during a match in which he had nine aces.

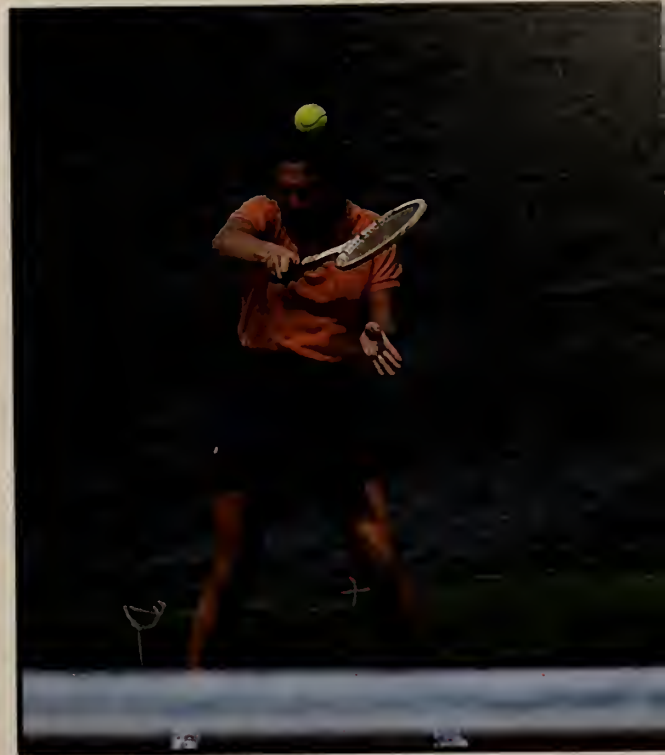

Returning a volley, Lori Miller shows her opponent why she held a 7-2 record.

Resting on the net, Richard Akel thinks about his match. Akel had a 31-29 record this season.

Clemson's number three seed Jean Desdunes makes a great backhand return. Desdunes was an All-American.

While playing in a match against Georgia, Lori Miller improves her spring record to 3-0.

Richard Akel returns a shot during one of his 31 victories. In addition to all his singles wins, Akel had 29 doubles victories.

their winning ability to everyone by scoring victories over Miami 6-3 and Texas 6-3, rounding out their home series.

The next away series proved to be a bitter disappointment to the 17-5 team. Three of their last four defeats were suffered at the hands of Southern California 6-3, Pepperdine 5-4, and UCLA 8-1. The Netters came home and lost to Auburn 5-4.

This was their last defeat in regular season play. The next day they traveled

to win against Wake Forest 8-1 and Virginia 8-1. Their longest winning streak of the season continued with a hard-fought victory at home over Georgia 5-4. The Tigers followed that one up with another against Georgia Tech, 9-0. Three days later they defeated South Carolina 6-3 and Furman 6-3, away. Their last regular season victory came at home with an 8-1 win over Maryland.

Attempting to get out of a sandtrap, Dillard Pruitt takes a hard swing at a bad lie. Pruitt's best finish was third at the S.E. Invitational.

Fifth Best In Nation!

In his last season as golf coach, Bobby Robinson was the leader of what may have been the best golf team in Clemson history. There is no doubt that the team finished the season with its highest national ranking ever, finishing fifth in the NCAA Tournament, but that same team finished only third in the ACC Tournament just weeks before. The 1983 golf team was very inconsistent, however, they played well when it really counted.

The Tigers started their season in good form with a strong finish at the Seminole Classic where they finished fourth out of a field of 21 teams. Julian Taylor was Clemson's top performer with a second place individual finish.

In their second tournament of the season, the team traveled to Lakeland, Florida to compete in the Imperial Lakes Classic. The team turned in what proved to be its worst performance of the year when

they finished fifteenth out of 21 teams. The best individual effort was by Norman Chapman who finished 21st.

After leaving Florida and the disaster at Imperial Lakes, the Tigers headed for Durham, North Carolina and the Iron Duke Classic. Some of the best teams in the country gathered at the Iron Duke where Clemson turned in a match that stunned not only North Carolina, who seemed to win that tournament every year, but the entire ACC. The team finished first out of a field of 24 and shot a season low 870 for the three day tournament. Three players finished in the top ten with Jim MacFie taking the individual title, the only individual title that a member of the Clemson team would win all season.

The Tigers proved that their first place finish at Durham was not a fluke when they traveled to the Furman Invitational

in Greenville a week later by capturing their second tournament in a row. The team finished first out of 23 teams with David Pruitt turning in the top individual showing by finishing eighth.

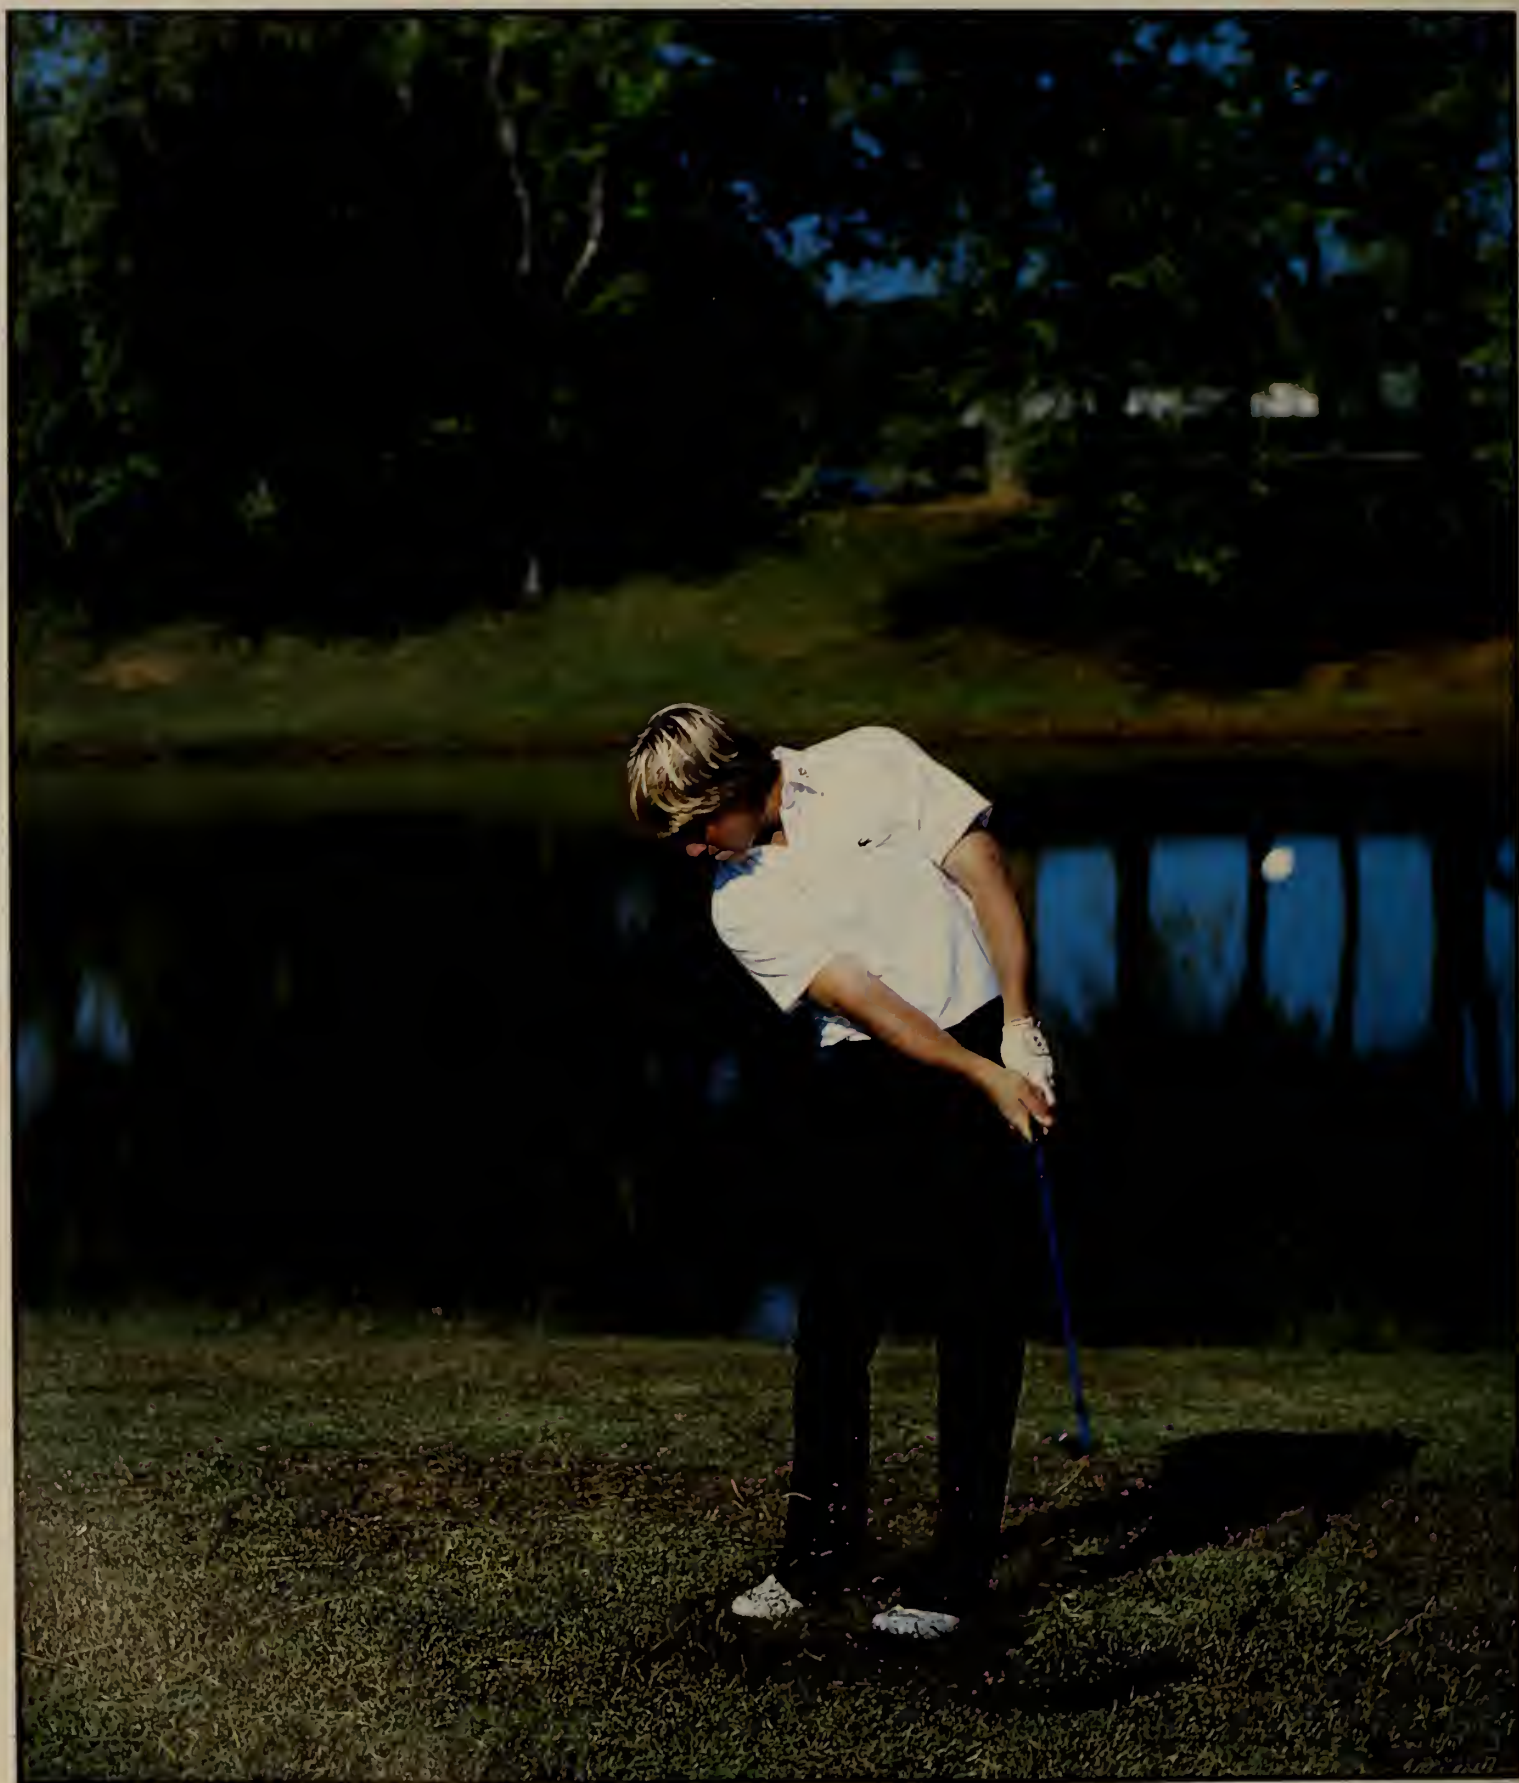

A week later the team traveled to Orangeburg to participate in the Palmetto Invitational where they put in another strong showing. Out of a field of 18 teams, the Tigers finished second with three team members tying for 12th for the top individual scores.

With the ACC Tournament only two weeks away, the Tigers had one final "tune-up" tournament. They traveled to Montgomery, Alabama for the Southeastern Intercollegiate Tournament and walked away with a fourth place finish

It's a good idea for a golfer to check his equipment before he heads for the course. Coach Penley's clubs are spread out for a quick inspection before practice.

J. Michael Barrett

Dillard Pruitt had the best average of the season with a 73.31 average for 35 rounds. Here, Pruitt takes a chip shot from the fairway.

Fifth Best . . .

from a field of 24. Dillard Pruitt scored a third place finish to lead the Tigers with a 212 total for the three day event.

On April 15, the "big day" finally arrived — the Atlantic Coast Conference Tournament. The winner of the ACC Tournament receives an automatic bid to the NCAA Championships and with that, a chance to be national champion. The Tigers were favorites to win the ACC crown, but disaster struck. The team had bad first and third rounds and could not overcome the fine play of conference rivals North Carolina and North Carolina State. The end result was a disappointing third place team finish and no automatic bid to the NCAA Tournament. Now the team could only hope for an at-large berth to the National Tournament.

There was no more regular season tournament left and an uninspired Tiger team

traveled to Statesboro, Georgia for the Schenkel Invitational. The Tigers finished eighth out of 18 teams as Dillard Pruitt and Julian Taylor tied for the best individual performance; they tied for 18th.

Two weeks after the regular season ended, the team received the notice that they had been praying for, an at-large bid to the NCAA Tournament. The NCAA Tournament was played at San Joaquin Country Club in Fresno, California. Clemson played well for the first three days of the tournament, well enough to be in 12th place and make the final cut. If one was to say that the Tigers played "well" during the first three days of the tournament, then their final day was nothing short of fantastic. They shot a 288 on the final day, the second best score of the day and third best single day score of the tournament, and jumped from 12th place in the tournament to fifth. In simple terms, the Clemson Tiger golf team was ranked as the number five team in the country!

Individually, the Tigers top five players were Dillard Pruitt, 73.31 average; Norman Chapman, 73.63 average; Charles Raulerson, 73.93 average; Julian Taylor, 74.03 average; and Tony Nimmer, 74.13 average. These players, along with the rest of the team helped Clemson to attain the height that it had never before reached.

****only two rounds played,
5 of 6 scored***

Georgia Tech's mascot is as impressed with varsity cheerleader Sherry Thrift as the fans.

A smile can sometimes be a good way to get the crowd involved, as senior, Administrative Management major, Arian Roberts proves during the 16-16 tie against rival Georgia.

The visit from Aldo Cella gave the tiger, Randy Faile, and cheerleader Danny Pechthall new ideas on how to keep up the crowd's enthusiasm.

Cheerleaders: Where Do They Belong?

For quite some time, cheerleading had been in a "grey area" as to its classification. Was it a sport, a club, or an organization? It seemed that everyone around the University had a different opinion and some good reasons to back up their claim.

The cheerleading squad, funded and controlled by the Office of Student Life under Dean Walter Cox, was classified in the Student Handbook as a "legitimate student activity," and its purpose was "to bring about full support of students and spectators in an effort to help the Clemson team play its best." What the handbook failed to mention though, was that when the squad participated in cheering competitions, it was the "Clemson team", just as in any sport.

The two different activities participated in by cheerleaders were the main cause of the controversy. Without a doubt, the major purpose of the cheerleaders was to keep up fan support at the games, but the methods they used were very athletic. They also practiced ten to twenty hours a week and showed great dedication. They were also divided into a varsity and junior varsity squad, just as in sports. There was no doubt that the participants in cheerleading were athletes, but should it have been labeled a sport?

The Varsity Cheerleaders themselves registered a unanimous, "Yes!" Kathy Anderson, a Varsity Cheerleader, best summed up the attitude: "We practice every day just as every varsity sport does. We cover all aspects (of cheerleading) every practice in a uniform manner ... we must always be in training." She also brought up the fact that they were a team; "We can't function unless everyone is present and totally dedicated."

The next question that had to be resolved was that of which department could regulate the cheerleaders' activities. As they were classified, the Office of Student Life was the only one. However, many cheerleaders felt that they should have been put under the jurisdiction of the Athletic department. If this were to happen, their budget would triple, but they would be more strictly regulated. The Athletic department was already sanctioning cheerleading, so many cheerleaders felt that since they had to follow that department's regulations, then they should have received funding from it as well. This move would have also

clarified the squad's standing. Kathy Anderson pointed out, "As it stands now, we're halfway between Student Life and the Athletic department so we have to answer to both. If we are going to abide by the rules set up by the Athletic department, I do believe that they should support us."

Assistant Dean of Student Life, Mickey Lewis, was in agreement that cheerleading is a sport, but he was not sure that being put under Athletics would be in the best interest of the squad. "They can maintain their autonomy better outside the Athletic Department. They do a pretty good job of governing themselves."

If the cheerleaders did belong under Athletics, another question arose. What would the squad have done with such a large budget? According to the cheerleaders, first and most important would have been to hire a professional coach to help them write and practice cheers.

They felt that a coach would have provided continuity for the squad. As they were organized, they practiced and set up stunts on their own, and as group leaders graduated, the squad had to build itself over again.

Many of the questions brought up about cheerleading were a result of an Atlantic Coast Conference regulation prohibiting the squad from performing any stunts over two people high. Most of the cheerleaders did not feel that this was a well thought-out regulation, but they were obligated to comply with it. Technically, the cheerleaders were not under the jurisdiction of the ACC Athletic Council. One cheerleader expressed his opinion by stating, "Cheerleading, until recognized as a sport, should not be regulated by a body that has nothing to do with it." When asked how the ACC Athletic Council could sanction cheerleaders, Mickey Lewis replied, "Excellent

One of the most exciting parts of each home football game is the football team's run down the field. The cheerleaders work hard at getting the crowd ready for the event.

Senior Arian Roberts shows a big smile during the Homecoming game against Virginia. The Tigers won that game 42-21.

Scott Harke

question. You should propose that to the ACC and ask them that (sic)."

The cheerleaders agree that if they were funded under athletics, the funding organization had a right to set regulations. "But," one remarked, "these regulations should be drawn up by a panel of knowledgeable, objective participants."

The dissatisfaction with the rule came from the fact that most of the cheerleaders felt that pyramid stunts, involving three people, were safer than many partner stunts which were not regulated. No one argued about the need for regulations for safety's sake, but they needed to be made by someone who was familiar with their needs. One cheerleader commented, "I don't agree with someone that is not involved and experienced with cheerleading dictating completely what

we can and cannot do."

The cheerleader question would probably never be resolved to everyone's complete satisfaction. Hopefully though, it would be settled in the best interest of the participants and the University so that the cheerleading squads could best aid fan participation at the games. As Head Cheerleader George Davis pointed out, "Some schools have had problems finding the correct blend, but Clemson seems to have found the recipe between performing and cheering that helps keep fans enthusiastic, which is the overall purpose of the cheerleaders."

Julie Paulling

Terry Windell

Terry Windell

By halftime during the Western Carolina game head cheerleader George Davis and junior varsity cheerleader Christie Parker were both ready for a break and a drink.

Being the head cheerleader is not an easy task. The head cheerleader takes much abuse from the students as well as The Tiger. This year's head cheerleader was George Davis.

Wearing tiger paws and lots of orange are two ways Sheryl Pitts and all the cheerleaders show their team support.

J. Michael Barrett

\$13.5 Million — Thanks, IPTAY!

At a cost of approximately \$1,000 a seat, Clemson's Memorial Stadium seating capacity increased by 15,585 for the 1983 football season.

The new upper deck, which tops the north stands, seats 13,400 people while the additional seats are located in the northwest corner and in private club boxes.

Each of the private boxes seats anywhere from eight to 22 people with the cost ranging up to \$18,000. "You must be a \$2,000 card holder in IPTAY," Athletic Director Bill McClellan said. "But, these are for businesses or industries who like to entertain without tailgating."

The \$15 million project began in late November after the 1981 championship season and was expected to be complet-

Economy Forms Corporation supplied all of the scaffolding for the new upper deck.

ed for this last season. A few complications slowed the project down, but by the Tigers' 1983 opener against the Western Carolina Catamounts, the new upper deck was finished.

However, rain and more rain kept many Tiger fans from Death Valley that Saturday afternoon and only 71,500 people watched Clemson defeat the Catamounts 44-10. But two weeks and two teams later, "cats" and "dawgs" were the only things that poured into Death Valley to watch Clemson challenge the then-ninth ranked Georgia Bulldogs. Thanks to the new upper deck, the game was a sell-out — over 81,000 people — and the largest crowd to watch a college football contest ever in the state of South Carolina.

Parking for the additional people was on and around perimeter road. "A garage was not feasible," McClellan said, "so other arrangements were made."

Other than parking problems, no major crises came with the deck. In previous additions to the stadium, workers were severely injured or killed, as when the first upper deck was constructed.

Only one injury occurred during the completion of the new deck — a construction worker fell 30 feet while climbing down from a site for lunch. "A cable broke his fall," McClellan said, "but he was in bad shape for a while."

STADIUM CAPACITIES — THE TOP 15

School	Stadium (Total Capacity)
1. UCLA	Rose Bowl (106,000)
2. Michigan	Michigan Stadium (101,701)
3. Southern Cal	L.A. Memorial Col. (92,604)
4. Tennessee	Neyland Stadium (91,249)
5. Ohio State	Ohio Stadium (85,290)
6. Stanford	Stanford Stadium (85,000)
7. Penn State	Beaver Stadium (83,770)
8. Georgia	Sanford Stadium (82,122)
9. Texas	Texas Memorial Stad. (80,000)
10. CLEMSON	CLEMSON MEMORIAL STADIUM (78,915)
11. Wisconsin	Camp Randall Stadium (77,280)
12. Nebraska	Memorial Stadium (76,500)
13. Michigan State	Spartan Stadium *76,000
14. LSU	Tiger Stadium (75,848)
15. California	Memorial Stadium (75,662)

Facts by Jeff Rhodes

New deck construction started on Nov. 17, 1982 and ended at 10:46 pm, Friday, September 2, 1983.

The USA Today newspaper is famous for its lists, so we thought up this list of facts and figures on the upperdeck. They are as follows:

- 19,000 yards of cast-in-place concrete*
- 3,500 yards of pre-cast concrete*
- 2,200 tons of reinforcing steel*
- 3,000 tons of asphalt*
- 5,800 gallons of paint*
- 55 turnstyles*
- 50 swing-type gates*
- 610 feet of 10-foot high fence under the stands*
- 300 feet of four-foot high fence along the ramps*
- 10 new concession stands*
- 72 luxury boxes*
- 28 bathrooms*
- 4 elevators*
- 2 staircases*
- 15,585 seats (counting luxury boxes)*
- 60,000 pounds of aluminum seating*
- 8 light poles weighing 16 tons apiece*
- 48 lights per pole (x 8 poles = 384 total lights)*
- 1,500 watts per light (x 48 lights = 72,000 watts per pole (x 8 poles = 576,000 total watts in stadium)*

Other figures of interest:

- Frank Howard Field to top of deck: 187 ft.*
- G Street to top of deck: 147 ft. 9 inches*
- Deck height: 13.36 stories*
- Deck length: 560 ft.*
- Deck width: 130 ft.*
- Radius deck built on: 705 foot arch*

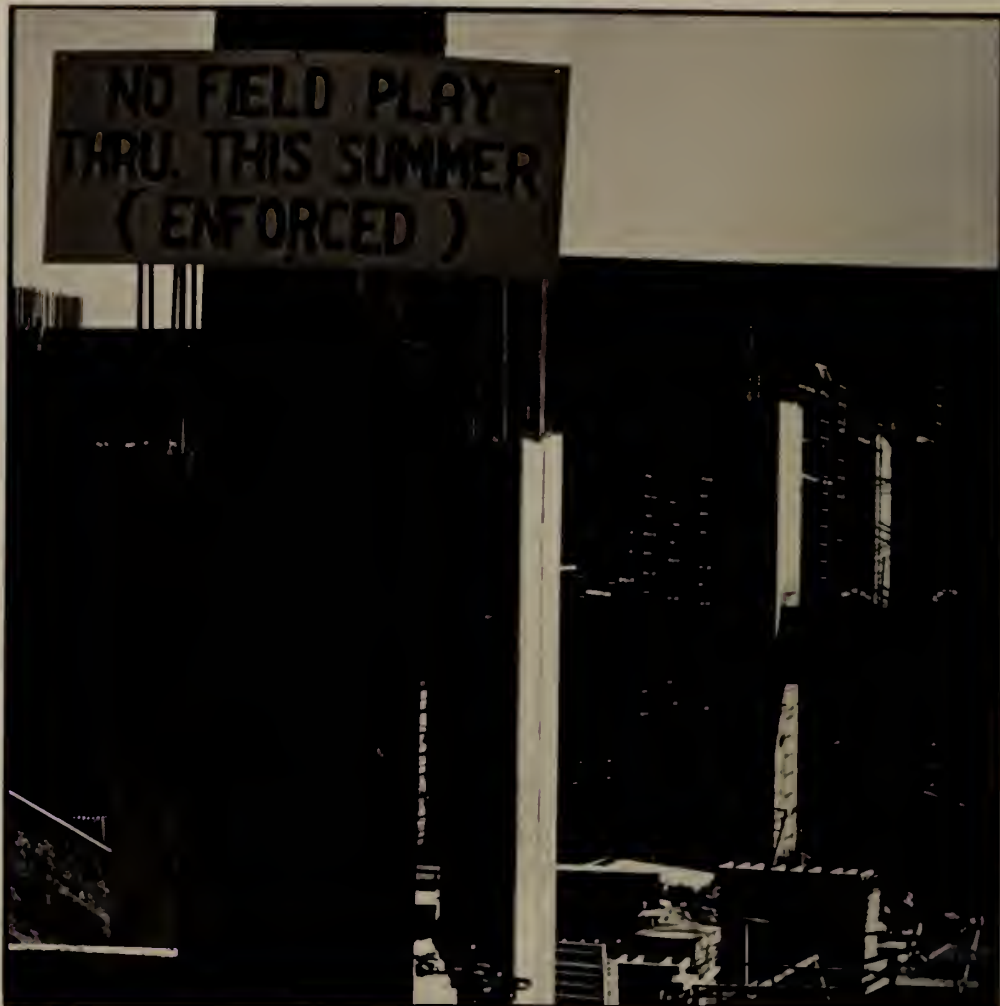

(That is, if you drove a stake at midfield, and built a full circle out of the deck, it would be 705 feet across. In other words, if the upper deck were a circle, it would go from the middle of the intramural field to behind Cemetery Hill.)

Width between columns: 40 ft.

Light height: 160 ft.

Total cost: 13.5 million dollars. The money was raised by a consortium of five banks who put up 8.5 million dollars and IPTAY, who contributed the remaining five million. IPTAY will pay off the bank notes, and no student fees will be used. Total construction time: 290 days. Special thanks: Les Jones, Clemson Director of Facilities

Facts by Jeff Rhodes

Andy Smith

The addition of the new upper deck cost more than just money, it also cost the students three intramural fields.

Terry Winder

In the beginning there were columns; in the end there was a \$13.5 million deck

Terry Windell

... Thanks, IPTAY!

Throughout the entire season the Tigers were restricted from television (except for delayed airing), were not allowed to compete for the ACC title, and were not eligible for a post-season bowl. According to McClellan, all of this went into play in the decision to build the deck. "We had a need for more seats because our program had grown so much," he said. "I think people who wouldn't get to see the Tigers play on T.V. came to see the games instead."

Pam Sheppard

It took five cranes and 300 men to build the new upper deck.

Vern Verna

The view from the top of the world. The new deck will hold 13,400 more orange-clad fans.

During halftime of the Clemson-Maryland clash, Bradley adds up some statistics. Clemson rushed for 350 yards that day as they won the "unofficial" ACC Championship 52-27.

Being Sports Information Director is not all work. SID Director Bob Bradley enjoys some of the "fringe benefits" as Jane Robelot, a Clemson Alumnus, sneaks a peck on his cheek.

In an average day Mr. "B" spends about three hours on the telephone just giving information to reporters and newscasters. Bradley was named the "national champion" SID in 1976, five years before the football team.

All Photos by Terry Win

Mr. B — Da Boss

The last few years had seen Clemson athletics rise to a new position of public awareness, and keeping the Tigers in the minds of the media and the public alike was the job of Bob Bradley, recognized leader in his profession. Bradley had received every conceivable award and had become one of the most respected men in the sports information field.

The knowledgeable and personable Bradley was elected president of CoSIDA, the national organization of sports information directors, during 1974-75. He received the Arch Ward Award as CoSIDA Man-of-the-Year in 1976, and he was also elected by his peers to the organization's Hall of Fame. Under Bradley's direction the Sports Information Department had won a total of 33 national and state awards for their brochures and press guides in the last five years. During 1979-80, Clemson won nine awards for its work, which was the second highest total

among Division I schools that year. The SID office won six awards in 1980-81 and 1982-83 and garnered a total of nine in 1981-82. Included in the nine awards were six national award-winning press guides, more than any other school in the country.

Several student assistants who worked under Bradley had gone on to full-time positions in the sports information field — an indication of Bradley's dedication to sports information. Additionally, Bradley was honored in the spring of 1983 by the South Carolina Athletic Hall of Fame for his special contributions to athletics.

During his college days at Clemson, Bradley was the editor of *The Tiger*. In addition to having been editor and sports editor of that weekly publication, Bradley also worked for the Greenville News-Piedmont on both a full and part-time basis. Bradley graduated from Clemson in 1951 with a BS degree in textile manufac-

turing and served four years in the Air Force. He then returned to Clemson and became SID director on October 1, 1955.

The 58-year-old Bradley was born in Randleman, North Carolina, and graduated from Greenville High School. He married Louise Madewell of Dallas, Texas, and had two children. When asked what his greatest thrills involving Clemson athletics had been, he replied, "beating Kentucky in Rupp Arena during the NIT Basketball Tournament and the 1981 Orange Bowl."

When asked what it was really like to work for Mr. "B", as he was commonly called, Jeff Rhodes replied, "... it's great. He really believes in us and puts a lot of trust in our work. He gives us good assignments and lets us do it ourselves ... Mr. "B" is just one super person."

*Sports Information Dept.
Mitch Green*

During an interview Mr. Bradley answers questions about his years with the Sports Information Department. He became the Sports Information Director on October 1, 1955.

If you think that your dorm room is the most cluttered place in Clemson, then you have never been in Bob Bradley's office. Mr. Bradley's office is always full with stacks of statistics, parking passes, and other papers; however, he may also be one of the most organized people in Jervey.

Terry Windell

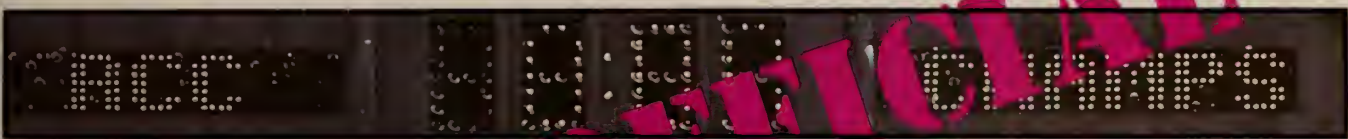

During the Western Carolina game, William Devane (94) takes a few minutes to think about what has happened. Clemson whipped Western 44-10.

The ACC Coach of the Year, Danny Ford displays his feelings with a number one sign near the end of the Tigers 52-27 romp of the "official" ACC Champion Maryland. Ford's overall coaching record at Clemson is 45-11-2, and his winning percentage is fifth among all active division I coaches.

Terry Windell

Probation, a slow start, a new winning streak, the 1983 ACC Coach of the Year, seven players named All-ACC, and a new upper deck all led to a 9-1-1 season with no bowl game.

The Tigers spent the year on NCAA and ACC probation due to recruiting violations — the result was no live television and no bowl appearances this season. The NCAA probation could end with the final game of the regular 1985 season, although the ACC sanctions will carry on for one extra year.

The 1983 version of the Fighting Tigers began their season in a rather dismal fashion by winning only one of their first three games while salvaging only a tie against Georgia for a 1-1-1 start. But then the system began to work again as the team reeled off eight straight victories for a 9-1-1 record and an 11th place national ranking in the Associated Press poll.

1983 was the year that saw the new upper

deck added to the north stands to increase the stadium seating capacity to nearly 82,000. This season also saw seven members of the team named All-ACC performers, they were: Bob Paulling (K), James Robinson (DT), Edgar Pickett (DE), Rod McSwain (CB), James Farr (OG), K.D. Dunn (TE), and William Perry (MG). Coach Danny Ford was named ACC Coach of the Year, and William Perry was named All-American.

The year was a good one by any team's standards, however a trip to the Orange Bowl and a shot at number one Nebraska would have been great — but just wait till next year ...

Clemson 44 W. Carolina 10

The 1983 season opened with a bang as quarterback Mike Eppley threw 16 yards to tailback Terrance Flagler on the first play of the game to get the season rolling for the

J. Michael Barrett

Tigers. The Tigers continued their drive and capped it off with a four yard touchdown pass from Eppley to tightend K.D. Dunn. In the passing department Eppley was 10 out of 14 for 140 yards and three touchdowns. Clemson's other touchdown came on a run by reserve quarterback Anthony Parete. Bob Paulling kicked two field goals and three extra points for the Tigers. Western Carolina's lone touchdown came when conerback Steve Davis intercepted a Todd Heniford pass and returned it for a touchdown. Western also added a late field goal for their final score.

Clemson 16 B.C. 31

What started out as a beautiful evening in Boston turned out to be a terrible nightmare as Boston College rallied from a 13 point deficit to club the Tigers 31-16. The Tigers built up a 13-3 halftime lead on the strength of a Terrance Flagler touchdown and field goals of 48 and 55 yards by Bob Paulling and Donald Igwebuikwe respectively. They increased their lead to 16-3 early in the third quarter on another Paulling field goal; however, after that score everything seemed to fall apart for Clemson. Behind the running of tailback Troy Stradford, who gained 179 yards, the Eagles scored 28 unanswered points to bury C.U. The game turned out to be more costly than just a loss, Clemson lost starting tailback Terrance Flagler and David Clayton to knee injuries. As it turned out, both players were lost for the remainder of the season.

Clemson 16 Georgia 16

The Tigers were on an emotional high when their fourth ranked rival Georgia came to Tigertown. It was the first time that the newly expanded Death Valley was pushed to its limits as 81,000 spectators watched the Tigers and the Bulldogs play to a 16-16 deadlock. Clemson battled its way to a 10-6 halftime lead and a 16-6 third quarter lead only to see it slip away again, as for the second

Quarterback Mike Eppley (14) sets up over the line during the Tigers contest with Georgia Tech. Clemson gained over 350 yards in total offense in the game as they crushed the Yellow Jackets 41 to 14.

Clemson Football

During the 41-14 trouncing of Georgia Tech, Kenny Flowers (48) returns a kickoff for good field position. Flowers came on strong as the season progressed and is becoming one of the University's premier running backs.

Clemson shows its number one trademarks in recent years ... DEFENSE. During the Georgia game the Tigers make a gang tackle on the Bulldog tailback David McCluskey (43).

ACC Champs

week in a row the Tiger defense loosened in the fourth quarter. Georgia scored 10 points in the final period to secure the deadlock. Untimely turnovers and getting only a field goal after having the ball first and goal at the Georgia four yardline were key factors. Even though the team didn't get a mark in the win column, they did prove that they could still play top notch football — at least for three quarters.

Clemson 41 Georgia Tech 14

The orange pants struck again! For the first ACC contest of the year the Tigers brought out their famed orange pants, and the magic was still there. The Tigers jumped

out to a 24-7 halftime lead and this time never let up. Sophomore tailback Kenny Flowers carried 18 times for 124 yards and a touchdown. The Tigers gained over 350 yards in total offense and over 200 yards of that was rushing. C.U. also capitalized on turnovers as they turned three Tech misques into touchdowns. Clemson had begun its devastation of the ACC in '83.

Clemson 42 Virginia 21

The Tigers continued on their offensive roll as they crushed the Cavs in another easy ACC contest. Offensively the Tigers were tenacious. Quarterback Mike Eppley continued on his streak of good games as he threw for 199 yards on 12 receptions and two touchdowns. Meanwhile, fullback Kevin Mack had the best day of his career as he

gained 109 yards on 13 carries and scored two touchdowns. Virginia scored 15 of its 21 points in the second, but it was too late. The Tigers had completed the second step in their domination of the ACC.

Clemson 38 Duke 31

When Clemson travelled to Duke, the Blue Devils still had not won a game. When the Tigers left Durham, the Blue Devils still had not won, but they had come close. After controlling the entire first half of play and building a 24-10 lead, the bottom once again fell out from under the Tigers. Duke raked the C.U. defense for 21 second half points,

The offense celebrates in the end zone after a touchdown against Boston College as the Tigers build a 16-3 lead. The party was short lived, though, as B.C. came back to belt Clemson 31-16.

Michael Barrett

ACC Champs

however, Clemson scored 14 of their own to hold on to a 38-31 victory. Kevin Mack had his second big week in a row as he rumbled for 150 yards on 18 carries and scored another touchdown. Quarterback Mike Eppley had another fine day as he had seven passes caught for 131 yards. The score may have been close, but the end result was a win, a win that kept the Tigers undefeated in the

ACC.

Clemson 27 - N.C. State 17

The return of the defense! On paper North Carolina State seemed like they didn't stand a chance against the power of Clemson, but they came to Death Valley intending to prove "the paper" wrong. Tough defense characterized the first half of the ballgame, and the C.U. defense was called upon to come up with a second quarter safety to

keep the Tigers within one point at halftime, 10-9. This was the first time the Tigers had been behind after the second quarter all season. In the second half the defense kept up its hardnosed play giving up only seven points, and the offense finally got on track and picked up 18 points to secure a 27-17 victory. Quarterback Mike Eppley had his third big week in a row as he burned the State secondary for 248 yards and two touchdowns. Wide receiver Ray Williams caught four passes for 105 yards as he com-

ACC Champs

Clemson 24 Wake Forest 17

The Wake Forest Demon Deacons came to town during fall break and met the same tough defense that N.C. State had the week before. A halftime score of 10-10 led to a hard fought second half and the Tigers outscored the Deacons 14-7 to gain a 24-17 win, the Tigers fifth win in a row against ACC schools. Mike Eppley kept up his super pass-

Georgia's fullback Barry Young (38) finds out just how difficult it is to gain yardage against the Clemson defense as he meets linebackers Eldridge Milton (87) and Henry Walls (55).

J. Michael Barrett

ing as he passed for over a hundred yards for the fifth week in a row. Stacy Driver was the leading rusher against Wake Forest with 124 yards and 25 carries.

Clemson 16 North Carolina 3

"We work hard for our money," said Roy Brown in response to a crack about probation after the Tigers big win over U.N.C. Some people had been a little skeptical of the defense, but if the defense had a flaw, it didn't show against North Carolina. The defense let U.N.C. have a field goal during the third quarter, but after that the Tar Heels could only dream of pay dirt. The Heels were ranked in the top ten before Clemson handed them their second consecutive loss, and the victory moved C.U. into the top twenty with a 17th place ranking in the Associated Press poll.

Clemson 52 Maryland 27

363,729 balloons, 81,000 screaming fans, and an offense that was unstoppable lead to a 52-27 crushing of the official ACC Conference Champs and let Clemson claim the "unofficial" conference championship. Quarterback Mike Eppley threw 16 passes for 194 yards and three touchdowns. Rushing against Maryland, fullback Kevin Mack had the finest of his career as he gained 186 yards and scored three touchdowns. With this victory the Tigers proved that for the third consecutive year that they are the dominate team in the Atlantic Coast Conference.

Clemson 22 Carolina 13

What can we say? Four in a row. The annual "state championship" was just that, the same old hardnosed battle with tempers flaring and dislikes showing. South Carolina attempted to get a morale boost by proclaiming the day "Black Saturday" and wearing all black for the game, but it wasn't enough. Some lucky breaks, turnovers, good defense, and just enough offense was enough to carry the Tigers to a 22-13 victory and a 9-1 season.

If only Nebraska were next . . .

Mitchel W. Green

The high five strikes! Noseguards William Perry (66) and William Devane (94) celebrate after a great defensive play during the Georgia game. Perry went on to be selected a first team All-American at his position.

Hardnosed running was the key to the 27-17 victory over N.C. State. Here, Kenny Flowers (48) lowers his head and gains a few extra yards.

“The Best Of Times, The Worst Of Times”

Ibrahim's Tigers opened their season by winning powerfully over Pfeifer, Winthrop and Eckerd. Scores of 1-0, 2-0, and 6-0 respectfully were posted as the 1983 edition of Tiger soccer took to the field.

The Tigers went to work to decimate the

Eckerd Tritons. Danny Clavijo took a pass from Charles Morgan at 40:28 and proceeded to score from the right wing.

The next blow on Eckerd was struck by freshman Dick Landgren who took a pass from Maxwell Amatasiro and headed the ball

into the net from the left side at 38:13 of the first half.

John Lee scored his first goal of the year on a penalty shot at 28:37. At the 11:20 mark, Clavijo again took charge and headed the ball into Eckerd's goal after a pass from Mor-

gan.

The second half slowed down due to the heat and numerous substitutions that occurred. The last score was added by Amatasiro who was set up by Connor after Connor received a high corner kick from Clavijo.

The following week, SIU-Edwardsville came to the ACC's Death Valley of soccer prepared to fight.

A defensive struggle ensued but mid-

fielder Maxwell Amatasiro hit both Clemson goals in a 2-1 well fought battle over the Cougers. Amatasiro took a Clavijo pass ten minutes into the half and attempted to head the ball but it was deflected by a Cougar defender. Amatasiro stayed with the play and took the rebound and scored.

The first goal of the season given up by Jamie Swanner occurred a minute later as Cougar Carl Hausmann scored on an assist

Best/Worst Of Times

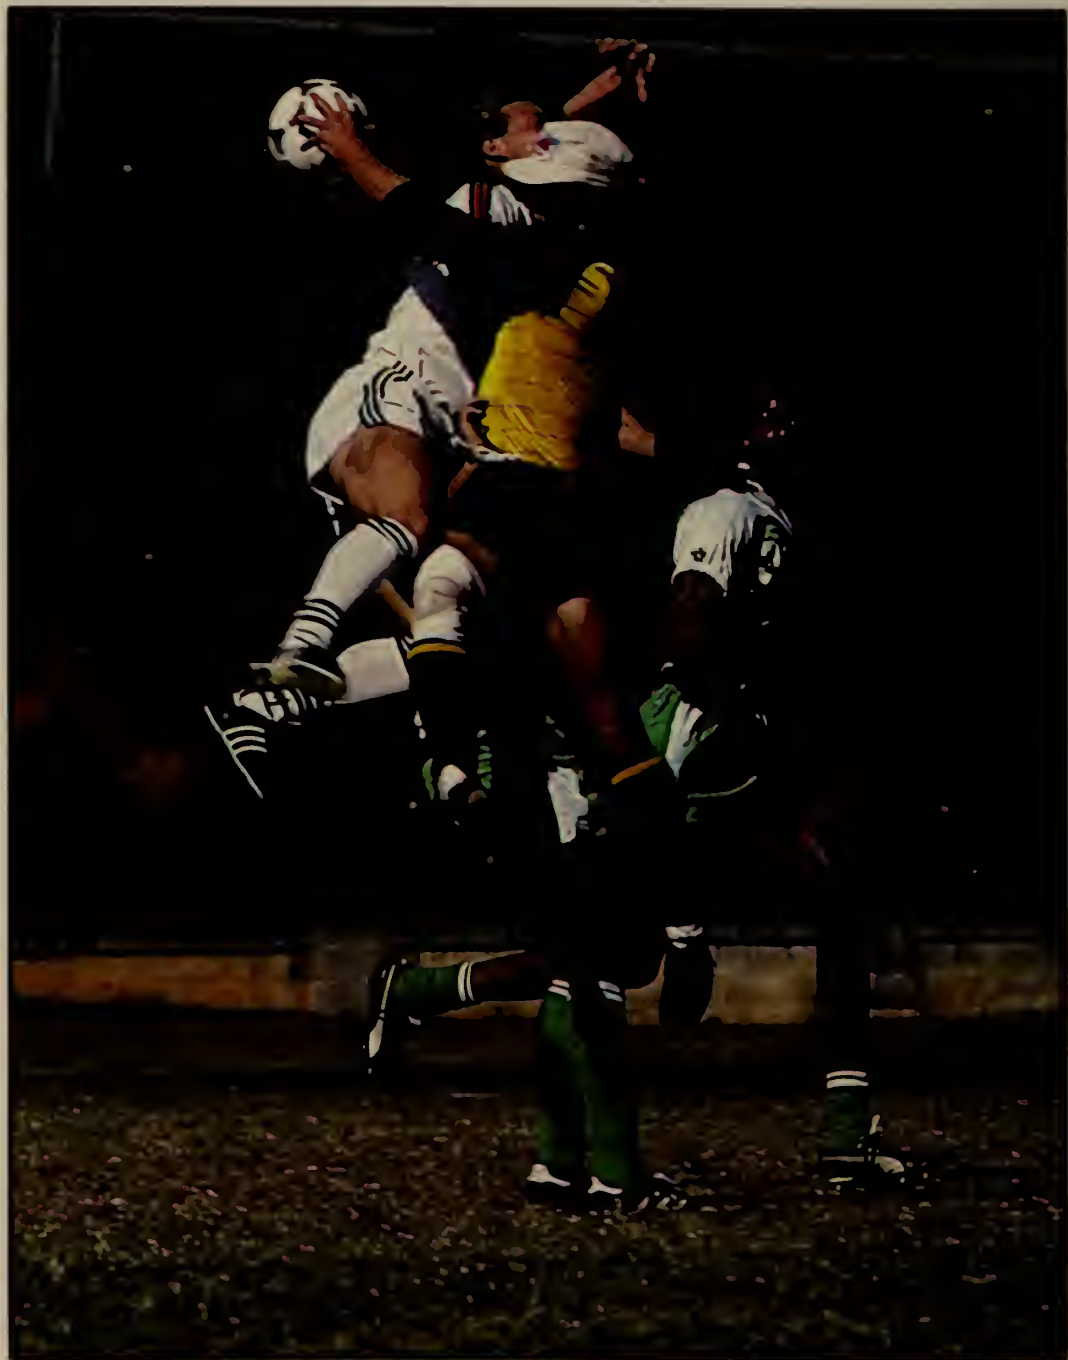

by teammate Tim Loughman. The winning score came at 21:50 when Amatasiro nailed a shot after a give and go style play involving Tiger's Chuck Nash and Danny Clavijo.

A few days later, the then fourth-ranked Tar Heels got a massive dose of reality as they were crushed 7-0. The Tigers were 7 for 13 in shots on goal while Swanner had 14 saves. Nash and Gary Connor each scored twice, while Eric Eichmann, John Lee, and Amatasiro added one goal each.

Furman took a nosedive 7-0 then the Tigers tied top-ranked Duke, 0-0. Coming off their first seven games, the booters were 6-0-1 overall, 1-0-1 in the ACC and ranked third in the nation.

Against Furman, Chuck Nash, Danny Clavijo and Gary Connor each scored twice as the Tigers dominated most of the contest. Four Tiger tallies came in a five-minute stretch late in the first half. Furman managed only one shot, which came with thirty minutes remaining in the contest.

The Duke contest featured the biggest soccer crowd in Tiger history as 6000 fans turned out to see the two teams battle to a scoreless draw. Few offensive attacks were mounted. Duke had one opportunity when

Bill Spitzer

David McDaniel sent a pass to Mike Linesberger, who headed the ball just over the goal.

At 35:23 of the second half, Amatasiro dished a pass from the right wing to Gary Connor, who fired just above the goal. Seven minutes later, Connor, took a rebound shot from the right side, but the attempt sailed wide. With 3:48 remaining, the Tigers had one more chance. Nash passed to Connor on

a breakaway, but a Duke defender broke up the play.

The action was intense in the second half. With 4:46 remaining, Nash drilled a close range shot, but the Duke goalie stopped the shot. Duke's final chance came at 1:12, but

Chuck Nash meets the enemy in Tiger Airspace.

Head Coach I.M. Ibrahim watches his Tigers dominate the game.

J. Michael Barrett

Blue Devil McDaniel's shot sailed just wide of the goal after a corner kick.

The booters picked up two wins the following week, but the then second-ranked Tigers were suffering from injuries that put them in a tight situation going into the South Carolina game.

Standing at 9-0-1 overall, the booters defeated the 13th-ranked Connecticut Huskies, 3-1, after a first half barrage from the Huskies. The Tigers consistency came into play as the Huskies fizzled in the face of the Tiger defense.

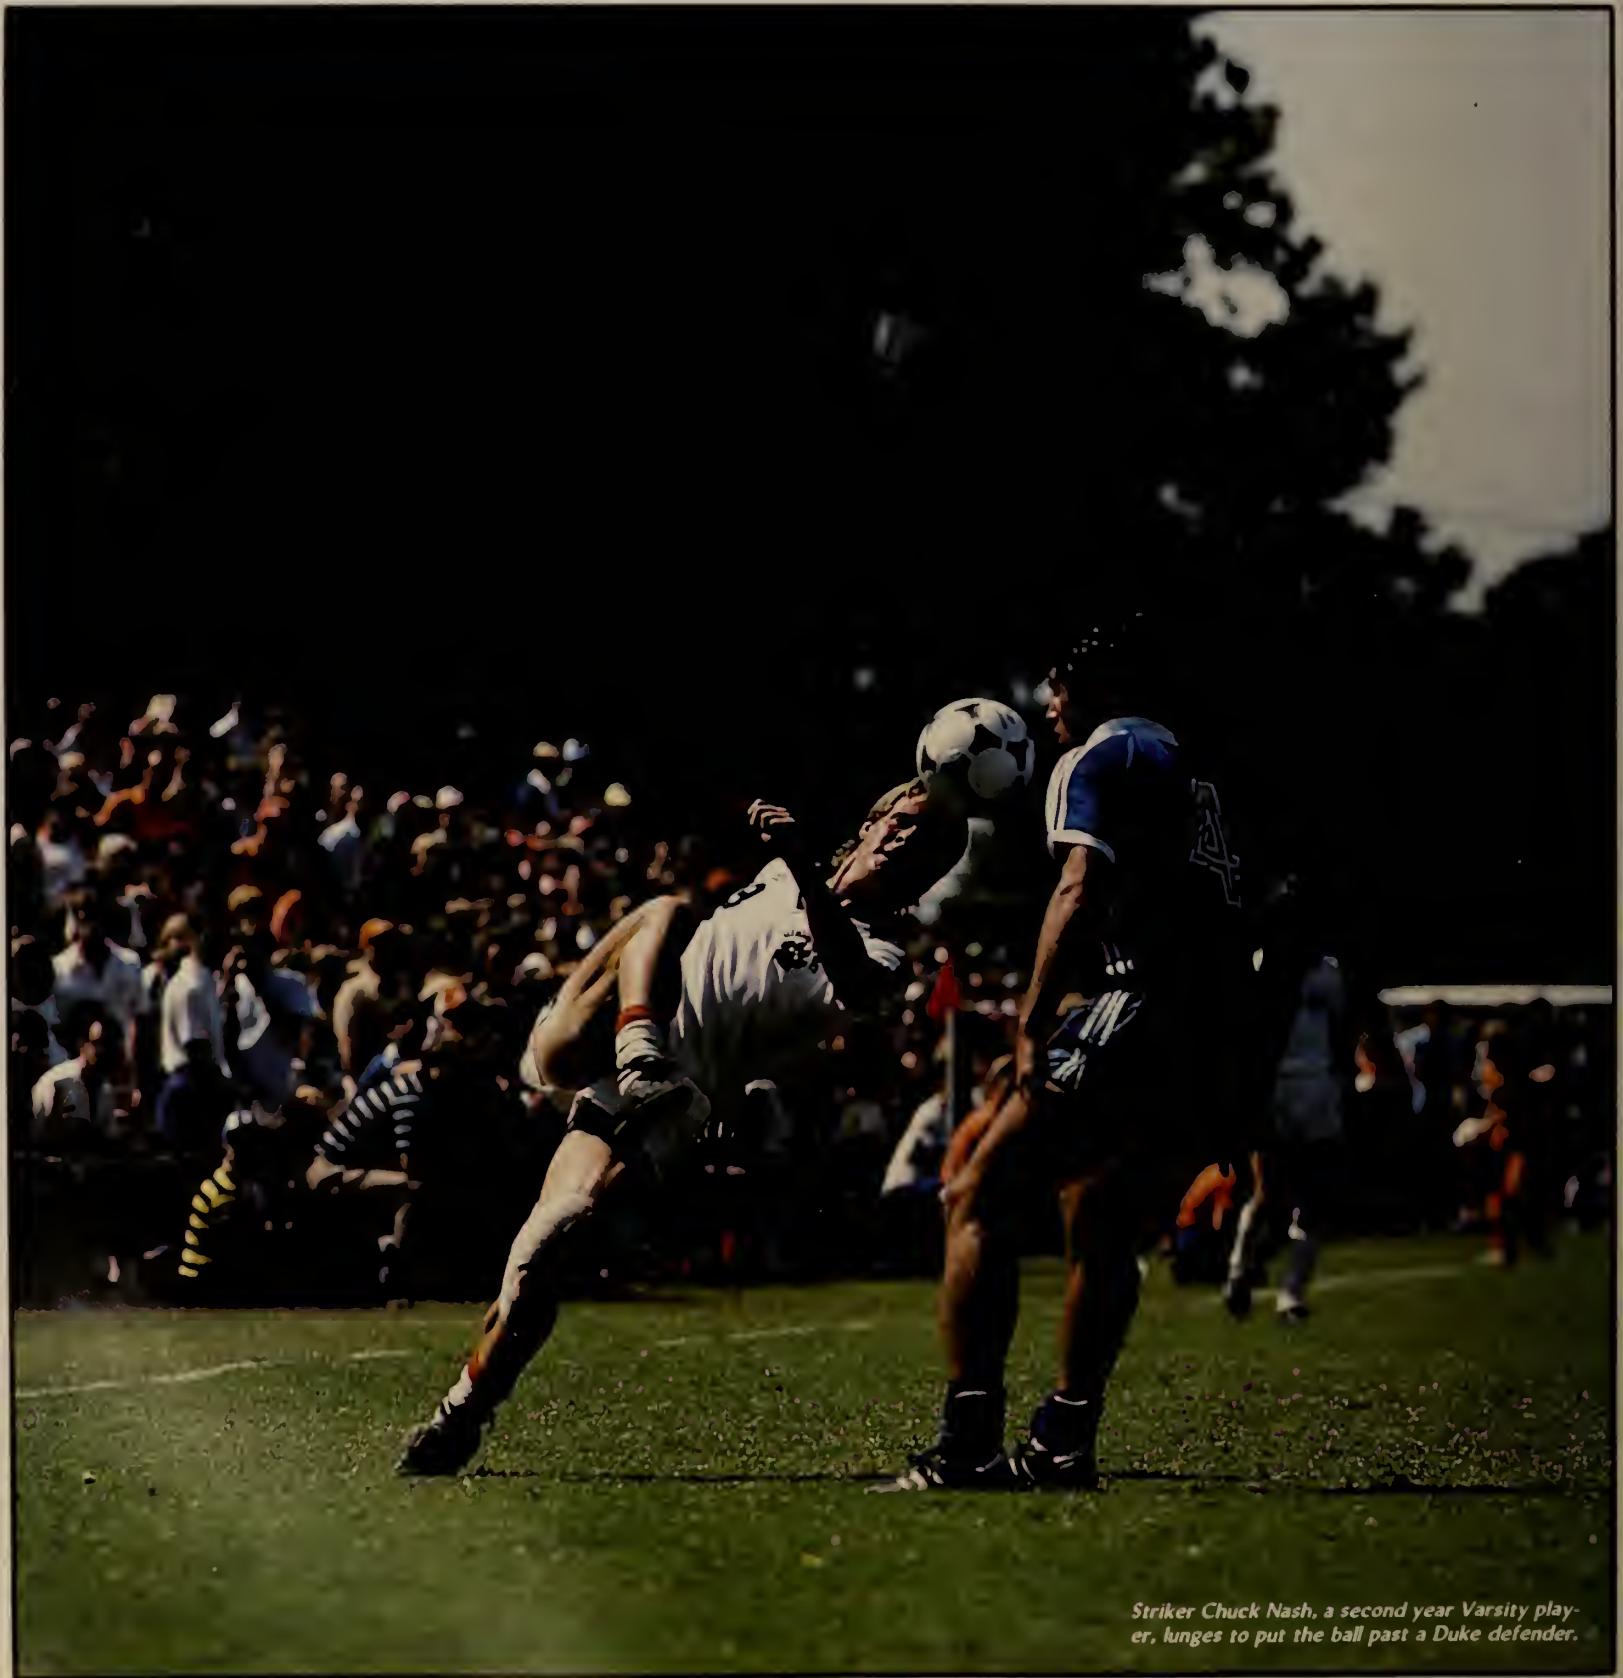

Erskine fell 3-0 as they could not seem to get the ball into Tiger territory. The first goal against the Flying Fleet came with 35:18 remaining in the first half. Gary Connor passed to Chuck Nash, who dished off to John Lee for the score. The same trio combined for the next tally, as Lee passed to

Striker Bernard Gray cruises by a USC defender to set up a Tiger score.

Connor, who lobbed the ball towards the net. Nash headed the ball into the goal to provide the halftime margin. Both Connor and Nash were credited with an assist.

With 32:26 remaining in the second half, Charlie Morgan took the ball through the defense to add the final point.

Injuries were the story as the result of the previous two games. Regular starters Maxwell Amatasiro, Adubarie Otorubio, Eric Eichmann, and David Torris put considerable pressure on the Clemson bench when South Carolina rolled into town. Fortunately, the Tiger's fears were unwarranted as they trounced the USC Gamecocks, 4-0, improving the booters record to 10-0-1. Their series record against the Gamecocks was ex-

tended to 8-0.

The first 44 minutes against South Carolina were scoreless. Near the end of the first half, the Tigers Bernard Gray passed to Nash, whose shot was deflected. The ball came off to Dick Landgren, who passed to Gary Connor for the score. The goal marked the 1000th goal in the history of Clemson soccer, which dated back to 1967.

The booters tallied three more scores in the second half. At the 32:57 mark, Morgan passed from the right corner to Pete Stebbins, who nailed a shot from about fifteen feet away. Stebbins later dribbled the ball down the field and passed to Nash, who was cutting up the middle. Nash scored and the Tiger booters led by three with only 17:51 remaining. The final goal came when Nash crossed to Dick Landgren for the score.

"Considering the injuries," Ibrahim said, "we played pretty well." The Tigers two top defenders, All-American Adubarie Otorubio and All-ACC Maxwell Amatasiro, were sidelined due to injuries sustained during the previous week's games.

The Tiger booters hosted the Clemson Invitational Tournament. The Tigers posted decisive victories over Davis and Elkins and thirteenth-ranked South Florida by scores of 3-0 and 1-0 respectively.

Gary Connor, a freshman from St. Louis scored two goals against Davis and Elkins. Eric Eichmann and Bernard Gray were instrumental in assisting Connor.

With 35:06 remaining in the second half, Peter Coles lifted a pass from mid-field that sailed over the heads of all the defenders. Charlie Morgan sprinted down the right side of the field to take the pass and score his second goal of the season.

Against South Florida, Chuck Nash provided the only score as the Tigers won their own tournament.

Tiger freshman Eric Eichmann was named the MVP of the tournament. The freshman from Margate, Florida dished out three assists and played outstanding defense during the two games.

The Tiger booters extended their unbeaten streak to 14-0-2 overall and 2-0-1 in the conference with wins over Wake Forest and Jacksonville but only tied USC-Spartenburg.

Tiger soccer play was hampered by the absence of All-American sweeper Adubarie Otorubio — who sat on the bench during the Jacksonville and USC-S contests for disciplinary reasons.

Against Wake Forest, the Tigers went into overtime. The score was set up by a cross from Gary Connor to Nash, who headed the ball was deflected by the Deacon goalie but Dick Landgren flicked the ball in for the goal.

Twenty-four hours of rain was the story in the Jacksonville game. The water-logged Riggs Field made ball control extremely difficult.

The Tigers scored with 14:14 remaining in the first half. Freshman Gary Connor intercepted a Jacksonville pass near mid-field and brought the ball the rest of the way down the field to score.

Chuck Nash intercepted with 27:51 left in

Outstanding goalie Jamie Swanner clearing an infrequent ball from Tiger Territory.

Suk B. Fields

Suk B. Fri

Best/Worst Of Times

the game, Morgan scored on a penalty kick. The score was the third of the season for the junior wing.

In the USC-Spartenburg contest, the Rifles put the pressure on the Tiger defense who were without Otorubio and sent the game into overtime.

In the overtime periods, the Tigers had the ball in scoring position three times, but the Tiger booters fell short, and the game ended in a 1-1 tie. The Rifles were the only undefeated, untied team in the nation and were ranked fourth in the NAIA.

Next came Appalachian State, who fell to the Tigers, 3-0. This extended the booters record to 15-0-1 and a second-ranking in the nation.

Courtney Prince passed from the right to Eichmann, who dribbled around a Mountaineer defender. Eichmann then passed to Pete Stebbins, who scored from about fifteen feet away. This came just five minutes into the first half. With just under thirty minutes remaining in the half, Bernard Gray flipped a pass to Danny Clavijo, who hit a chipshot five feet away to provide the halftime margin.

The only goal of the second half came when Robert Dowd passed to Clavijo from the right corner. Clavijo's shot hit the left goalpost and bounced into the net.

The Cavaliers of the University of Virginia handed the Tigers their first defeat of the season, 2-1. Two days later the booters came back and beat Maryland, 1-0.

The loss was the first one the Tigers have ever conceded to the Cavaliers and the two Cavalier goals were the first that UVA has scored in eleven years against the Tigers. Also, the two goals represented the first time in over a year that any opponent had scored more than once against the Tiger booters.

North Carolina State University was last but not least on the Tiger schedule as the Wolfpack defeated the Tiger booters in a 2-1 overtime victory.

This loss gave the Tigers a 16-2-2 overall record. In ACC play, the booters were 3-2-1.

In postseason play, Alabama A & M came to Riggs Field for the first round of the NCAA Southern Regionals. The Tiger booters succumbed to the Bulldogs, 1-0, and were eliminated from the playoffs. The Tigers concluded their quest for a National

Championship with a 16-3-2 overall record.

"We panicked," Coach I.M. Ibrahim said after the game. "It seemed like we forgot everything we had learned all season long."

Injuries seriously hurt the Tigers. Peter Coles and John Lee did not play against the Bulldogs and Charles Morgan, Maxwell Amatasiro, Eric Eichmann and various other Tiger regulars played hurt.

Head Coach Ibrahim's post game comments best described what happened.

"I made three mistakes with our lineup," Ibrahim said. "The first was when I played Morgan. He had a broken nose, and I knew he was hurting. Second, I shouldn't have played Amatasiro. He's had that ankle injury, and he's not in shape, and he's not playing well."

"Then I shouldn't have played Eichmann at an inside position," Ibrahim said. "He had a hyperextended knee, and he didn't need to play inside. But I didn't have that many options."

"I am personally frustrated because of the season we had," Ibrahim said. "It was the best I ever had been involved with until about two weeks ago. Then we had all the injuries, and we gave up five goals. It's been frustrating."

Diane M. De Lucia

Bernard Gray drives with tenacity through the Eckerd defense.

Spikers Endure Grueling Rebuilding

Coach Margie Wessel began the 1983 Volleyball season with a 19-15 first year record and hopes of another good season. The Lady Tigers may have lost seven senior athletes, but they retained a fine assistant coach in Judy Sackfield after her impressive playing career with the Tigers. Nine rookies, including a junior transfer, rounded out the assets for the 1983 Volleyball team.

The spikers began the season with a loss to Coach Wessel's alma mater, Florida State, in the Louisiana State University Volleyball Preview. This set the course the Tigers would take for the rest of the season. The Lady Tigers left the tournament with one win against Southern University and four other losses. The spikers followed the tournament with two more losses and a win on the road.

At N.C. State, the Tiger spikers won their first match against East Carolina in the N.C. State invitational. This up note was unfortunately followed by three losses to ACC rival, Duke, George Washington University, and Western Carolina. All three teams ended up being jinxes later in the season.

The following week the Lady Tigers met Western Carolina only to receive another defeat at the hands of the Catamounts. This was followed by three consecutive defeats, one of which was to ACC rival, North Carolina. The first part of the season consisted entirely of road trips while it showcased the frustration the spikers had to endure throughout the season.

The next match was a win against Tennessee-Chattanooga in the Florida State University Invitational. Unfortunately, that was all the luck that the Lady Tigers would have in the tournament. Again the spikers lost to Coach Wessel's alma mater, Florida State and then a loss to North Carolina.

Finally, halfway through the season the Lady Tigers played at home. Georgia vis-

ited Clemson and was beaten in a fifth-game decision. This gave the Tigers hope that their luck was changing. Maybe the home court advantage was going to be just that, an advantage. During the next week the Tigers would play six matches at home and on the road, but the spikers optimism was lessened with two wins and four losses. The spikers then met the Carolina Gamecocks only to be beaten a second time. This was followed by a third meeting with the Western Carolina Lady Catamounts, and as foreshadowed, the Tigers would not be able to beat them. In the final match of the week they lost their second straight Atlantic Coast Conference match.

Two wins and two losses in the Maryland tournament gave some light at the end of the tunnel for the spikers. The Tigers went to Culowee, North Carolina to play the Western Carolina Catamounts for a fourth time. Again, the Lady Tigers were beaten by the top-ranked Catamounts.

Again the Lady Tigers returned home for two weeks at home and on the road. The spikers lost the first match in three straight games to N.C. State to become 0-3 in the ACC. Next the Tigers cruised down to Atlanta, Georgia, to take on Georgia Tech. Georgia Tech fell in the Lady Tigers' biggest win of the season. The spikers won the match 15-2, 15-3, and 15-0. A trip to Florida only brought grief to the Lady Tigers, as they lost to Central Florida, defeated South Florida, and lost to volleyball power, Florida State. The next four games, all at home, the Lady Tigers only lost to state rival USC amidst three ACC wins. The Lady Tigers were then 3-3 in the ACC before the tournament.

The following week the Lady Tigers were scheduled for four matches in the Coca-Cola Classic before the ACC Tournament. The classic yielded three straight losses and a hard won win

1983 Women's Volleyball

against Georgetown, three games to two. The Tigers then had a week break to practice for the ACC tournament. The extra practice time did not help as the Lady Tigers were matched against Duke in the first round of the tournament where they lose three games to one. Their season became one of maturation for the young squad and a season of rebuilding their program with the guidance of Coach Wessel.

Another Solid Season For Tiger Swimmers

Although their records did not clearly demonstrate it, both the men's and women's teams performed exceptionally well as the Tigers had three swimmers qualify for the Olympic trials and six qualify for the NCAA's. Unfortunately, they were hampered by a tight schedule with little time to rest between meets. In spite of this, the Tigers were, in Head Swim Coach Bob Boettner's opinion, "the best all-around team ever," with "balance and depth." The season was highlighted by an

excellent performance at the Alabama Invitational at Tuscaloosa, Alabama. Twenty-four school records were set while Linda Rutter, Coy Cobb, and Jay Herbert all qualified for the Olympic trials in June. In addition, six athletes qualified for the NCAA meet at Tuscaloosa. This was possibly the most record setting ever accomplished in one weekend in Tiger swimming history.

MEN

The season was started strongly by the men's team. Victories over Purdue, Dynamo Swim Club, and Georgia Tech came just after a disappointing loss to Florida State. These victories helped build the team's winning streak. The win over the Dynamo Swimming Club, although not a college team, counted in their overall record. Two season records were set by Chip McElhatten and Mide Higgs. The Clemson Invitational, held basically for recruiting purposes, and the impressive

victories at the Alabama Invitational rounded out the fall semester's action. Competition resumed in January with the International Meet and then a sound victory over long-time rivals, the Georgia Bulldogs. They picked up their second conference victory of the season by a wide margin over Virginia four days later at Parent's Weekend at the Fike Natatorium. Unfortunately for the Tigers, the powerful North Carolina Wolfpack snapped the Tigers winning streak. The swimmers bounced back the next day in the last meet of their home season against Duke, but that was their last victory of the dual meet season.

Solid Season

They lost to NC State and South Carolina to finish the season with a record of 6-4, 3-2 in the ACC.

WOMEN

The women's team win-loss record ran almost parallel to that of the men's. The Lady Tigers started their season by tying Florida State. They matched the men with a string of wins against Purdue, Dynamo Swim Club, and Georgia Southern. Robin Zubeck and Linda Rutter also set season records against Dynamo.

When the meets resumed in January, the women suffered a loss to Georgia. They came back to defeat Virginia and recorded their best time of the season in relays.

The Lady Tigers momentum was again halted as they suffered a disappointing defeat at the University of North Carolina even though they achieved some of their best times of the season. The Tiger Women also swam against Duke the next

morning and soundly defeated the Lady Blue Devils.

Even though Team Captain Robin Zubeck won more events than any other swimmer, the Lady Tigers lost their next meet to NC State. This was the last conference meet of the season. In the final dual meet of the season against the ninth-ranked University of South Carolina, Robin Zubeck and Jodie Lawaetz both set individual school records. However, this was not enough to capture the win. The Lady Tigers' final record stood at 5-4-1 with a 2-2 won-loss record in the ACC.

Tiger Tracksters Continue Winning Tradition

N.C. State, Virginia, and Clemson continued their dominance of Atlantic Coast Conference Track in 1983 as N.C. State captured the men's championship and claimed the NCAA champions in both the women's 5,000 and 10,000 meters; Virginia claimed another women's league title in its drive to a tenth place national finish;

and the Tiger men's team finished a close second in the conference meet after having tied the Wolfpack for the championship last season.

WOMEN

The Virginia Lady Cavaliers won the

All Photos by Bill Spitzer

Shotputter Mike Spiritoso of Toronto, Ontario, loosens up before a practice session.

ACC title, but the Lady Tigers did place fifth at the 1983 Atlantic Coast Conference Track meet. The Lady Tigers finished with a national ranking of twentieth.

At the NCAA Championships, N.C. State junior Betty Springs, who won the 5,000 meters, also ran to a record time in the 10,000 meter race with a clocking of 33:01.02. Other high ACC finishes included Virginia's Martha White — seventh in the 5,000 meters, Jeanette Kelly from Virginia — eighth in the 800 meters, Virginia's Ann Bair — fifth in the high jump, and

A Tiger javelin thrower heaves a toss during a practice.

teammate Jill Haworth — fourth in the 1,500 meter race.

High finishes for the Lady Tigers included a second place finish for Tina Krebs in the 800 meter race with a time of 2:03.01. Also, Judith Shepherd finished fourth in the 3,000 meters being clocked at 9:14.21. Krebs and Shepherd were both named to the All-American squad while Krebs and Kerry Robinson were named All-ACC.

MEN

In men's track, the Tigers finished second in the ACC Tournament and were nationally ranked at twenty-eighth. The Tiger thinclads also had four All-ACC runners, Jeff Jones, Hans Koeleman, Jim Haughey, and Terrence Toatley; and two All-Americans, Jim Haughey and Wybo Lelieveld. Hans Koeleman was also selected as the ACC's Most Valuable Player.

At the All-Comers meet early in the season, Tiger thinclads set records and set the pace they were to take the rest of the season. This was the first home meet that the Tigers had hosted in two years. The competing teams included the host Tigers, Furman, Western Carolina, Bre-

Intense concentration on upper body form and release of discus shows on this Tiger thrower.

vard, The Citadel, and USC-Spartanburg.

Senior sprinter Terrence Toatley had a time of 10.30 which broke the record of 10.45 set by Renaldo Nehemiah in the 1978 ACC Championships. Freshman teammate Victor Smalls cleared 7-0 in the high jump to tie a record held by Brian Melley of Maryland and Steve Wilson of South Carolina set in 1978 also. Smalls cleared 6-10 on his third attempt and was able to tie the record on his first attempt at seven feet. Small then tried for 7-1½ but could not clear the height in the three required attempts.

The Tiger 4 x 100 meter relay team of Toatley, Joe Varn, Kerwin Johnson, and Rod McSwain turned in a time of 40.6 which was just .1 seconds off the track record set in 1978. Varn, a senior from Greenville, had a time of 20.9 in the 200 meter dash which was .2 seconds off the time clocked by Dessie Williams of the 1979 Clemson team.

At the NCAA Championships, N.C. State's Ladi Oluwale placed eighth in the triple jump, teammate Harvey McSwain placed eighth in the 100 meters, and Virginia's John Hinton was third in the 1,500 meters. However, the only Tiger to place was Wybo Lelieveld who, with a time of 3:41.68, placed fourth in the 1,500 meters.

Harriers Give ACC Something To Worry About

New Head Coach Stan Narewski had to be proud as his Tiger harriers never finished lower than fourth in their six meets. The fourth place finish came in the NCAA Championships. The Tiger garnered their fourth consecutive conference title and their first team championship ever at the NCAA District III qualifying meet. The Lady Tigers likewise had a successful season under the guidance of Head Coach Sam Colson. Placing second in the ACC and earning a national ranking of fifth, the Lady harriers improved their standing from the previous season.

MEN

On September 16th, at the Kentucky Invitational at Lexington, the Tiger harriers finished a strong second in a field of 15 teams.

At the Clemson Invitational held on October 15th, Hans Koeleman lost a close race to Arthur Stark of East Tennessee State. The Tigers ended up with 47 points to East Tennessee's 34 to come in second. Jeff deAlmeida, Stijn Jaspers, Iain Campbell, and Martin Flynn all placed at the top 20.

In the ACC Championships at Charlottesville, Virginia, on October 29th, the Tiger harriers claimed their fourth straight ACC title and their fifth in six years. Koeleman won his third individual title in four years with his time of 30:58.9, beating out Jaspers' second-place time of 31:33.6. Flynn finished ninth, Wybo Lelieveld was 12th and Campbell 17th. These harriers paced the Tigers to a 14-point margin win over the second-place Wake Forest Deacons.

The NCAA District III qualifying meet was held in Tiger Territory giving the Tigers revenge over East Tennessee State, 54-78. Koeleman had another blis-

tering performance as he won his third regional crown with a clocking of 28:17.4. Jaspers, Lelieveld, Campbell, and deAlmeida all finished in the top 20 ensuring the harriers of their first district championship.

Going into the NCAA Championship at Lehigh University on November 21st, the Tigers were ranked 16th. Koeleman finished seventh to lead all the Tigers with help from Jaspers, Lelieveld, Campbell, deAlmeida, and Andy West. The Tigers' fourth-place finish was the highest ever and their fourth consecutive national top ten finish.

Hans Koeleman, Jim Haughey and Stijn Jaspers were named to the All-ACC team while Koeleman and Haughey were also

named to the All-American squad.

WOMEN

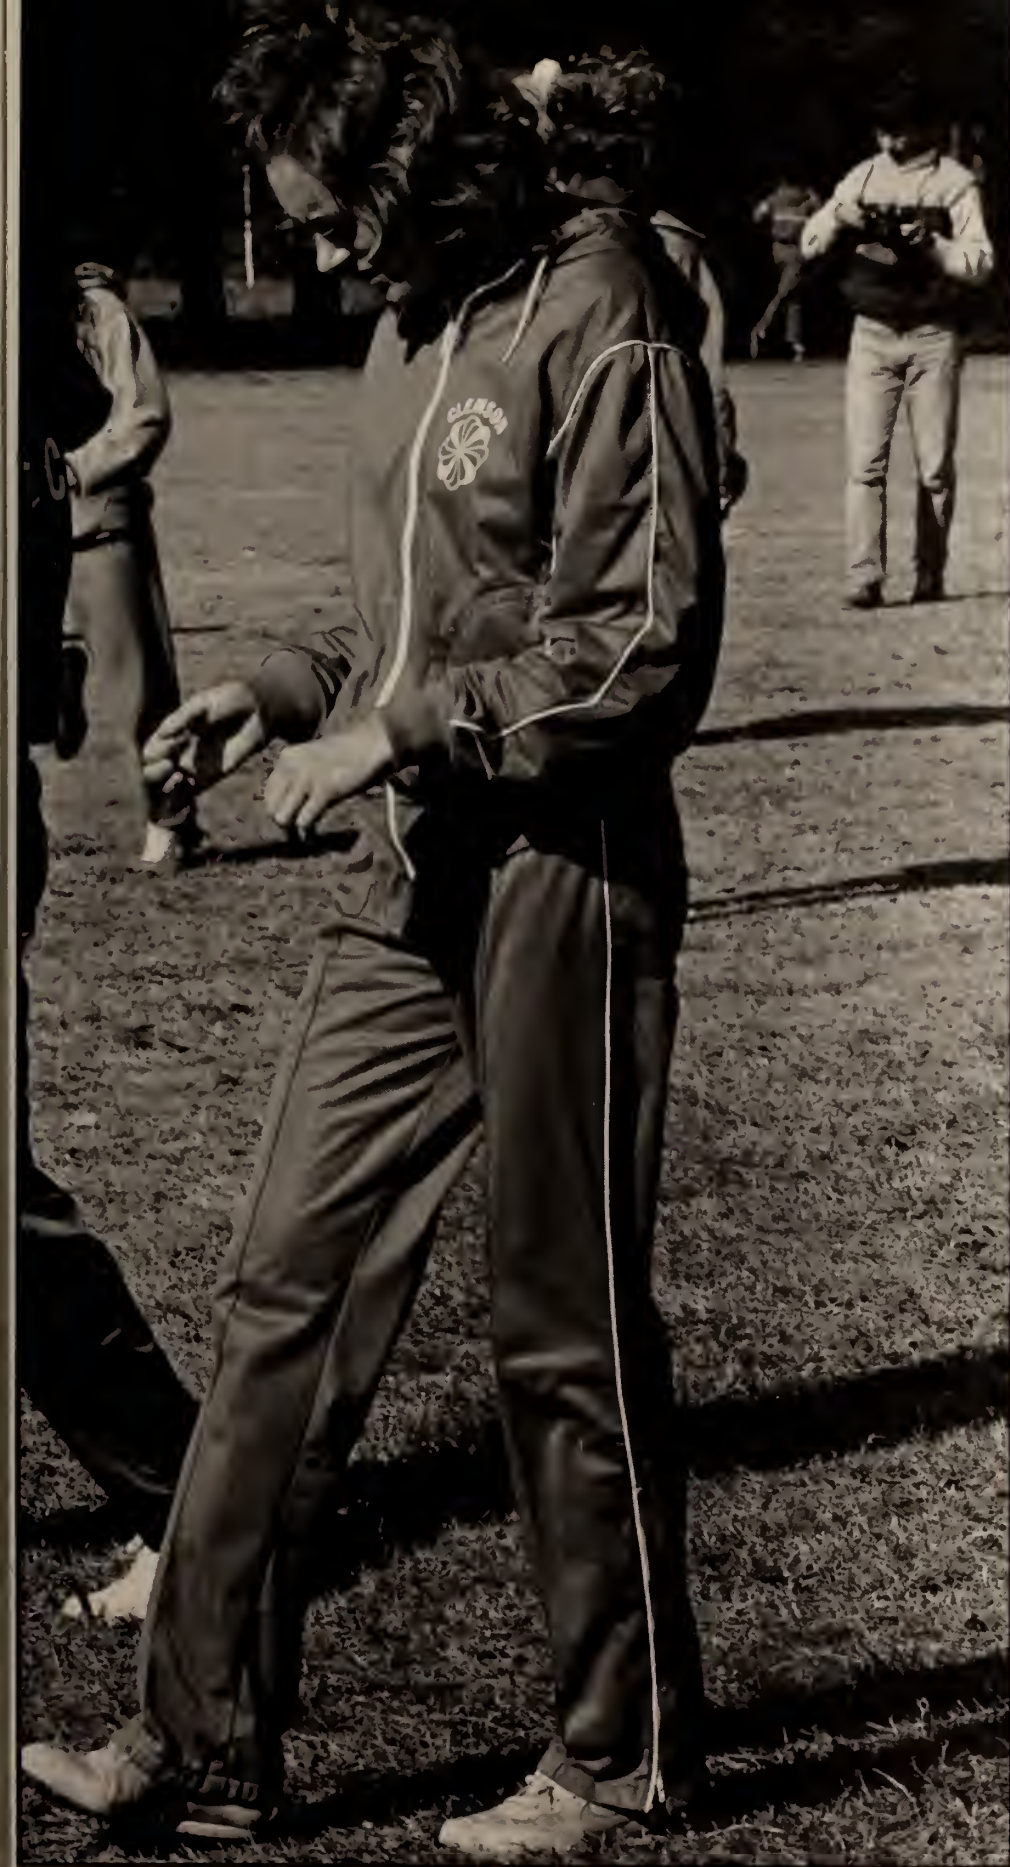

In Lady Tiger action, the women once again showed their mettle as they placed second in the Atlantic Coast Conference Tournament and finished with a national ranking of fifth. Four Lady Tigers were named to the All-ACC team and one to the All-American team.

At their first meet of the season, the Georgia State Invitational, the Lady Tigers swept the top seven positions for a first-place finish.

The Tigers won their division at the Clemson Invitational by narrowly defeating the then 10th ranked Tennessee Lady

Volunteers. The University of Florida finished third, Auburn University fourth, Florida State fifth, and Emory sixth.

Tina Krebs finished in first-place with a 5K course record of 16:40.1. Kerry Robinson finished fourth for the Lady Tigers with a clocking of 16:50.5; Stephanie Weikert finished seventh with 17:05.6, Laurie Montgomery finished 11th with 17:20.6, and Ulsa Briet finished 13th with 17:31.1

At the ACC Championship, Tennessee had three of the top 10 finishers in the women's race to claim top spot ahead of pre-meet favorite NC State and the host Lady Tigers. The Lady Vols had 45 points while NC State had 69 and the Tigers finished with 79.

Sophomore Tina Krebs led the Lady Tigers with her third-place finish in 17:01.7. Kerry Robinson was 10th with a clocking of 17:26.3. Three other Tigers finished in the 20-to-30 area of finishers to qualify the team for the NCAA Championship.

Named to the All-ACC team were: Tina Krebs, Stephanie Weikert, Kerry Robinson and Jennifer Briscoe. While Weikert was named to the All-American team, making it a very good season for the Lady harriers.

Jennifer Briscoe and Judith Shepherd wait for their race to commence.

Tina Krebs, Judith Shepherd, Stephanie Weikert, Kerry Robinson, and assistant coach Mike Dixon put in a grueling workout.

Wrestlers Gain Respect

New Head Coach Eddie Griffin had a lot to be proud of as his Tiger wrestlers started off the 1983-84 season with a 2-0 record. The Tiger grapplers upset 14th-ranked Oregon State and 30th-ranked Brigham Young.

At the Las Vegas Invitational, the Tiger wrestlers placed 12th.

Over their next five matches and two tournaments, the Tigers unfortunately suffered a lull. They were 1-4 and finished second at the Sunshine Open and second at the Tiger Eight Tournament held at home.

The Tiger grapplers fell to Iowa State, 26-9; Wisconsin, 22-16; Navy, 21-9; and North Carolina State, 23-20.

Simon Fraser was the only casualty as they were defeated by a fine effort by the Tigers, 26-12.

The Tiger grapplers split their next two matches played over the weekend of January 13th-14th at Chattanooga, Tennessee. The Tigers fell to SIU-Edwardsville 33-9 on Friday night and then in retaliation defeated 15th-ranked Tennessee-Chattanooga, 20-18 on Saturday.

Four consecutive non-conference foes then fell to the Tiger grapplers in the Tiger Duals held in Fike Recreation Center.

Against Winston-Salem State, the Tigers came out on top, 28-17. This opening match victory set the pace for the rest of the tournament as the Tigers continued their winning style in their second match that day against the Citadel with a 47-6 crushing of the Bulldogs.

The sun set on Carson-Newman in Tiger Territory, 34-17 in the third match of the Tiger Duals. South Carolina State was last but not least on the Tigers "menu" as they were made into Bulldogs in a blender as the Tigers triumphed, 40-5.

The Tiger grapplers captured six of the events featured in the Winston-Salem State battle to garner the 28-27 win.

Individual victories by Kirk Hoffman, Joey McKenna, John Ryba, Jody Taylor, Mark Litts, and Gary Niven contributed to the rising sun of the Tigers in the tour-

nement.

Against the Citadel, five Tigers pinned their opponents. They were: Hoffman in the 118-pound class; Ryba in the 126-pound class; Taylor in the 134-pound class; and Pete Georgoutsos in the 190-pound class; and Brian Celek in the heavyweight division.

In their respective weight classes, Litts, McKenna, Nivens, and Doug Gregory were also triumphant.

The Carson-Newman Eagles wished they had never seen the likes of Hoffman, Ryba, Taylor, Nivens, Celek, and Jaime Kilgallen as each individual posted wins in the third match of the tournament.

Preparing to take down their opponents are Tiger wrestlers, Jody Taylor, Mark Litts, and Joey McKenna.

All Photos by Suk B. Fields

In the final match, Hoffman, Ryba, Taylor, McKenna, Gregory, Nivens, Georgeoutsos, and Celek all defeated their Bulldog opponents to lead the grapplers to a perfect 4-0 record in the Tiger Duals.

The sun set a little on Tiger Territory as the North Carolina Tar Heels snapped the Tigers winning ways with a 28-12 defeat in Chapel Hill, North Carolina.

The Tar Heel grapplers won seven individual matches to clinch the conference victory.

Jody Taylor defeated his opponent in the 134-pound division, and Joey McKenna stopped his opponent in the 142-pound class. In the heavyweight division Brian Raber stopped his opponent, 8-7.

In the Southeastern Intercollegiate Wrestling Association Tournament, Louisiana State University, took top honors while the Tigers placed second and Tennessee and Tennessee-Chattanooga took third and fourth place, respectively.

Jody Taylor placed first in the 134-pound division, while Joey McKenna in the 142-pound class and Gary Nivens in the 190-pound class both placed second.

Finishing third in their division was Kirk Hoffman in the 118-pound class, Pete Georgeoutsos in the 177-pound class, and Mark Litts in the 158-pound class.

Two Tigers placed fourth, Tom Carr in the 150-pound division and Doug Gregory in the 158-pound class.

In their last match of the season against Georgia Tech, the Tigers put together all their expertise to trounce the Ramblin' Wrecks. There were only six matches and few spectators, but the Tiger grapplers proved to be tough and able competitors. In the lowest weight class, Kirk Hoffman started off with an impressive win over his Tech opponent.

In another match a Tiger grappler displayed his prowess as he pinned his opponent.

This winning spirit failed to die as in the final seconds of the 167 pound match with Mark Litts down by one, the small audience and his fellow wrestlers reacted by exuberantly cheering. The Tiger grappler regained his composure, freed himself, and scored a takedown worth two points for the win.

With an 8-6 overall record and a 1-2

Tigers Kirk Hoffman (bottom) and Mark Litts (top left) gave these Ramblin' Wrecks a knee injury and a headache, respectively.

ACC mark, the Tiger wrestling team held their own against more experienced opponents. The Tigers put together a fine season after losing key people to graduation after the 1982-83 season. Their excellent performance versus Georgia Tech exemplified the hard work and dedication of the whole season. The Tiger wrestling team was no pushover in 1983-84.

Tiger Men Suffer Relapse as Lady's Shine

At the beginning of the 1983-84 campaign, both the men's and women's team played like a team to be reckoned with. While the women went on to defeat ACC powerhouses such as Maryland, North Carolina, and NC State, the men continually fell short at the buzzer in one nail-biting ACC game after another.

The highpoint of the men's season was the win over NC State, the defending national champions. The Tigers shocked the pack in their first meeting of the season, showing all along that they had the talent and desire to play with the best.

In women's play, there were main highlights which exemplified the depth and talent of the Lady Tigers, but defeating South Carolina in each of their two meetings during the season had to be the sweetest. After their first losing season in 1982-83, the Lady Tigers came back to play like the previous season had been a fluke.

MEN

The way the Tigers started off the 1983-84 season, everyone thought the roundballers would search and destroy everything and everyone in their path. A team such as the Tigers who had and consistently showed as much mettle as North Carolina and NC State, ended up searching but not destroying as they came up short in one heart-stopper after another.

The unsuspecting Tigers jumped out to a 7-0 start with wins over non-conference teams — Wagner, Marquette, Furman, South Carolina, the Citadel, Vanderbilt, and Baylor. The cagers out-rebounded each of their opponents with an average of 7.5 rebounds per game. The Tiger cagers out-rebounded the Gamecocks front line (7-0, 6-8, 6-9 vs. the Tigers 6-6, 6-8, 6-5) by five. Three of the first seven games won were by five points or less.

Things came screeching to a halt momentarily with two close losses. The cagers fell to UNLV, 69-55, and to Marshall, 63-61. These games seemingly foreshadowed what was to be the recurrent theme for the Tigers. They played like champions, but somebody forgot to put a point or two towards the Tigers to give them the win.

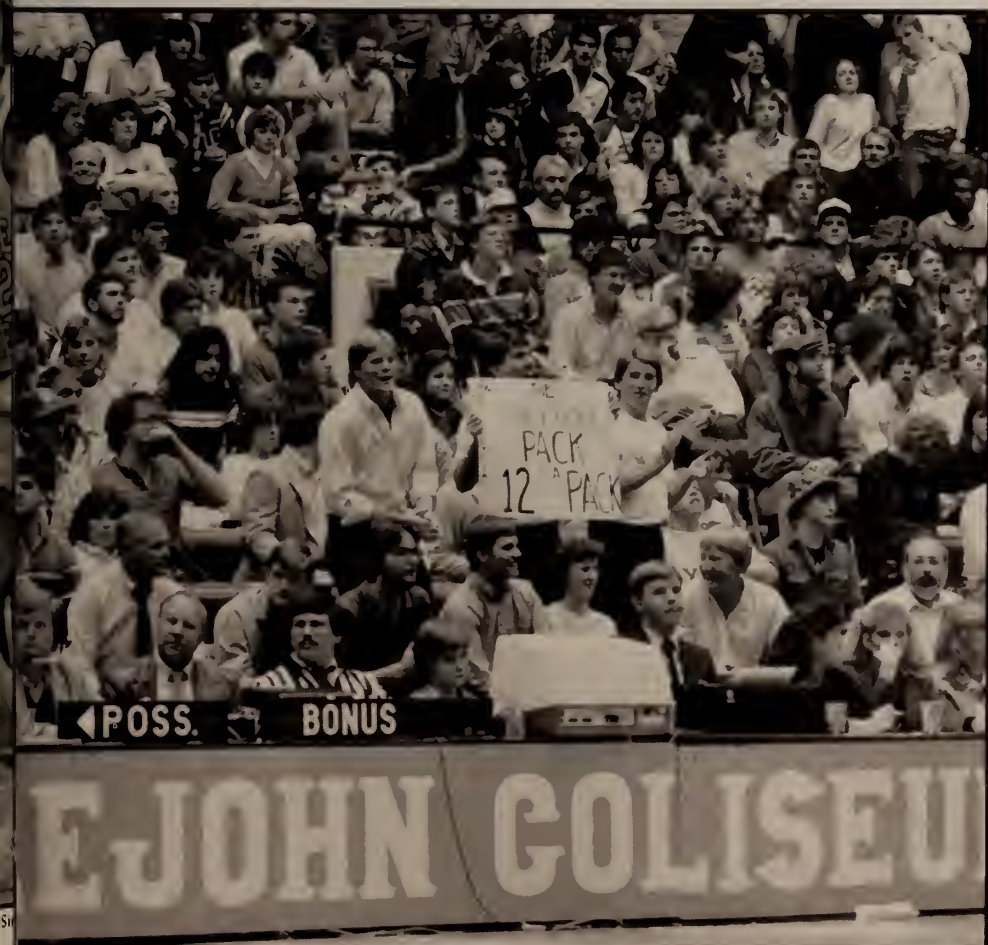

A 97-63 victory over St. Francis (NY) kept the shadows away for a bit from the roundballers. That is until injuries set in to plague Coach Bill Foster. Players like David Shaffer, who sat out almost the entire season (he played in the first six games and part of the seventh), and Vincent Hamilton and Raymond Jones, who both missed several games, left Coach Foster to make starting material out of his bench. In Foster's first six years, 10 players missed games due to injury, and three of those were in one game due to the flu. No one had to be red-shirted due to injury in the first six seasons. In the last two and a half years, 15 different players had missed time because of injury.

Against NC State, the Tiger roundballers had a game that could only be called sensational. The Tigers, playing their usual strong fundamental game, defeated the defending national champions, 63-61. The cager's defense held the 'Pack to 32.1 percent shooting in the second half with State shooting just 42.9 percent from the field for the game.

Two more wins, 79-69 over Georgia Tech and 71-59 over Baptist College gave Coach Foster his 350th win as a major college coach.

With strong performances behind them there wasn't any reason to worry about the future. The Tiger cagers had been winning without a stable starting combination which was a reflection on the depth of the Tiger bench. Unfortunately, it was not in the stars for the ill-fated Tigers to continue their winning ways. They played like champions as usual in the remaining games of the season but could only manage to win three out of their last 14 games. The roundballers lost seven straight before garnering a win, 61-59, over South Carolina then backslid for

Tiger basketball fans anxiously await the outcome of the game.

Terry Windell

four more losses before defeating Duke, 77-76, and Campbell, 62-52. It was beyond a mere mortal's understanding as the Tigers were helpless to change a too predictable outcome.

In the first Virginia game, the Tigers set an all-time club record by making 22 straight free throws. Somehow, though, the cagers lost a five point lead with 42 seconds remaining losing by a score of 74-73.

The loss to Virginia and the previous games defeat from Maryland started the cagers on a 7 game losing streak. Teams like Georgia Tech, Duke, North Carolina, Wake Forest (one overtime), and NC State somehow came up with the win after the smoke had cleared. Of these seven games, four were by five points or less and the largest margin of loss was by 12 to Maryland.

A 61-59 overtime win over the USC Gamecocks put a light at the end of the tunnel for the Tiger roundballers as they shot 54.7 percent from the field. They again out-rebounded the Gamecocks, 38-33. The cagers held USC to a 38.8 shooting percentage. This overtime win was the ninth game up to that point in the season decided by 5 points or less. Also four of the Tiger's losses were decided by 7 points or less in the ACC. That figure was soon to be enlarged as the roundballers soon found out.

Another close game, though the score didn't indicate it, was the 68-57 loss to Wake Forest. The cagers had the ball, down by five, with 1:48 left in the game before losing by 11 as the Deacons hit 18-19 from the charity stripe to deny the Tigers yet another possible victory.

The Maryland game went into triple overtime in Littlejohn Coliseum. This was the third overtime game of the season for the cagers. True to form they showed their ability to play like champions, but only to fall short in the last eight seconds of the game. Anthony Jenkins had sank a 15-footer from the foul-line only to have the Terps bring the ball upcourt and score a 66-65 victory.

The last two ACC games of the season were also tight contests, but fate kept the Tigers from getting much deserved wins.

Shooting 58.1 percent from the field

Bill Spitzer

Bill Spitzer

Paul Simpson

and out-rebounding both the Cavaliers and North Carolina, the cagers still lost. In the turnover department, the Tigers made only 10 more turnovers than their foes in both games combined.

Why did things go wrong for the Tigers? One reason might have been that the Tigers just did not get as many chances at the charity stripe as did their opponents in the ACC. In league play over the 13 games, other teams have shot 355 free throws compared to the Tigers 169. Free throws mean free points if made, and more than one game has been lost or won on the line. The cagers had to wonder where the referees were.

The Tigers were third in rebounding in the ACC despite a front line that average only 6-7. The roundballers intensity and desire, evident in every contest they were in, exemplified a winning spirit that had to be respected.

The cagers ended their 1983-84 campaign with two coins — 77-76 over ACC foe Duke and 62-52 over Campbell.

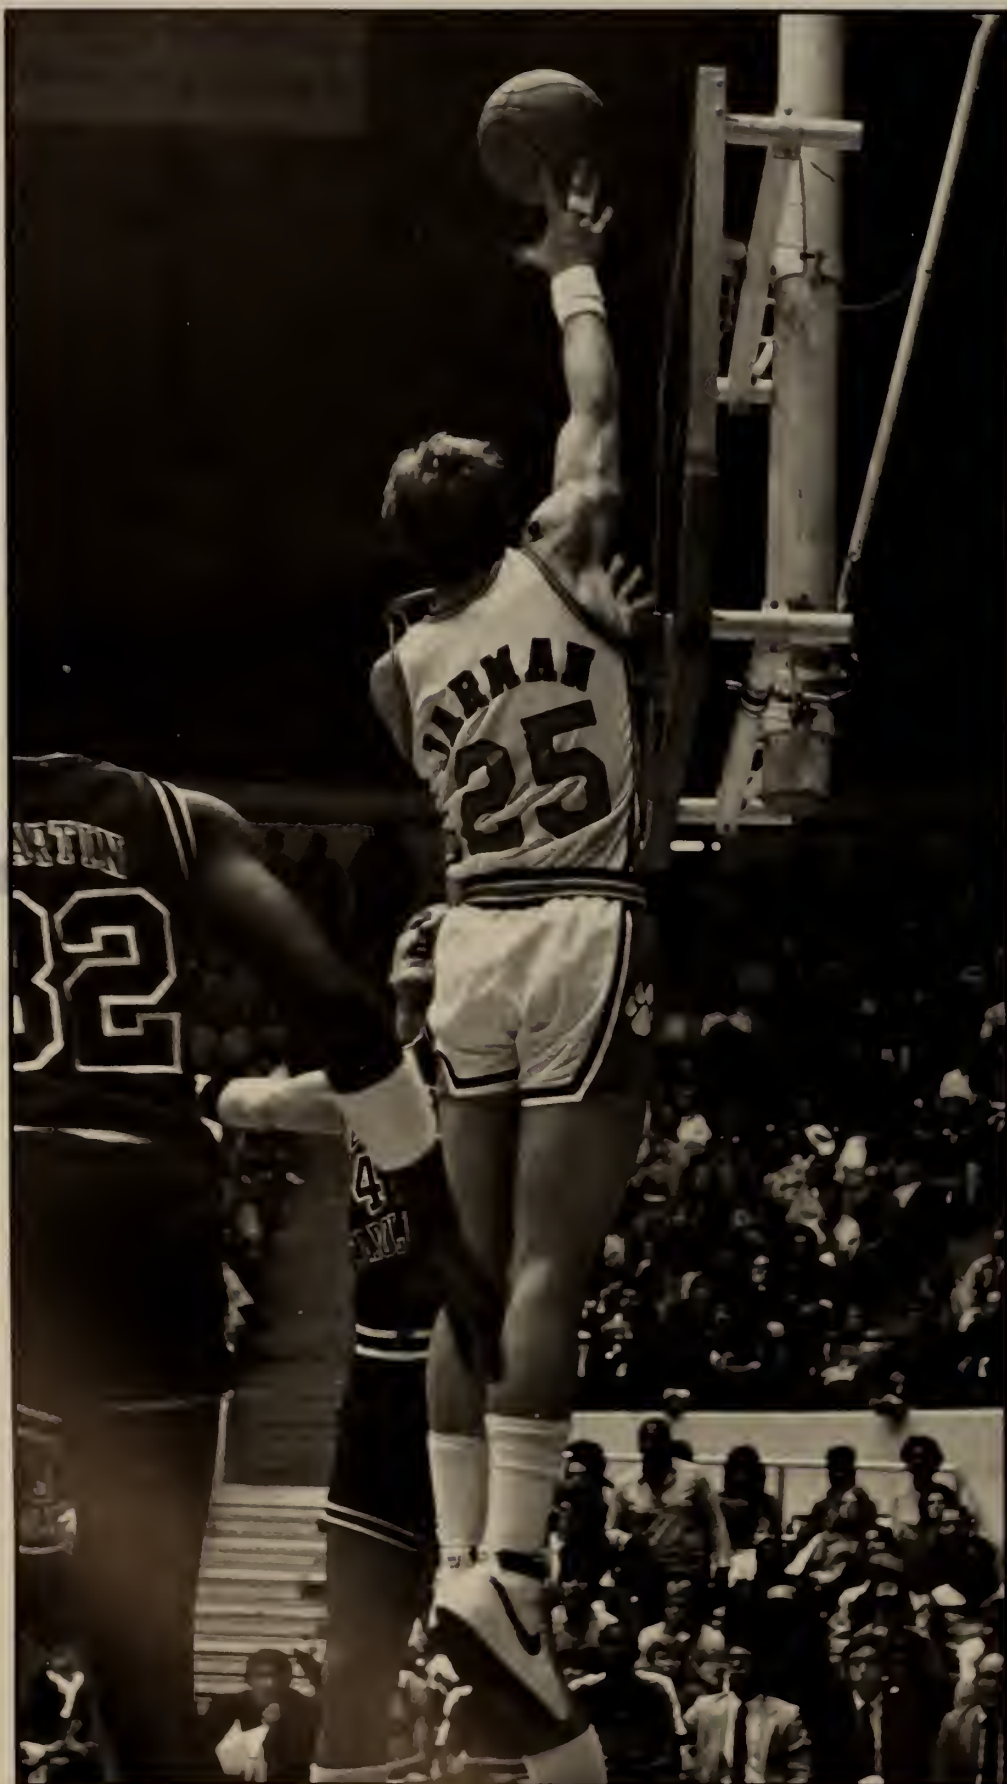

The win over Duke finally broke the Tigers ACC losing streak. Ending the season with a 14-13 overall record and a 3-11 mark in the ACC, the Tigers commanded respect from all who played them. If the other team had won they knew it wasn't due to their extreme talent. The Tigers smart play and hustle gave their opponents something to worry about till the buzzer sounded.

WOMEN

The Lady Tigers began their 1983-84 campaign with an unprecedented 6-0 start for the first time in their nine year history. The Lady Tigers rolled over powerhouses like Oklahoma State, Wayland Baptist, and Stephen F. Austin. These three wins wrapped up first place honors at the Queens City Classic at Plainview, Texas.

"Up from the ruins comes the Bruins" was a phrase coined several years ago when the UCLA men's basketball team came back from a disastrous season the year before to get into the NCAA playoffs the following season. The same was true of the Lady Tigers as they bounced back from their first losing season (12-17) in eight years. The Tigers also had never won more than their first three games except for once under Head Coach Mary

A Duke Blue Devil blocks Tiger Murray Jarnan.

King in the 1975-76 season. Under Head Coach Annie Tribble the Tigers twice opened up with two wins, and their best overall start came in the 1979-80 campaign when, after a 2-2 start, the Tigers shot out to a 15-2 mark that included a string of 13 consecutive victories.

Experience and depth were the key to produce a balanced attack. Three or more players scored in double numbers in 20 of 25 contests, included five who scored in double figures five times, and seven who scored in double figures five times. Overall, the Lady Tigers had three players average in double digits and four who managed double numbers in ACC play.

The University of South Carolina

Soaring above his opponents, Murray Jarman displays his jumping ability.

Scott Harke

Bill Spitzer

Bill Spitzer

hmmm ... somebody needed to change that nomenclature as the Tiger front line accounted for 61 of their 80 points in the Tigers win over their archrivals. The front line of Jacqui Jones, Janet Knight, and Peggy Caple helped serve the Gamecocks an 80-77 loss.

In spite of the Tigers building momentum, rocky shoals were ahead. In their next series of games, the roundballers skidded to a 3-3 mark which put their record at 9-3 overall and 2-1 in the ACC. A semi-bright spot was a second place finish in the Buckeye Classic at Columbus, Ohio.

The Tigers then defeated the ACC's NC State Wolfpack, 73-67. They upset 12th-ranked NC State in Raleigh with one of the Tigers finest second-half performances up to that time. With 13:12 re-

maining in the game and the Wolfpack with a 16-point lead, the Tigers reeled off 14 unanswered points and had a 32-10 rally over the final 13 minutes of the game for a Tiger victory. It was only the fourth win for the Lady Tigers against the Wolfpack and the first ever in Raleigh.

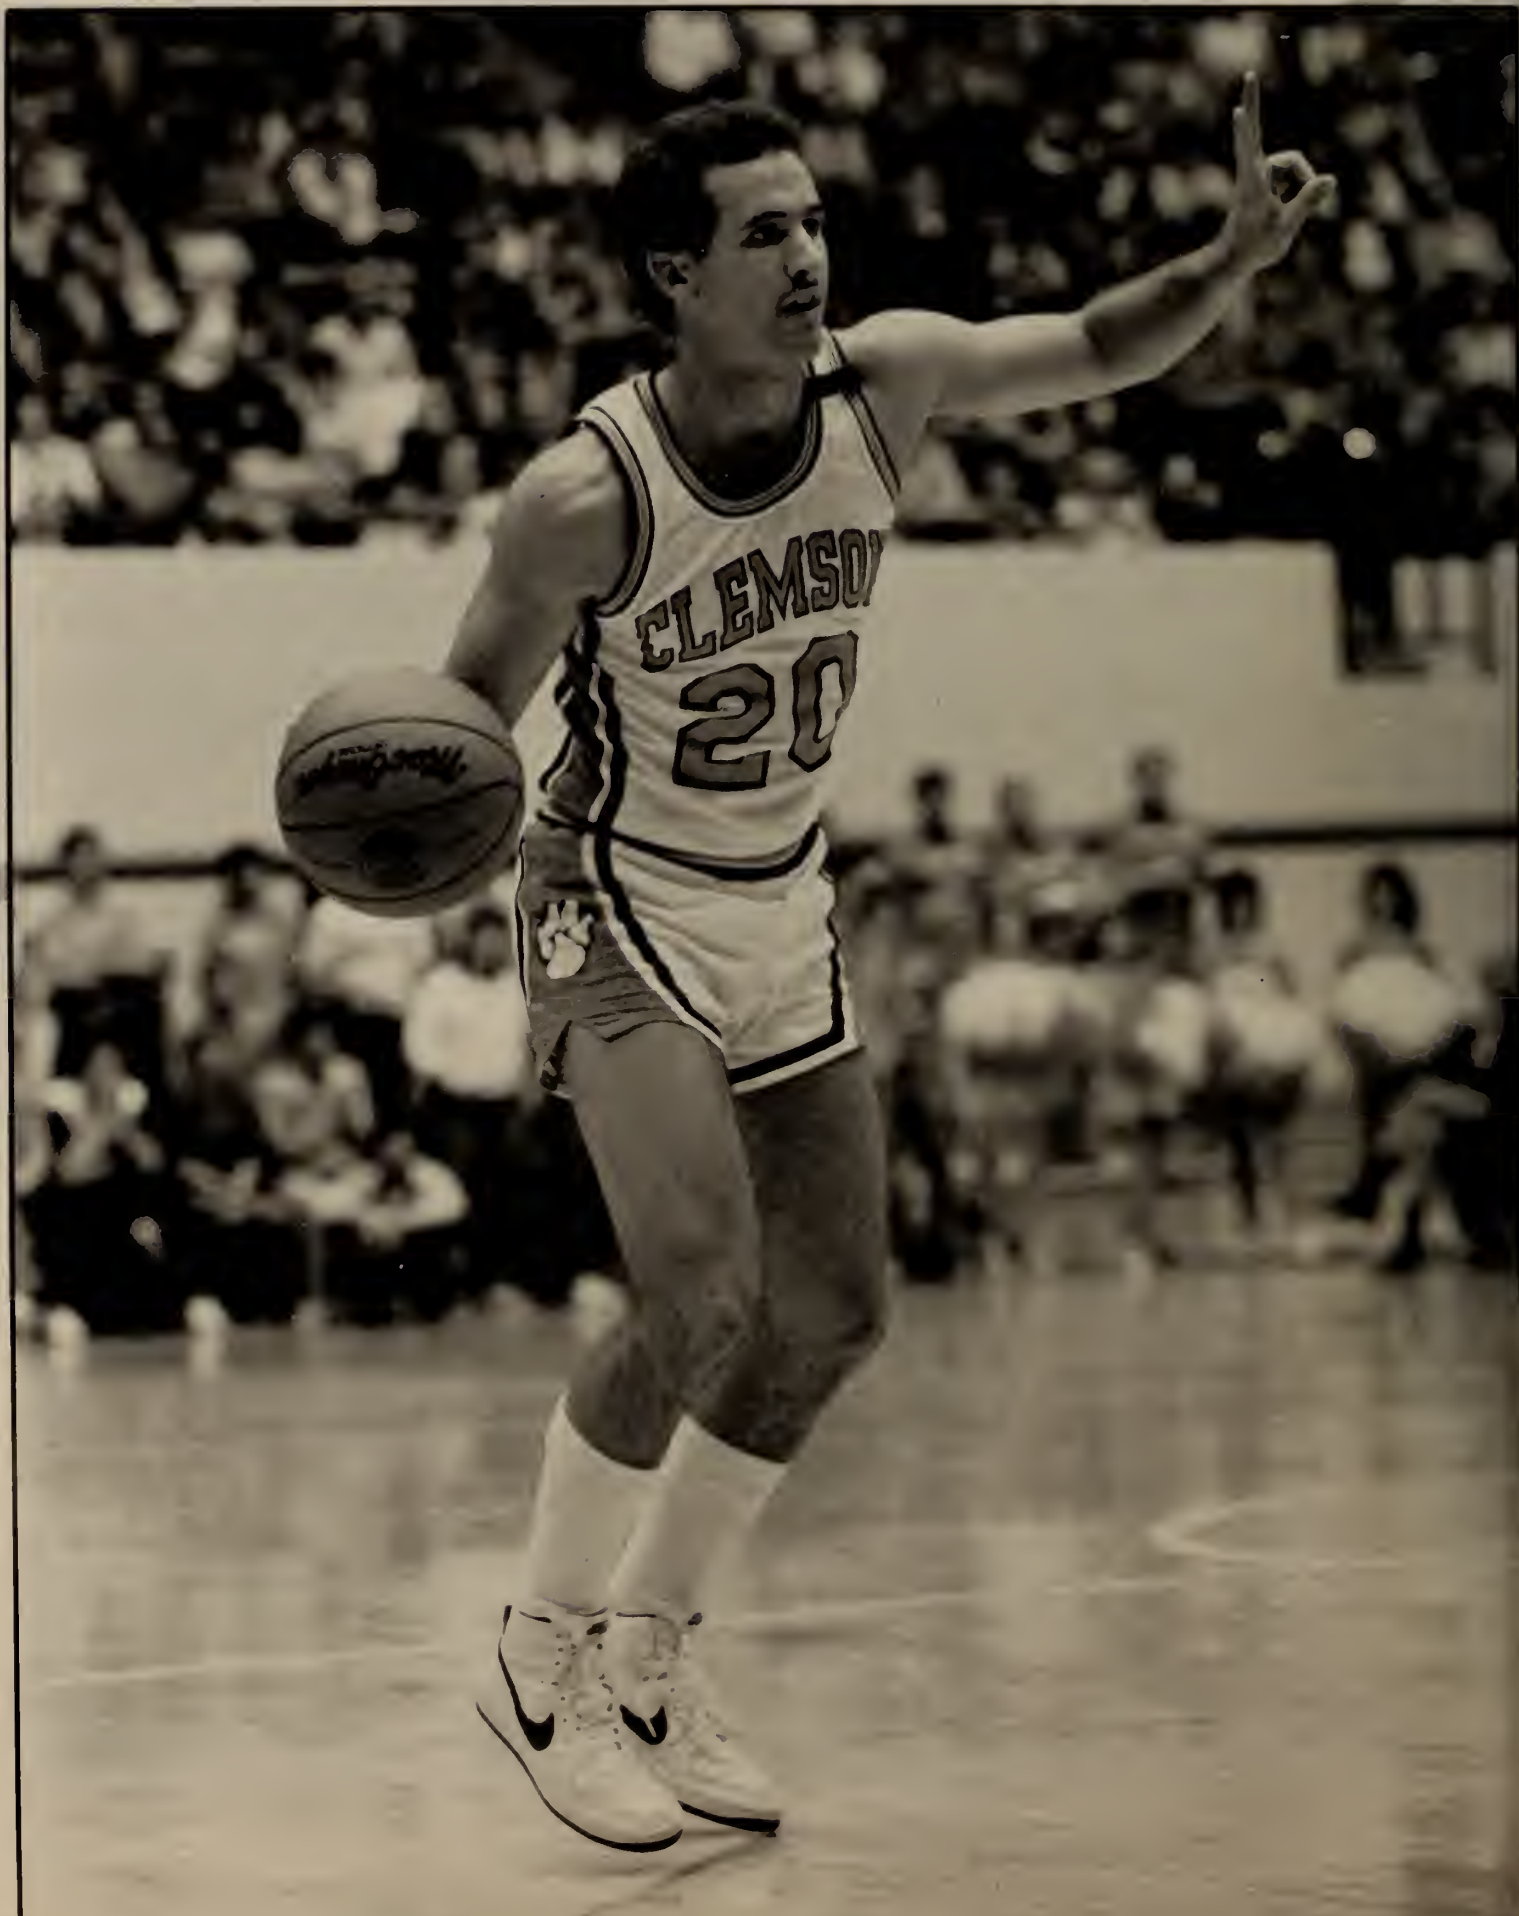

The next home games resulted in three exciting wins over Georgia Tech, Maryland, and Duke. Unfortunately the waters became rough once again as the Tigers suffered a 77-76 heartbreaker loss to number 19 Virginia. Costly turnovers and missed shots erased a five point lead with 1:44 left to play. It was the first time Virginia had ever won in Littlejohn and the second straight triumph for the Cava-

A Georgia Tech player is in trouble when she is confronted by Denise Marshall.

liers. The Lady Tigers turned in their best first half performance with a 56.5 percent field goal average in building a ten-point lead. Unfortunately for the Tigers, they apparently were out to lunch in a horrible second-half, shooting a dismal 30.0 percent from the field, and, for the first time during the season, losing control of play at the end of the game.

Poor shooting once again popped up like a chronic disease in the Pittsburgh game in Littlejohn. In the second half though, the Tiger roundballers managed to destroy any false confidence that the Nittany Lions might have had from the 39-34 halftime score that was in favor of the Tigers. A scoring run was started that

opened a lead as wide as ten-points and put the game away.

Georgia Tech put the Tiger roundballers to their roughest test when GT lead 40-39 at halftime, but the Lady Tigers rallied for the eighth time during the season to score a 79-72 victory.

The then 17th-ranked roundballers soundly trounced Wake Forest, 100-58.

A three game winning streak was then snapped with a 69-61 loss to the UNC Lady Tar Heels.

The 28-24 halftime advantage of the Tigers was then erased by a tenacious Tar Heel offense. Both teams had poor percentages from the field in the first half, but the Lady Tar Heels woke up to hit 19 of 29 fieldgoals in the second to hold the Tigers at bay.

"Round and 'round it goes, where it stops, nobody knows..." A double-over-

time, 105-104, loss to NC State fit the about quote to a "T". Leads were taken then tied, players scored left and right, and the ball continually changed hands. It reminded one of the commerical for an alcoholic beverage where two men played for a beer and the final score was 100-98. "How did you do it?" queried the loser. "Defense", replied the victor.

Tremendous efforts were made by Jacqui Jones and Julie Larsen, but All-American Linda Page of the 'Pack was the cog that set the 'Pack's wheels in motion. Page scored 42 points to lead all scores. A Tiger shot at the buzzer didn't fall giving the 'Pack the win. The Tigers who had played tremendously, lost a tough one.

A runaway victory over Carson-Newman, 70-51, gave the Tigers a boost before the USC contest.

For the second time during the season

the Lady Gamecocks succumbed to the Tigers at Columbia, 81-73.

The Lady Tigers brought their season to a close by losing two close games to UT-Chattanooga and Maryland; and winning two contests by defeating Wake Forest and North Carolina.

In the ACC standings, the Lady Tigers finished third. In the AP Top 20 Poll, the Tigers finished with a number-20 ranking tied with Ohio State. The Tigers had reached their highest ranking ever of 14th during the season. Indeed, the Tigers made their presence felt not just in the ACC, but nationally.

Rush 1983 greeted freshman to Norris Hall with a Sig Ep banner.

Two "Kudzo Kids," better known as Jay West and Steve Boyd, help carry the Kappa Sig float.

Rush girls are one aspect of fraternities which bring in the crowd.

Greeks . . .

The spirit and close relationships of the Greeks was shown once again by participation in the TAPS second Greek Photo Contest. Those who participated found it both challenging and rewarding, not to mention fun. This year's contest was successful as could be seen by the many original ideas.

For the second year Beta Theta Pi's were the overall winners. Their theme of "The Family" portrayed the closeness of the brothers. Winning the Best Sorority category were the sisters of Delta Gamma. Their theme of "Anchor Splash" represented the sister's most successful fund-raiser. Phi Delta Theta's won the Best Fraternity category with the theme of "Signing the Declaration of Independence" which showed their unity.

A group dance on the furniture is a favorite pastime at the Beta house.

The Chi Omega sisters show their spirit during the First Friday Parade.

AKA's . . .

The Lambda Theta chapter of Alpha Kappa Alpha sponsored an annual fashion show in the fall and a skate-a-thon in the spring to raise money. This money went to providing a scholarship to an incoming female freshmen from the Clemson-Pendleton-Seneca area. AKA also sponsored a Halloween party for area children and a Thanksgiving basket to a needy family in addition to addressing a specific charity each year with a special fundraiser.

The Zeta Nu chapter of Alpha Delta Pi worked hard in 1983-1984 and should be proud of their many achievements. Fall was filled with many activities — First Friday Parade in which they took overall honors in the float competition for the second consecutive year, Tigerama, and Derby Days, to name a few. The sisters worked the entire year raising money for their philanthropy — the Ronald McDonald houses for terminally ill children. They capped off the year with their annual spring teeter-totter marathon in which they raised the most money of all the national chapters. Social events, including a Big/Little Sister Banquet, an alumni brunch, a scholarship tea, and the formal kept things busy. Still, ADPi's always found the time to support Clemson activities with many sisters participating in a variety of campus organizations.

“The Plowboys”

AGR's

Alpha Gamma Rho, a national social-professional fraternity for men studying any of the agricultural sciences, had the purpose of making better men by participation in a variety of campus activities. Alpha Gamma Rho brothers held offices in most departmental clubs in the College of Agriculture and were also involved in many other campus organizations.

For the past six years AGR had won best overall float or best fraternity-division float in the First Friday Parade. Alpha Gamma Rho again sponsored a drive for the Multiple Sclerosis Society. With the completion of the new addition to their house, the brotherhood continued to expand and develop within the realm of the Greek system.

The Eta Pi chapter of Alpha Tau Omega was continuously involved in many activities. The chapter's best known accomplishment was the calendar of Clemson girls put out every year around Christmas. The ATO's also kept very busy constructing a moving display during Homecoming week. Social projects were another yearly interest of the ATO's. With the help of their Little Sisters, the ATO's brought mentally handicapped from the Rehabilitation Center in Seneca to Clemson during Homecoming to visit and enjoy the displays. Also, the chapter visited the Tamassee Children's Home where they spent an afternoon playing with the children. The ATO's ended the year with their annual spring formal and a trip to the beach at the end of school.

“The Family”

Beta's . . .

The Delta Nu chapter of Beta Theta Pi at Clemson was never bored! They kept busy throughout the year planning for Dixie Day. Every year the Beta's sponsored this event for the sororities. Dixie Day competition included not only Dixie Day games, but also Sorority Sing, the Miss Magnolia contest, intramural sports, and scholarship. Other events which the Beta's were involved in included get-togethers with their beautiful Little Sisters, involvement in Greek Day, Anchor Splash, the College Bowl, intramurals, the Beta pool tournament, and the Beta golf tournament.

Φ

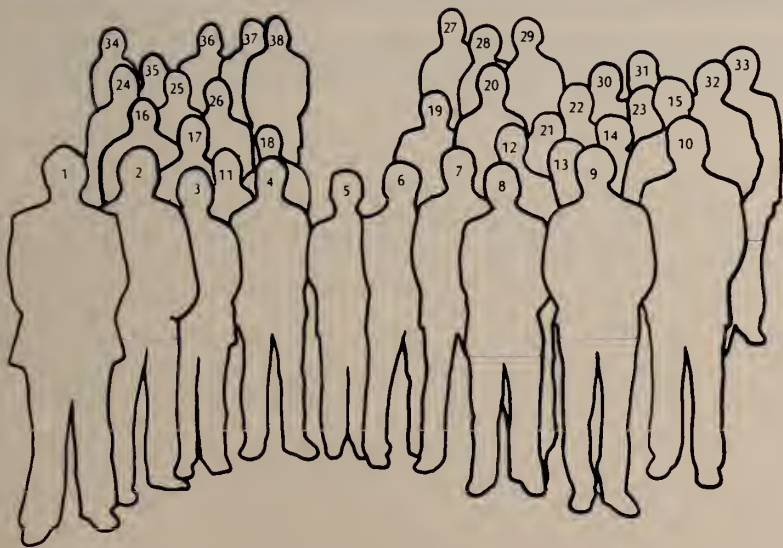

Jack, Ralph and Susan make it known that Chi Psi parties are great.

Chi Psi's . . .

Every year Chi Psi Fraternity strengthened the relationships that existed between its members not only here at Clemson, but also at other campuses such as Georgia Tech, the University of South Carolina, and the University of North Carolina. At the same time, the brothers of Chi Psi continued to develop the tradition of excellence on which their fraternity was founded. This excellence could be seen in all areas extending from their winning tradition in the Homecoming still-display competition to the team spirit and competitive nature of the sports program, as well as the way in which they all pulled together to develop a scholarship system worthy of praise.

Tri Delta's . . .

The Tri Delta Seniors are wished the best of luck by their sisters.

Delta Delta Delta had been on the Clemson campus since 1970. In 1983 there were 119 active sisters and 47 pledges — a total of 166 members — the largest sorority on campus.

In the spring Tri Delta awarded two academic scholarships to outstanding women on campus. Money for the scholarships was raised by a corndog sale during Homecoming and a crafts auction in November.

Last fall Tri Delta took first place in the sorority division of the First Friday Parade competition. They also achieved second in sorority academics.

Spring brought many special events — the formal, Dixie Day, rush weekend, and the spring party.

Delta's . . .

The Omicron Phi chapter of Delta Sigma Theta Sorority, Inc. was officially chartered at Clemson in May 1983. The Omicron Phi chapter is one of more than 700 branch chapters of a national organization dedicated to academic excellence and public service. To be considered for membership, a coed must have completed 24 credit hours and have at least a 2.5 cumulative grade point ratio.

The chapter had been involved in several public service projects since its chartering. These projects included a patient visitation program at Oconee Memorial Hospital and a Halloween party given for the children of the surrounding community. After ten years of hard work to get a chapter on campus, the growing membership hoped to uphold and exemplify the high ideals of the National Grand chapter.

“Anchor Splash”

DG's . . .

The Delta Gammas' biggest event of the year was their second annual Anchor Splash for their philanthropy — sight conservation and aid to the blind. Fourteen fraternities participated in the fun-filled swim meet. Money was also earned for Anchor Splash with the “Mr. Legs Contest.” Kappa Sigma Fraternity was the overall winner with the Chi Psi's winning “Mr. Legs” for the second year in a row.

Delta Gamma participated in Dixie Days, and their representative Karen Humphries, won Miss Magnolia. They also placed third in the First Friday Parade with a float themed around the Maryland game.

The Delta Gammas enjoyed a busy social life with their formal in February, a “crush” party, the annual Heartless Hannah Luau, the Pre-Splash Bash during Anchor Splash week, and concluded with a terrific Christmas party before exams.

KA's . . .

The brothers of the Kappa Alpha Order were always involved in a wide range of activities. Each semester the KA's involved themselves in a fund-raiser for Muscular Dystrophy. The Delta Omicron chapter of Kappa Alpha received the most improved chapter award representing its growth and hard work.

The KA's social life was highlighted each year at the annual "Old South Ball". The weekend at Hilton Head Island included the ball itself, a golf tournament, and a celebration of the cession of the South from the Union. A band party was held after each home football game with an annual Christmas party for the Little Sisters and a yearly Sunrise Mixer with the Chi Omegas. The fall was highlighted by Mountain Weekend which was enjoyed by all the brothers and their dates.

Theta's . . .

Kappa Alpha Theta's calendar was filled with many social, service, and campus activities throughout the year. Fall semester began with a successful rush as 91 sisters welcomed 46 pledges. The semester continued with many mixers, a Hunk party at Papa Theo's, and a Barn Dance at the Y-Barn — complete with a squaredance caller. On Sunday after the Georgia game the Thetas took their new kites to Bowman Field for the first annual Kite Fly. Later in the semester, families and alumni enjoyed a tailgate party on Theta Parent's Day. The formal at the Hyatt in Greenville was the highlight of the second semester and they closed out the year with a "luau" at East Beach.

Service activities included adopting shut-ins as grandparents, the annual Swim-a-thon to benefit the national philanthropy, as well as numerous visits and parties at a local child development center.

Many Thetas received scholastic awards from the University and Panhellenic. They were honored with a first place finish in Sorority Sing and second place overall in Dixie Day. Thetas were also proud of those who were chosen as fraternity little sisters, ATO calendar girls, Greek Goddess, and Derby Queen.

As a food science major, Allison Hein puts her expertise into grilling a perfect hamburger at Dixie Day.

"Men Of Distinction"

The Nupes . . .

The Kappa Lambda chapter of Kappa Alpha Fraternity received its charter on the 16th of October in 1980 with the motto of "Kappa men hold true to service and the betterment of mankind." The brothers of the Kappa Lambda chapter sponsored service activities such as a homecoming pageant clinic for contestants, a job fair for campus students, donations for the abused children's fund, and holiday meals for the elderly. The Kappa's also gave a "New Wave" party, a "Wine and Roses" stepshow, and sponsored Miss Antoinette Tolbert in the Homecoming pageant. The brothers were assisted by their Kourt who aided them in decorating for parties and were Sweethearts to Kappa pledges (Scrollers). A Kappa man always believed in being a man of courteousy and distinction.

Δ

Two KD coeds enjoy the final moments of "the mud festival" also known as Dixie Day.

KD's . . .

Kappa Delta, a fast growing sisterhood, held very diverse interests. Since their founding at Clemson in 1981, they consistently met their quota for members. Along with their annual Swing-a-thon and Halloween Party for deaf and blind children, the KD's launched their first Kappa Delta Kidnap to benefit the Shriner's Hospital in Greenville. Besides their many philanthropic and social events, they were also very successful in intramurals.

Kappa's . . .

Epsilon Mu chapter of Kappa Kappa Gamma was named the overall winner for Dixie Day competition for the second consecutive year. In addition, the Kappa's placed first among all sororities in scholarship. The Kappa Calendar, featuring the men of Clemson, sold better than ever with all proceeds donated to Multiple Sclerosis. Other philanthropy projects included a Special Olympics and an Easter Egg Hunt for underprivileged children. Another outstanding event was the Scholarship Tea which exemplified Kappa's respect for the faculty of the University. Two unique parties included the annual Kappa Kidnap and the New Year's party in April.

Kappa Sig's . . .

Kappa Sigma's social calendar was as varied and colorful as its diverse membership. Fall semester parties centered around Rush, and home football games with Homecoming week being the most exciting. In addition to these special events, several mixers, cookouts, and informal gatherings with the fraternity's Little Sisters and campus sororities were enjoyed by the Brotherhood. The traditional formal Sweetheart Ball and the fraternity's resort house party provided memorable moments during the cold winter months of the second semester. The springtime brought warmth, and with it the excitement and competition of Greek Week and Greek Day Games. Throughout the year there were also several Kappa Sigma patented Buckwheat functions that produced unique social events.

"The Que Dogs"

Que Dog's . . .

The Omega Psi Phi Fraternity, Inc. was founded November 1, 1911 on four Cardinal Principles: manhood, scholarship, perseverance, and uplift. The Clemson chapter, Chi Zeta, was founded April 6, 1974 and was approaching its tenth anniversary.

The fraternity had been extremely active with such programs as a Big Brother program for elementary school students in the area, a voter-registration drive, Black Awareness Meetings, a Gospel Program, a Thanksgiving drive, and many other activities during Black History Month. The Omega Psi Phi Fraternity had clearly set its goal on Clemson's campus and had mapped the road to achieve success.

"Phi Alpha Sigma — A Fraternity Is Born."

Sig's . . .

Since January 1983 when Phi Alpha Sigma was first recognized by the Interfraternity Council, the fraternity worked hard to establish itself in the Greek system at Clemson.

Although small, the hard-working brothers used their efforts and talents to participate in Homecoming activities, intramural sports, and Greek Day. They also helped sponsor the WLOS Health Fair for the area elderly.

The Sigs' Valentine Formal, mountain retreats, Chicken Kicken' barbecue, and "Crazy Kamikaze" party showed that they could have a good time, too.

PHI ALPHA SIGMA 1. Kevin Blayton; 2. Ted LeJune; 3. Dean Adams; 4. Robert Taylor; 5. Greg Marsh; 6. Robert Russell; 7. Ken Gillespie; 8. Fain Lagrande; 9. Ken Chapman; 10. Travis Long; 11. Steve Harris; 12. Mark Harris.

Alex Gaillard; 12. Delicia Burch; 13. Tom Foote; 14. Martin Tobin; 15. Wright Sullivan; 16. David Adcock; 17. Kevin Butterfield; 18. Andrew Partidge.

Theta Chi's . . .

Theta Chi Fraternity was a variety of things. The social calendar included parties, dances, a beer ball, road trips, house-parties, and the annual "Welcome Back to Guyana" party. The social year ended with the brothers and alumni attending "The Red Carnation Ball," which took place during Greek Week. The ball culminated the social year in an appropriate manner, leaving the brothers in a mood that prepared them for the next year with Theta Chi.

Scholarship was an important aspect of fraternity life, and Theta Chi stressed its academics. Brothers had to have a 2.5 GPR or better in order to remain active. Theta Chi's National assisted brothers with scholarship grants.

The eight week pledge program was designed to make the pledge familiar with the Greek system, the chapter and national history, and each brother. The basics of the pledge season were getting to know how Theta Chi worked and more importantly, becoming an integral part of the fraternity and its members.

Phi Delta Theta, a national fraternity, based their brotherhood on the three founding principles of friendship, sound learning, and moral rectitude. Many of the brothers were active in student government and various honor societies. Every year in the fall, a Halloween party was given for the residents of Whitten Village; moreover, the brothers sponsored a "Spring Fever" 5K and 10K race, open to the public, for the American Cancer Society.

The theme chosen by the Phi Delta Thetas for their contest photo was the signing of the Declaration of Independence. This was the coming together of many great men to sign a treaty or bond to unite the country. The bond of Phi Delta Theta is very similar as the men who sign it are forever united in brotherhood.

Fiji's . . .

Phi Gamma Delta/Fiji — two good names for one great fraternity — prided themselves in having one of the strongest international fraternities. They were also one of only two fraternities who could call themselves international. Fiji had chapters all across the United States and Canada at the highest educational institutions. They also had the strongest and most active graduate following of all men's fraternities — allowing them to take great pride in saying "Phi Gamma Delta — not for college days alone."

The Chi Alpha chapter put great emphasis on a graduate relations program, sending out newsletters and keeping a graduate advisor program working for the good of the chapter. The Fiji's also promoted unity among members through a large variety of social and sports activities as well as many serious organizational projects.

Pi Phi's . . .

Some of Pi Beta Phi's activities included the Kidnap Social, a visit to the D.A.R. school for a Halloween party, and a service project with Alpha Phi Omega fraternity. A trip to a nursing home with their sister sorority, Kappa Kappa Gamma, was also taken.

Social activities included an Animal House Mixer with Phi Delta Theta fraternity, a Flashdance party at Y-Barn, and a band party. Pi Phi's also had a mixer with the APO's after the service project and firesides to promote chapter unity.

Pika's . . .

The beginning of classes in the fall meant only a continuation of hard summer work for the brothers of Pi Kappa Alpha. Throughout the summer, time was put toward the organization of the Pika-sponsored First Friday Parade. This year, being the 10th anniversary of the parade, brought forth a large collection of entries. The crowning feature was the appearance of Senator Strom Thurmond as Grand Marshall.

Pika talent was dispensed throughout the Homecoming activities with a first place win in the still display and a second place win in Tigerama. Once the fall semester and football season passed, such fund-raisers as the Superdance for Muscular Dystrophy occupied the brothers' time. A little friendly competition, fun, and exercise added to produce fraternity sports in which Pika excelled.

Proof of hard work could be found at the national level. It was here that the Clemson chapter of Pi Kappa Alpha proved itself once again by receiving another Smythe Award. This award, presented annually to the ten best chapters within the fraternity, was presented to the Pikas for the eighth time.

SAE's . . .

The Sigma Alpha Epsilon's were highly competitive in all intramural sports, especially softball, football and basketball.

The SAE's regularly built the float that the Homecoming Queen rode on during the half-time show of the Homecoming game.

The SAE's had a very active Little Sister program and raised money for Muscular Dystrophy in a Tub-a-thon with Chi Omega. They also participated in various charity projects on campus.

SIGMA ALPHA EPSILON 1. Kevin Rose, 2. Chip Carter, 3. Max Volk, 4. Dee Dennis (Sweetheart), 5. Dave Castleberry, 6. John Lowrance, 7. Scott Padgett, 8. Bubba Cromer, 9. Steve Sullivan, 10. Hi, guys!

At the SAE's jungle party Phil Evans and Kevin Dekold both provide scenery by their costumes and enjoy other scenery.

S Nu's . . .

Sigma Nu, as in the past, strove to be very active throughout the year participating and sponsoring many campus and social events. Sigma Nu placed high priority on its involvement during Homecoming with the building of a moving display and appearance in Tigerama.

The Sigma Nu's planned several fund-raisers for various charities including a Football Run to the USC game. This provided an excellent opportunity to donate a large sum of money to a needy charity. Also, the Sigma Nu's participated in Anchor Splash, another charity fund-raiser sponsored by Delta Gamma. In the spring Sigma Nu continued the annual Swing-a-thon for Muscular Dystrophy which they co-sponsored with the Kappa Delta sorority.

In addition to these fund-raisers, Sigma Nu participated in all intramural sports and maintained a full calendar of social events throughout the year.

Sigma Phi Epsilon began the year with Fall Rush and its associated activities. With the largest pledge class of the 1983 fall semester, Sigma Phi Epsilon maintained its size and continued to move toward its goal of being the best fraternity on campus.

Fall semester was highlighted with many social events including parties after each home football game and sorority mixers.

As usual, Homecoming week was very busy for the brothers of Sigma Phi Epsilon, and everyone helped construct a display saluting IPTAY's 50th anniversary.

With the help of their fine Little Sisters, Sigma Phi Epsilon again had a very busy community service calendar. This included assisting in the Annual Tennessee Halloween Party and hosting the First Annual Tamassee Christmas Kidnap.

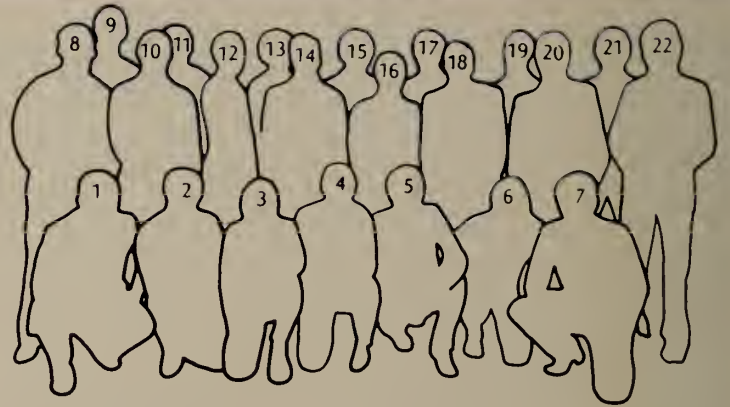

Once again Sigma Phi Epsilon fielded many fine athletic teams in both intramural and Interfraternity Council play.

This year Sigma Phi Epsilon hoped to extend its winning streak by capturing its third straight Greek Week championship.

Sigma Chi's . . .

The Sigma Chi Fraternity had been on campus for only six years, but became a force through their sponsorship of Derby Days. This extravaganza raised money for charity and involved the sororities in games, parties, and a dance. The Sigma Chi's also made special trips to Tamassee on Halloween and Easter. Every winter the brothers went on a ski trip while each summer after school let out, they headed for Myrtle Beach. The Sigma Chi Little Sigma program grew at a tremendous pace and proved to be a terrific asset to the fraternity.

IFC . . .

The Interfraternity Council, the governing body of the Social Fraternities at Clemson, worked hard to help the community, the University, and to strengthen the Greek system. This fall the IFC, along with the Panhellenic Council, decorated the library Christmas tree. In the spring the IFC held a best tan contest to raise money for leukemia.

ORGANIZATIONS

Fun, Fellowship, Service, And Experience

With more than 230 recognized student organizations on campus ranging in nature from professional and honorary societies to sports and hobby-related clubs, many varied interests were represented, and there seemed to be something for everyone.

All of the organizations in existence at the University are not represented in the yearbook because not all of them requested coverage. However, further information can be obtained from the Office of Student Life or Student Government.

The eight fine arts organizations encompassed singing, dancing, acting, playing musical instruments, and the arts. Several of these organizations such as the Clemson Players, the chorus, and Tiger Band gave performances that benefited the student body as a whole. The members of

these organizations put in many hours of practice and hard work so that all could enjoy the resulting entertainment.

Several clubs were devoted to hobbies, and the only criteria for membership was interest. The Microcomputer Club, the Photography Club, and the Radio Control Flyers Club all offered students the chance to pursue their hobbies.

Thirty-eight honorary societies existed on campus. Membership in these organizations was based on scholastic achievement with leadership and character also being considered. Some honoraries had certain requirements that had to be met while others were open by invitation only.

Almost every major field of study was represented among the honorary societies. Some represented special in-

terests and some cut across disciplinary lines basing membership on scholarship, leadership, and character.

Honorary societies encompassed majors as premedical, agricultural education and agriculture, accounting, business, civil engineering, German, electrical engineering, industrial education, ceramic engineering, history, botany, textiles, horticulture, French, mathematics, political science, psychology, recreation and park administration, physics, liberal arts and sciences, nursing, engineering technology, engineering, architecture, computer science, and forestry.

The Union housed three media orga-

"Hello! We are the Muppets, and we want you to come to our Bible Studies. They are on Tuesday nights and are sponsored by the Baptist Student Union." BSU encourages students to join their organization during Organizations Day.

Amy C. Holm

nizations. To become a member, all that a student had to do was be interested and willing to work.

TAPS, an award-winning yearbook tried to capture the year's memories.

The Tiger, the weekly student newspaper, also won awards. It included news, features, entertainment, sports, and editorial comments.

WSBF, the student radio station, held the location of 88.1 on the FM dial. The station featured progressive rock music — "tomorrow's best rock, today."

All three of these organizations, being operated entirely by students, gave those interested in writing and broadcasting a chance for first-hand experience and gave the student body three important services.

Military organizations, although usually associated with ROTC, did not always require that members also be members of ROTC. Of the eight military societies on campus, two required ROTC membership. Some military organizations were honorary while others required interest only.

Professional clubs and societies strove to promote education and the development of students with mutual career goals. The 77 professional organizations ranged from accounting to zoology.

Some of these societies offered scholarships, some offered tutoring and career guidance, some gave hands-on experience in a field, and some had speakers and films for mem-

Displaying frisbees in an unusual manner, Michael Levy tries to attract student interest for the Frisbee Club during Organizations Day held in early September.

Paul Simpson

bers to learn from. All of these clubs tried to help their members further their career goals, and eventually, to obtain a job.

Religion held a vital part of many student's lives on campus. The 21 religious organizations at the University offered students the chance to learn and grow while enjoying fellowship with friends.

Most of the religious organizations were open to all students. Several were interdenominational, such as Clemson Christian Fellowship and the Navigators. Others were affiliated with area churches.

Service organizations and special interest groups usually tried to promote friendship and provide one or several services to the University and surrounding community.

Alpha Pi Omega and Gamma Sigma Sigma were the service fraternity and sorority, respectively. They sponsored and participated in such projects as the blood bank, eye bank, campus shuttle, cancer Rock-a-thon, and the March of Dimes Walk-a-thon.

The University Emergency Medical Service provided ambulance service and trained emergency medical technicians for the University.

The Collegiate Civitans and the Hotline both provided services to students and citizens while the College Republicans promoted political knowledge on campus, and PAMOJA encouraged minorities and ethnic groups to appreciate their backgrounds and talents.

Several social organizations for dormitory residents promoted fellowship and provided social activities for their members. Beta Heta and B5 were two such organizations.

Those interested in sports could find an organization to interest them. There were approximately 30 sports and sports-related organizations. The sports represented included flying, bowling, football, skydiving, fencing, frisbee, golf, gymnastics, lacrosse, shooting, rugby, sailing, scuba diving, skiing (water and snow), and self defense, to name a few.

The sports-related organizations promoted spirit and student participation at games and included the cheerleaders, Bengal Babes, and Rally Cats.

Organizations that fell under Student Affairs ranged from The Adventurer's Guild to Student Government and the University Union. These organizations were generally concerned

with the needs and wishes of the whole student body.

The Graduate Student Association provided a voice for graduate students. Minority Council offered minority students fellowship and assistance. The Student Alumni Council involved students in the University Alumni Association. Student Government offered leadership opportunities, and gave the students a voice in the formulation of University policy. The University Union provided cultural, recreational, and social entertainment for students.

Organizations Day was held at the beginning of the fall semester and featured exhibits set up by each organization. This gave organizations a chance to display their purposes and activities to students, and it gave students a chance to find out about the different organizations on campus.

The many varied and different interests represented by these organizations offered students a once-in-a-lifetime chance to sample a wide range of experiences. Students who did not participate in at least one of these organizations were wasting a resource for fun, fellowship, service; moreover, an experience that existed right here on campus.

Betsy Russell

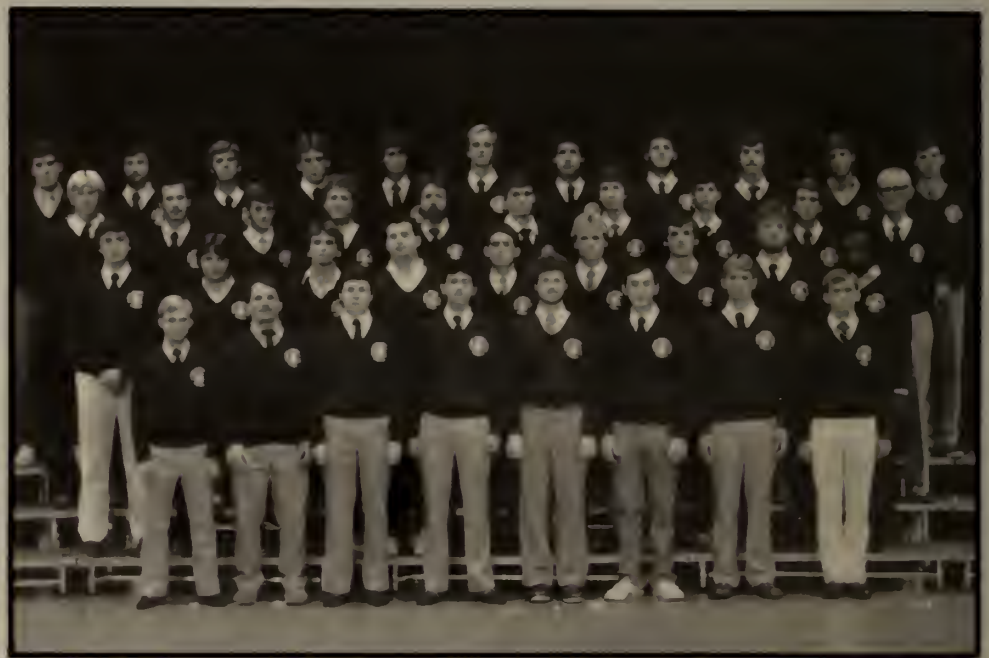

IT'S ALL SONG AND DANCE

Song, dance, concerts, theater, performances, tours . . . one might have thought he were in New York or Los Angeles. But actually, one was experiencing the performing aspect of the Clemson student in the Fine Arts. These organizations included outlets for dance, song, theater, and music and allowed the student to explore, improve, and demonstrate his or her own personal talent.

Among the musical groups available was the University Chorus. The Chorus was a formal concert ensemble, dedicated to the study and performance of a wide variety of choral music ranging from Pre-Renaissance music to contemporary words and emphasized developing a high degree of excellence both musically and from the standpoint of expressive communication with audiences.

The Chorus, under the direction of Dr. Willard Cottrell, performed at many functions. They sang during pre-game of all home football games and performed along with Tiger Band in a salute to America during halftime of the homecoming game against Virginia. They also performed a joint-concert with the North Carolina State Chorus, gave two formal concerts in Tillman Hall, and performed on tour in Atlanta.

Staff

The University Chorus performs one of their concerts in Tillman Hall.

FINE ARTS

Among the other choral groups were the Madrigals, the Men's Glee Club, and the Women's Glee Club. These groups performed at university functions such as banquets, dinners and also for visiting dignitaries and VIP's. Membership was on a voluntary basis and also served to expand the reading abilities of the performers. Concert literature included traditional glee club songs based on the "barber shop quartet" type harmony, but also included serious songs, drinking songs, and Broadway tunes.

A group that was more suited for formal, large scale entertainment was the 4:30 Thursday Singers. The Singers, which is more jazz and Broadway oriented, served not only as entertainment for audiences, but also a public relations group for Clemson. Some of their performances included the "We're Proud to Say Clemson" show and a festival in Baton Rouge, Louisiana. During homecoming, the 4:30 Thursday Singers had the opportunity to perform with world famous comedian-actor Bob Hope as he taped an appearance at Clemson for a television special.

For students interested in dance, the Clemson Dancers provided such an outlet, and membership was open to anyone who wanted to further his or her ability in this medium. The Dancers met once a month and coordinated classes that were available for all students' participation. Classes ranged from beginner to advanced, and clogging to aerobics.

The performing part of the Dancers was the Kinetic Theater. They performed at least once a semester in Daniel Auditorium. They also raised money for Helping Hands and performed at local schools and retirement centers.

The Clemson Players was an organization devoted to the production of live theater. They performed many one-acts, plays, and musicals. One of which, "American Buffalo", was the second play to be advanced to regional competition in the American College Theater Festival. A new facet, a patron

Patrick Freeman, Lori Blankenship and Fiona Davidson show their spirit during the home basketball games.

FINE ARTS

subscriber club, came into being to allow supporters of the Players to receive season tickets and enjoy opening night receptions with the cast, crew, and directors.

The Jazz Ensemble, under the direction of Richard E. Goodstein, was a group of student-musicians interested in learning more about the "Big Band" medium. To join the Ensemble, a student had to audition for his or her seat and once selected, had to participate in the Basketball Pep Band.

The Jazz Ensemble performed two formal concerts on campus and also played at T.L. Hanna High. The Ensemble also had the honor to perform at the annual meeting of the Greenville Chamber of Commerce at The Hyatt Regency. Jazz Ensemble was offered as a one hour course as Music 363.

The Basketball Pep Band was comprised of members of the Jazz Ensemble plus expanded instrumentation suited for the more upbeat, modern music. Directed by Richard E. Goodstein, the Pep Band performed at all men's home games and selected women's games. Bandsmen who were not

Ensemblemen also had to audition for seating. The Pep Band also played at the ACC Tournament held in Greensboro, North Carolina.

For students who had a more serious attitude toward music, there was Music 362 — Symphonic Band. Members of the Symphonic Band studied and performed concert literature from Pre-Medieval to modern times, with selections from Broadway, marches, and novelties. Instrumentation was selected to provide a well-balanced ensemble.

Under the direction of Dr. Bruce F. Cook, the Symphonic Band performed

FINE ARTS

two formal concerts in Tillman Hall, performed on tour in Florida for four days, and performed at Graduation ceremonies. The students also shared in many social activities such as parties and the Symphonic Band-Chorus softball game.

By far, the largest organization on campus was Tiger Band. The 275 members performed at Tiger Football games, pep rallies, First Friday parade, and Tigerama.

Led by drum majors Cathy Anderson

and Trace Ussery, the entire band attended all eleven games, a first for Tiger Band. Another first was the Clemson-Boston College game as the "first airborne division" of Tiger Band performed at halftime before a predominantly Bostonian crowd of 32,500 people. Some of Tiger Band's social activities included parties, dinners, and intramural teams.

The Tiger Twirlers participated in the Drum Majorettes of America competition and won their third National Championship in four years. The championship trophy was presented to Dr. Bruce F. Cook, director of Tiger

Band, by Majorette Captain B.J. Rhodes following a halftime performance at the Clemson-Virginia basketball game.

There were many organizations in the Fine Arts area suited to match one's own personal tastes and talents. From song and dance to theater and music, these students exerted an enormous amount of effort to achieve everything possible in their field of excellence.

Cream Of The Crop

The honoraries were a group of clubs that deserved special recognition. These organizations allowed students in a particular field of study the opportunity to associate and become more familiar with concerns and movements within their fields. Academic achievement and leadership qualities were usually the basics for most of the societies. The students were accepted for membership on their class standing and GPR for most of the clubs or by invitation.

The South Carolina Gamma Chapter of Alpha Epsilon Delta was formed at Clemson in 1971. This pre-medical honorary society was designed for students planning to go to medical school. To be considered for membership, a student must have been a second semester sophomore or higher, have had a 3.2 science GPR, and an overall GPR of 3.0 or better.

The members of Alpha Epsilon Delta held bi-monthly meetings at which they had speakers who talked about medical school requirements and what the administration boards looked for in a student. Among other projects, the group took part in seminars of MD's and DMD's. For their annual trip, they went to Charleston for a tour of the Medical University of South Carolina.

Alpha Lambda Delta, a freshman honorary, was established as a national organization in 1926. The Clemson Chapter is one of 195 chapters across the nation. Freshmen with a GPR of 3.5 were invited to be a member of Alpha Lambda Delta.

This honorary promoted achievement and honors for outstanding freshmen. They held a reception in the fall and a guest speaker for initiation at the Spring Banquet. The purpose of the club was to encourage superior scholastic achievement.

Alpha Phi Alpha was formed at Clemson in 1982. Alpha Phi Alpha spon-

sored a Martin Luther King, Jr. commemoration observance. They also sponsored a Gong Show with proceeds going to the Clemson Child Developmental Center. A national social fraternity that emphasized service projects

Honoraries

and stressed scholarship, Alpha Phi Alpha recognized those people on campus who made significant contributions to the University.

The Kappa Chapter of Alpha Tau Alpha was initiated at Clemson in 1932. This agricultural education honorary was open to all undergraduates as well as to graduate students. Invitations were issued at the beginning of spring semester.

Alpha Tau Alpha participated in the National FFA convention in Kansas City, Missouri. Each year, they recognized the outstanding senior and freshman in Agricultural Education. They sponsored a newsletter with the collegiate FFA chapter and a popular fund raiser was a chicken barbeque held before one of the football games.

Officially inducted in 1930 was Clemson's agricultural honor society, Alpha Zeta, a fraternity which recognized scholarship, leadership, honor, and service. To be considered for membership, one must have been in the top two-fifths of the College of Agriculture or Forestry. Service projects included free tutoring for students and a book exchange program. Alpha Zeta met with regional high school students interested in agriculture and forestry and helped direct them to future careers.

Beta Alpha Psi, a new organization formed in 1983, recognized accounting majors. To be eligible, a student must have been a declared accounting major and have had completed nine hours of accounting courses with three of the nine in intermediate accounting. To continue membership, a student must have maintained a 3.2 GPR in ac-

Brock, Greg Ford (Treasurer), Danny Rice, Paul Petersen (Advisor), Warren Greene.

Honoraries

counting and an overall GPR of 3.0.

Beta Alpha Psi visited CPA firms as well as performing service projects on campus and in the community. They sponsored a VITA program for students and members of the community which helps people with their tax returns for no charge.

Blue Key was founded at Clemson in 1932 with membership based on scholarship, leadership, and extracurricular activities. Their primary activity was Tigerama, Clemson's homecoming extravaganza.

The University chapter of Chi Epsilon, the nation civil engineering honor society, was installed in 1974 and since then every semester juniors and seniors in the top third of their class along

with recommended faculty and graduate students are initiated.

Chi Epsilon took pride in their projects that they worked on for the civil engineering department and students. Each semester a Chi Epsilon newsletter containing articles about students, faculty, and alumni was printed and distributed throughout the department and to alumni. In addition to the newsletter, they, along with the Society of Civil Engineers, organized a homecoming picnic for civil engineering alumni. With the aid of the department, Chi Epsilon raised money for a honor board which displayed a list of members and officers placed in Lowry Hall.

Delta Sigma Nu was organized for students interested in health professions including premedical, pre-dentistry, and prephysical therapy. They

held bimonthly meetings with doctors speaking on medically related topics. Along with Alpha Epsilon Delta, Delta Sigma Nu took part in the trip to the Medical University of South Carolina in Charleston.

Delta Sigma Pi, an international professional business fraternity, was founded in the spring of 1982. A student must have been enrolled in the College of Commerce and Industry and have had a GPR of at least 2.0 to be considered for membership.

Activities included speakers from commerce and industry and plant trips. A Bike-A-Thon was held to benefit the American Cancer Society and the Meals-On-Wheels program.

Iota Lambda Sigma was organized for those students in the field of Industrial Education. For membership, a student must have had a GPR of least 3.0

Honorarys

plaques such as those used at Awards Day and paddles used by fraternities and sororities were among the activities of Iota Lambda Sigma.

Keramos, established in 1915, recognized those students who excelled in the ceramic engineering curriculum. This organization promoted and emphasized scholastic ability and character, stimulated mental development, and promoted interest in the professional aspects of ceramic technology and engineering. Keramos sought to bind more closely the alumni to their alma mater and to the alumni of other universities having departments or divisions of ceramic engineering.

Keramos planned to make ceramic badges to wear and present at the 1984 national convention held in Pittsburgh and prepared a promotional program to present to some of the local high schools. Keramos member firmly believed in their motto, "Through Fire To Perfection."

Mu Beta Psi, the national music honorary, promoted music through service to the university and community. Eligibility for membership required that a student must be a member of the University Chorus, Gospel Choir, Symphonic Band, Jazz Ensemble, Pep Band, or the Tiger Band. The student must have been nominated by the director of the respective musical organization, and must have underwent

A serious look can make the work go faster.

Honoraries

pledge season.

Among the activities of Mu Beta Psi were "Musical Paws," a musical variety show, publicizing and ushering the concert series, and Spring Sounds at Tillman Hall.

Phi Eta Sigma, a freshman scholarship society, dedicated itself to promoting a rich variety of projects which brought its members together into an association for the welfare of the entire university. Each student was invited annually to participate in the spring banquet, the fall picnic, and the twice-a-year imported beer bash.

The Phi Eta Sigma Award was presented to the senior who exhibited exemplary character and superior GPR, and eight Founders Fund Scholarships of \$1,000 were distributed nationally for graduate work.

Any business major who maintained a 2.0 GPR was eligible for membership in Phi Gamma Nu, a business fraternity founded in 1924. The members of Phi Gamma Nu upheld the interest of their Alma Mater through the encouragement of high scholastics, participation in school activities, and the associ-

ation of students for their mutual advancement. They recently attended a National Association of Accountants meeting in Greenville and hosted a regional meeting in March.

The Clemson Chapter of Phi Psi, a textiles honorary, was established in 1927. To gain recognition into this organization, a student must have had at least a 3.0 and must have been voted in by its members. Speakers from the textiles industry frequently talked to the students about careers in textiles and provided important contacts for students.

Phi Psi competed in a national convention which was held each year. The competition involved a written report and a photographic display of the activities of the past year such as a barbeque held each fall to welcome their new members.

Pi Mu Epsilon, a national honorary for students majoring in mathematical sciences, was founded in 1973. Students with at least a 3.5 GPR were invited to join. The organization sponsored a math test given to freshmen each semester and awarded fifty dollars to the winner. Pi Mu Epsilon held a banquet each semester for the induction of new members.

To become a member of Phi Chi, the psychology honorary, a student must have accumulated a GPR of at least 3.0 in nine hours of psychology courses. The organization concerned itself with getting students to meet the faculty on a one-to-one basis. The professors helped the students by giving them valuable information on graduate school.

The members of Psi Chi went on a field trip in the spring to the Yerkes Primate Center in Atlanta to observe chimpanzees being taught to speak into computers. Among other projects, Psi Chi communicated by letter to all prisoners in surrounding correctional centers and sponsored a research paper award in which the winner received fifty dollars and a certificate.

Tau Alpha Pi, an engineering technology society, recognized the University's outstanding engineering students. To qualify for Tau Alpha Pi, a student must have been in the top four percent of the School of Engineering. Once voted in by the members, a formal initiation was held once a semester. A GPR of at least 3.0 was required

The November Oyster Roast, sponsored by the Sailing Club, was a huge success.

Honoraries

to maintain membership. Tau Alpha Pi performed service activities throughout the year and gave an award to the most outstanding faculty member when they felt it was necessary.

Tau Beta Pi, a national engineering honor society, honored those students who excelled in their engineering curriculum. To qualify as a senior, a student must have been in the top fifth of his class; as a junior he must have been in the top eighth. They provided services for members and for members of other engineering organizations.

The most important service of Tau Beta Pi was sponsoring the EIT review sessions. Students had to take the EIT, a comprehensive exam, to get their Professional Engineer title. Other pro-

jects included reformation of the Dean's List and volunteering for the student escort service.

Tiger Brotherhood, founded in 1928, was the oldest continuing organization at Clemson. The Tiger Brotherhood bound those Clemson men of high morals and character who were devoted to the University. Tiger Brotherhood was not just restricted to students but was made up of faculty and leaders in the community.

For many years they had presented the Mother-of-the-Year Award. They also participated in a casino party to raise money for the Ronald McDonald House.

Xi Sigma Pi, a forestry honorary society was by far the oldest honorary in the United States. Members maintained a high scholastic standard in resources management, worked for

improvement of their profession, and promoted a "fraternal spirit" among those resources.

These honorary societies deserved much recognition and appreciation. They encouraged the students to actively implement their scholastic and leadership abilities. They were, are, and would continue to be a great asset to the University and its students.

Heather Watson

HEADLINES, DEADLINES, NO LINES

On the eighth and ninth floors of the Edgar A. Brown University Union sat the campus media. WSBF, the student operated FM radio station, *The Tiger*, the student newspaper, and *TAPS*, the student yearbook, had provided the University with the essential task of informing the students, faculty, administration, and the outside world of what this University was really like.

WSBF, the only 24-hour student-run radio station in the state, was an album oriented rock station, as opposed to Top 40 or other types of rock station. Since its power increase from 10 watts to 1,000 watts in 1982, "Wizbiff," as it was called by members of the University, had become a dominant broadcasting tool for the University. By increasing its wattage, Wizbiff's listening volume also increased; moreover, the surrounding communities of Anderson and Easley had at last come within reach of the once small campus radio station.

Meanwhile, back to campus, Wizbiff trained its own staff and maintained its operations using primarily students; however, financially speaking, the radio station was totally supported by the University and broadcasted no paid announcements. WSBF was a pub-

lic radio station committed solely to the University and its students.

Above the radio station on the ninth floor, sat the two principle publications — *The Tiger* and *TAPS*.

The Tiger, on the surface, was able to print a paper consistently each week during the Fall and Spring semesters; however, internally, the staff was far from carefree and relaxed. Constant bickering and accusations of sabotage during *The Tiger's* paste-up sessions were common misfortunes suffered by the staff during 1983-84. Also, the internal strife was so intense that the resignation of Editor-in-Chief Jim Gilstrap, Managing Editor/Advertising Manager Robert Miller, and Photo Editor Roy Irwin, left a scar on the staff.

The slack was taken up in the spring by Kavin Taylor as Editor-in-Chief, Mary Owens as Photography Editor, and Richard Baldwin as Advertising Manager. Jan Jordan assumed the position of Managing Editor. The internal problems did subside but maintained to be a thorn to the operation of *The Tiger* throughout the year.

At the other end of the hall resided *TAPS*, the official University Yearbook. Requesting only 14% funding from the University and maintaining a

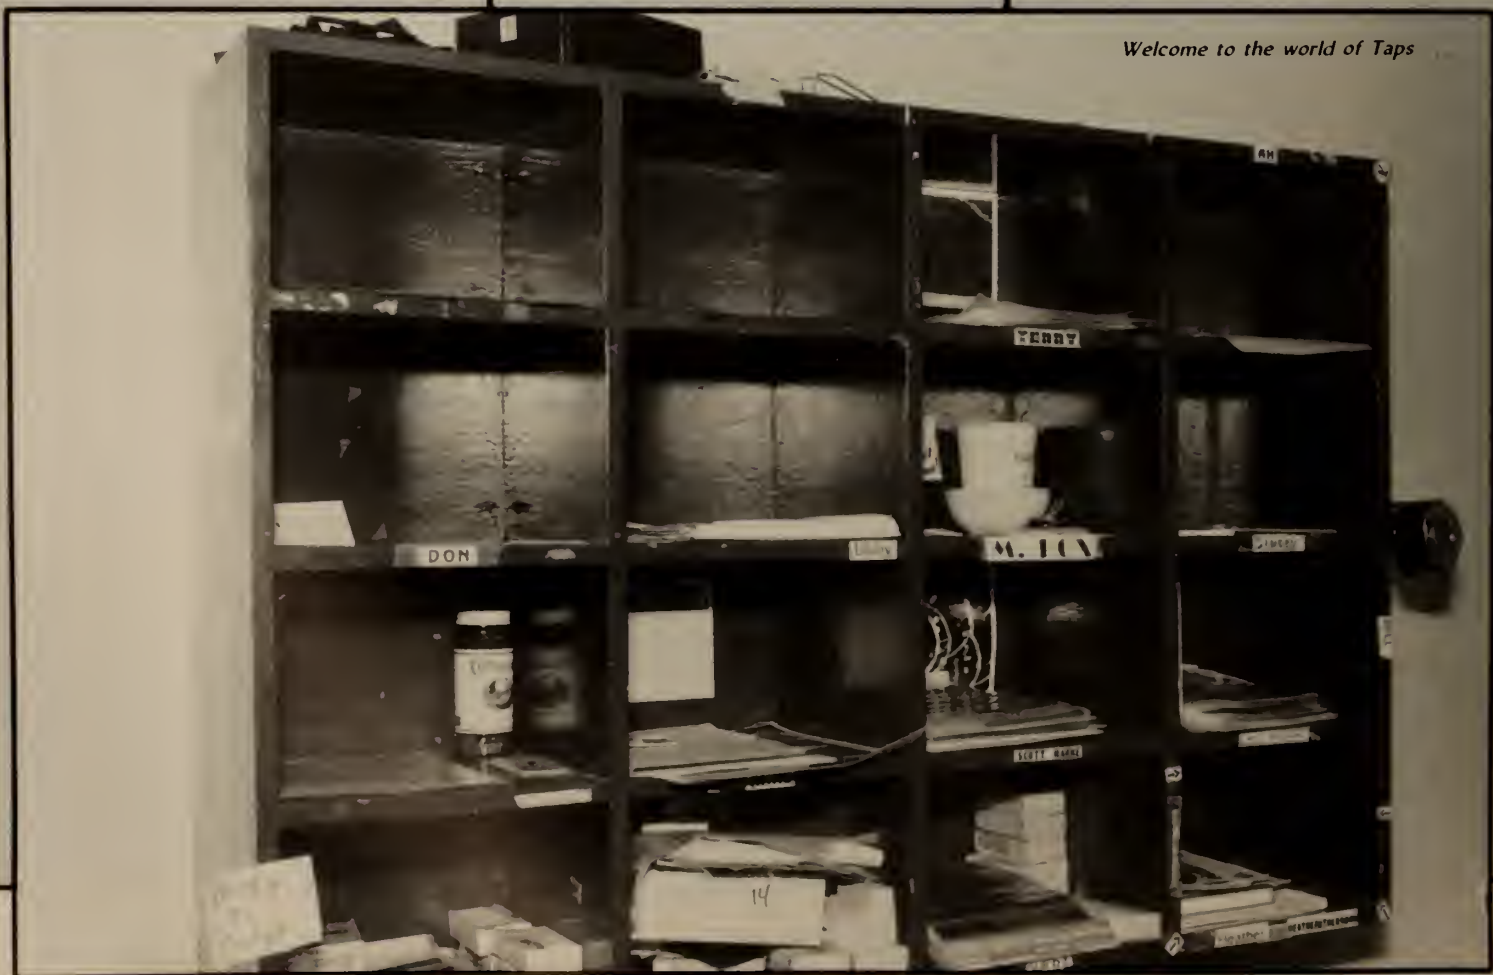

low profile throughout the year, *TAPS* maintained its production of a highly potent yearbook. One of the top yearbooks in the country, according to the Columbia Scholastic Press Association, *TAPS* indoctrinated many changes to its publication.

Endorsing separate layout styles for each of the five major sections and increasing the amount of color pictures in the book to double that of the 1983 book, *TAPS* gave the University a look that was good for public relations, but one that also pointed out some faults. Editor-in-Chief, Michael L. Pully, Designer, Libby Subers, and Head Photographer, Terry Windell, maintained the fluent and progressive style of the book while Business Manager, Scott Harke, increased sales of the book from 5,800 in 1983 to over 6,200 in 1984.

Overall, the three media added a unique flavor to life on campus. Life was not all peaches and cream on campus and through current and modern journalistic styles, all three media maintained an up-to-date style of reporting and coverage that soothed the hunger of the University for information.

Michael L. Pully

TRADITION LIVES ON

Always having been a big part of Clemson University, the Reserve Officer Training Corps had grown to its largest membership since mandatory participation was dropped in the sixties. The ROTC program offered the student a chance to gain an understanding of basic military functions and objectives. The ROTC cadet also

learned garrison and leadership skills.

One of the oldest and most recognized military fraternities was the National Society of Pershing Rifles. Established at Clemson in 1939, the society persisted in developing the leadership abilities of its members. This was accomplished by maintaining a company of men and women highly efficient in

military drill and showmanship. The Pershing Rifles were most famous for their Queen Victoria Salute they gave the ten Miss Homecoming finalists at Tigerama.

The Fourth Regimental Headquarters of the Pershing Rifles was the coordinating organization between the National Headquarters and the South-

AIR FORCE ROTC. FRONT ROW: Richard H. Sutherland (Major Commandant of Cadets), Michael I. McMahon, Andrew W. Applegate, Matthew Gibson, Charles Hucks, John Sims, Sandra Nobbs. TRADITION . . .

eastern District. The Regimental Headquarters sponsored two assemblies for the over twenty companies in the district.

The Scabbard and Blade organization represented the highest military fraternity at Clemson. Scabbard and Blade promoted a closer relationship between the students and the military departments. The highlight of the year was the annual Military Banquet and Ball. Membership into Scabbard and Blade was open only to selected Army and Air Force Cadets.

The Society of American Military Engineers, a national organization for engineers in the military and engineers in civilian practice was formed to increase the engineering potential of the United States. The society meet bimonthly for lectures and films on engineering projects across the nation.

The Clemson Rangers stressed physical readiness and tactics in weekly meetings. The group practiced the elements used by the Army Rangers. Several weekends a year the Rangers went on field training exercises, an exercise in the field using the knowledge they learned during the year.

A Major For Every Club

Stop for a moment and look around you. What do you see? Announcements — Announcements — Announcements! About what? Professional organizational meetings, picnics, car washes, field trips, and so on. For a moment you may think that professional organizations were the most important feature at the University; however, it's the opposite. Profession-

al organizations were designed to enhance a major to give the student a better understanding of what the business world is all about.

The Agricultural Council was composed of two representatives from each of the 13 technical, special interest, and student organizations, agricultural sciences, and forestry. The Council also served in an advisory capacity

for the Deans of Agricultural Sciences and Forestry in matters of concern to students. Some of the activities coordinated by the Agricultural Council included "Agricultural Recruitment Day," Parent's Day Displays, and "Agricultural Careers Day."

The Agriculture Economics Club was formed to promote and create fellowship among students in Agricultural

Professionals

Economics. Another function was to provide opportunities for extracurricular activities. During the year, the club went to Washington, D.C. and gained insight into the making of agricultural policy. The members also took a ski trip to Sky Valley. The club sponsored a chicken barbeque for the Maryland football game and held several social functions including the annual Awards Banquet in the spring.

The Agronomy Club served the needs of its members through activities promoting the individual's growth in the field of Agronomy. A chicken Barbeque and farm work helped support scholarships, educational trips, and the senior banquet.

Guest speakers highlighted all of the

meetings. The soil judging team placed third in regional competition and went on to the national contest in Southern California. Many club members went to the Agricultural Expo in Georgia and to the regional convention in Raleigh, N.C.

The Student Branch of the American Ceramic Society was established in 1949. The Society was open to Ceramic Engineering majors and other students by election. Activities included numerous plant trips, speakers, outings, fund raisers, and a trip to the annual ACS convention.

The American Dairy Science Association's goal was to promote an interest in the dairy industry. To do this the club sponsored a cow during organiza-

Two members of the American Chemical Society support a booth at Organization's Day.

tions day in which students were allowed to try their hand at milking. Those who took the challenge were given a free sample of ice cream. Other activities included an eggnog sale and competing in the Dairy Cattle Judging contest held in Louisville, Kentucky.

The American Institute of Architects main purpose was to broaden experience and hence the education of each student in the College of Architecture. Lectures, films and exhibits were among the many ways in which the student could benefit from this organization.

On the state, regional and national level, ASC-AIA afforded its members the opportunity to meet established professionals while serving as committed members at conventions and conferences. The Fall South Carolina AIA

Convention was held at Clemson honoring Dean Harlan McClure for his 25 years of service to the College of Architecture. Such noted speakers as Ricardo Legoretta, Architect from Mexico City, Lawrence Anderson, Dean Emeritus from M.I.T., and George Notter, vice-president of the National AIA in Washington, D.C., delivered enlightening addresses to the professionals and students. The highlight of the weekend was the annual Beaux Arts Black and White Costume Ball sponsored by ASC-AIA in conjunction with the Class of 1985.

The objective of the student chapter of the American Institute of Chemical Engineers was to help the Chemical Engineering student become acquainted with the profession and to take part in it early in his career. These objectives were achieved by a combination of professional programs and social activities. Speakers from industry and other academic disciplines were invited to speak at meetings to provide professional development and involvement for the Chemical Engineering student. One of the highlights of the year was attending the regional convention which was held in Mobile, Alabama. Other activities included the Fall "welcome back" picnic, building a float for the First Friday Parade, the

The ticket booth is now empty at the annual Beaux Arts Ball held in Lee Hall. This event is a festive outlet for architect students and professionals all over the world.

shrimp boil, the pig roast, and a skiing trip. In recognition of the University AIChE Student chapter's performance, they were again selected to receive the National AIChE Award of Excellence, which had been awarded to the chapter for nine consecutive years.

The American Marketing Association was designed to enhance a student's understanding of marketing, sales, and advertising. Several noted speakers were featured throughout the year.

The American Nuclear Society's purpose was to educate the public on the advantages of nuclear energy. This was accomplished through guest speakers, exhibits, films, and plant trips. Members also had the opportunity to attend the Eastern Regional Conference in the spring. Other activities included a semesterly social known as the "Meltdown." All meetings, including the "Meltdown," were open to all students.

The American Society of Agricultural Engineers (ASAE) student chapter was a branch of the professional society open to undergraduate and graduate students studying agricultural engineering. The club promoted the association of students and the professionals through engagement of professional speakers, attendance at national ASAE meetings, participation in educational field trips, and student-faculty cook-outs. After each business meeting members worked on their service

ed a trip to a Colombian restaurant in Greenville, a joint gourmet dinner with the French Club, and a picnic at Isa-queena Dam.

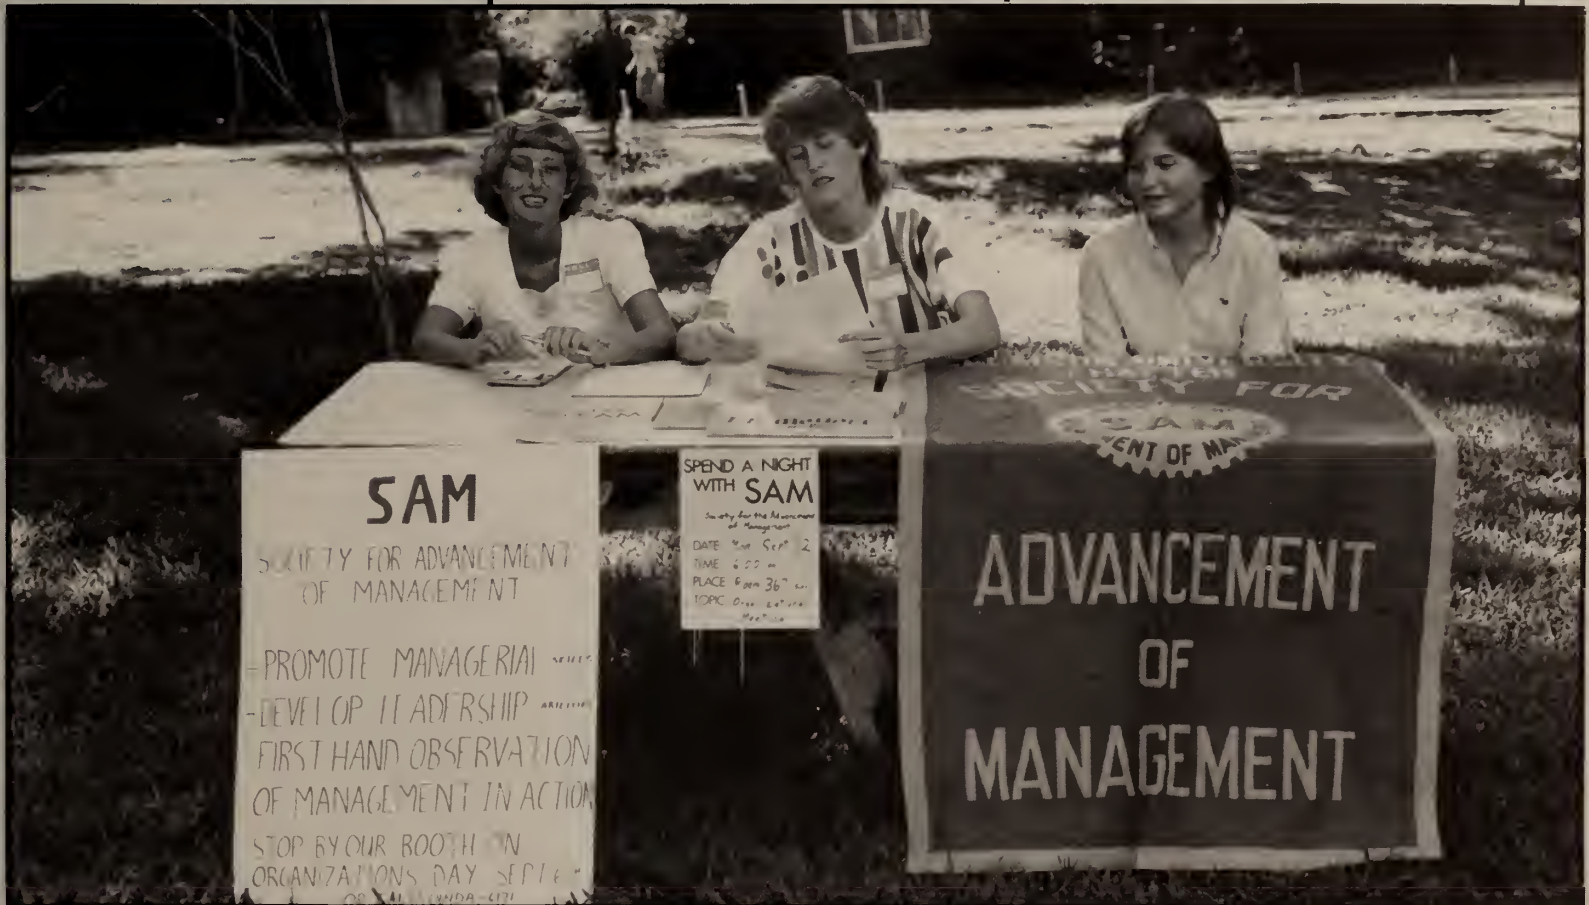

The popularity of these clubs was no

surprise considering that they gave students a chance to mix business with pleasure. Students had a chance to socialize and be around people with the same general career goals. Since a great many people donated their time to address the clubs, the students were able to hear about practical problems and get a feel for what their pro-

fessional life would be like. It was for these reasons that the professional clubs became a very important part of an education from the University.

Let Us Pray

Orange and tiger paws were not the only spirited things at Clemson; a variety of organizations dealing with the spiritual aspects of life were also present. Each of these groups brought students together for fellowship in many ways.

The Fellowship of Christian Athletes, and outreach program for Jesus Christ, served athletes and students. Emphasis was placed on obtaining a personal relationship with Christ through prayer, reading the Bible, and fellowship with other Christians. Their program included Bible studies, Thursday night fellowships, Monday night get-togethers, FCA Day, retreat to Awanita, and a Coach's breakfast. A new outreach program was aimed at reaching high school athletes and youth in the community.

An interdenominational organization, Campus Crusade for Christ, helped Christians strengthen their dai-

ly walk with God. The main emphasis was placed on evangelism and discipleship. Members were encouraged to become involved in local churches, and weekly "Time Out" meetings were held for students to come together in fellowship. Other activities included action groups and leadership training classes to help members learn how to share their faith with others.

The Baptist Student Union had the aim of bringing people together in fellowship for Jesus Christ. As the largest organization of its kind in the state, BSU had a majority of Baptist Christians plus a wide range of other denominations. Their agenda included a planned "famine" for World Hunger, a ski retreat, a retreat at Hickory Knob, the Charleston BSU Convention, and the job of maintaining various choir and drama groups.

The Harvesters wanted to get back to the fundamentals of Christianity set

down in the Bible. They preached the goodness of Christ and taught sharing with others. The Harvesters sponsored weekly Bible studies, worship services, and gospel meetings. They also attended annual seminars in Boston, Asheville, and Gainesville, Florida and others in the local area. The Harvesters also acquired a new building on Highway 76 for their church — the Foothills Church of Christ.

Although these religious groups followed Christian ideals, there were nonchristian groups as well representing various religions from Jewish to Muslim to Zen. But whatever the differences among these groups, they all had the same purpose . . . to bring about spiritual enlightenment and personal satisfaction to the student.

Rockin' All Night

Social organizations were plentiful at the University in the form of sororities and fraternities, but some people formed their own organizations instead of joining a national organization. Two such social groups were formed by people who lived on the same hall and wanted to be formally recognized while another was formed to enter teams in intramural competition. The social organizations included B-5, Beta Heta, and Tri Chi.

The members of the B-5 social group participated in many activities. In last year's First Friday Parade, B-5 won third-place in the Dorm division. They also sponsored contestants in the Miss Homecoming and Miss Clemson pageants. Their other social functions in-

cluded cookouts, theme parties, and the annual Valentine's formal. Those living on the hall were free to join the organization while others could be voted in by a two-thirds majority vote.

Formed in 1972, Beta Heta held the title of the oldest non-fraternal social organization. Made up of residents living in Johnstone B-8, their activities included winning the first-place trophy in the First Friday Parade and a second-place position in intramural softball. Each semester this organization held a big social event. The fall semester saw the advent of a pig roast while a formal was the extravaganza of the spring.

Tri Chi social organization had its start in 1976 in order to field teams in

the intramural sports program. Tri Chi also participated in the Student Government's marathon football game for charity as well as the intramural games during the fall. The group further widened their interests by helping with the escort service organized by the Student Government. The brotherhood was active in more than games and service, though. They also had many parties for their members.

These social organizations played an important role for those members who did not wish to join a fraternity but wanted to belong to a social organization.

ANYTHING AND EVERYTHING

Special interest groups included a wide variety which ranged from College Republicans to the service organizations of the Collegiate Civitans and Gamma Sigma Sigma. These groups were dedicated to their various causes with a spirit which characterized each group.

As another election year dawned, the College Republicans became much more active. The College Republicans tried to get more people involved in politics and help them understand political processes. In order to educate themselves the group held monthly meetings which featured speakers from various political occupations. Throughout the election year the Collegiate Republicans volunteered their

services to area politicians to help them with their campaigns.

Serving others was a major theme of the Collegiate Civitans. This coed group consisted of 50 members who strove to help local groups. Their projects included visiting the Tamasseel school once a month and hosting a Halloween party for underprivileged children. The group rounded out the year with projects aimed at helping a local boys home.

Dedication to helping others bound the members of Gamma Sigma Sigma together. The members of this service sorority had all accomplished a 10-week pledge season during which they learned about the sorority and also completed individual service projects.

During the fall the sorority, as a whole, co-sponsored a Rock-a-thon to raise money for cancer research. Their major project for the spring semester was a Walk-a-thon for the March of Dimes. Even though Gamma Sigma Sigma called themselves a service sorority, they also held several social activities throughout the year. Their major social event was their Formal, held in February at Camp Hope.

As a whole, these special interest groups added an extra dimension to student life at the University.

Stand Up And Cheer

Spirit! A word that had long been associated with Clemson. It did not just happen, though. A lot of hard, organized work went into the support of the athletic department. There were many organization which allowed many students a chance to participate in the support, recruiting process, or cheering. Each group put in many long hours, and they all did a fantastic job representing the school.

One of the more active groups was Central Spirit. The 37 members worked to promote spirit for all of the sports. Their major objective was to coordinate the activities of all the spirit groups so that everyone was working

together. Central Spirit sponsored the pep rallies, homecoming banner contest, and the baseball, hotdog, and apple pie day. Each member was kept busy painting tiger paws on faces at football games, making spring sports posters, and distributing posters for Jervey. Working with the cheerleaders, the band, and other spirit groups, they succeeded in coordinating all their efforts, building stronger unity.

The Block "C" Club, an athletic club, maintained the requirement that each member have earned a letter. The group recognized and supported the activities of every sport. Each year a

banquet was held to honor the members and to begin work on a service project such as support for the Special Olympics. The Block "C" Club also had a party after every home football game with the alumni lettermen, held a Block "C" day, worked at major track meets, did the program sales at basketball games, and helped to sponsor the spring game. The club, which was the originator of the tiger rags, put most of its emphasis on getting all of the athletes to support each other.

The most recognized spirit group was the Varsity Cheerleader Squad which kept busy with preparation for the pep rallies and the games.

Spirit

With the enlarged stadium the squad also faced the difficulty of getting 80,000 people involved. They accomplished this best using the old familiar cheers and new ones that they introduced. Preparation for the 1983-84 year began early, and at their summer camp last year the group was voted the squad that the others wanted to be like. They also participated in competitions sponsored by the National Cheerleaders Association and the Universal Cheerleaders Association.

The Rally Cats were a big part of every home basketball game. This talented group of girls took over at half-time and during time outs. Last year they also performed at the homecoming pageant, a football game, and a pep rally. Chosen in the spring the group began practice at a summer camp in Memphis where they won a trophy for being a superior squad. The emphasis was on change as the squad, which had been reduced in size, added more dance to their routines and acquired jazzier costumes.

A new spirit club was around at the Basketball games. The Bill Foster Sixth Man Club began its first year after being recognized by the Senate as an official club. They were the ones who occupied the block behind the player's bench. The members kept busy working with the athletic department any way they could — handing out material before games and making banners. They also painted tiger paws on faces before the basketball games and

More Spirit!

worked with the cheerleaders to help get everyone enthused. Interest for the new club began several years ago when some students made "Bill Foster's Sixth Man" tee-shirts for themselves.

Another new group was the Mat Cats. Coach Griffin, the new wrestling coach brought the concept with him when he left Oklahoma. The main goal of the group was to support the team by boosting the moral of the wrestling team and improving attendance at the matches. They publicized the matches, encouraged others to attend, made posters, and each of the twelve members would invite at least ten people. The girls tried to keep the spirit of the wrestlers up by decorating their locker room and doing something special for their own secret wrestler before each

match.

The recruiting hostesses for the Clemson Basketball Team, or the Tiger Belles, aided with the recruiting process and promoted spirit among team members. First, the girls were responsible for helping to maintain a positive attitude among the players. They decorated their locker room, made banners, called the team members for a pep talk before a game, and anything else they could to let the players know that someone was behind them. They also talked with prospective high school juniors and seniors in an attempt to encourage them to consider Clemson. The girls were kept busy through football and basketball season giving tours and talking to the boys. The girls had to be familiar enough with the program and Clemson to answer any questions that the prospect or his parents might have had.

Another professional group of re-

cruiters were the Bengal Babes. Like the Tiger Belles they helped with recruiting and morale, but for the football program. The girls divided themselves into committees that decorated Mauldin Hall, the Anderson Motel, and the Schilleter training table, greeted the prospects, helped with the study breaks, and visited injured players. The group believed in promoting the team instead of the individuals. These representatives of the University met and visited with the prospect and his parents, provided a tour for them and answered any questions about the football program or Clemson.

Through the active participation and dedication shown by these people and the sparks of spirit that they ignited in other students, the spirit organizations continued the well-known reputation of this school for spirit.

A Chorus Line? Once again the Rally Cats are dancing at half-time.

The Mat Cats are an integral force behind the spirit aroused for the wrestlers.

NO PAIN. NO GAIN

With a wide range of clubs, those interested in sports had many different organizations to consider. Each club allowed the student an opportunity to improve in their favorite sport by using the club's equipment, receiving instructions, and competing with other clubs. The University sports clubs provided an opportunity for people with similar interests to learn through first hand experience with one another.

The Club Football Team was a member of the North Carolina Club Football Association in which it competed with eight other teams for the Magus Cup. The club was open to any male student with or without football experience. In 1982 the Tigers earned their first trip ever to the NCCFA playoffs since joining the league eight years earlier. In 1983 the president, David Pelfrey, and vice-president, Jon Aardema, sched-

uled two of the most prestigious games in the history of the club team. On September 24, the Tigers visited the Greenville Bulls, a semi-pro team soon to join the IFL. A month later the Tigers were honored to be the homecoming guests at Gallaudet College, the National School for the Deaf in Washington D.C. At both games the Tigers were defeated but enjoyed the opportunity to play two such teams.

The Rugby Club had to contend with a very new team but improved rapidly and showed promise for a much better record for the next season. The club, a social organization, averaged ten games a semester. During the fall semester the team took part in the Peachtree Rugby Tournament and the Palmetto State Tournament, the South Carolina state classic. During the spring the team played in the Savannah Saint Patrick's Day Tournament.

At the Tournament the thirty competing teams were broken down into brackets, and for only the second time in six years the Clemson team didn't take one of the three top places.

The Tae Kwon Do Club, open to any student or faculty member at any level of skill, emphasized the improvement of self defense skills through their physical workouts. The club met twice a week and held a demonstration every semester. Frank Greer led the work-outs for the club which had been at Clemson for seventeen years. Black-belts in the martial arts came from Greenville to assist in belt promotions. The class suffered a tremendous loss with the death of Billy Holmes, the club's sixth-degree leader who had been aboard the Korean flight shot down by the U.S.S.R.

The Golf Club offered its members reduced greens fees at Keowee Keys

SPORTS

Country Club. The club also sponsored two long drive starts which were open to the public and one tournament for members only. Last year new events included tours through the Dunlop Manufacturing Plant in Westminster and a pizza party every semester. The Golf Club was headed by Jeff Updike and Billy Parker who served as president and vice-president, respectively.

The Sports Car Club was open to anyone who had any interest in any aspect of cars or racing. The club put on a couple of autocrosses for the student body and also held a couple of auto rallies each semester. The members attended area races and often served as corner workers or as flagging and communications workers. Each year the members traveled to see such races as Road Atlanta and those at the Charlotte Motor Speedway and Chimney Rock Hill Club. Each member was allowed to use the club's workshop which housed many tools. The club also owned a formula Vee Racer which was entered in various auto crosses and Road Atlanta.

The Aeronautical Association was

A member of the Golf Club perfects his swing on the Golf practice range behind Jervey Athletic center.

Bill Spitzer

A member of the Sailing Club, Chuck Thompson, rigs a Laser sailboat as a prop for Organization's Day.

open to anyone interested in flying. A weekend ground school was held to prepare a flying student for the written test necessary to obtain a license. The club tried to attract special air performers, and the members had the opportunity to go on field trips to the Atlanta Center and the Greenville-Spartanburg control tower. The club owned three planes including the plane that they built in 1929. The club worked to see the plane displayed in the library atrium. Another project involved members compiling a history book of the club by contacting old members and asking for pictures and information of the club in its earlier days.

The Sailing Club was open to anyone interested in learning or improving

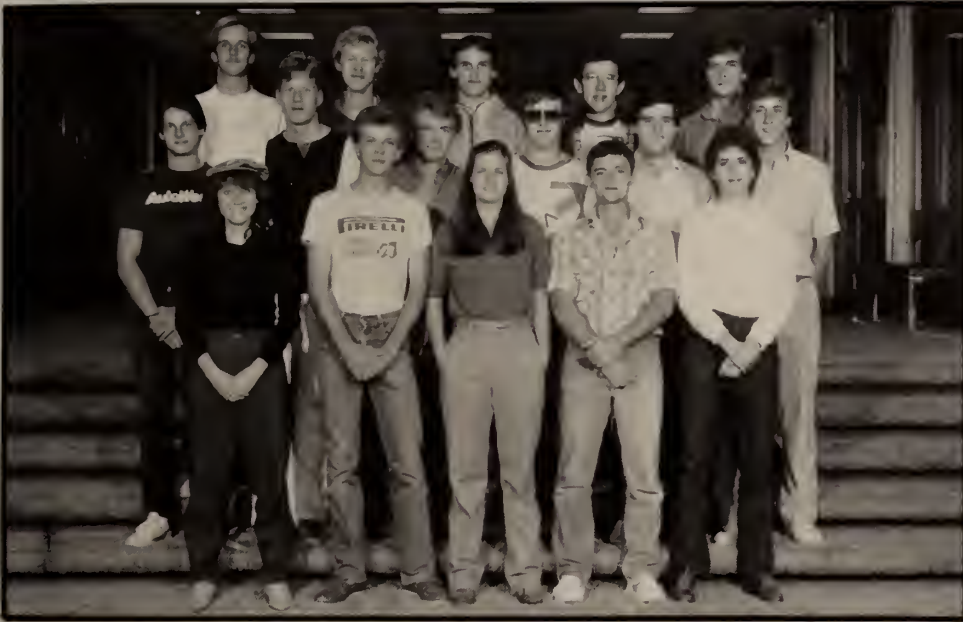

their sailing skills. New members were accepted year round with most people joining in the summer. The club held Sail Days where members raced against one another. And every year they held a pig roast and an oyster roast. The club owned nine sailboats, Coronado 15's, and worked for the purchase of a new fleet. Club members were free to use the boats, dock, or equipment shed whenever they desired.

Whether a student already had an interest and skill in a particular sport or were eager to learn about one, the University had a club to satisfy most student's sense of adventure.

Politics, Politics, Politics

Politics played an important role in the lives of students. The administration had a genuine concern for the welfare of students and its most direct link was Student Government.

The Student Alumni Council, an organization of approximately forty students, had one mission . . . "To create goodwill and understanding among the student body as to the role that alumni play in the life at Clemson." Also, they worked hard to convince the alumni that the students were working hard and deserved their attention and support.

The SAC had student representatives from each of the nineteen alumni districts across the United States. They did service projects throughout the year all designed to increase the awareness of student/alumni relations.

Bill Spitzer

Some of the biggest projects were Senior Challenge, Founder's Week, Orange Carpet Day, distribution of the "Good Stuff" boxes, and campus tours.

The Minority Council represented those students not in the racial majority in Student Government. They encouraged minority students to become involved in student organizations and extra-curricular activities. The Council also helped foreign students in filling their needs and solving their problems. Finally, the Minority Council promoted unity among the racial minority and majority to keep the Clemson family spirit alive.

The Executive Council provided a body in which certain committee chairpersons and representatives could work to coordinate and publicize student events and made suggestions to the President's Cabinet. The Council met at least once every two weeks. Members included the chairpersons from the Minority Council, Organizations, Speaker's Bureau, Elections, and Homecoming, the Executive Council Secretary, Ombudsman, and representatives from the Student Alumni Council, University Union, Interfraternity Council, Panhellenic Council, Graduate Students Association, Dorm Council and The Tiger.

The Legal Advisors gave advice to people who came before the courts on trial. The Chief Legal Advisor would assign a member of his staff to contact

The Business Fair, sponsored by the Student Government was a success for both parties involved.

the accused and offer assistance. An Investigator, designated by the Attorney General, and the Defense Legal Advisor, who would advise and defend the accused, could subpoena witnesses necessary for a hearing.

The President's Cabinet served as the central body which guided the flow of the executive branch of the Student Government. Members included the Attorney General, Secretary, Treasurer, and chairpersons from Research and Development, Communications, and Central Spirit.

The Research and Development Staff sought and provided information on problems facing students and recommended possible solutions to those problems. They also administered student opinion polls when needed by Student Government or the Student Life Office.

The legislative branch of Student Government was composed of the Student Senate. The Senate was a representative body of all the students enrolled at Clemson. Every dorm was represented according to its population. Off-campus students were represented by college. The Senate confronted issues that concerned the students, such as the plus-minus grading system and organizational funding. The issues were first considered in committees, then if they passed the committees, they were brought to the full Senate. After sometimes controversial debate, the vote would be taken and if passed, the bill would go on to the executive branch.

The Student Senate had the power

Student Affairs

to directly change student regulations and the power to make recommendations to the administration on all other issues. The Senate President, Oran Smith, was also a member of many other committees. These positions enabled him to represent the views of the Senate and the student body to the administration. Many other university committees also had student senators on them in order to better communications with the administration.

The Trial Courts heard the cases of students charged with violations of university regulations and made rulings on the student's guilt. The courts had the power to subpoena witnesses in order to have all the information necessary to make a fair judgment. If

the student was found guilty, the courts could recommend punishment ranging anywhere from a lecture to expulsion. Any ruling of the Trial Courts could be appealed to the Supreme Court. Each Trial Court was composed of four members elected by the student body and three members appointed by student body president, David Stalnaker, with the approval of the Student Senate.

The Supreme Court was composed of five members appointed by the student body president for two-year terms with approval from the Student Senate. The Supreme Court had original jurisdiction over controversies concerning the Constitution and the acts of Senate which did and did not involve the Constitution and could rule on the constitutional of such acts. A decision of any lower court could be

appealed to the Supreme Court.

The Traffic Review Board, which was composed of students appointed by the Attorney General, heard cases of students charged with traffic violations. The University Recorder had the jurisdiction to try any person charged with violations of the Traffic Code. However, if the person appealed, the case could be brought before the Review Board which had the authority to confirm or negate the charges.

From the rejection of the plus-minus grading system to the World Record release of 363,729 balloons, Student Government did its best to represent the students.

Burning Down The House

Twas the day of the ball game and all through the stands,
Every creature was stirring, especially the fans.
The goal post was placed on the game field with care,
In hopes that Maryland would never be there.
We fast won the game; on them we did stamp,
Unofficially, we became the A.C.C. Champ.
The players were dancing all smug with their win,
While visions of bowl games were only a whim.
I in my orange and some in their white,
Were whooping it up after winning the fight.
Then down on the field there arose such a clatter,
I sprang from my seat to see what was the matter.
The students decided they wanted to boast,
They trampled the band and attacked the goal post.
Tearing it down, they whisked it away,
It's never been found to this very day.
They'll gladly explain their strange act of bliss:
"If we can't have the trophy, we'll settle for this!"

Unsmokable, Unstopable

The beautiful University at the foot of the Blue Ridge Mountains was known for its sports, its academics, and its incredibly spirited student body. But a fact un-

known to many was that Clemson had the largest population of any college in the world. There was a whopping 200,000 residents on campus. Actually,

Underclassmen

Abbott, Amy Greenville, SC

Abernethy, David Clover, SC
 Able, Lynda Saluda, SC
 Aburn, David Kensington, MD
 Abushanab, Sufian Greenville, SC
 Acker, J. Scott Columbia, SC
 Ackerman, Justin Mullins, SC

though, only 12,500 could claim to be bonafide "full-time" students. As for the other 187,500, they were a special group of individuals that were the real heart of the University. They were not actually enrolled in the University since they paid

no tuition, but in every class on campus you could be sure to find a handful (literally) of these special students in attendance at all times. They were very devoted. Perhaps they were on scholarship? Who would know for sure? IP-

TAY had been known to do stranger things ...

Whatever the case, they were the most outgoing group on campus. They belonged to sororities, fraternities, clubs of all kinds, and even sports. Our little friends hung out at all the local bars on every night of the week as well.

With so many enthusiastic, loyal individuals, the least we could do would be to write them into our Alma Mater. How about:

Where the Blue Ridge
 yawns its greatness,
 where the tigers and
 roaches play ...

Lori Blankenship

Some permanent residents of Johnstone Hall took time out of their busy schedule to pose for this picture. Juan, Jeremy and Jerome love chili cheeseburgers (Photo by Terry Windell).

Mechanical Harassment

Many things are annoying, but few things are more annoying than having someone tell you what to do. In the fall of 1983 a new authoritative voice was added to the University. A deep, booming voice that not only told students what to do, but also told everyone within listening range what they were doing.

Upon depositing money into the machine, a voice would boom, "Hello, I am the talking Coke Machine," and then would continue with its dialogue. Many students went out of their way to avoid having to use this machine, some fearing that perhaps the voice might announce, "Oh, you're buying Tab, you must be fat!"

Heidi Andersen

Todd Hartshorn gags the talking Coke Machine as he makes his selection. After using soda machines for many years, do we need to be told what to do? (Photo by Terry Windell)

(opposite) Those students who had to rely on their bikes for transportation had to beware of those who had cars, but did not know how to drive (Photo by Patricia Summers). (right) The Tiger stops to sign autographs on the USS Yorktown in Charleston Harbor after the "We're Proud to Say Clemson" show (Photo by Scott Harke).

(opposite) Clemson fans don't just happen, they are raised that way. Avril Shuler shows her enthusiasm in being a Tiger (Photo by Bob Allen). (upper left) Even though everyone looks forward to fall break, returning is not such a happy occasion. The two day fall break was incorporated into the student calender in 1982 (Photo by Patricia Summers). (lower left) While some play frisbee for fun, others take this sport seriously and have it down to a fine art (Photo by Dave Shiple). (lower right) The line for yearbook pictures often became quite long towards the end of the week as students upheld their reputation for procrastinating (Photo by Terry Windell).

Footnotes . . .

Utilizing the basic aspects of student life, greeks, sports, academics, and organizations, and combining them with the substance of students, faculty and administrators, this publication has defined both a pictorial and

written history of the total aspect of life in this small college town in South Carolina.

Based on a cycle beginning in the Spring of 1983 and ending with the final flurries of 1984, events both

large and small have been documented and inserted in this small version of the larger prospect. True, it is impossible to include every portion of University's lifestyle into this work — we do not attempt to try.

However, this facet of history is one of many volumes covering a continuing evolution of actions on campus. This book, the temporary end of yet another layer on the structure, is our outline — TAPS 1984.

Suk B. Fields

A power failure on East Campus results in an enforced study break for those students working in the library.

Suk B. Fields

Bill Spitzer

Michael L. Puldy

Suk B. Fields

Marcia Bradford finds a practical use for lab equipment at the AICHe Shrimp Boil.

Senioritis spurs Nancy Joyner, Michele Nido and Lory Nobert to celebrate graduation 69 days early.

Scott Harke

Bill Spitzer

Deborah Savage, a Senior Chem E, demonstrates her new Ginsu knife at the AICHe Shrimp Boil.

Alton Boyd's service station in Andrews, South Carolina has served as a friendly stop for Clemson fans for many years.

Colophon

The 1984 TAPS was lithographed offset by Josten's/American Yearbook Company of Clarksville, Tennessee. Press run was 6,200 with a trim size of 9 by 12 inches on a 12 inch size. The paper stock is Warrens Cameo Enamel 80# paper dull with finish White #1. Body copy set in 10 point Lydian type style; captions set in 8 point Lydian Italic type style; headlines set in 36 point Garamond type style.

An original cover design was submitted by Duane Fisher in 1982 and modified by the TAPS staff for this year's use. The actual design was printed in a three stage process. Linen gray #57593 was lithographed with pantone color #222 to form the grid pattern. The cover was hotbossed and finally a silkscreen application was performed using black #326.

Class portraits were photographed by Yearbook Associates of Millers Falls, Massachusetts.

TAPS is a member of the Columbia Scholastic Press Association.

The TAPS Senior Staff is solely responsible for the editorial content of this book. No portion of this book may be reprinted without permission in writing from the Editor-in-Chief. This book is copyrighted by Michael L. Puldy and the 1984 TAPS Staff. All other specifications may be obtained at the TAPS office, Ninth Level, University Union, or by writing to P.O. Box 2216, University Station, Clemson, South Carolina 29634-2216. (Phone: (803) 656-2379).
